

Consent and Release from Liability Certificate (Page 1 of 5)

This completed form must be kept on file by the school. This form is valid for 365 calendar days from the date of the most recent signature. **This form is non-transferable; a change of schools during the validity period of this form will require this form to be re-submitted.**

School: _____ School District: Bay District Schools

Part 1. Student Acknowledgement and Release (to be signed by student at the bottom)

I have read the (condensed) Bay District Schools Eligibility Rules printed on page 4 of this "Consent and Release Certificate" and know of no reason why I am not eligible to represent my school in interscholastic athletic competition. If accepted as a representative, I agree to follow the rules of my school and Bay District Schools and to abide by their decisions. I know that athletic participation is a privilege. I know of the risks involved in athletic participation, understand that serious injury, including the potential for a concussion, and even death, is possible in such participation, and choose to accept such risks. I voluntarily accept any and all responsibility for my own safety and welfare while participating in athletics, with full understanding of the risks involved. I hereby authorize the use or disclosure of my individually identifiable health information should treatment for illness or injury become necessary. I understand that the authorizations and rights granted herein are voluntary and that I may revoke any or all of them at any time by submitting said revocation in writing to my school. By doing so, however, I understand that I will no longer be eligible for participation in interscholastic athletics.

Part 2. Parental/Guardian Consent, Acknowledgement and Release (to be completed and signed by a parent(s)/guardian(s) at the bottom; where divorced or separated, parent/guardian with legal custody must sign.)

A. I hereby give consent for my child/ward to participate in any BDS recognized or sanctioned sport **EXCEPT** for the following sport(s):

List sport(s) exceptions here

B. I understand that participation may necessitate an early dismissal from classes.

C. I know of, and acknowledge that my child/ward knows of, the risks involved in interscholastic athletic participation, understand that serious injury, and even death, is possible in such participation and choose to accept any and all responsibility for his/her safety and welfare while participating in athletics. With full understanding of the risks involved, I release and hold harmless my child's/ward's school, the schools against which it competes, Bay District Schools, and the contest officials of any and all responsibility and liability for any injury or claim resulting from such athletic participation and agree to take no legal action against the BDS because of any accident or mishap involving the athletic participation of my child/ward. As required by F.S. 1014.06(1), I specifically authorize healthcare services to be provided for my child/ward by a healthcare practitioner, as defined by F.S. 456.001, or someone under the direct supervision of a healthcare practitioner, should the need arise for such treatment, while my child/ward is under the supervision of the school. I further hereby authorize the use or disclosure of my child's/ward's individually identifiable health information should treatment for illness or injury become necessary. I consent to the disclosure to the Bay District Schools, upon its request, of all records relevant to my child/ward's athletic eligibility including, but not limited to, records relating to enrollment and attendance, academic standing, age, discipline, finances, residence and physical fitness. I grant the released parties the right to photograph and/or videotape my child/ward and further to use said child's/ward's name, face, likeness, voice and appearance in connection with exhibitions, publicity, advertising, promotional and commercial materials without reservation or limitation. The released parties, however, are under no obligation to exercise said rights herein.

D. I am aware of the potential danger of concussions and/or head and neck injuries in interscholastic athletics. I also have knowledge about the risk of continuing to participate once such an injury is sustained without proper medical clearance.

READ THIS FORM COMPLETELY AND CAREFULLY. YOU ARE AGREEING TO LET YOUR MINOR CHILD ENGAGE IN A POTENTIALLY DANGEROUS ACTIVITY. YOU ARE AGREEING THAT, EVEN IF MY CHILD'S/WARD'S SCHOOL, THE SCHOOLS AGAINST WHICH IT COMPETES, BAYDISTRICT SCHOOLS, ANDTHE CONTEST OFFICIALS USES REASONABLE CARE IN PROVIDING THIS ACTIVITY, THERE IS A CHANCE YOUR CHILD MAY BE SERIOUSLY INJURED OR KILLED BY PARTICIPATING IN THIS ACTIVITY BECAUSE THERE ARE CERTAIN DANGERS INHERENT IN THE ACTIVITY WHICH CANNOT BE AVOIDED OR ELIMINATED. BY SIGNING THIS FORM YOU ARE GIVING UP YOUR CHILD'S RIGHT AND YOUR RIGHT TO RECOVER FROM MY CHILD'S/WARD'S SCHOOL, THE SCHOOLS AGAINST WHICH IT COMPETES, BAY DISTRICT SCHOOLS, AND THE CONTEST OFFICIALS IN A LAWSUIT FOR ANY PERSONAL INJURY, INCLUDING DEATH, TO YOUR CHILD OR ANY PROPERTY DAMAGE THAT RESULTS FROM THE RISKS THAT ARE A NATURAL PART OF THE ACTIVITY. YOU HAVE THE RIGHT TO REFUSE TO SIGN THIS FORM, AND MY CHILD'S/WARD'S SCHOOL, THE SCHOOLS AGAINST WHICH IT COMPETES, BAY DISTRICT SCHOOLS, AND THE CONTEST OFFICIALS HAS THE RIGHT TO REFUSE TO LET YOUR CHILD PARTICIPATE IF YOU DO NOT SIGN THIS FORM.

E. I agree that in the event we/I pursue litigation seeking injunctive relief or other legal action impacting my child (individually) or my child's team participation in Bay District Schools contests, such action shall be filed in the Bay County, Florida, Circuit Court.

F. I understand that the authorizations and rights granted herein are voluntary and that I may revoke any or all of them at any time by submitting said revocation in writing to my school. By doing so, however, I understand that my child/ward will no longer be eligible for participation in interscholastic athletics.

G. Please check the appropriate box(es):

My child/ward is covered under our family health insurance plan, which has limits of not less than \$25,000.

Consent and Release from Liability Certificate for Concussions (Page 2 of 5)

This completed form must be kept on file by the school. This form is valid for 365 calendar days from the date of the most recent signature.

School: _____ **School District:** Bay District Schools

Concussion Information

Concussion is a brain injury. Concussions, as well as all other head injuries, are serious. They can be caused by a bump, a twist of the head, sudden deceleration or acceleration, a blow or jolt to the head, or by a blow to another part of the body with force transmitted to the head. You can't see a concussion, and more than 90% of all concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. All concussions are potentially serious and, if not managed properly, may result in complications including brain damage and, in rare cases, even death. Even a "ding" or a bump on the head can be serious. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, your child should be immediately removed from play, evaluated by a medical professional and cleared by a medical doctor.

Signs and Symptoms of a Concussion:

Concussion symptoms may appear immediately after the injury or can take several days to appear. Studies have shown that it takes on average 10-14 days or longer for symptoms to resolve and, in rare cases or if the athlete has sustained multiple concussions, the symptoms can be prolonged. Signs and symptoms of concussion can include: (not all-inclusive)

- Vacant stare or seeing stars
- Lack of awareness of surroundings
- Emotions out of proportion to circumstances (inappropriate crying or anger)
- Headache or persistent headache, nausea, vomiting
- Altered vision
- Sensitivity to light or noise
- Delayed verbal and motor responses
- Disorientation, slurred or incoherent speech
- Dizziness, including light-headedness, vertigo (spinning) or loss of equilibrium (being off balance or swimming sensation)
- Decreased coordination, reaction time
- Confusion and inability to focus attention
- Memory loss
- Sudden change in academic performance or drop in grades
- Irritability, depression, anxiety, sleep disturbances, easy fatigability
- In rare cases, loss of consciousness

DANGERS if your child continues to play with a concussion or returns too soon:

Athletes with signs and symptoms of concussion should be removed from activity (play or practice) immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to sustaining another concussion. Athletes who sustain a second concussion before the symptoms of the first concussion have resolved and the brain has had a chance to heal are at risk for prolonged concussion symptoms, permanent disability and even death (called "Second Impact Syndrome" where the brain swells uncontrollably). There is also evidence that multiple concussions can lead to long-term symptoms, including early dementia.

Steps to take if you suspect your child has suffered a concussion:

Any athlete suspected of suffering a concussion should be removed from the activity immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without written medical clearance from an appropriate health-care professional (AHCP). In Florida, an appropriate health-care professional (AHCP) is defined as either a licensed physician (MD, as per Chapter 458, Florida Statutes), or a licensed osteopathic physician (DO, as per Chapter 459, Florida Statutes). Close observation of the athlete should continue for several hours. You should also seek medical care and inform your child's coach if you think that your child may have a concussion. Remember, it's better to miss one game than to have your life changed forever. When in doubt, sit them out.

Return to play or practice:

Following physician evaluation, the *return to activity process* requires the athlete to be completely symptom free, after which time they would complete a step-wise protocol under the supervision of a licensed athletic trainer, coach or medical professional and then, receive written medical clearance of an AHCP.

For current and up-to-date information on concussions, visit <http://www.cdc.gov/concussioninyouthsports/> or <http://www.seeingstarsfoundation.org>

Statement of Student Athlete Responsibility

Parents and students should be aware of preliminary evidence that suggests repeat concussions, and even hits that do not cause a symptomatic concussion, may lead to abnormal brain changes which can only be seen on autopsy (known as Chronic Traumatic Encephalopathy (CTE)). There have been case reports suggesting the development of Parkinson's-like symptoms, Amyotrophic Lateral Sclerosis (ALS), severe traumatic brain injury, depression, and long-term memory issues that may be related to concussion history. Further research on this topic is needed before any conclusions can be drawn.

I acknowledge the annual requirement for my child/ward to view "Concussion in Sports" at www.nfhslearn.com. I accept responsibility for reporting all injuries and illnesses to my parents, team doctor, athletic trainer, or coaches associated with my sport including any signs and symptoms of CONCUSSION. I have read and understand the above information on concussion. I will inform the supervising coach, athletic trainer or team physician immediately if I experience any of these symptoms or witness a teammate with these symptoms. Furthermore, I have been advised of the dangers of participation for myself and that of my child/ward.

Consent and Release from Liability Certificate for Sudden Cardiac Arrest (Page 3 of 5)

This completed form must be kept on file by the school. This form is valid for 365 calendar days from the date of the most recent signature.

School: School District: Bay District Schools

Sudden Cardiac Arrest Information

Sudden cardiac arrest (SCA) is a leading cause of sports-related death. Sudden cardiac arrest (SAC) occurs when the heart suddenly and unexpectedly stops beating.

How common is sudden cardiac arrest in the United States?

There are about 350,000 cardiac arrests that occur outside of hospitals each year. More than 10,000 individuals under the age of 25 die of SCA each year.

Are there warning signs?

Although SCA happens unexpectedly, some people may have signs or symptoms, such as but not limited to dizziness or light-headedness, fainting, shortness of breath, racing or skipped beats/palpitations, fatigue, weakness, chest pain/pressure or tightness.

What are the risks or practicing or playing after experiencing these symptoms?

There are significant risks associated with continuing to practice or play after experiencing these symptoms. The symptoms might mean something is wrong and the athlete should be checked before returning to play.

FHSAA Sports Medicine Advisory Committee strongly recommends a medical evaluation with your healthcare provider for risk factors of sudden cardiac arrest, which may include an electrocardiogram.

The FHSAA Sports Medicine Advisory Committee works to help keep student-athletes safe while practicing or playing by providing education about SCA and by notification to parents that you can request, at your expense, an electrocardiogram (EKG or ECG) as part of the annual preparticipation physical examination to possibly uncover hidden heart issues that can lead to SCA.

Why do heart conditions that put youth at risk go undetected?

- Publications report up to 90% of underlying heart issues are missed when using only the history and physical exam;
Most heart conditions that can lead to SCA are not detectable by listening to the heart with a stethoscope during a routine physical; and
Often, youth do not report or recognize symptoms of a potential heart condition.

What is an electrocardiogram (ECG or EKG)?

An ECG/EKG is a quick, painless, and noninvasive test that measures and records a moment in time of the heart's electrical activity. Small electrode patches are attached to the skin of your chest, arms, and legs by a technician.

Why request an ECG/EKG as part of the annual preparticipation physical examination?

Adding an ECG/EKG to the history and annual preparticipation physical exam can suggest further testing or help identify heart conditions that can lead to SCA. An ECG/ EKG can be ordered by your family healthcare provider from screening for cardiovascular disease or for a variety of symptoms such as chest pain, palpitations, dizziness, fainting, or family history of heart disease.

- ECG/EKG screenings should be considered every 1-2 years because young hearts grow and change.
ECG/EKG screenings may increase sensitivity for detection of undiagnosed cardiac disease but may not prevent SCA.
ECG/EKG screenings with abnormal findings should be evaluated by trained physicians.
If the ECG/EKG screening has abnormal findings, additional testing may need to be done (with associated cost and risk) before a diagnosis can be made and may prevent the student from participating in sports for short period of time until the testing is completed, and more specific recommendations can be made.
The ECG/EKG can have false positive findings, suggesting an abnormality that does not really exist (false positive findings occur less when ECG/EKGs are read by a medical practitioner proficient in ECG/EKG interpretation of children, adolescents, and young athletes).
ECG/EKGs result in fewer false positives than simply using the current history and physical exam.

The American College of Cardiology/American Heart Association guidelines do not recommend an ECG or EKG in asymptomatic patients but do support local programs in which ECG or EKG can be applied with high-quality resources.

Removal from play/return to play

Any student-athlete who has signs or symptoms of SCA should be removed from play (which includes all athletic activity). The symptoms can happen before, during, or after activity. Before returning to play, the athlete shall be evaluated and cleared. Clearance to return to play must be in writing.

By signing this agreement, I acknowledge the annual requirement for my child/ward to view the "Sudden Cardiac Arrest" course at www.nghslearn.com. I acknowledge that the information on Sudden Cardiac Arrest has been read and understood. I have been advised of the dangers of participation for myself and that of my child/ward.

Signature lines for Student-Athlete, Parent/Guardian, and Date.

Consent and Release from Liability Certificate for Heat-Related Illness

This completed form must be kept on file by the school. This form is valid for 365 calendar days from the date of the most recent signature.

School: _____ School District: Bay District Schools

Heat-Related Illness Information

Heat-related illness is a cause for concern for student-athletes who participate in high school sports in Florida. Especially vulnerable are those students who participate in conditioning and practices in the summer months and other times of extreme heat.

What are some common heat-related injuries in sports?

Exertional Heat Stroke (EHS): EHS is the most serious heat-related illness. EHS is a medical emergency. It happens when the body's temperature rises quickly, and the body cannot cool down.

- EHS is preventable by taking the proper precautions and understanding the symptoms of someone who has become ill due to heat.
• EHS is survivable when quick action is taken by staff members that includes early recognition of symptoms and aggressive cold-water immersion.

Heat Exhaustion (EHD): Heat exhaustion is the most common heat-related condition observed in active populations including student-athletes. EHI is a type of heat-related illness. EHI is defined as the inability to continue exercise in the heat because the heart has difficulty providing enough oxygenated blood to all the working organs and muscles.

Heat Cramps: Heat cramps are painful, involuntary cramping often in the legs, arms, or abdomen with muscle contraction. Cramping usually occurs in the preseason conditioning phase when the body is not properly conditioned and more subject to fatigue.

Is my student at risk?

Yes, all student-athletes are vulnerable to exertional heat stroke and other heat-related injuries. While every student-athlete can succumb to EHS, newer data is reporting a high incidence of exertional heat stroke cases in football players, especially those who play the lineman position and in very lean distance runners.

How can I help to keep my student safe when it comes to the heat?

- Learn more about heat-related injuries in sports at https://www.nfhs.org/media/1015695/ksi-5-pillars-of-exertional-heat-stroke-prevention-2015.pdf
• Discuss nutrition, proper hydration, body weight, and the importance of sleep and rest with your family healthcare provider at the time of the sports physical
• Talk to your school and coach about safeguards they have in place to keep kids safe in the heat and what they will do for someone who becomes ill or injured
• Monitor fluid intake of your student while at home and routinely check in with your student-athlete to inquire about how they feel
• Report any concerns with your school's athletic trainer, team physician, coach, or your family healthcare provider

By signing this agreement, I acknowledge the annual requirement for my child/ward to view the "Heat Illness Prevention" course at www.nghslearn.com. I acknowledge that the information on Heat-Related Illness has been read and understood. I have been advised of the dangers of participation for myself and that of my child/ward.

Consent and Release from Liability Certificate

(Page 5 of 5)

This completed form must be kept on file by the school. This form is valid for 365 calendar days from the date of the most recent signature.

School: _____

School District: Bay District Schools

Attention Student and Parent(s)/Guardian(s)

To be eligible to represent your school in interscholastic athletics (i.e. football, volleyball, basketball, soccer, cheerleading, and Track & Field) the student:

1. Must be regularly enrolled and in regular attendance at your school. **If the student is a home education student or attends a charter school or Florida Virtual School - Full time Program or a special/alternative school or certain small non-member private schools, the student must declare in writing his/her intention to participate in athletics to the school at which the student is permitted to participate.** Home education students and students attending small non-member private schools must be approved through the use of a separate form **prior to any participation.** Non-traditional students must obtain written permission from Bay District Schools Student Services Dept. to obtain placement at a school other than their zoned school **prior to any participation.**
2. Must meet district establish academic requirements. To establish eligibility for the first 9 weeks of each school year a student must have been regularly promoted from the previous year with either a minimum 2.0 grade point average from the previous year end course grades or a minimum 2.0 grade point average for the 4th 9 weeks of the previous year. A first time sixth grader is automatically eligible academically for the first nine weeks. To maintain eligibility through the school year a student must have a 2.0 grade point average from the previous nine weeks with no more than one F.
3. Must not have been promoted beyond the eighth grade. Student may participate at each grade level for only one year.
4. Must not transfer schools after participating in a sport, otherwise the student cannot participate at the new school for the remainder of that sport season. Exceptions may apply. See your school's principal/athletic director after first attending the new school.
5. Must have signed permission to participate from the student's parent(s)/legal guardian(s) on form (MSEL3) provided to the school.
6. AGE: Students must not turn 15 before July 1st, otherwise the student becomes ineligible.
7. Must undergo a pre-participation physical evaluation and be certified as being physically fit for participation in interscholastic athletics (form EL2). The physical evaluation is valid for 365 calendar days from the date that it was administered.
8. **Must notify coach of any previous injury or health condition which would affect participation in chosen sport. Must notify coach of any injury or change in medical condition during the season. Coach must be notified immediately when an injury takes place during participation. If an injury occurs outside of their school sport participation the coach must be notified before the next scheduled school practice or competition.**
9. Must be an amateur. This means the student must not accept money, gift or donation for participating in a sport, or use a name other than his/her own when participating.
10. Must display good sportsmanship and follow the rules of competition **before, during and after** every contest in which the student participates. If not, the student may be suspended from participation for a period of time.
11. Must not provide false information to his/her school to gain eligibility.
12. Must refrain from hazing/bullying while a member of an athletic team or while participating in any athletic activities sponsored by or affiliated with a district school.
13. Must abide by all extracurricular activities policies contained in Bay District School Board Policy and/or within the Bay District School Middle School Extracurricular Activities Handbook.
14. **This form is non-transferable;** a separate form must be completed for each different school at which a student participates.

If the student is declared or ruled ineligible due to one or more of the Bay District Schools' rules and regulations, the student has the right to request an appeal to the school principal. The principal will determine if it is appealable by district policy and give information regarding this process.

By signing this agreement, the undersigned acknowledges that the information on the Consent and Release from Liability Certificate in regards to Bay District Schools' established rules and eligibility have been read and understood.
