HEALTH RISK ASSESSMENT (HRA)

HRAs and biometric screenings help identify risk factors for chronic conditions such as heart disease, diabetes, and hypertension before they become serious.

Team members enrolled in the health plan are eligible for the Health Risk Assessment (HRA) and biometric screenings. [Click here to schedule.](#) **Fasting is not required.**

Not enrolled in the health plan? You're still invited! There will be plenty of resources available beyond the HRA and screenings.
