Checklist of Up-to-Date Pages

(This checklist will be updated with the printing of each Policy Manual Update)

The following listing is included in this Policy Manual as a ready guide for the user to determine whether the Policy Manual properly reflects the latest printing of each page.

The first Column lists the Policy Update number and date of the Board Meeting that prompted the Policy Update. In Column 2 are listed the page numbers you should remove from the Policy Manual and replace with the new page numbers listed in Column 3. Replace the old Checklist page with this Checklist page.

In addition to assisting existing holders of the Policy Manual, this list may be used in compiling an up-to-date copy from the original Policy Manual and subsequent Policy Updates.

CHAPTER ONE THE DISTRICT SCHOOL BOARD

ADOPTION, AMENDMENT AND REPEAL OF BOARD RULES

1.103

Regular Actions Initiated by School Board or Staff. If the Superintendent or a member of the School Board wishes to propose the adoption of a new rule or the amendment or repeal of an existing rule, he/she shall have the proposed action placed on the agenda for a regular or special meeting in the manner prescribed above.

At the meeting the Board shall consider the proposal and either reject or tentatively approve the proposal, with or without modification. Following tentative approval the Board shall direct the Superintendent to give public notice of the Board's proposed action.

Public notice of intent to adopt, amend or repeal a rule shall be made at least 21 days prior to intended action:

- a. By publication in a newspaper of general circulation in the County;
- b. By mail to all persons who have made requests of the Board for advance notice of its proceedings;
- c. By posting a copy of the notice in each school or work area where it will be clearly visible to employees and students; and
- d. By mail to organizations representing groups of Board employees.

If such public notice does not contain a copy of the complete text of the proposed rule or change, the notice shall identify the location where a copy of the text may be examined or obtained.

The public notice shall also contain the name of the person originating the rule and the name of the person approving the proposed rule for initial consideration by the Board.

After the publication of public notice initiating rulemaking, the Superintendent shall make available for public inspection, and shall provide upon request, copies of the following materials:

- a. The text of the proposed rule, or any amendment, or repeal of any existing rule;
- b. A detailed written statement justifying the proposed rule;
- c. A copy of the economic impact statement required by Section 120.54, Fla. Stat.;
- d. The published notice.

Public Hearing. If the proposed rule or rule change does not relate exclusively to organization, practice or procedure, the School Board shall provide, upon request, a public hearing for presentation of evidence, argument and oral statements, within reasonable limitations to avoid duplication, irrelevant comments, unnecessary delay or disruption of the proceeding. Written statements may be submitted to the School Board following the hearing by any person, and may be considered and made part of the record if authorized by the Board.

Such public hearing shall be held if requested by a person affected by the rule within 21 days after the date of publication of the public notice. However, the School Board may elect on its own initiative to hold a public hearing and publish notice of this fact.

An agenda shall be prepared for the public hearing that provides affected persons with sufficient time to present evidence, argument or oral statements, and other information.

The hearing shall be conducted by the School Board as a body.

CHAPTER ONE THE DISTRICT SCHOOL BOARD

The School Board may take official recognition of any material that is of common and general knowledge, authoritatively well settled and free from uncertainty. If the material is officially recognized by the School Board it is deemed to be admissible without the necessity of the offering party presenting evidence. This material shall be a part of the record and all affected persons shall be given a reasonable opportunity to examine and offer evidence and argument in opposition.

Upon request of any affected person a transcript shall be made of the proceedings and made available to the public. Costs of preparing the transcript and having the proceeding recorded shall be paid by the requesting person. A copy of the transcript shall be available to the public at cost.

At any time prior to the conclusion of the public hearing, any person may assert that such hearing does not provide an adequate opportunity to protect his substantial interests and request that the hearing be conducted under the provisions of Section 120.57, Fla. Stat. Upon receipt of such request, the School Board shall proceed in the manner prescribed by Section 1.105(4)(c) of these rules.

Any person who is substantially affected by the proposed rule may, in addition, within 14 days following advertising of the public notice, request an administrative determination of the validity of the proposal on the grounds and in the manner prescribed in Section 120.54(3), Fla. Stat.

- a. If such hearing is granted by the state Division of Administrative Hearings, the School Board is precluded from taking any final action of the proposed rule pending the final decision of the hearing officer.
- b. The hearing officer may declare all or any part of the proposed rule to be invalid. No proposal or portion of a proposal so declared invalid may be subsequently adopted by the School Board.

Following the public hearing, or the final decision of the state hearing officer, or a 14 day waiting period if no hearing is requested or challenge made, the School Board may take action on the final adoption of the rule.

Following the final adoption the Superintendent shall file a certified copy of the new rule, amendment, or repeal in the district office complete with the data, and in the form required by applicable portions of Section 120.54(11)(b), Fla. Stat.

Petitions to Initiate Rulemaking Proceedings by Substantially Affected Persons. Any person subject to the jurisdiction of or affected by actions of the School Board may submit a petition for initiation of rule-making proceedings at any time.

All such petitions must contain the name and address of the petitioner, specific reasons for adoption, amendment or repeal, the specific action requested, the date submitted, and shall specify the proposed rule.

Any interested person may file a statement in support of or in opposition to any petition for the initiation of rulemaking proceedings. The interested person shall furnish the petitioner with a copy upon filing of the statement.

Any interested person may submit a reply to the statement in paragraph (b) herein prior to action being taken by the School Board. The interested person shall furnish the petitioner and the person filing under paragraph (b) with a copy upon filing of the reply.

School Board Action on Petitions to Initiate Rulemaking.

CHAPTER ONE THE DISTRICT SCHOOL BOARD

Upon receipt of any petition for the initiation of rulemaking pursuant to Section 120.54(5), Fla. Stat., the School Board shall publish notice of receipt and disposition in the manner required in Subsection(1) herein.

If the School Board determines that the petitioner is not regulated by the Board or does not have a substantial interest in the rule, or does not have the interest as stated in the petition, the School Board may forthwith deny the petition, and shall notify the petitioner in writing with particularity the reasons for the denial. If the agency determines that rulemaking should not be initiated, a written statement setting forth, with particularity, the reasons for such determination shall be provided to the petitioner.

After the publication of notice initiating rulemaking, the School Board shall make available for public inspection and shall provide upon request, copies of the following materials:

- (1) The text of the proposed rule, or any amendment, or repeal of any existing rule;
- (2) A detailed written statement justifying the proposed rule;
- (3) A copy of the economic impact statement required by Section 120.54, Fla. Stat.;
- (4) The published notice.

The School Board shall then proceed to consider the proposed rule in the manner prescribed in Subsection (1)(g) herein.

Emergency Actions. If the School Board finds at any time that an immediate danger to the public health, safety, or welfare requires emergency action, an emergency rule may be adopted, modified or repealed without the necessity of following the procedure outlined in Subsection (1) herein.

If possible, the Superintendent will notify all local newspapers and all groups of affected persons prior to adoption of an emergency rule. The Board will permit, upon request, all affected persons to present testimony, evidence, and submit written statements.

Upon the request of any affected person, a transcript shall be made of the proceeding and a record shall be made consisting of the transcript and any other matter of information considered by the School Board in adopting the emergency rule. Cost of preparing the transcript shall be paid by the requesting person. In any event, a recording shall be made of the proceeding.

Notwithstanding the paragraphs above, the School Board reserves the right to use any procedure which is fair under the circumstances in the adoption of an emergency rule as long as it protects the public interest and otherwise complies with applicable statutory provisions.

Any emergency rule shall become effective immediately upon adoption and shall be automatically repealed upon expiration of 90 days, unless an earlier expiration date is prescribed within the rule.

Exemption for Collective Bargaining Agreements. In the event that any provision of a collective bargaining agreement, ratified by the Board either prior to or subsequent to the effective date of any rule herein, conflicts with all or part of any such rule, the provisions of the agreement shall be controlling and the rule shall be deemed to be amended to the extent of the conflict during the term of the agreement only insofar as it is applicable to members of the bargaining unit covered by the agreement.

If any such agreement expires prior to the ratification of a subsequent agreement, the provisions of the expired agreement shall remain in full force and effect until ratification of the subsequent agreement unless a rule or rules contrary to the agreement are adopted in the interim.

CHAPTER ONE THE DISTRICT SCHOOL BOARD

Exemption for Changes in Law. In the event that a law, enacted subsequent to the adoption of any rule herein, conflicts with all or part of such rule, the provisions of the law shall be controlling and the rule shall be deemed to be amended to the extent of the conflict.

Non-Substantive Amendments to Rules. The School Board Attorney, as the Board's designee, shall have the authority to review the School Board Rules and to:

- (1) Amend grammatical, typographical, titles and similar matters not affecting the meaning of the rules; and
- (2) Make structural changes including renumbering of sections which do not affect the substance of the rules.

Such editorial changes shall be provided to the Agency Clerk for distribution to all registered holders of policy manuals.

DECLARATORY STATEMENTS

1.104

Purpose and Use. A declaratory statement is a means for resolving a controversy or answering questions or doubts concerning the applicability of any statutory provision, rule, or order as it does, or may apply to a petitioner in his particular circumstances only. The potential impact upon petitioner's interests must be alleged in order for petitioner to show the existence of a controversy, question, or doubt.

Application. Any person may seek a declaratory statement as to the applicability of a specific statutory provision or of any rule or order of the School Board as it applies to the petitioner in his particular set of circumstances only. The School Board will give notice of each petition, briefly stating the question presented, in the manner prescribed by Section 120.565, Fla. Stat., and shall similarly give notice of the disposition of each petition, briefly explaining the School Board's response.

- (1) The petition seeking a declaratory statement shall be filed in writing with the Superintendent and shall provide substantially the following information:
 - (a) Heading: Petition for Declaratory Statement
 - (b) Name of Petitioner
 - (c) Address of Petitioner
 - (d) School Board rule, order or statutory provision on which declaratory statement is sought
 - (e) Description of how this rule, order or statute may or does affect the petitioner in his/her particular set of circumstances only
 - (f) Signature of Petitioner
 - (g) Date

Disposition. Upon receiving an application for a declaratory statement the Superintendent shall prepare a written statement of interpretation clarifying the application of the particular statute, order or rule to the petitioner.

The statement shall be transmitted to the individual and to each member of the Board within ten (10) days of receipt of the application. Either the petitioner or any member of the Board may within ten (10) days of receipt of the proposed statement, request an appeal of the proposed statement to the entire Board.

If an appeal is requested, the Superintendent shall place the matter on the agenda of the next regular meeting of the School Board. The Board shall review the Superintendent's proposed statement and either approve or modify the statement. In considering the adoption of such statement the School Board may, at its discretion, hold a hearing to dispose of the petition. If such hearing is held, it shall be conducted pursuant to Section 120.57, Fla. Stat., on an expedited basis, or as otherwise agreed upon by the School Board and the petitioner.

In the event that no appeal is requested by the Petitioner or by a member of the School Board within the ten (10) day period, the proposed statement of the Superintendent shall be considered final and binding on both the petitioner and the School Board. However, the School Board shall, at its next regular meeting, ratify and confirm the statement.

CHAPTER ONE THE DISTRICT SCHOOL BOARD

DECISIONS OF THE SCHOOL BOARD DETERMINING SUBSTANTIAL INTERESTS

1.105

General Provisions.

Scope. This Section shall apply in all proceedings in which substantial interests of a party are determined by the Board, and shall be construed to secure the just, speedy and inexpensive determination of every proceeding. Specifically, this section applies to all proceedings under Section 120.57, Fla. Stat., as well as those initiated under Section 120.54(16), Fla. Stat., which are required to be conducted in accordance with Section 120.57, Fla. Stat.

Presiding Officer. As used herein "presiding officer" shall mean the School Board, a member of the Board who conducts a hearing on behalf of the Board, or a Hearing Officer assigned by the Division of Administrative Hearings.

Computation of Time. In computing any period of time prescribed or allowed by these rules, by order of a presiding officer, or by any applicable statute, the day of the act from which the designated period of time begins to run shall not be included. The last day of the period shall be included unless it is a Saturday, Sunday or legal holiday in which event the period shall run until the end of the next day which is neither a Saturday, Sunday or legal holiday. As used in these rules, legal holiday means those days designated in Section 110.117, Fla. Stat., and any other day the District School Board offices are closed. Three days may be added to prescribed time limits when service is made by mail.

Parties. Parties in any proceeding conducted in accordance with Section 120.57, Fla. Stat., are petitioners, respondents, or interveners. Parties shall be entitled to receive copies of all pleadings, motions, notices, orders and other matters filed in a proceeding, and shall be entitled to all rights afforded under Chapter 120, Fla. Stat. According to the nature of the proceeding the term "party" may include the School Board.

Who May Appear; Criteria for Other Qualified Representatives. The intent of the administrative process is to secure the just, speedy, and inexpensive determination of proceedings in which the substantial interests of a person are affected. Any person compelled to appear, or who appears voluntarily, before any hearing officer or the Board in an investigation or in any Board proceeding has the right, at his/her own expense, to be accompanied, represented, and advised by counsel or by other qualified representative. (Counsel shall mean a member of The Florida Bar or a law student certified pursuant to Article XVIII of the Integration Rule of the Florida Bar.) This rule shall be liberally construed to promote and facilitate access to the decision making process of government.

Representation. If a person is not represented by counsel or does not appear on his/her own behalf, but is desirous of representation by a qualified representative, the presiding officer shall make diligent inquiry of the prospective representative during a non-adversary proceeding, under oath and on the record, to assure that the prospective representative is qualified to appear in the administrative proceeding(s) and capable of representing the rights and interests of the person. However, in lieu of the above, the presiding officer may consider the prospective representative's sworn affidavit setting forth his/her qualifications.

The presiding officer shall determine the qualifications of the prospective representative within a reasonable time subsequent to the appearance of a prospective representative in an administrative proceeding on behalf of any person, but, in any case, prior to hearing on the merits or the taking of testimony. If the prospective representative appears in the administrative proceeding prior to the naming of a presiding officer, the Board or its designee may make the determination of qualifications under the terms of this rule.

CHAPTER ONE THE DISTRICT SCHOOL BOARD

The person desirous of non-attorney representation during the administrative proceeding(s) shall be in attendance during any such inquiry conducted by the presiding officer and shall state on the record his/her request for, and acceptance and approval of, the non-attorney representative. However, if the person is unable to appear, he/she shall furnish written notice expressly stating his/her request for, and acceptance and approval of, the non-attorney representative. In addition, the person shall state during the inquiry or in the written notice that he/she is aware of the nature and extent of the services which his/her non-attorney representative can and will provide, and that he/she is aware that he/she can be represented by an attorney at his/her own expense and has chosen otherwise.

Subject to the qualification procedures herein set forth, the decision to have non-attorney representation rests solely with the person making the request, and will be considered a voluntary and informed choice.

In general, the presiding officer shall authorize the prospective representative to appear in the pending administrative proceeding(s) if the presiding officer is satisfied that the prospective representative has the necessary qualifications to render competent and responsible representation of the person's interests in a manner which will not impair the fairness of the proceeding or the correctness of the action to be taken.

In particular, in rulemaking proceedings pursuant to 120.54(3), Fla. Stat., the presiding officer shall allow a representative to present evidence and argument on behalf of a person on all issues under consideration provided the representative states his/her name, address and authority to appear on behalf of the affected person desiring to comment. In all other administrative proceedings, the presiding officer shall make a determination of the qualifications of the prospective representative in light of the nature, scope, and extent of the proceedings, the proposed representation, the applicable Federal and State laws, rules, and regulation, and the factual and legal issues to be presented during the administrative proceeding. (However, the prospective representative shall not be required to disclose facts and legal theories to the prejudice of his client.) In this regard, the presiding officer shall consider the following criteria to the extent they are relevant, material, and applicable to the proceeding:

- (1) The prospective representative's knowledge of jurisdiction and supportive legal authority to file the initial notice;
- (2) The knowledge or experience of the prospective representative regarding Chapter 120, Fla. Stat., (Administrative Procedure Act); Florida Administrative Code Chapter 22I-1 through 4 (Rules of the Division of Administrative Hearings); Rules 9.020, 9.030, 9.110, 9.310, and 9.800 of the Florida Rules of Appellate Procedure; and Sections 1.101 through 1.105, Bay County School Board Rules;
- (3) The knowledge or experience of the prospective representative regarding the application and interpretation of the Florida Rules of Civil Procedure as they relate to discovery in an administrative proceeding;
- (4) The knowledge or experience of the prospective representative regarding the rules of evidence, including the concept of hearsay and its use in an administrative proceeding;
- (5) The knowledge or experience of the prospective representative regarding the statutes or rules which may be at issue;
- (6) Knowledge of the prospective representative regarding the Standards of Conduct for Administrative Proceedings prescribed herein;
- (7) The educational background, training, or work experience of the prospective representative relevant to the subject matter involved in the proceeding; and
- (8) The relationship of the prospective representative to the person, and the need of the person to have a representative speak on his/her behalf.

It shall be presumed, although not conclusively, by the presiding officer that a non-attorney representative who has appeared in previous administrative proceedings involving similar legal and factual issues and was determined to be a qualified representative therein is qualified to appear in subsequent similar administrative proceedings.

CHAPTER ONE

THE DISTRICT SCHOOL BOARD

If the presiding officer determines a prospective representative is not qualified, the findings and conclusions supporting the decision shall be reduced to writing and placed in the record.

Any finding which disqualifies a prospective representative from appearing in an administrative proceeding shall not act to bar said person from appearing in future administrative proceedings where such person is found to be a qualified representative. However, a violation of the Standards of Conduct for Administrative Proceedings, as prescribed herein, by a representative other than counsel subject to the disciplinary procedures of the Florida Bar may be considered as grounds for disqualification in a subsequent proceeding.

A representative who has filed an initial pleading or notice of appearance for that person shall remain the attorney or representative of record and shall receive pleadings and continue in the representative capacity until his withdrawal has been approved in writing by the presiding officer.

Any successor or associated attorney or other qualified representative shall file a notice of appearance prior to, or at the time of, the filing of any pleading with, or appearance before, the presiding officer.

It is recognized that there may be Federal and State laws, regulations or rules which may impose greater or lesser restrictions on the qualification for representation in administrative proceedings than those recited here or in Chapter 120, Fla. Stat. If an issue is raised pertaining to the applicability of such laws, regulations, or rules during an administrative proceeding, the presiding officer shall determine the question in light of the factual and legal issues presented and in light of the applicable principles of Federal and State law.

In any administrative proceeding, a representative, other than counsel subject to the disciplinary procedures of the Florida Bar, shall be bound by the Standards of Conduct for Administrative Proceedings prescribed herein.

Standard of Conduct for Administrative Proceedings.

Preamble. No rules of conduct can be framed which will set out all the duties of the representative in the varying administrative proceedings or in the relationship of the representative to his client, adversaries, other representatives, the School Board, and the public. It will be remembered that the representatives before the School Board include members of the Florida Bar in good standing, law students who are certified pursuant to and satisfy the requirements of Article XVIII of the Integration Rule of the Florida Bar, and other qualified representatives. Members of the Florida Bar and certified law students are bound by a broad code of ethics, the Florida Bar Code of Professional Responsibility, and unwritten rules of professional conduct; for other qualified representatives, no standards of conduct have previously been written. The following standards of conduct are adopted as a general but mandatory guide for all representatives appearing in any administrative proceeding except counsel subject to the disciplinary procedures of The Florida Bar.

Standards of Conduct. A representative shall exercise due diligence in the filing and argument of any motion or pleading to insure that the motion or pleading is filed and argued in good faith.

The signature of a representative upon any motion or pleading shall constitute a certificate that he has read the motion or pleading, that to the best of his/her knowledge it is supported by good grounds, and that it has not been presented solely for delay.

CHAPTER ONE

THE DISTRICT SCHOOL BOARD

A representative shall advise his/her client to observe and to obey the law. However, where a statute or rule has not been interpreted by competent adjudication, the representative may conscientiously advise the person as to the validity and application of the statute or rule in question. A representative shall not:

- (1) Violate any of the provisions contained herein; circumvent a provision through actions of another; engage in conduct involving dishonesty, fraud, deceit, or misrepresentation; or engage in conduct that is prejudicial to the administration of justice.
- (2) File a pleading, assert a position, conduct a defense, delay an administrative proceeding, or take other action on behalf of his/her client when he/she knows or when it is obvious that such action would serve merely to harass or maliciously injure another; or engage in any tactics primarily dilatory, disorderly, contemptuous in nature, or combination thereof.
- (3) Handle a legal or factual matter which he/she knows or should know that he/she is not competent to handle without associating with him/her an attorney or another qualified representative; or handle a legal or factual matter without adequate preparation.
- (4) Accept representation in a matter upon the merits of which he/she has acted in a judicial or quasi judicial capacity, or in which he/she had substantial responsibility while he was a public employee.
- (5) State or imply that he/she is able to influence improperly or upon irrelevant grounds any agency or public official; attempt to exert any political or personal influence to sway the judgment of the presiding officer; give or lend anything of value to a presiding officer, official or employee of the Board; knowingly make false accusations against a presiding officer; or in an adversary proceeding, communicate, or cause another to communicate, as to the merits of the proceeding with a presiding officer or an official before whom the proceeding is pending, except:
 - (a) In the course of official proceedings,
 - (b) In writing if he/she promptly delivers a copy of the writings to the opposing representative, or adverse party if he/she is not represented,
 - (c) Orally upon adequate notice to the opposing representative, or the adverse party if he/she is not represented, or
 - (d) As otherwise authorized by law.
- (6) Communicate or cause another to communicate with an adverse party regarding matters at issue in the administrative proceeding where the representative knows that the adverse party is represented by an attorney or other qualified representative unless the representative has received reasonable notice prior thereto.
- (7) Disregard or advise his/she client to disregard a statute or rule of the School Board, or a ruling of the School Board made in the course of an administrative proceeding, but he/she may take appropriate steps in good faith to test the validity of such rule, statute, or ruling.
- (8) Conceal or knowingly fail to disclose that which one is bound to reveal by law.
- (9) Knowingly use perjured testimony or false evidence.
- (10) Knowingly make a false statement of law or fact.
- (11) Disclose the secrets of his/her client without the consent of the client. (Secret refers to information gained in the representative relationship that the client has requested be held inviolate or the disclosure of which would be embarrassing or would be likely detrimental to his/her client.) However:
 - (a) A representative shall reveal secrets when required by law, provided a representative required by a presiding officer to make such disclosure may first avail himself of all appellate remedies available to him/her.
 - (b) The representative shall also reveal the intention of his/her client to commit a crime and the information necessary to prevent the crime.
 - (c) The representative may disclose the truth in respect to a false accusation made by his/her client.

- is obvious that the evidence is false; counsel or assist his/her client in conduct that he knows to be illegal or fraudulent.
- (13) Advise or cause a person to secrete him/herself or leave the jurisdiction of the School Board for the purpose of making him/her unavailable as a witness therein; pay, offer to pay or acquiesce in the payment of compensation to a witness contingent upon the content of his/her testimony or the outcome of the case; counsel or advise a witness to provide other than honest testimony.

A representative who receives information clearly establishing that his/her client has, in the course of the representation, perpetrated a fraud upon a person or the School Board shall promptly call upon his/her client to rectify the fraud; and if his/her client refuses or is unable to do so, he/she shall reveal the fraud to the affected person or the School Board.

A representative who receives information clearly establishing that a person other than his/her client has perpetrated a fraud upon the School Board shall promptly reveal the fraud to the presiding officer.

Failure to comply with these provisions shall authorize the presiding officer to disqualify, censure, or suspend the representative appearing in the administrative proceeding. However, no representative may be disqualified, censured, or suspended until after he/she has been apprized of the charges, afforded an opportunity to confront his/her accusers, and be heard in his/her defense.

Consolidation. If there are separate matters before the presiding officer which involve similar issues of law or fact, or identical parties, the matters may be consolidated if it appears that consolidation would promote the just, speedy, and inexpensive resolution of the proceedings, and would not unduly prejudice the rights of a party. Any party to a proceeding may request that it be consolidated with other proceedings, or the presiding officer may on his/her own initiative order separate proceedings to be consolidated.

Joinder of Parties. If it appears that the determination of the rights of parties in a proceeding will necessarily involve a determination of the substantial interests of persons who are not parties, the presiding officer may, upon motion of a party, or upon his own initiative enter an order requiring that the absent person be notified of the proceeding and be given an opportunity to be joined as a party of record.

Disqualification. Unless good cause is shown, all motions for disqualification of a presiding officer should be made at least five days prior to the date scheduled for the final hearing.

Service of Papers. Unless the presiding officer otherwise orders, every pleading and every other paper filed in a proceeding, except applications for witness subpoenas shall be served on each party. Service shall be made upon the party or his/her representative by delivering a copy or by mailing it to the last known address.

Agency Investigations and Probable Cause Determinations. This rule shall not apply to School Board investigations or to determinations of probable cause preliminary to Agency action.

The School Board may conduct or have conducted such investigations and make such probable cause determinations as are authorized or required by law. An investigation or determination of probable cause is a non-adversary executive function to discover or procure evidence as part of the fact-finding function of the School Board. The School Board need not have an administrative complaint pending to conduct an investigation or make such determination.

Point of Entry into Proceeding. Unless otherwise provided by law:

- (1) Persons requesting a hearing on a School Board decision which does or may determine their substantial interest shall file a petition with the School Board within 21 days of

CHAPTER ONE THE DISTRICT SCHOOL BOARD

receipt of written notice of the decision, or within 21 days of receipt of written notice of intent to render such decision. Whenever possible, the School Board shall issue a written notice of intent to render a decision prior to the decision and allow person who may be substantially affected thereby 21 days from receipt in which to request a hearing. The notice shall state the time limit for requesting a hearing and shall reference the Board's procedural rules.

- (2) Any person who receives written notice of a School Board decision or who receives written notice of intent to render a decision and who fails to request a hearing within 21 days, shall have waived his/her right subsequently to request a hearing on such matters.
- (3) The School Board may publish notice of its decision, or of its intent to render a decision in newspapers of general circulation in the County and may also, where appropriate, mail copies of its notice to applicants, competitors, and interested groups. Such action by the School Board may be used in establishing petitioner's date of receiving notice.

Formal Proceedings.

Prehearing Procedures.

Initiation of Formal Proceedings. Initiation of formal proceedings shall be made by petition to the School Board. The term petition as used herein includes any application or other document which expresses a request for formal proceedings. Each petition should be printed, typewritten or otherwise duplicated in legible form on white paper of standard size. Unless printed, the impression shall be on one side of the paper only and lines shall be doubled-spaced and indented. All petitions filed under these rules should contain:

- (i) The name and address of each Agency affected and each Agency's file or identification number, if known;
- (ii) The name and address of the petitioner or petitioners, and an explanation of how his/her substantial interests will be affected by the School Board determination;
- (iii) A statement of when and how petitioner received notice of the School Board decision or intent to render a decision;
- (iv) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (v) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle the petitioner to relief;
- (vi) A demand for relief to which the petitioner deems him/herself entitled; and
- (vii) Other information which the petitioner contends is material.

Upon receipt of a petition for formal proceedings, the School Board shall either accept or deny the petition, and if accepted shall elect either to conduct the hearing itself through the School Board or a member thereof, or request that a Hearing Officer from the Division of Administrative Hearings be assigned to conduct the hearing. In proceedings involving dismissal of a member of the instructional staff employed on the basis of an Annual Contract or a Professional Services Contract, the selection of the hearing officer or panel shall be determined by the defendant, rather than by the School Board. In such proceedings involving a member of the instructional staff employed on the basis of a Continuing Contract, the selection of the hearing officer or panel shall be determined by the School Board.

A petition may be denied if the petitioner does not state adequately a material factual allegation, such as a substantial interest in the School Board determination, or if the petition is untimely.

The School Board shall promptly give written notice to all parties of the action taken on the petition, and shall state with particularity its reasons therefor.

CHAPTER ONE THE DISTRICT SCHOOL BOARD

If the School Board elects to request that a Hearing Officer of the Division of Administrative Hearings be assigned to conduct the hearing, the Superintendent shall forward the petition, and all materials filed with the Board, to the Division of Administrative Hearings, and shall notify all parties of its action.

Amendments of Petitions. The petitioner may amend the petition prior to the School Board's designating the presiding officer by filing and serving an amended petition in the manner prescribed for filing and serving an original petition. The petitioner may amend its petition after the designation of the presiding officer only upon order of the presiding officer.

Motions. All motions shall be in writing unless made on the record during a hearing, and shall fully state the action requested and the grounds relied upon. The original written motion shall be filed with the presiding officer. The presiding officer shall conduct such proceedings and make such orders as are deemed necessary to dispose of issues raised by motions. Every written motion may be accompanied by, or included in, a written memorandum stating the grounds upon which the motion is based. Other parties to a proceeding may within seven (7) days of service of a written motion, file written memoranda in opposition.

Motions in Opposition to Petition. Motions in opposition to a petition, which may be filed by any party, include motions to dismiss, to strike, and for more definite statement, and shall be filed within 20 days of service of the petition. Any ruling by a presiding officer on a motion in opposition to a petition shall be incorporated in a recommended order, and can be finally disposed of only by the School Board.

Prehearing Conferences. The presiding officer may conduct or request the parties to have one or more prehearing conferences for the purpose of hearing arguments on pending motions, clarifying and simplifying issues, discussing the possibilities of settlement of the issues, examining exhibits and documents, exchanging names and addresses of witnesses, and resolving other procedural matters.

Intervention. Persons other than the original parties to a pending proceeding who have a substantial interest in the proceeding, and who desire to become parties may petition the presiding officer for leave to intervene. Petitions for leave to intervene must be filed at least five (5) days before the final hearing and should be in conformance with procedures outlined herein and shall also include allegations sufficient to demonstrate that the intervenor is entitled to participate in the proceeding as a matter of constitutional or statutory right or pursuant to School Board rule, or that the substantial interests of the intervenor are subject to determination or will be affected through the proceeding.

Discovery. Parties may obtain discovery through the means and in the manner provided in Rules 1.280 through 1.400, Florida Rules of Civil Procedure. The presiding officer may issue appropriate orders to effectuate the purposes of discovery and to prevent delay, including the entry of a recommended order of default pursuant to rules herein.

Notice of Hearing. The School Board, with the concurrence of the presiding officer, shall set the time and place for all hearings. The presiding officer shall issue and serve written notice thereof by U.S. mail on all parties of record. No less than 14 days notice shall be given for the final hearing on the merits of the petition unless otherwise agreed by the parties. The notice of hearing shall contain the statement set out in Section 120.57(1)(b)2., Fla. Stat.

Continuances. The presiding officer may in his discretion grant a continuance of a hearing for good cause shown, or upon stipulation of all parties. Requests for continuance shall be made in writing. Requests for continuance shall be made in writing. Except in cases of extreme emergency, requests for continuance must be made at least five (5) days prior to the date noticed for the hearing.

CHAPTER ONE THE DISTRICT SCHOOL BOARD

Dismissal and Default. The failure or refusal of a party to comply with any lawful order may be cause for dismissing the petition, or for entry of a default order. The presiding officer shall serve upon all parties written notice of any recommended order entered pursuant to item a. above. The party against whom such an order is entered may, not later than 15 days after service of the notice, file a motion requesting that the recommendation for default of dismissal be set aside and stating the ground relied upon. If a default is entered by the School Board against the party who has the burden of proof in a proceeding, the proceeding will be dismissed. If the default is entered by the School Board against a party who does not have the burden of proof, the party in default shall be not be allowed to cross-examine witnesses, or to otherwise participate in the proceeding as a party.

Subpoenas. Subpoenas may be issued by the School Board, by a presiding officer, or by a Hearing officer of the Division of Administrative Hearings. Subpoena forms shall be supplied by the School Board or the Presiding officer.

Subpoenas requiring the attendance of witnesses or production of records, files, and memoranda from any place in the state, at any designated place of hearing before the presiding officer, for the purpose of taking the testimony of such witness or inspection of documents, shall be issued upon written application of any party. The application for such subpoena shall state the name and address of the witness for whom the subpoena is to be issued, and the time and place for the witness to appear.

Any party or person against whom a subpoena is directed may file a motion to quash or limit the subpoena with the School Board. The motion shall set forth the grounds relied upon.

A subpoena may be served by any person authorized by law to serve process or by any person who is not a party and who is of majority age. Service shall be made by delivering a copy thereof to the person named in the subpoena. Proof of such service shall be made by affidavit of the person making service of not served by an officer authorized by law to do so.

Witness Fees. Witness fees shall be paid by the party at whose instance the witness is summoned. Witness fees shall be tendered at the time of service of a subpoena. Except in the case of state employees or employees of the School Board, the fees shall be the same as those allowed by the circuit courts of the state. State employees shall be entitled to compensation at the rate provided under Section 112.061, Fla. Stat. Each party shall have the right to present evidence relevant to the issues; to cross-examine opposing witnesses; to impeach any witness regardless of which party first called him/her to testify; and to rebut the evidence presented against it.

Any relevant evidence shall be admitted if it is the sort of evidence on which reasonable prudent persons are accustomed to rely in the conduct of their affairs. Hearsay evidence may be used to supplement or explain other evidence, but shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions. The rules of privilege shall be effective to the same extent that they are now or hereafter may be recognized in civil actions. Irrelevant and unduly repetitious evidence shall be excluded.

CHAPTER ONE

THE DISTRICT SCHOOL BOARD

Recordation.--The School Board shall have the responsibility of preserving the testimony at final hearing. Proceedings shall be reported by a certified court reporter or by recording instruments. Any party to a hearing may, at its own expense, provide a certified court reporter if the School Board does not. The presiding officer may, in his/her discretion, provide a certified court reporter. At hearing during which the services of a court reporter have been retained, any party who wishes a written transcript of the testimony shall order the same at its own expense. If a court reporter records the proceedings, the recordation shall become the official transcript.

If the presiding officer determines that a party participated in the proceeding primarily to harass or to cause unnecessary delay, or for frivolous purpose, or to needlessly increase the cost of securing the approval of an activity, the recommended order shall so state and shall recommend the award of costs and attorney fees to the other party.

This proceeding shall not be a de novo review, but shall be confined to the record submitted to the School Board together with the recommended order.

If a party files exceptions to a recommended order or submits proposed finding of fact to the School Board, the final order shall include an explicit ruling on each exception or proposed finding of fact as well as a brief statement of grounds for denying the exception or proposed finding of fact; provided, however, the School Board will not be required to make explicit rulings on subordinate, cumulative, immaterial or unnecessary proposed facts and such proposed facts may be rejected in the final order by simple statement that they are irrelevant or immaterial.

However, this does not preclude subsequent administrative review of School Board action when authorized by law.

When administrative review of School Board action is authorized by law, the reviewing agency shall not conduct a de novo hearing on the matter unless explicitly authorized to do so by law. The reviewing Agency shall base its review solely on the record compiled in the Section 120.57 proceeding and may allow oral argument concerning the content of, and issues raised in such record. The reviewing Agency shall issue a final order based on the record and shall either affirm, reverse or modify the prior agency action. Unless otherwise provided by law or rule, administrative review must be sought by petition to the reviewing Agency within 30 days following the rendition of the School Board's order. The party in possession of the record shall be responsible for compiling the record for review by the reviewing Agency. The reviewing Agency shall issue its final order within ninety (90) days of receipt of the record.

Informal Dispute Resolution.

Unless otherwise provided by law or rule, informal disposition may be made of any proceeding or matter which may result in a Section 120.57 proceeding by stipulation, agreement, settlement or consent order. However, nothing herein shall require informal dispute resolution prior to seeking a Section 120.57 proceeding.

Any person entitled to be a party as defined in Section 120.52(10), Fla. Stat., who is substantially affected by School Board action, or proposed School Board action, may file a protest in writing with the School Board. The protest shall be submitted within ten (10) days after such person learns of the facts giving rise to the protest, but in no event shall the protest be submitted after final agency action.

Upon receipt of the protest, the School Board will endeavor to resolve the issues raised by the protest. The School Board shall whenever possible, respond to a protest within the 15 days period, and shall set forth its reasons for agency action or proposed agency action as fully as possible. The School Board shall also consider the matters raised in the protest and shall whenever possible, explain its position relative to such matters in its response.

Rule Proceedings under Section 120.57, Fla. Stat. At any time prior to the conclusion of a public hearing conducted under the provisions of Section 120.54(3), Fla. Stat., any person may assert that his substantial interests will be affected in the proceedings, and shall affirmatively demonstrate that the rulemaking proceedings do not provide an adequate opportunity to protect his substantial interests and request that the hearing be conducted under the provisions of Section 120.57 to the extent necessary to provide that opportunity and to protect his/her substantial interests.

Unless the School Board rejects the request at the time the right is asserted, within 48 hours after making such assertion the party shall file a petition with the person conducting the rulemaking proceeding substantiating the matter asserted by the party, setting forth specific facts supportive of the claim that the rulemaking proceedings will not provide an adequate opportunity to protect his substantial interests. The School Board shall determine the merits of the petition and issue its order granting or denying it. The School Board may hold a hearing for this purpose.

When a petition for a hearing under the provisions of Section 120.57 is granted, the rulemaking proceeding shall be suspended. Upon the conclusion of the Section 120.57 proceeding, the rulemaking proceeding shall be resumed. In no event shall the School Board file the proposed rule for adoption until a petition for a hearing under Section 120.57 has been denied or until the issues raised in the petition have been resolved by the School Board.

The petition shall be filed with the School Board. The Board may conduct the proceeding or it may request the Division of Administrative Hearings to assign a hearing officer to conduct the proceeding. If the School Board requests that the Division of Administrative Hearings assign a hearing officer to conduct the proceeding, the request shall be made within ten (10) days of the decision to proceed under Section 120.57, Fla. Stat.

Unless the School Board rejects the request at the time the right is asserted, the School Board shall publish notice in the appropriate manner prescribed by Section 120.54(1), Fla. Stat., that a petition has been filed. The notice shall contain sufficient information to advise substantially affected persons of the proceeding.

Emphasis shall be placed on minimizing the data burden by restricting data requests to those which are legally authorized and which are essential for making management decisions, avoiding duplication in data requests, and continuously reviewing these reports for their usefulness and need.

Forms Control and Reports System. As a component of the District Management Information System, a report and forms control system shall be implemented by the Superintendent and his/her administrative staff. The Reports and Forms Committee shall be composed of three (3) District staff members appointed by the Superintendent and four (4) teachers appointed by The Association of Bay County Educators.

Function. This system shall be responsible for the coordination and control of all data collection forms currently in use within the District. It shall also coordinate state and federal reports to be prepared for the Department of Education and for agencies of the federal government.

Authority. All District data collection forms used by schools, programs or offices under the jurisdiction of the Bay County School Board shall be subject to the procedures developed by this system which shall have the authority to review and approve or deny the use of all such forms. Any new or revised form must be submitted to the staff person responsible for the Forms Control System, for review in accordance with the procedures set forth in the Forms Index and Handbook. INFORMATION TECHNOLOGY SECURITY

2.1035

1. Purpose

The School Board seeks to minimize risks in handling of all District data, networks, computer systems and computer equipment in use by District students, patrons, and employees. The Superintendent or his or her designee shall develop procedures to ensure policy is followed.

2. Data

As used herein, "Data" is defined as information transmitted and or stored on the District's networks and computers, whether in transit or at rest. Reasonable efforts will be made to keep Data secure. Data loss can be caused by human error, hardware malfunction, natural disaster, security breach, etc., and may not be preventable. The District's Management Information Systems Department ("MIS") is responsible for assessing Data risks and, if required, developing mitigation strategies to avoid or eliminate risk impact.

3. Personally Identifiable Information

MIS shall develop procedures to secure Personally Identifiable Information ("PII") on Bay District Schools networks to mitigate threats that may cause harm to District students, patrons, and employees.

4. Network and Wireless Security

Network security entails protecting the usability, reliability, integrity, and safety of network and data. Effective network security defeats a variety of threats from entering or spreading on a network. MIS shall develop and implement network security protocols to meet these needs.

5. Workstation Security

Workstations throughout the District access sensitive information and data. Reasonable efforts will be used to make sure that this information stays secure.

6. Remote Access Security

Remote access allows a user to connect to District systems from outside the District organization network. MIS shall develop sound procedures for implementing and ensuring network security when users have remote access. This procedure shall apply to all District employees, contractors, vendors and agents with a District owned or personally owned computer or workstation used to connect to the District network. These procedures will define procedures to minimize unauthorized access to District resources.

7. Passwords

Passwords are a critical component of information security. Passwords serve to protect user accounts; however, a poorly constructed password may result in the compromise of individual systems, data, or the entire network. MIS will maintain procedures to establish a standard for the creation of strong passwords, the protection of those passwords, and the frequency of change. This procedure applies to all personnel and entities working on behalf of the District, who have or are responsible for any account (or any form of access that supports or requires a password) on any system that resides at or is connected to the District.

8. Access Control

Access Control is the process of authorizing users, groups, and computers to access objects on the network or computer. MIS shall develop a procedure to assign permissions by group, based upon the least amount of access to data and programs required by each user in accordance with a business need-to-have requirement.

CHAPTER TWO GENERAL ADMINISTRATION

9. Business Continuity and Disaster Recovery Plans

Business continuity and disaster recovery go hand in hand. MIS shall develop business continuity and disaster recovery procedures. Such procedures shall be reviewed and updated annually.

10. Acceptable Usage Policy

An acceptable use policy ("AUP") is necessary to ensure that all users are aware of their responsibilities in using the technologies provided to them in a safe way. An AUP for District students, patrons, and employees will be maintained by MIS and reviewed annually.

11. Vendors

All outside vendors that house or distribute Bay District student or employee data should be vetted by MIS before contracts are signed. MIS is tasked with the security of data and must vet vendors prior to data collection processes.

12. Security Training

The District shall ensure that all employees having access to sensitive information undergo annual information technology ("IT") security training emphasizing their personal responsibility for protecting confidential information and the integrity of the District's network.

13. Email

Misuse of email can pose many legal, privacy, and security risks. Email procedures will be developed and maintained by MIS to ensure proper use of District email systems and make users aware of what is acceptable for use of the email system. This procedure will also explain what a public records request is, and why emails are public.

14. Software

All Software purchases should be approved by MIS before the purchase process begins. Both MIS and the Purchasing Department must be involved in software acquisitions. MIS is tasked with security of data and must have an opportunity to vet software and vendors prior to purchase.

15. Audits

Planned and random security audits are important in order to mitigate risk and evaluate the District's preparedness for a security incident. All procedures will be written with audits in mind, and updated from findings of both internal and state audits

16. Federal and State Privacy and Data Governance Laws

All procedures will be written and maintained in compliance with the federal and state privacy and data governance laws.

A written appeal must be received by the Director of Human Resources within ten days of the date of the principal's resolution.
 - iv. If, after ten days, the Director of Human Resources fails to respond to the appeal, or if the student and his/her parents are not satisfied with the outcome of their appeal, the student and his/her parents may file a written appeal with the Superintendent. The Superintendent's decision shall be final.
3. The right to confidentiality of the complainant, the respondent and of any others involved in the investigation, will be respected consistent with the District's legal obligations, and with the necessity to investigate allegations of misconduct and take corrective action when the conduct has occurred. Warnings will be given against retaliation against the complainant, the respondent or any other person involved in the investigation. Disciplinary action, up to and including dismissal, may be taken against violators of this policy.
4. Notice of this policy shall be posted in prominent locations in all District buildings and schools, and shall include the name, location and telephone number of the appropriate reporting official. Notice shall be included annually in student, parent, and staff handbooks.

No person shall be permitted to use tobacco products while at a school-sponsored event or on a school trip.

Failure to comply with this rule by persons not under the jurisdiction of the Bay County School Board shall be reported to the proper law enforcement authority.

In accordance with Florida law, no person, with the exception of law enforcement officers, School Guardians appointed by the Superintendent in accordance with §§ 30.15, 1006.12(3), Fla. Stat., and those authorized in support of school-sanctioned activities:

Firearms, electric weapons or devices, destructive devices, or other weapons as defined in School Board Policy 7.203, including razor blades or box cutters, are not permitted in vehicles on the property of any school. This policy is an express waiver of the rights contained in section 790.25(5), Florida Statutes, for the purposes of student and campus parking privileges and is adopted in accordance with section 790.251(7)(a), Florida Statutes.
- (b) shall exhibit any sword, sword cane, firearm, electric weapon or device, destructive device, or other weapon as defined in School Board Policy 7.203, including a razor blade, box cutter, or common pocketknife, in the presence of one or more persons in a rude, careless, angry, or threatening manner and not in lawful self-defense at a school-sponsored event or on the property of any school, school bus, or school bus stop or within 1,000 feet of the real property that comprises a public or private elementary school, middle school, or secondary school, during school hours or during the time of a sanctioned school activity. CHAPTER TWO GENERAL ADMINISTRATION

VISITORS

2.115

Visitors. Any person, other than an employee or student of the school, entering the premises of the school shall report immediately to the office of the principal. Permission must be obtained from the principal or his/her designee before proceeding. This rule shall apply to all visitors, parents, and salesmen and may not be disregarded except in case of an emergency.

Civil Conduct. Bay District Schools staff will treat parents, students and other members of the public with respect and expect the same in return. The District must keep school and administrative offices free from disruptions and prevent unauthorized persons from entering school/district grounds. Florida law provides a criminal penalty for persons who, without legitimate reasons, enter a school campus or facility and create a disturbance or refuse to leave when directed to do so by the principal or person in charge.

Accordingly, this policy promotes mutual respect, civility and orderly conduct among district employees, parents, students and the public. The District does not intend this policy to deprive any person of his or her right to freedom of expression. Rather, the district seeks to maintain, to extent possible and reasonable, a safe, harassment-free work-place for our students and staff. In the interest of presenting teachers and other employees as positive role models, we encourage positive communication and discourage volatile, hostile, or aggressive actions. The District seeks public cooperation with this endeavor. Therefore:

1. Disruptive individuals must leave school grounds

Any individual who disrupts or threatens to disrupt school/office operations, threatens the health and safety of students or staff, willfully causes property damage, uses loud and/or offensive language, vulgar, obscene or profane gestures or language that could provoke a violent reaction, or who has otherwise established a continued pattern of unauthorized entry on school district property will be directed to leave school or school district property promptly by the school's principal or his/her designee.

2. Directions for staff in dealing with abusive individual

If any member of the public uses obscenities or speaks in a demanding, loud, insulting, and/or demeaning manner, the administrator or employee to whom the remarks are directed will calmly and politely warn the speaker to communicate civilly. If the abusive individual does not stop the behavior, the district employee will verbally notify the abusing individual that the meeting, conference or telephone conversation is terminated; and, if the meeting or conference is on District premises, the employee shall direct the abusive individual to leave promptly.

3. Provide policy and report incident

Parents shall be notified of this policy via Parent Portal and/or other reasonable means. Other members of the public shall receive a written copy of this policy when a staff member determines that the provisions of this policy are being violated. The staff member will then immediately notify his/her administrator and provide a written report of the incident. If necessary, this incident shall be reported to the school resource officer, the district law enforcement unit or to other local law enforcement to take any action deemed necessary.

CLASSROOM VISITATION

2.116

Parents/guardians are welcome to visit their children's classes. As always, for the protection of our children, all parents/guardians or other visitors must check in at the main office.

The following guidelines are required for classroom visits:

1. A request to visit shall be made to the principal at least 24 hours prior to the proposed visit.
2. Unless requested by the instructor the visit shall be for no more than one hour.
3. Parent/Guardian shall not distract the teacher or students.
4. Use of cellular phones, cameras (still or video), tape recorders or other recording equipment are prohibited.
5. The parent/guardians are allowed to visit only their child's classroom.

While parents/guardians are encouraged to visit the school throughout the year, visitors can impact the learning process for some students. Without the permission of the instructor, individual classroom visits should be limited to no more than two classroom visits during each grading period.

To ensure the regular school program continues during such visits, parents/guardians should not expect teachers to meet with them at these times for parent-teacher conferences. Student's progress, problems or other subjects for possible discussion between parent and teacher should be scheduled in advance for a time that does not interrupt instructional periods.

AGENTS, SOLICITORS, AND SALES REPRESENTATIVES

2.117

Except as provided herein the principal shall refuse to allow any form of canvassing or solicitation of teachers, students, and school committees during work hours for any business not specifically related to school business.

All sales representatives will be required to request an appointment with administration. Such appointments will be set at the administrator's discretion and must be arranged at least 24 hours in advance.

The schools shall not be used as agents for the sale of tickets or products which are distributed by charitable, nonprofit or private business venture, except through sanctioned student organizations sponsored by such entity.

Upon approval of the Superintendent or his/her designee, charitable organizations may be permitted to conduct fund drives involving personnel in the District. The Superintendent shall make an annual report to the School Board of the organizations that have been given such permission.

FUND RAISING ACTIVITIES BY SCHOOLS

2.118

All fund raising projects and activities by the school or groups within the school shall contribute to the educational experiences of students and shall not be in conflict with the overall instructional program as administered by the Superintendent.

Funds derived from any school fund raising project or activity shall be deposited in the school's internal funds account and shall be disbursed as prescribed by Part II of Chapter 6.

Each school shall continuously evaluate its fund raising projects and activities as they relate to the supplementary needs of the school program, the promotion of educational experiences, the time involved for students and teachers, and the additional demands made on the community.

The determination of the fund raising activities for a school shall be the responsibility of the principal and his/her staff and shall conform to the following conditions and such other administrative directives as may be issued by the Superintendent:

1. The school shall not sanction the sale of tickets for non-school activities.
2. During community drives, the educational value of community projects shall be given special emphasis in the schools, but funds shall not be solicited from students for more than three (3) such drives in any school year.
3. Students shall not, as a school-related activity, make door-to-door solicitations to raise funds.
4. Class instruction time shall not be used in planning or executing any fund raising activity.

A parent-teacher association or other organization connected with the school may sponsor fund raising activities provided school work and time are not affected. Such activities shall be conducted in accordance with policies and shall be approved by the principal.

Raffles, bingo and lotteries or any form of gambling will not be permitted by any group on school property.

Individuals and business agencies shall not be subjected to excessive annoyances from the solicitation of funds by school groups or school personnel. The solicitation of funds away from school shall require the approval of the Superintendent. Where possible all necessary money shall be raised for school needs without recourse to any solicitation away from the school and the Superintendent shall approve a solicitation activity only when, in his/her opinion, funds cannot be raised otherwise. This rule does not preclude private or volunteer contributions for athletic and other purposes.

Any fund raising activity for a school organization that involves student participation in the selling of tickets, merchandise, and similar activities shall have the approval of the principal. The request for approval of such activity must be made by the sponsoring teacher.

CHAPTER TWO GENERAL ADMINISTRATION

PUBLICATIONS ORIGINATING FROM SOURCES OUTSIDE OF THE SCHOOL SYSTEM

2.120

Purpose. The School Board recognizes that it is beneficial to the educational mission of the District for students to be exposed to views concerning a wide variety of topics and issues, even when these views may be unpopular or controversial. However, within the unique and limited forum of the school environment, the District has a duty to ensure that these views, as well as the manner in which they are expressed, do not conflict with the basic educational mission of the District.

Policy. In the best interest of the students of Bay District School System, no person, group or other organization that is not affiliated with the School Board (a "Sponsor"), including non-profit organizations and governmental agencies, shall distribute, display, or exhibit any book or other publication (hereinafter collectively referred to as "materials") on Bay County School Board premises unless authorized by the Superintendent and the principal of that school.

In order to protect the basic educational mission of the District, a Sponsor's materials will not be permitted if the materials violate the policies stated herein.

Procedure. Any Sponsor seeking to make materials available on school grounds must comply with the following procedures:

1. A request for authorization to provide students with any materials by any Sponsor must be submitted at least two weeks in advance. The request must be reviewed by the Superintendent, or his or her designee, and the principal of that school and a determination of compliance with the requirements of this policy must be made at least three school days in advance of any distribution, display, or exhibit. The submission to the Superintendent and principal shall include:
 - a. the identity and address of the Sponsor;
 - b. the identity of the school or schools in which the Sponsor seeks to display materials or send home materials;
 - c. proposed dates for display or distribution; and
 - d. samples of the materials to be displayed or distributed.
2. Sponsors shall only be permitted to distribute or make materials available one time per school year on a date to be approved by the principal.
3. A Sponsor's authorization is only valid for the school year in which it is received. Any additional proposals for distribution or making materials available must again be submitted for authorization according to this Policy.
4. Authorized materials will be distributed electronically to each registered email address for students' parents/guardians at the selected school(s). Sponsors using the electronic distribution system will be required to register with the District's service provider, which may require a nominal fee. If the Sponsor's authorized materials are not able to be distributed electronically, the materials will be made available to students at no charge during the regular school day on a table or tables to be set up by the school for such purpose. The table or tables shall be located in an area in the building where students normally congregate when not in class. However, tables shall not be placed in a manner that would disrupt order or impede the movement of students between classes. A prominent sign shall be placed on or near the table or tables that states: "This material is not sponsored or endorsed by the Bay County School Board, its agents, or its employees. The views of information contained in this material have neither been approved nor disapproved by the Bay County School Board, its agents, or its employees."
5. Authorized materials shall be placed on the table or tables by representatives of the Sponsor prior to the commencement of the school day. Representatives of the Sponsor must promptly remove any

CHAPTER TWO GENERAL ADMINISTRATION

remaining materials at the conclusion of the school day. The table or tables shall remain unattended during the school day. Representatives of the Sponsor will not be permitted to otherwise participate in the distribution of materials or remain on school grounds. School officials are not to participate in the placement or removal of the authorized materials, and also shall not attend to the table throughout the school day.

6. No Sponsor may be denied access based on the content of the Sponsor's speech. However, nothing herein shall be construed to prohibit the Superintendent, or his designee, or a principal from exercising discretion in denying any Sponsor access if they find, based on the age or maturity level of the students, that the message presented would be harmful to the students, misunderstood by the students as being endorsed by the school, or detrimental to the orderly operation of the school. Accordingly, a Sponsor shall not be authorized to distribute or make materials available if the materials:
 - would cause a substantial disruption of the proper and orderly operation and discipline of the school or school activities;
 - would violate the rights of others (including, but not limited to, material that is libelous, invades the privacy of others, or infringes on a copyright);
 - are inappropriate due to the maturity level of the students;
 - are obscene, pornographic, pervasively lewd and vulgar or contain language that is indecent and vulgar;
 - are primarily of a commercial nature (including, but not limited to, all material that seeks to advertise for sale products or services);
 - promote unhealthy activities; or,
 - promote unlawful activities.
7. Any Sponsor who believes they have been improperly denied the right to make materials available under this Policy may appeal that decision, in writing, to the School Board.
8. This Policy does not apply to the making available of written materials by students or school personnel.
9. This Policy shall not prohibit non-school activities traditionally allowed on school grounds pursuant to the policies and procedures found in sections 6.501 (Use of School Property), 2.113 (Advertising, Promoting the Interest of a Private Agency), or 2.118 (Fund Raising Activities by Schools).
10. Any Sponsor that does not abide by the above Policy may be considered guilty of trespassing and reported to local law enforcement agencies. Any deviation from the provisions of the Policy may result in the immediate withdrawal of authorization for distribution. Once authorization has been withdrawn, the Sponsor must cease display and leave the school premises immediately. A Sponsor's history of compliance or noncompliance with this policy may be taken into consideration with regard to subsequent requests for authorization to make materials available.
11. All approved Sponsors shall comply with all District and school-specified visitor policies, including, but not limited to, policy section 2.115 (Visitors).
12. No materials or literature from out-of-school sources shall be distributed through the school to the homes of students without authorization of the principal.
13. Students may not be used to take home materials pertaining to a school bond or non-student election.

Policy and Procedure. Students shall obtain prior approval from the principal to distribute and/or post materials. Only those students enrolled at a specific school site shall be permitted to distribute and/or post materials under this Policy at that school site.

(A) Student Distribution of Materials

- (1) Students seeking to distribute non-school materials to the student body, or a significant subset thereof, shall provide a copy of the materials to the principal, or the administrator in charge if the principal is unavailable for review. The principal or administrator in charge will authorize the distribution within four (4) hours of receipt unless the principal determines that the material is lewd, obscene or pornographic, promotes disruption of the orderly operation of the school, contains statements which may be libelous or slanderous, contains statements which invade personal rights of privacy, infringes on the rights of other students, advocates violence or illegal activity and/or advertises a product or services not permitted for use by minors under the law. Nothing in this provision shall be interpreted to prohibit the distribution of religious or political literature, provided such materials do not otherwise violate the limitations contained herein.
- (2) If the material is approved, the student will be allowed to distribute such material before and after school and during non-instructional time. Distribution locations on campus shall be designated by the principal and may include, among others, any entrance and exit to the school and places near the cafeteria.
- (3) Distribution shall be conducted in an orderly manner and shall not disrupt the ordinary operation of the school or interfere with free expression by other students. Students shall not distribute materials in a manner which disrupts any school activity or blocks or impedes the safe flow of traffic within corridors and entrance ways of the school. Students who distribute such material shall be responsible for cleaning up such materials thrown on the floors in the school or on the grounds outside the school.
- (4) All students have the right, notwithstanding the provisions of this Policy, to refuse to receive or accept materials being distributed, and no student has the right to force materials on any other student.
- (5) As used in this policy, the terms "lewd, obscene or pornographic" include materials which are patently offensive because they are an affront to contemporary community standards relating to the description or representation of sexual matters.
- (6) As used in this policy, the term "not disrupt the ordinary operation of the school" includes, but is not limited to, forcing other students to listen or accept material by shouting or preventing passage and engaging in speech activities during instructional time that are not consistent with the subject matter being taught.
- (7) As used in this policy, the terms "libelous or slanderous" are collectively referred to as "defamation." Slander refers to the spoken word and libel refers to a statement recorded in writing. Defamatory language is language which tends to adversely affect one's reputation. This may result from attacking the individual's honesty, integrity, virtue,

CHAPTER TWO GENERAL ADMINISTRATION

virginity, sanity or the like. Defamatory language may be directed toward an individual or toward a group that is so small or specific that the identity of those individuals being defamed is clear to the listener or reader.

- (8) As used in this policy, the term “invade personal rights of privacy” includes the disclosure or communication of any information regarding the private life of another student or individual including, among other things, any information from confidential student records, information regarding sensitive family or personal matters, and other such personally identifiable information that is not considered to be in the public domain.
- (9) As used in this policy, the term “infringes on the rights of other students” means defamatory expressions against another individual or toward a group that is so small or specific that it is clear to the listener or reader as to those individuals being defamed.
- (10) As used in this policy, the term “non-instructional time” means before or after school hours, between classes, and during lunch or recess times.
- (11) Any concern about decisions regarding distribution or lack thereof may be promptly appealed to the Superintendent whose decision shall be final.

(B) Student Posting of Materials

- (1) Materials originating from non-district sources for posting shall not be displayed without the authorization of the principal, or his or her designee, in accordance with the standards of this policy and the law. The principal shall designate an area in the school for the posting of materials by students which shall be reasonably assessable to the students.
- (2) In order to provide adequate space and a fair opportunity for the posting of materials by students, those materials authorized for posting shall remain posted for a period not to exceed fifteen (15) school days or through the date of any event that is advertised by the posted material.
- (3) Once materials have been authorized for posting, the school shall affix the following legend to the materials, “**STUDENT SPONSORED MATERIAL -- Not Endorsed or Sponsored by the Bay District School Board. Authorized for posting through _____.**”
- (4) Any concern about decisions regarding posting of materials or lack thereof may be promptly appealed to the Superintendent whose, decision shall be final.

CHAPTER TWO GENERAL ADMINISTRATION

AUTHORIZED INTERACTIVE TELECOMMUNICATION USE

2.128

This policy will provide guidelines for District participation in and use of telecommunication services and networks for administrative and instructional purposes. District use of such networks is intended to advance and promote a world class public education in Bay County for all students. Telecommunication services and networks permit access and exchange of information between and among schools, school offices; and members of the Bay global community. Collaboration and exchange of information between and among students/teachers/expert resources statewide, nationally, and world-wide; the Florida Department of Education, and other state, national and international educational entities; and electronic bulletin boards are also a part of this service.

District participation in any telecommunication services networks shall provide for the following elements:

- Electronic messaging services, file transfer, and electronic conferencing capabilities to public school and district employees and authorized students;
- Intuitive, graphical user interfaces;
- Accessibility for the user via properly equipped microcomputers from a range of vendors;
- Opportunities for wider networking (interstate and international) by promoting appropriate access and use of full Internet and other telecommunication services where economically feasible;

All use of telecommunication services and networks shall be consistent with the mission, goals, policies, and priorities of the school district. Successful participation in a network requires that its users regard it as a shared resource and that members conduct themselves in a responsible, ethical, and legal manner while using the network.

Bay County Schools' accounts shall be used only by the authorized users of the accounts for the purposes specified. Misuse shall result in the removal of participant access rights and authorization. Authorized users shall be ultimately responsible for all activity under their account and password. Students shall not be given access to any computer or terminal except those specifically designed for student uses.

Any use of telecommunications services or networking for illegal, inappropriate, or obscene purposes, or in support of such activities, shall be prohibited. Illegal activities shall be defined as a violation of local, state, and/or federal laws. Inappropriate use shall be defined as a violation of the intended use of the District's mission, goals, policies or procedures.

Any use of telecommunications services or network for commercial purposes, product advertisement or political lobbying shall be prohibited.

No use of telecommunications services or networks shall serve to disrupt the use of the network by other users.

Unlimited and open-ended use of the telecommunications services or networks in terms of access time cannot be accommodated inasmuch as supportive financial resources remain finite. Users shall exercise prudence and "fairness" in the shared use of limited resources.

All communications and information accessible via the telecommunications services or networks shall be assumed to be private property. No guarantee can be made for the privacy of any communication on the network; however, authorized system administrators may access private correspondence and files if a user is believed to be in violation of this policy.

All network users shall adhere to the rules of copyright regarding software, information and the attribution of authorship. Reposting personal communications without the author's permission or bulletin board messages without proper attribution shall also be prohibited.

CHAPTER TWO GENERAL ADMINISTRATION

All members of the Bay County Schools community shall be granted free and equal access to as many network services as school resources and availability of technology may permit.

To the extent reasonably possible, users of school sponsored telecommunications services and networks shall be protected from harassment or unsafe, unwanted or unsolicited contact. Users shall be made aware, and shall acknowledge their awareness that the designers of the network cannot eliminate, or in some cases properly restrict the possibility of unwanted access to users. Nor can users be completely prevented from accessing services or information that is offensive to or inappropriate for certain groups of users. Individual users must be responsible for their own access and conduct in using telecommunications services and networks. This responsibility and accountability for such conduct will be clarified through the access authorization forms and training.

Public school student use of the telecommunications services or networks through school equipment or authorization, shall be properly supervised and shall require prior written approval from parents/guardians.

The superintendent or his/her designee shall be responsible for authorizing use of telecommunications services or networks in accordance with this policy.

- Specific procedures for school and district individual staff, student or parent use of telecommunication services and networks shall be developed and annually reviewed for effectiveness at the District level.
- Each school or site administrator shall designate a person responsible for distributing access forms, authorizing access and maintaining all appropriate documentation.

It is the District's policy that access to the Internet provided by the District is expected to be used as an educational and/or work-related resource and that such access shall be made available subject to such rules and regulations as may be established, provided that no use shall be permitted which is in any way prejudicial to the best interest of the District or its educational mission.  - a. By a current or former spouse or intimate partner of the Complainant;
 - b. By a person with whom the Complainant shares a child in common;
 - c. By a person who is cohabitating with, or has cohabitated with, the Complainant as a spouse or intimate partner;
 - d. By a person similarly situated to a spouse of the Complainant under the domestic or family violence laws of the State of Florida; or
 - e. By any other person against an adult or youth Complainant who is protected from that person's acts under the domestic or family violence laws of Florida.
6. Stalking, defined as: engaging in a course of conduct directed at a specific person that would cause a reasonable person to—
 - a. Fear for the person's safety or the safety of others; or
 - b. Suffer substantial emotional distress.
 - c. For the purposes of this definition—
 1. Course of conduct means two or more acts, including, but not limited to acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with a person's property.
 2. Reasonable person means a reasonable person under similar circumstances and with similar identities to the Complainant.
 3. Substantial emotional distress means significant mental suffering or anguish that may, but does not necessarily require medical or other professional treatment or counseling.
- J. **Supportive Measures** means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures are designed to restore or preserve equal access to the District's education programs or activities without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the educational environment, or deter sexual harassment. Supportive measures may include, but are not limited to, referral to counseling services, referral to the Employee Assistance Program, referral to community-based service providers, altering work arrangements for employees, safety planning, extensions of deadlines or other course-related adjustments or academic support, modifications of class or lunch schedules,

CHAPTER TWO GENERAL ADMINISTRATION

changes in locker assignments, providing school safety escorts, transportation accommodations, mutual restrictions on contact between the parties, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures. Violations of no contact orders will be referred to appropriate student or employee conduct processes for enforcement.

- K. **Title IX** is defined to include Title IX of the Education Amendments Act of 1972, 20 U.S.C. 1681 *et seq.*, and implementing regulations promulgated by the United States Department of Education, 34 C.F.R. Part 106.

III. Designation of Title IX Coordinator

The District will employ a designated and authorized administrator to coordinate its compliance with Title IX. The Superintendent or a designee will notify applicants for employment, student, parents, or legal guardians of elementary and secondary school students, employees, and all unions or professional organizations holding collective bargaining or professional agreements with the District, of the name or title, office address, electronic mail address, and telephone number of the employee or employees designated as the Title IX Coordinator.

IV. How to Report Sexual Harassment

Any person may report sex discrimination, including sexual harassment (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sex discrimination or sexual harassment), in person, by mail, by telephone, or by electronic mail, using the contact information listed for the Title IX Coordinator, or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report. Such a report may be made at any time (including during non-business hours) by using the telephone number or electronic mail address, or by mail to the office address, listed for the Title IX Coordinator.

Reports received by any other employee of an elementary or secondary school will promptly be provided to the Title IX Coordinator.

V. Required Training

All Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process, shall receive training on the definition of sexual harassment in § 106.30, the scope of the recipient's education program or activity, how to conduct an investigation and grievance process including hearings, appeals, and informal resolution processes, as applicable, and how to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias. Decision-makers shall receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant. Investigators shall receive training on issues of relevance to create an investigative report that fairly summarizes relevant evidence.

VI. Title IX Jurisdiction

The District's jurisdiction to investigate complaints of sexual harassment under Title IX is limited to incidents within the United States and within a school's education program or activity. For the purposes of this policy, an "education program or activity" includes locations, events, or circumstances over which the District exercised substantial control over both the respondent and the context in which the sexual harassment occurs, and also includes any building owned or controlled by a student organization that is officially recognized by the District.

CHAPTER TWO GENERAL ADMINISTRATION

VII. Response to Sexual Harassment

When the District has actual knowledge, with or without a formal complaint, of sexual harassment in its education program or activity against a person in the United States, it will respond promptly and in a manner that is not deliberately indifferent. The District will treat complainants and respondents equitably by offering supportive measures before the imposition of any disciplinary sanctions or other actions that are not supportive measures against a respondent. The Title IX Coordinator will promptly contact the complainant to complete an initial assessment, discuss the availability of supportive measures, consider the complainant's wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint, and explain to the complainant the process for filing a formal complaint. The District will maintain the privacy of the supportive measures so long as the privacy does not impair the District's ability to provide the supportive measures. District will reduce the academic/occupational impact on the parties as much as possible. The District will implement measures in a way that does not unreasonably burden the other party.

VIII. Emergency Removal

Removing a respondent from the School's education program or activity on an emergency basis requires that the School undertakes an individualized safety and risk analysis, and determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal.

The risk analysis is performed by the Title IX Coordinator in conjunction with the Behavioral Intervention Team, using a standard objective violence risk assessment procedure. In cases where an emergency removal involves a student with a disability who is receiving services under an Individualized Education Program ("IEP"), this risk analysis will also be performed in conjunction with the student's IEP Team and may present the need for a manifestation determination. This provision may not be construed to modify any rights under the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act of 1973, or the Americans with Disabilities Act.

In all cases in which an emergency removal is imposed, the student and parent will be given notice of the action and the option to request a Removal Review Meeting with the Title IX Coordinator, or as soon thereafter as reasonably possible, to demonstrate why the removal should not be implemented or should be modified.

The Removal Review Meeting is not a hearing on the merits of the allegation(s), but rather is an administrative process intended to determine solely whether the emergency removal is appropriate. A student Respondent may be accompanied by an Advisor of their choice during the Removal Review Meeting. The student Respondent will be given access to a written summary of the basis for the emergency removal prior to the Removal Review Meeting to allow for adequate preparation.

If a Removal Review Meeting is not requested within two school days, objections to the emergency removal will be deemed waived, except as below.

In cases when an emergency removal involves a student with a disability who is receiving services under an IEP, the Removal Review Meeting can serve as the student's manifestation determination hearing and will be conducted in accordance with the requirements of the Individuals with Disabilities Education Act (IDEA). The student will not have to request a Removal Review Meeting as it will be scheduled and held within ten days of the decision to implement the emergency removal. If it is determined that an emergency removal is necessary for more than ten school days, that would constitute a change in placement and would be addressed in accordance with the requirements of the IDEA.

The Emergency Removal procedure also applies to any restrictions that a coach or athletic director may place on a student-athlete arising from allegations related to Title IX.

CHAPTER TWO GENERAL ADMINISTRATION

There is no appeal process for emergency removal decisions.

The Title IX Coordinator has sole discretion under this policy to implement or stay an emergency removal and to determine the conditions and duration. Violation of an emergency removal under this policy will be grounds for discipline, which may include expulsion.

The District will implement the least restrictive emergency actions possible in light of the circumstances and safety concerns. As determined by the Title IX Coordinator, these actions could include, but are not limited to: suspending a student's participation in on-campus instruction, administrative or alternative placement, temporarily re-assigning an employee, restricting a student or employee's access to or use of facilities or equipment, changing transportation arrangements, authorizing an administrative leave, and suspending a student's participation in extracurricular activities, student organizational leadership, or athletics.

At the discretion of the Title IX Coordinator, alternative coursework options may be pursued to ensure as minimal an academic impact as possible on the parties.

Where the Respondent is an employee, existing provisions for suspension, administrative leave, and the like are applicable.

IX. Administrative Leave

The District may choose to place a non-student employee respondent on administrative leave during the pendency of a grievance process. This provision may not be construed to modify any rights under Section 504 of the Rehabilitation Act of 1973 or the Americans with Disabilities Act.

X. Grievance Process for Formal Complaints of Sexual Harassment

- A. Both complainants and respondents will be treated equitably and afforded supportive measures as needed throughout the process.
- B. If an investigation results in a determination of responsibility for sexual harassment, remedies designed to restore or preserve equal access to the District's education programs and activities will be assigned. Remedies may include the same individualized services as supportive measures but also may include disciplinary sanctions or other actions. Only supportive measures will be assigned prior to the conclusion of this grievance process.
- C. Upon receipt of a formal complaint, an impartial investigator and impartial decision-maker will be assigned and the District will provide a Notice of Grievance Process and Notice of Investigation to known parties.
- D. Evaluation of Evidence
 1. The parties will be afforded an objective evaluation of all relevant evidence and credibility determinations will not be based upon a person's status as a complainant, respondent, or witness.
 2. The investigator and decision-maker shall presume that the respondent is not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance process.

CHAPTER TWO GENERAL ADMINISTRATION

E. Time for Resolution

1. The District will issue a written determination regarding responsibility within 120 calendar days following receipt of the formal complaint.
2. The time for resolution, and any then-pending deadlines, may be extended for good cause and with written notice to both parties. Good cause may include, but is not limited to, the absence of a party, a party's advisor, or a witness; concurrent law enforcement activity; or the need for language assistance or accommodation of disabilities.
3. Appeals from dismissals of formal complaints and from final determinations regarding responsibility will be resolved within 30 calendar days.

F. **Remedies and Disciplinary Measures.** A determination of responsibility may result in disciplinary measures and remedies, which include, but are not limited to discipline measures included in School Board Policy 7.203, which defines behavior qualifying for minor, major, and zero tolerance violations and the progression of disciplinary actions as a result. Remedies may include, without limitation: counseling services, change of schedule, proximity control, Community of Care referral, or other remedies as needed to ensure safety.

G. **Standard of Evidence.** The District must determine that an allegation has been proven by a preponderance of the evidence in order to make a determination of responsibility.

H. Students and employees are prohibited from knowingly making false statements or knowingly submitting false information during the grievance process.

I. Formal complaints involving any postsecondary education program or activity related to Tom P. Haney Technical Center shall also be governed by School Board Policy 2.1335. To the extent there are any inconsistencies between this policy and section 2.1335, section 2.1335 shall control.

XI. Investigation of a Formal Complaint

- A. **Burden of Proof.** The District bears the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility.
- B. **Privileged Information.** The District will not access, consider, disclose, or otherwise use a party's records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional's or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party, unless the District obtains that party's voluntary, written consent to do so for a grievance process under this section
- C. **Opportunity to Present Witnesses and Evidence.** Either party may present witnesses, including fact and expert witnesses, and other inculpatory and exculpatory evidence at any time prior to the issuance of the investigative report.
- D. **Parties' Advisors.** Either party may be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney. However, neither party's advisor will be permitted to question witnesses. Neither party's advisor may participate in interviews or meetings in which the represented party is not a participant.

CHAPTER TWO GENERAL ADMINISTRATION

- E. **Parental Involvement.** Nothing herein is intended to supplant any legal right of a parent or guardian to act on behalf of a student.
- F. **Written Notices.** Parties will receive written notice of the date, time, location, participants, and purpose of all investigative interviews, or other meetings, with sufficient time for the party to prepare to participate if the party's participation is invited or expected.
- G. **Evidence Review Period.**
1. Any evidence obtained as part of the investigation that is directly related to the allegations raised in a formal complaint, including the evidence upon which the District does not intend to rely in reaching a determination regarding responsibility and inculpatory or exculpatory evidence whether obtained from a party or other source will be provided to both parties at the conclusion of the investigator's evidence gathering.
 2. Prior to completion of the investigative report, the District will send to each party and the party's advisor, if any, the evidence subject to inspection and review in an electronic format or a hard copy, and the parties will have 10 calendar days to submit a written response, which the investigator will consider prior to completion of the investigative report.
- H. **Investigative Report.** Following the evidence review period, the investigator will issue an investigative report that fairly summarizes relevant evidence. The investigative report will be sent to each party and the party's advisor, if any, for their review and written response.
- I. **Decision Making and Q&A.**
1. Upon the investigator's finalization of the investigative report, the decision-maker will begin review and provide an opportunity for questions and answers from the parties.
 2. Following receipt of the investigative report, the parties may submit written, relevant questions that a party wants asked of any party or witness within 3 calendar days. Questions may be submitted to the designated decision-maker.
 3. The decision-maker will provide each party with answers to any questions posed by a party.
 4. Additional follow-up questions, limited only to the scope of the prior questions, may be presented by either party within three calendar days after receipt of the decision-maker's answers.
 5. Only relevant questions will be entertained. The decision-maker will explain to the party proposing the questions any decision to exclude a question as not relevant. Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.
- J. **Determination Regarding Responsibility.** At the conclusion of the investigation, and not less than 10 days after the parties receive the investigative report, the decision-maker will issue a full and final, written determination in compliance with the regulations implementing Title IX.

CHAPTER TWO GENERAL ADMINISTRATION

XII. Informal Resolution Process

At any time after the filing of a formal complaint and prior to reaching a determination regarding responsibility, the District may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and adjudication.

Prior to an informal resolution, the District will provide to the parties a written notice disclosing the allegations, the requirements of the informal resolution process including the circumstances under which it precludes the parties from resuming a formal complaint arising from the same allegations.

At any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process and resume the grievance process with respect to the formal complaint, and any consequences resulting from participating in the informal resolution process, including the records that will be maintained or could be shared

Informal resolution will only be pursued with the parties' voluntary, written consent to the informal resolution process.

Allegations that an employee sexually harassed a student shall not be resolved by an informal resolution process.

XIII. Dismissal of a Formal Complaint

- A. A formal complaint shall be dismissed if the conduct alleged in the formal complaint:
 - 1. would not constitute sexual harassment even if proved;
 - 2. did not occur in the School's education program or activity; or
 - 3. did not occur against a person in the United States.
- B. A formal complaint may be dismissed if at any time during the investigation:
 - 1. a complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein;
 - 2. the respondent is no longer enrolled or employed by the recipient; or
 - 3. specific circumstances prevent the recipient from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.
- C. Such a dismissal does not preclude action under another provision of the student code of conduct or School Board policies related to employee discipline.
- D. Upon a dismissal, the District will promptly send written notice of the dismissal and reason(s) therefore simultaneously to the parties.

XIV. Appeals

- A. **Reviewable Decisions.** Parties may seek review of the following:
 - 1. The dismissal of a formal complaint under Title IX or any allegations therein; or
 - 2. A final determination regarding responsibility following the investigation of a formal complaint.

CHAPTER TWO GENERAL ADMINISTRATION

B. Bases for Review. Appeals are limited to the following grounds:

1. Procedural irregularity that affected the outcome of the matter;
2. New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and
3. The Title IX Coordinator, investigator(s), or decision-maker(s) had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.

C. Notices of Appeal.

1. The decision of the District may be appealed by petitioning the Title IX Coordinator.
2. Any party who files an appeal must do so in writing to the Title IX Coordinator within three school days of receiving the written determination regarding responsibility or notice of dismissal.
3. The petition for an appeal from a final determination regarding responsibility shall state whether the appealing party challenges the findings, the remedies imposed, or both.
4. The party appealing a decision must state all relevant bases for review simultaneously. Any basis not raised in the initial appeal is waived.

D. Responses. The Title IX Coordinator will share the appeal with the other party and draft a response memorandum, which will also be shared with all parties. If the opposing party wishes to file a response, the response must be received by the Title IX Coordinator no later than two school days following receipt of the appeal. If additional time is needed, the Title IX Coordinator may grant an extension of one school day upon request prior to the expiration of the two-day deadline.

E. Status While Pending Review. All remedies imposed by the School will be in effect during the appeal. A request may be made to the Director of Student Services for special consideration in exigent circumstances, but the presumptive stance of the School Board is that the remedies will stand. Graduation, study abroad, internships/externships, etc. do not in and of themselves constitute exigent circumstances, and students may not be able to participate in those activities during their appeal. In cases where the appeal results in reinstatement to the School or of privileges, all reasonable attempts will be made to restore the student to their prior status, recognizing that some opportunities lost may be irretrievable in the short term.

F. Process for Review.

1. All appeals and responses are forwarded to the Superintendent for initial review to determine if the appeal states an appropriate basis for review and is timely.
2. The original finding and sanction will stand if the appeal is not timely or substantively eligible, and the decision is final.

CHAPTER TWO GENERAL ADMINISTRATION

3. If the appeal is timely and presents an appropriate basis for review, the Superintendent will proceed with a substantive review of the appeal.
- G. **Appellant's Burden.** The party requesting appellate review must show error in the original finding or sanction. The finding and sanction are presumed to have been decided reasonably and appropriately.
- H. **New Evidence.** If the Superintendent determines that new evidence should be considered, the Superintendent will return the complaint to the decision-maker to reconsider in light of the new evidence only. The decision-maker's reconsideration is not cannot be appealed.
- I. **Curable Procedural Error.** If the Superintendent determines that a material procedural error occurred, it may return the complaint to the investigator and decision-maker with instructions to cure the error. The results of this second review with the error cured cannot be appealed.
- J. **Incurable Procedural Error.** In rare cases, where the procedural error cannot be cured (as in cases of bias), the Superintendent may order a new review of the complaint with a new decision-maker. The results of the new decision-maker's review can be appealed, once, in accordance with the three applicable bases for appeals.
- K. **Remedies.** If the Superintendent determines that the remedies or disciplinary sanctions imposed are disproportionate to the severity of the violation, the Superintendent may increase, decrease or otherwise modify the remedies or disciplinary sanctions.
- L. **Additional Considerations.**
1. All parties will be timely informed of the status of requests for appeal, the status of the appeal consideration, and the results of the appeal decision.
 2. An appeal is not intended to be a full rehearing of the complaint. In most cases, appeals are confined to a review of the written documentation or record of the original decision-making process and pertinent documentation regarding the grounds for appeal.
 3. This is not an opportunity for the Superintendent to substitute his or her judgment for that of the School merely because the Superintendent disagrees with the finding or sanction. Appeals decisions are to be deferential to the decision-maker, making changes to the finding only where there is clear error and to the sanction only if there is a compelling justification to do so.
 4. Remedies imposed are implemented immediately unless the Superintendent or Title IX Coordinator stays their implementation in extraordinary circumstances, pending the outcome of the appeal.
- M. **Final Determination.** The Superintendent will render a written decision describing the result of the appeal and the rationale for the result simultaneously to all parties within seven school days from receipt of the appeal. The Superintendent's decision to deny an appeal request is final.

XV. Retaliation and Confidentiality

- A. Retaliation is strictly prohibited. No person may intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by Title IX, or because the individual has made a report or complaint,

CHAPTER TWO GENERAL ADMINISTRATION

testified, assisted, or participated or refused to participate in any manner in an investigation, or proceeding.

- B. Intimidation, threats, coercion, or discrimination, including charges against an individual for code of conduct violations that do not involve sex discrimination or sexual harassment, but arise out of the same facts or circumstances as a report or complaint of sex discrimination, or a report or formal complaint of sexual harassment, for the purpose of interfering with any right or privilege secured by Title IX, constitutes retaliation.
- C. The District will keep confidential the identity of any individual who has made a report or complaint of sex discrimination, including any individual who has made a report or filed a formal complaint of sexual harassment, any complainant, any individual who has been reported to be the perpetrator of sex discrimination, any respondent, and any witness, except as may be permitted by the FERPA statute or as required by law, *or to carry out the purposes of 34 CFR part 106, including the conduct of any investigation, hearing, or judicial proceeding arising thereunder.*
- D. Complaints alleging retaliation may be filed according to the grievance procedures for sexual harassment under Title IX.

XVI. Record Keeping

The following records will be retained for a period of seven years:

- A. Each sexual harassment investigation to include any determination, disciplinary sanctions, remedies provided, any appeal and result, informal resolution, basis for conclusion, all documents that restore or preserve equal access, additional explanations or details of measures taken.
- B. All materials used to train Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process. The District will make these training materials publicly available on its website, or these materials available upon request for inspection by members of the public.

XVII. Construction and Priority

Notwithstanding any other School Board policy or procedure, conduct and allegations meeting the definition of Sexual Harassment, as defined herein, shall be handled in accordance with this policy. To the extent that this policy may conflict with any other School Board policy, this policy shall prevail.

CHAPTER TWO GENERAL ADMINISTRATION

Title IX — Post-Secondary Hearing Procedure

2.1335

After the investigation, the School Board will provide for a live hearing for all formal complaints involving any postsecondary education program or activity related to Tom P. Haney Technical Center that have not been dismissed or resolved by informal resolution. At the request of either party, or at the discretion of the Title IX Coordinator, School Board will provide for the live hearing to occur with the parties located in separate rooms with technology enabling the decision-maker and parties to simultaneously see and hear the other party or witness answering questions.

1. **Information at the Hearing:** The following information/evidence will be available at the hearing:
 - a. Evidence from the investigation, including the evidence directly related to the allegations that was reviewed by the parties, regardless of whether it was incorporated into the report.
 - b. The investigation report and any attachments/appendices.
2. **Decision-maker:** The decision-maker will be appointed by School Board and will not be the Title IX Coordinator or investigator. The decision-maker will be trained, impartial, and without a conflict of interest. The decision-maker will be a School Board employee or external individual designated by School Board.
3. **Challenge to the decision maker:** Either party may challenge the appointment of a decision-maker, based on conflict of interest or bias, in writing to the Title IX Coordinator, no less than five business days prior to the scheduled hearing.
4. **Advisor's Role at the Hearing:** Each party must have an advisor present at the hearing. The advisor's role is limited to supporting, advising, and assisting the party during the hearing and conducting questioning (cross-examination) of participants. Advisors are required to follow rules of decorum enforced by the decision-maker. Failure to follow the rules of decorum by an advisor may result in removal of an advisor from the hearing. If a party does not have an advisor present at the live hearing, School Board will appoint the party with an advisor without fee or charge.
5. **Recording of the Hearing:** School Board will create an audio or audiovisual recording of all live hearings and make the recording available to the parties for inspection or review.
6. **Hearing Process Facilitator:** School Board may designate a hearing process facilitator to coordinate the hearing, including, but not limited to, coordination and scheduling of the hearing; the logistics of physical or virtual rooms for parties and/or witnesses, including separation of the parties; ensuring all technology is working appropriately; ensuring the parties have access to electronic documents during the hearing; distributing materials; etc. The facilitator may also be the Title IX Coordinator. The facilitator may invite the parties and their advisors, separately, to a meeting prior to the hearing to review the hearing process for the purpose of ensuring a smooth hearing. This meeting is separate from the pre-hearing conference discussed below.
7. **Pre-Hearing Matters:** In order to streamline the hearing process, the decision-maker may request the submission of questions prior to the hearing through electronic submission and/or a pre-hearing conference.
 - a. **Pre-Hearing Submission of Questions:** The decision-maker may request the parties submit questions, in writing, prior to the hearing. This submission does not preclude the advisor from asking additional questions live during the hearing. The decision-maker may

CHAPTER TWO GENERAL ADMINISTRATION

allow for the pre-hearing submission of questions regardless of whether a pre-hearing conference occurs.

- b. **Pre-Hearing Conference:** The decision-maker may hold a pre-hearing conference to further streamline the live hearing, especially in complex cases involving multiple Complainants, Respondents and/or a significant number of witnesses. During the pre-hearing conference, parties and their Advisors will meet with the decision-maker separately to review written questions previously submitted and/or to submit, in writing, any questions they wish to ask during the live hearing so that the decision-maker can be prepared to respond to the relevancy of said questions during the live hearing. The decision-maker may discuss any preliminary relevancy determinations regarding submitted questions and/or discuss alternative ways in which to ask questions; however, the decision-maker will make any final relevancy determinations in real-time, orally, during the live hearing. This conference does not preclude the advisor from asking additional questions live during the hearing. At the pre-hearing conference, the decision-maker may also hear arguments regarding the relevance of the evidence identified in the investigation report as relevant or not relevant, and/or directly related to the allegations.
 - c. **Hearing Documents:** The decision-maker or hearing facilitator will provide parties with a copy of all materials provided to the decision-maker about the matter.
 - d. **Accommodation Requests:** Participants in need of disability related accommodations and/or interpretation services during the hearing must contact the Title IX Coordinator with said requests five days prior to the hearing.
8. **Participants in the Hearing.** Participants at the hearing include the decision-maker, the investigator who conducted the investigations, the parties, advisors to the parties, witnesses, and anyone providing authorized accommodations. In addition, School Board may have a hearing facilitator present. Any witnesses scheduled to participate in the hearing must have been first interviewed by the investigator or have provided a written statement or answered questions from the investigator in writing.
9. **Hearing Process and Phases:** The live hearing will include the following phases:
- a. **Notice of Hearing:** At least ten business days prior to the date set for the hearing, the parties and their Advisors will be provided with a Notice of the Hearing. The Notice will include the date, time, location, name of the decision-maker, names of all participants in the hearing, and the location (virtual or in person) of the hearing.
 - b. **Opening Statements:** Each party will have the opportunity to present an opening statement to the decision-maker.
 - c. **Questioning of Hearing Participants:** The investigator will be the first witness to provide information. The investigator will submit their investigation report and describe the evidence and information gathered in their investigation. The parties and witnesses will then be called in an order determined by the decision-maker. Questioning of parties and witnesses will occur in the following manner:
 - i. **By the Decision-maker:** The decision-maker will ask initial questions of the participants at the hearing.
 - ii. **By the Advisors:** After the decision-maker asks questions of a participant, each party's advisor will be permitted to ask relevant questions and follow up questions orally, directly, and in real time of the participant. The parties are never permitted to ask questions of participants directly. The questioning of participants by advisors will be conducted in the following manner:
 - A question is asked by an advisor

CHAPTER TWO GENERAL ADMINISTRATION

- Before participant answers the questions, the decision-maker determines whether the question is relevant
- If the question is determined relevant by the decision-maker, the participant answers the question
- If the question is determined not to be relevant by the decision-maker, the decision-maker must explain the decision to exclude a question as not relevant.

iii. Evidence and Questions Excluded:

- **Sexual Predisposition or Prior Sexual Behavior of the Complainant:** Questions and evidence about the Complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the Complainant's prior sexual behavior are offered to prove that someone other than the Respondent committed the conduct alleged by the Complainant, or if the questions and evidence concern specific incidents of the Complainant's prior sexual behavior with respect to the Respondent and are offered to prove Consent.
- **Privileged Information:** No person will be required to disclose information protected under a legally recognized privilege. The decision-maker must not allow into evidence or rely upon any questions or evidence that may require or seek disclosure of such information, unless the person holding the privilege has waived the privilege. This includes information protected by the attorney-client privilege.
- **Medical Records:** Evidence or records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional's or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party, are not permitted to be used during a hearing unless the party provides voluntary, written permission to do so for the grievance process within this Policy.

- d. **Closing Statements:** Each party will have the opportunity to present a closing statement to the decision-maker.

10. Determination Regarding Responsibility: After the live hearing, the decision-maker will issue a written determination regarding responsibility using the preponderance of the evidence standard. The decision-maker will provide the Complainant and the Respondent with the written determination simultaneously. The determination regarding responsibility becomes final either on the date that School Board provides the parties with the written determination of the result of the appeal, if an appeal is filed in accordance with Policy 2.133, or, if an appeal is not filed, the date on which an appeal would no longer be considered timely. The written notice will include:

- a. Identification of the allegations potentially constituting Sexual Harassment;
- b. A description of the procedural steps taken from the receipt of the Formal Complaint through the determination, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held;
- c. Findings of fact supporting the determination;
- d. Conclusions regarding the application of Policy 2.133 to the facts;
- e. A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any disciplinary sanctions that School Board

CHAPTER TWO GENERAL ADMINISTRATION

shorter period of time. The requestor shall not be required to identify himself/herself as a condition of making a public record request.

- (3) Public record requests may be submitted to any employee, however, submission directly to the Record Custodian is suggested and is likely to minimize processing time. Employees may encourage a requestor to contact the Record Custodian directly with the request but may not require it.
- (4) The District will not create records in order to respond to a Record request, but will provide existing records, in whatever form those records exist or are able to be produced without disclosing confidential information.

If applicable, the requestor will be provided with a cost estimate to approve prior to the request being processed.
- (7) If a public record request is insufficient to identify the records sought, the requestor shall be promptly notified that more information is needed in order to produce the records. The District shall offer reasonable assistance to the requestor in describing the nature and extent of such information.
- (8) No automatic waiting period shall be imposed on a public record request. The only delay permitted is that which is reasonably necessary to allow for compilation of the requested records and protection against disclosure of those portions of records that are confidential or exempt by law.
- (9) The District will make every effort to provide a public record request in the format identified by the requestor. However, if that format is unavailable for whatever reason, the Record Custodian shall contact the requestor to determine an alternate format in which to fulfill the request. Records may also be unavailable in certain formats if redactions are necessary to prevent the disclosure of those portions of records that are confidential or exempt by law.
- (10) The Record Custodian shall keep a log of all public record requests received. The log shall include, at a minimum:
 - (a) date of the request;
 - (b) name of the employee who received the request;

- (2) Shipping costs incurred in the delivery of records shall be included in the cost charged to the requestor.
- (3) If the nature or volume of public records to be inspected or copied is such as to require extensive use of information technology resources or extensive clerical or supervisory assistance by a District employee, the District shall, in addition to duplication costs, apply a service charge based on the actual cost incurred for such extensive use of information technology resources or the actual labor cost of the employee providing the service.
 - (a) The term "Extensive Use" means any time longer than 15 minutes needed to complete all tasks defined in subparagraphs (i) and (ii) below:
 - i. Extensive Use of clerical or supervisory assistance includes longer than 15 minutes of locating and retrieving of records; reviewing records for statutorily exempt information; preparing records for inspection or copying by redacting or excising exempt or confidential information from records prior to review or copying; monitoring of the inspection or copying of records when necessary to ensure the integrity of the records; and instructing, or supervising personnel in performing the foregoing tasks when responding to a particular public records request.
 - ii. Extensive Use of information technology resources includes longer than 15 minutes of writing or executing software commands or setting up information technology resources. Under Fla. CHAPTER TWO GENERAL ADMINISTRATION

- ii. the labor cost actually incurred by, or attributable to, the District for clerical or supervisory assistance of the personnel providing the service.

When an Extensive Use special service charge includes labor costs, the charge will be based on the current hourly rate of pay (including benefits) of the personnel whose time contributes to the Extensive Use of clerical or supervisory assistance required to fulfill the records request. When the Extensive Use consists of tasks that should be performed by an attorney, law clerk, or paralegal, such as reviewing materials for exemptions and confidential information requiring redaction, the District may reasonably charge the attorney's or law clerk's/paralegal's hourly salary (excluding benefits).

(4) Fee Collection and Processing.

- (a) When all allowable fees applicable to a particular public record request can be calculated in advance, they should be collected prior to the District investing significant information technology resources or clerical or supervisory assistance.
- (b) When actual costs and extensive use fees cannot be immediately determined due to the nature of the request, the District shall give an estimated cost for producing the records. When the requestor accepts the cost estimate and provides a 50% partial payment, the request will be processed. Upon payment of the final invoice, the records will be provided to the requestor.
- (c) Should the requestor fail to pay the actual costs or extensive use charges incurred to produce the request, the request will not be fulfilled. Full and final payment of costs is required prior to release of the records.
- (d) The District accepts payment in the form of checks or money orders made payable to the School Board of Bay County, Florida.

A Purchasing Agent is defined under Florida Statute § 112.312(20) as a Public Officer or employee having the authority to commit the expenditure of public funds through a contract for, or the purchase of, any goods, services, or interest in real property for any agency, as opposed to the authority to request or requisition a contract or purchase by another person. A Public Officer is defined under Florida Statute § 112.313(1) as any person elected or appointed to hold office in any agency, including any person serving on an advisory body. Material Interest is defined in Florida Statute § 112.312(15) as direct or indirect ownership of more than 5% of the total assets or capital of any business entity. By this paragraph, it is not the intent of the School Board to expand or contract the requirements of the Code of Ethics for Public Officers and Employees (Florida Statutes, Chapter 112).

No employee or official of the School Board may use bid prices or school prices or receive any other preferential treatment in the making of personal purchases. Neither may any employee or official make purchases for personal use through a school or the school district. However, nothing contained herein shall be deemed to prohibit an employee from participating in any activity or purchasing program that is publicly offered to all employees of the District. Employees may also participate in district surplus sales, provided that there is no preferential treatment.

Any violation of any provision of this subsection by an employee of the School District may be grounds for dismissal.

CHAPTER THREE PERSONNEL - GENERAL PROVISIONS

HIV AND AIDS

3.133

Any employee who has either AIDS (Acquired Immune Deficiency Syndrome) or is an asymptomatic carrier of the AIDS virus will, subject to this policy, be afforded the right to continue to work at his/her assigned position; recognizing that HIV, and AIDS are not transmitted by casual contact, employees who exhibit no signs of secondary infections will be allowed to continue their employment. HIV-positive employees with a mental, emotional or physical disabling condition due to AIDS will be provided reasonable accommodation if they qualify under Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. §794 or the Americans with Disabilities Act, 42 U.S.C. §12101, et seq.

Employee Guidelines and Procedures.

Determination of Assignment. The School Board recognizes that employees with life-threatening illnesses, including but not limited to cancer, heart disease and AIDS, may wish to continue to work. As long as an infected employee is able to meet acceptable performance standards, and medical evidence indicates that his/her condition is not a threat to others, the employee shall be assured of continued employment in accordance with the following procedure:

When a physician licensed by the State of Florida or the county health unit notifies the Superintendent that an employee has AIDS or is an asymptomatic carrier of the AIDS virus, the Superintendent shall consult immediately with the director of the county health unit. Pending the determination on assignment, as provided in subparagraph (b) below, the Superintendent may, if so advised by the director of the county health unit and for a period reasonable under the circumstances,

1. retain the employee in his/her present position,
2. remove the employee from the work place and place him/her on sick or annual leave, or
3. arrange an alternate work assignment to limit the employee's contact with other employees, students, and public.

The Superintendent shall determine on a case-by-case basis, whether an infected employee shall be permitted to remain in or return to his/her original work assignment after receiving the written report and recommendation of a three (3) member review committee composed of the:

1. medical director of the county health unit,
2. the employee's personal physician and
3. the appropriate member of the District staff.

The employee shall be permitted to attend, present information to, and be represented at the committee's meeting, but shall not participate in determining the recommendation, except through his/her personal physician. A copy of the committee's written report and recommendation shall be provided to the employee upon submission to the Superintendent. In making its report and recommendation, the review committee shall consider:

1. the behavior and physical condition of the employee,
2. the expected type of interaction with others in the school setting, and
3. the effects on both the infected employee and others in that setting.

An infected employee shall not be given any work assignment that, because of his/her medical condition, would cause danger to any student or other person with whom he/she might come in contact in the course of that assignment.

CHAPTER THREE PERSONNEL - GENERAL PROVISIONS

The review committee shall reevaluate the employee's condition periodically and prepare and present to the Superintendent any recommendation for change in assignment that it finds appropriate.

Disagreement on Assignment. If the Superintendent and the infected employee's personal physician disagree over whether the employee qualifies for return to his/her regular assignment, the Superintendent shall refer the case for review by an appointed physician who is licensed by the State of Florida. Expenses incurred from the review shall be borne by the School Board. If, following the review, the Superintendent and the employee's personal physician continue to disagree on assignment, the matter shall be presented to the School Board for determination, provided, however that personally identifiable information shall be deleted from all case material submitted to the Board members.

Confidentiality of Record. The confidentiality of an infected employee's medical record shall be maintained in accordance with 1012.34, Fla. Stat. Only persons with an absolute need to know shall receive medical information concerning any infected employee's health condition. Notification of personnel who have a need to know shall be through a process that will insure patient confidentiality.

PAYROLL DEDUCTIONS FOR EMPLOYEE FINANCIAL SERVICES

3.136

School Board employees may participate in financial services through payroll deduction offered by companies that are approved in accordance with this rule.

Companies that desire to offer financial services such as, but not limited to, disability insurance, liability insurance, legal protection services, and dental insurance through payroll deduction will pay an annual fee equal to the administrative costs required to administer the payroll deduction as determined by the payroll department. Companies that enroll and maintain an enrollment of 25 or more employees will be designated as authorized companies and will not be required to pay the annual administrative fee. Companies that do not maintain the minimum of 25 employees according to Bay District School records will be required to pay the annual fee and will be billed accordingly.

Companies authorized to offer financial services to employees through payroll deduction must maintain a current document, filed with Bay District Schools, which clearly defines the method of servicing their clients. Those that do not have a local office must provide a toll free telephone number by which they can be reached during normal business hours. The companies that are authorized to offer financial services through payroll deduction must provide a document signed by the participating employee stating that neither the School Board nor its employees can be held responsible for decisions the employee/client makes regarding the financial services they procure. If employee complaints about a specific company's client service become too numerous as determined after investigation by the District, the company at fault will be suspended from the authorized roster and their fee will be prorata refunded.

DEFERRED RETIREMENT OPTION PROGRAM ("DROP")

3.137

The Deferred Retirement Option Program ("DROP") as defined in Chapter 121, Fla. Stat., is an alternative method of deferred payout of retirement benefits for up to 60 months after an eligible member of the Florida Retirement System reaches his/her normal retirement date but wishes to continue employment with a Florida Retirement System employer. In order to participate, the employee must submit a binding letter of resignation, establishing a deferred termination date. DROP will allow the participant to defer all retirement benefits payable during the DROP period. Deferred benefits payable shall

accrue and earn interest compounded monthly for the DROP period. Upon termination of DROP, the participant will receive the DROP benefits and their regular retirement benefits under Chapter 121, Florida Statutes.

Participation in DROP. All members of the Florida Retirement System are eligible for DROP. Members electing to participate in DROP must meet the eligibility and timeline requirements outlined in § 121.191 Fla. Stat. (1998).

Benefits Payable - Sick Leave. Members of the administrative, instructional, confidential, or educational support staff will be paid terminal pay for accumulated sick leave at retirement, or, if service is terminated by death, to his/her beneficiary. Upon election to participate in DROP, and based upon the employee established deferred termination date, previously accumulated sick leave shall be paid the in following prorated installments:

Deferred Termination Date: Payment Schedule

1. 0 through 12 months: 1 lump payment in the month following the last day worked
2. 13 through 24 months: 50% at the end of the first 12 months and final payment in the month following the last day worked
3. 25 through 36 months: 33-1/3% at the end of each 12 month period and final payment in the month following the last day worked
4. 37 through 48 months: 25% at the end of each 12 month period and final payment in the month following the last day worked
5. 49 through 60 months: 20% at the end of each 12 month period and final payment in the month following the last day worked.

Sick leave will be earned during DROP as prescribed by state statutes. Accumulated sick leave earned during DROP participation will not be paid to the employee at the end of their DROP participation.

It is in the intent of this policy that an individual entering DROP will be allowed to use sick leave which was accrued prior to their retirement and entrance into DROP. The following procedures for utilization of such leave shall be as follows:

1. Sick leave earned prior to DROP shall be calculated in accordance with School Board Policy.
2. The value of each sick day will be computed. Should a DROP participant use a sick day(s) accrued prior to entrance into DROP, the monetary value of their remaining sick days shall be reduced by the value of the sick days used.
3. Final adjustments in the total amount of compensation for accrued sick leave will be made prior to the final payment at the end of DROP.

CHAPTER THREE PERSONNEL - GENERAL PROVISIONS

Benefits Payable - Annual Leave. Employees electing to participate in DROP shall be entitled to terminal pay for accrued annual leave as required by state law, Board policy and/or union contract. Upon election to participate in DROP, and the employee's election to receive a lump-sum payment of accrued annual leave, payment shall be made in the last paycheck prior to the effective beginning date of DROP.

Annual leave earned prior to entering DROP which exceeds the maximum lump sum payment allowed by Board policy may be used during DROP, however the employee shall not be entitled to compensation at the end of DROP for any unused portion of the accumulated leave.

Employees will earn annual leave during the DROP period as prescribed by state law, Board policy and/or union contract. Annual leave accumulated during DROP participation will not be paid to the employee at the end of DROP participation, except to the extent the employee has earned additional annual leave which combined with the original payment does not exceed the maximum lump-sum payment allowed by Board policy.

Retirement Bonus. Employees electing to participate in DROP shall be ineligible to receive the District's retirement bonus.

CHAPTER THREE PERSONNEL - GENERAL PROVISIONS

COMPENSATION AND LEAVES DURING A DECLARED EMERGENCY

3.138

During emergencies and disasters, the Superintendent may close schools and other district facilities and declare an emergency ("Declared Emergency"). During these times, the County may also activate shelters in district facilities. Although it is difficult to predict the necessity for personnel to assist the school district and community during an emergency, the following serves as a guideline for handling compensation in most cases in the event the Superintendent declares an emergency and /shelters are activated by the county during a storm, event, or other natural disaster that precipitated the Declared Emergency (the "Event"):

1. **All employees** are on standby and there is an expectation that all employees – teachers, administrators, bus drivers, maintenance employees and other support staff etc. – will report for work at their normal job assignments as soon as it is safe to travel even though communications and other utilities are not functioning. Therefore, all school district employees need to monitor designated radio and television stations, and information posted on official communication links including social media.
2. During a Declared Emergency, every effort will be made to compensate employees and maintain regular pay periods. However, this is subject to the discretion of the School Board and Superintendent. Make-up days may be required, again at the discretion of the Superintendent in conjunction with the Florida Department of Education. Employees are encouraged to monitor all available channels of communication for information about paychecks and return to work status.
3. **Emergency Personnel** (designated District Administrators, Facilities and Maintenance Personnel, Facility Managers, Principals, Assistant Principals, etc.) must report to the pre-designated meet up location if there are four or more daylight hours after the Event is over; otherwise, regardless of the day of the week, designated Emergency Personnel should be prepared to report to work by 7:30 a.m. the following day after the Event is over unless otherwise directed. Again, employees are encouraged to monitor email, mainstream media and social media for information about reporting to work.

Any employee who has been directed to work and fails to present to his/her supervisor a valid reason or cause for his/her inability to report as determined by his/her supervisor, may be charged personal or vacation leave for the period of his/her absence or leave without pay if no leave is available.

4. **Designated Personnel** (e.g., Payroll, Human Resources, Management Information Systems (MIS), Business Office, other personnel designated by their supervisor) must report as directed by their supervisor prior to or after the Event and are responsible for monitoring emergency information regarding report times.

Any employee who has been directed to work and fails to present to his/her supervisor a valid reason or cause for their inability to report as determined by his/her supervisor, may be charged personal or vacation leave for the period of their absence or leave without pay if no leave is available.

NOTE: Emergency management, police agencies, military or other authorities may not permit school district employees to travel on public roads without special authority. The district's Chief of Safety and Security will provide information to Emergency and Designated Personnel prior to a declared emergency regarding the appropriate procedure to follow in order to comply with the above reporting requirements. This is especially important for employees who do not reside

CHAPTER THREE PERSONNEL - GENERAL PROVISIONS

within Bay County or Bay County residents returning to the community. It is the responsibility of employees who are designated as Emergency or Designated Personnel to have the necessary information prior to a Declared Emergency.

5. **Shelter Personnel:**

The Emergency Operations Center is responsible for determining which shelters will be open as emergency shelters and the hours of operation. At each shelter, designated and trained School Board employees will be required to be present during all hours of operation to provide shelter-related services.

6. **Compensation for Emergency Personnel, Designated Personnel and Shelter Personnel:**

The provisions in this paragraph apply to employees who have been trained to work at emergency shelters or who are required to be a part of an emergency response by their job descriptions.

All employees (except executive level staff) assigned to work by their supervisor during the declared emergency, in addition to their regular pay under contract for contracted work days, will be paid **double** their regular hourly rate for all hours worked for time worked during a Declared Emergency. A minimum of a 4-hour break time or sleep time is required between shifts and before an employee could start a regular work day.

Reimbursable emergency operations costs and shelter-related hours will be submitted to the County for reimbursement in accordance with state law and any present contractual agreements.

7. **Additional compensation or leave status:** Other personnel, including executive level staff, may be compensated for work during the Declared Emergency period at the Superintendent's discretion in line with the language expressed above in paragraph 6.

8. **Requirements for Declared Emergency Compensation:** For an employee to receive additional compensation for work during a Declared Emergency, the following conditions must be met:

- a. Shelter Personnel will only be compensated if directed to work by a supervisor or otherwise required to report to work.
- b. No employee can be compensated for more than twenty hours in a twenty-four hour period, as a four-hour break for sleep is required between shifts.
- c. No compensation under this policy will be processed without the submission of completed and approved ICS 214 forms. All forms must be completed, signed off by the supervisor, and submitted to payroll by the advertised deadline following an Event.

False Reports

Any person who knowingly and willfully makes a false report of child abuse, abandonment, or neglect, or who advises another to make a false report, is guilty of a felony of the third degree, punishable by law. Anyone making a report who is acting in good faith is immune from any liability.

Duties of the Principal

The school principal shall ensure that all school personnel are properly informed as to their responsibilities and rights, including immunity from liability if reporting in good faith, regarding crime reporting, that appropriate delinquent acts and crimes are properly reported, and that actions taken in cases with special circumstances are properly taken and documented.

Liason

The Superintendent or his/her designee shall, at the request of the Department of Children and Families, act as liaison between DCF and the child protection team as defined in §39.01, Fla. Stat. in cases of child abuse, abandonment, or neglect or in unlawful sexual offenses involving a student.

SICK LEAVE DONATION

3.140

Any full-time employee may donate his or her accrued sick leave to any other full-time employee of the District subject to the following conditions:

1. When an employee transfers sick leave to a recipient who is not a family member of the employee, the recipient must provide documentation, by the treating physician, of the illness, accident, or injury for which leave is otherwise authorized under these rules.
2. The recipient need not have any accrued sick leave available in order to receive a sick leave donation.
3. Any unused transferred sick leave shall be returned to the donor employee if the donated sick leave has not yet been used at the end of the recipient's work year.
4. The donor must retain a minimum of eighty (80) hours of sick leave for his or her own use. Only accrued hours in excess of this minimum may be donated.
5. The recipient may not use the donated sick leave until all of his or her sick leave has been depleted.
6. Donated leave shall have no terminal value. Accordingly, transferred leave shall not be included in leave for which payment is provided to the recipient under any terminal pay benefits policy available to District employees.
7. Sick leave must be donated in increments which are proportional to the number of hours the recipient works per day (e.g., if the recipient works seven and one-half (7.5) hours per day, leave must be donated in increments of seven and one-half (7.5) hours).
8. Annual limits:
 - (a) An employee's transfers to recipients who are family members shall be unlimited, but subject to paragraph (4) above unless the transfer is from one spouse to another in which case, the eighty (80) hour minimum does not apply.
 - (b) An employee may not transfer more than a combined total of forty (40) hours per school year to recipients who are not family members.
9. All donation forms must be received two days before payroll is due.
10. Donated leave may not be applied retroactively to previous pay periods.

For purposes of this section, the term "family member" is defined as: an employee's father, mother, son, daughter, brother, sister, uncle, aunt, first cousin, nephew, niece, husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half-brother, or half-sister.

CHAPTER THREE PERSONNEL - GENERAL PROVISIONS

RELATIONSHIPS WITH STUDENTS

3.141

Purpose. Protecting the physical and emotional well-being of the District's students is of paramount importance. District employees shall maintain the highest professional, moral, and ethical standards in dealing with the supervision, control, and protection of students on or off District grounds.

Definitions. As used in this policy section, the term "employee" means any person employed by Bay District Schools, regardless of assignment. The term "student" means any person enrolled as a student in any K-12 educational program operated and maintained by Bay District Schools.

Prohibited Conduct. No employee may engage in prohibited conduct with students, which includes, but is not limited to, the following:

- (1) Employees shall not inappropriately associate with students in a manner which may give the appearance of impropriety, including, without limitation, the creation of or participation in any situation or activity which could be considered abusive or sexually suggestive or involve controlled substances such as drugs, alcohol, or tobacco.
- (2) Employees shall not engage in unacceptable relationships and/or communications with students. Unacceptable relationships and/or communications with students include, but are not limited to: dating; any form of sexual touching or behavior; making sexual, indecent, or illegal proposals, gestures or comments; and/or exploiting the employee-student relationship for any reason.
- (3) Under no circumstances may an employee engage in an unacceptable relationship with a student enrolled in grades K-12, regardless of the student's age.

Adult Students Enrolled in Vocational and Technical Education Programs. The District recognizes that its adult students enrolled in technical or vocational education programs do not require the same level of protection as the District's students in grades K-12. However, the District has an interest in ensuring that the employee-student relationship is not exploited, regardless of a student's age and enrollment.

Therefore, with regard to students who are enrolled in vocational or technical education programs, including those who have reached the age of 18, no employee may engage in an unacceptable relationship (as defined above) with a student who is under the employee's academic supervision.

The term "academic supervision" encompasses all relationships in which employees exercise supervisory power over students. Thus, it includes, but is not limited to, teaching, formal mentoring or advising, holding any administrative position at the same school, and considering disciplinary action involving the student.

Social Media. Many social media sites allow users to become "friends" or otherwise associate or link their "profiles" in a more private and personal arrangement which may mask inappropriate contact. Employees are discouraged from "friending" or "following" students on Facebook, Twitter, or other similar websites. See section 3.143 for further guidance regarding employees' use of social media.

Duty to Report. Any employee who knows, or has reasonable cause to suspect, that another employee may have violated this policy shall immediately report such information to the Superintendent or his or her designee. An employee's failure to immediately report such knowledge or reasonable suspicion shall constitute a violation of this policy. This duty to report is in addition to reporting requirements regarding child abuse, abandonment, or neglect. See Section 3.139.

CHAPTER THREE PERSONNEL - GENERAL PROVISIONS

Penalties. Any employee who violates this policy shall be subject to discipline up to and including termination of employment, legal action, referral to law enforcement, and/or referral to the Department of Education Division of Professional Practices.

CHAPTER THREE PERSONNEL - GENERAL PROVISIONS

Prohibited Employee Relationships

3.142

Definitions. For purposes of this policy, these terms are subject to the following definitions:

- (1) "Supervisor" means an administrative employee who may be responsible for other employees with regard to employment decisions, payroll authorizations, or job performance evaluations.
- (2) "Work location" is defined to include a payroll cost center or any administrative department or unit. For example, the Human Resources Department is considered a work location, as is "ABC" High School.
- (3) "Subordinate" is defined as a lower-ranking employee at the same work location, whether or not the supervisor directly manages the subordinate employee. For example, for purposes of this section, a teacher is a subordinate of each administrator at the school where he or she works, regardless of whether the administrator has direct supervisory duties related to the teacher.

Prohibited Relationships. No supervisor may engage in a consensual sexual relationship with any subordinate at the same work location. Additionally, District employees shall not engage in any relationship which interferes with the work of the school District, creates a hostile work environment, or disrupts the educational process. Prohibited relationships include, but are not limited to, an administrator and teacher at the same school; a department supervisor and an employee of the same department; or an administrator or teacher and support staff having duties at the same cost center.

Prohibited Conduct. No employee shall participate in any personnel action, including selection or evaluation, or recommendation for hiring, promotion, or advancement, concerning an applicant or employee with whom the employee is engaged in a consensual relationship.

Duty to Report. Employees shall self-report any existing or potential conflicts under this policy section. Disclosure of an existing consensual relationship must be made to the Superintendent or his or her designee in the following instances:

- (1) At the time an individual is offered a position that will require supervision of a person with whom the individual is engaged in a consensual relationship.
- (2) At the time an employee applies for a transfer or promotion to a supervisory position which, if the employee is selected, will create a prohibited relationship between supervisor and subordinate.

Supervisors and subordinates who engage in a consensual relationship that is prohibited under this policy, or who fail to make disclosures when required, do so at the risk of disciplinary actions, which may include, but are not limited to, termination of employment.

CHAPTER THREE PERSONNEL - GENERAL PROVISIONS

EMPLOYEE CODE OF CONDUCT FOR SOCIAL MEDIA

3.143

Purpose

Bay District Schools recognizes the use of technology in education and encourages its employees to learn to utilize new technology tools to enhance the learning experience for students. The District also recognizes its responsibility to teach, encourage and ensure the safe and responsible use of these tools.

For the purposes of this policy, "social media" is defined as media designed to be interactive, including, but not limited to, any site or platform that incorporates user-generated content, such as blogs; microblogs (e.g., Twitter); social networking (e.g., Facebook, TikTok, LinkedIn, Snapchat); audio, photo, video sharing (e.g., YouTube, Flickr); and virtual world software (e.g., Second Life).

While nothing in this policy should be construed as limiting employees' First Amendment rights, the District believes that employees should separate personal and professional relationships in online communities and platforms. This policy is intended to regulate the use of social media by employees, including employees' personal use of social media, only when that use: interferes with the work of the school District; harasses coworkers or other members of the school community; creates a hostile work environment; breaches confidentiality obligations of school District employees; disrupts the educational process; harms the goodwill and reputation of the school District in the community; violates the law, board policies and/or other school rules and regulations; or facilitates inappropriate contact with students, their families or guardians.

Expectations

Employees will be expected to follow the same professional conduct guidelines online as they would in the workplace and may be personally liable for anything they post to social media sites and platforms. As such, employees must adhere to the following Code of Conduct when using all social media, including for personal activity:

1. Protect Confidential, Proprietary, and Sensitive Information.

Pursuant to federal and state confidentiality laws, employees are not permitted to use or disclose students' personally identifiable student information and information contained in student education records without parental consent. See Section 7.301. The use of images or photographs of students in online communication is prohibited unless: (a) advance, written permission from the parents and the Superintendent or his/her designee is obtained, or (b) the image has already been approved for public use. Employees should not disclose, share, or post information that is protected by law or that is confidential or proprietary to the District or its employees. The District's standard media release allows a student's personally identifiable information to be shared via official District and school websites or social media and local media, and does not authorize employees to share or disclose personally identifiable student information and information contained in student education records on an employee's personal social media profile.

2. Follow District Policies and Avoid Discrimination.

Even when employees are engaged in personal social media activity, the content that they post can easily become public and impact the District and its stakeholders. Employees may not, whether online or on the job, violate District policies involving employee conduct, violate state or federal law, or disrupt the school environment. As always, the District's policies against workplace harassment, discrimination and retaliation must be observed. Employees should be aware that all existing policies and behavior guidelines extend to school-related activities in the online environment as well as on school premises.

CHAPTER THREE PERSONNEL - GENERAL PROVISIONS

This includes, but is not limited to, the District's non-discrimination policy (Section 2.111) and policies relating to employee misconduct and insubordination (Sections 4.113 and 5.112).

3. Do Not Use District or School Logos.

Employees must not use District or school logos or any other images or iconography on personal social Media websites. Employees must not use the District or school's name to promote or endorse any product, cause, political party, or candidate.

4. Respect Professional Time and Property.

District computers and time at work are to be used for professionally-related purposes. See Section 2.128. Employees should not use District hardware or software, nor should employees use personal electronic devices (e.g., iPads, cellular phones, etc.), to access social media sites during the workday for reasons unrelated to work. Furthermore, employees must not use their District email accounts to access or identify them when engaging in any social media activity that is unrelated to their work and are encouraged to obtain a personal email account and use personal time for such activity. Employees should remain mindful of the fact that public record laws that apply to work emails also apply to Google Instant Chat message and mobile telephone text messages made or received in connection with the transaction of School Board business.

5. Ethical Responsibilities.

Employees are to be mindful of the requirements outlined in the Florida Department of Education's *Code of Ethics and the Principles of Professional Conduct of the Education Profession in Florida*. See Florida Administrative Code 6B-1.001 and 6B-1.006. All District employees' online behavior should reflect the same standards of honesty, respect, and consideration that are used face-to-face, and be in accordance with the highest professional standards. Comments related to the District should always meet the highest standards of professional discretion. In addition, as is prohibited in all other forms of contact between employees and students, inappropriate personal communications with students using social media is prohibited.

6. Be Cautious.

Employees must remember that they are responsible for any content they post online, and that such content may remain accessible to other users even if it appears to have been deleted from the site where employees first posted the content. Employees should closely monitor their privacy settings, remembering that such settings are subject to change and may not fully protect their content, and that even anonymously posted content may be traced back to them. When posting, even under the strictest privacy settings, employees should act on the assumption that all postings are in the public domain.

Penalties

Employees who violate any provisions of this Employee Code of Conduct for Social Media do so at the risk of disciplinary actions, which may include, but are not limited to, termination of employment, legal action, and/or referral to law enforcement as appropriate.

CHAPTER THREE PERSONNEL - GENERAL PROVISIONS

REASONABLE ACCOMMODATION OF EMPLOYEES WITH DISABILITIES

3.144

1. It is the policy of the School Board to comply with all federal and state laws concerning employment of persons with disabilities. In accordance with the Americans with Disabilities Act (ADA) and the Americans with Disabilities Act Amendments Act (ADAAA), the School Board will make a reasonable accommodation to the known physical or mental limitations of a qualified individual with a disability unless it can show that the accommodation would cause an undue hardship to its operation.

2. Qualified Individual with a Disability

For the purposes of providing a reasonable accommodation, a person is a “qualified individual with a disability,” as defined by the Americans with Disabilities Act when he/she has a physical or mental impairment that substantially limits one or more major life activities and is able to perform his/her job with or without reasonable accommodation.

3. Reasonable Accommodation

A reasonable accommodation is any change in the work environment or in the way things are customarily done that enables an individual with a disability to enjoy equal employment opportunities.

When an individual with a disability requests accommodation and can be reasonably accommodated without creating an undue hardship or causing a direct threat to workplace safety, he or she will be given the same consideration for employment as any other applicant. Applicants who pose a direct threat to the health, safety and well-being of themselves or others in the workplace when the threat cannot be eliminated by reasonable accommodation will not be hired.

The School Board will reasonably accommodate qualified individuals with a disability so they can perform the essential functions of a job unless doing so causes a direct threat to these individuals or others in the workplace and the threat cannot be eliminated by reasonable accommodation or if the accommodation creates an undue hardship to the School Board. Employees should contact human resources with any questions or requests for accommodation.

It is the responsibility of an employee with a disability to inform the employee's supervisor or human resources that an adjustment or change is needed to do a job because of the limitations caused by a disability.

If the appropriate accommodation is not obvious, the employee and employee's supervisor will engage in the interactive process, to determine the appropriate reasonable accommodation, which requires communication and good-faith exploration of possible accommodations. After an employee requests an accommodation, the employer will engage in a good faith and flexible dialogue that addresses the employee's specific medical limitation, request, job position, and work environment, among other factors.

Upon receipt of a request for accommodation, the employee's supervisor or human resources will:

- (a) Analyze the particular job involved and determine its purpose and essential functions;
- (b) Consult with the individual with a disability to ascertain the precise job-related limitations imposed by the individual's disability and how those limitations could be overcome with a reasonable accommodation;
- (c) In consultation with the individual to be accommodated, identify potential accommodations and assess the effectiveness each would have in enabling the individual to perform the essential functions of the position; and
- (d) Select and implement the accommodation that is most appropriate for both the employee and the employer.

CHAPTER THREE PERSONNEL - GENERAL PROVISIONS

- e. **Direct threat:** A significant risk to health, safety or well-being of individuals with disabilities or others when this risk cannot be eliminated by reasonable accommodation.
- f. **Qualified Individual with a Disability:** An individual with a disability is qualified if (1) he/she satisfies the requisite skill, experience, education, and other job related requirements of the position; and (2) he/she can perform the essential functions of the position, with or without reasonable accommodations.

- h. **Undue Hardship:** A specific type of reasonable accommodation that causes significant difficulty or expense and focuses on the resources and circumstances of the particular employer in relationship to the cost or difficulty of providing a specific accommodation. Undue hardship refers not only to financial difficulty, but also to reasonable accommodations that are unduly extensive, substantial, or disruptive, or those that would fundamentally alter the nature or operation of the business.
- i. **Functional Limitation:** The inability to perform an action or a set of actions, either physical or mental, because of a physical or emotional restriction or limitation.

Race, ethnicity, religion, national origin, disability, age, marital status, or gender shall not be considered as factors in the recruitment, selection, and assignment of such personnel.

All instructional personnel hired by Bay District Schools are expected to meet the No Child Left Behind Highly Qualified Teacher Requirements. The District will use the High, Objective Uniform State Standard of Evaluation ("HOUSSE") as an additional method by which experienced teachers (hired before August 9, 2002) can document highly qualified status.

CHAPTER FOUR ADMINISTRATIVE AND INSTRUCTIONAL PERSONNEL

APPOINTMENTS AND REAPPOINTMENTS OF ADMINISTRATIVE PERSONNEL

4.104

All administrative personnel shall be appointed as prescribed by law.

Administrative Vacancies - The definition of an administrative vacancy is an administrative position, as determined by the position's job description and designation on the salary schedule, shown on the List of Approved District Positions or school level administrative positions and approved by the School Board. All actions regarding appointments and reappointments come through recommendation of the Superintendent and approval of the Board in accordance with Florida Statutes.

Reappointment - The Superintendent shall nominate to the Board annually those persons eligible for reappointment to positions on the List of Approved District Positions or school level administrative positions approved by the School Board. This shall be done no later than the time specified in Florida State Statutes.

Advertisements - Administrative vacancies will first be publicized in-house to give current administrators, who hold a like position, the opportunity to transfer. Administrators interested in securing a lateral transfer must indicate that interest via email to the Superintendent in the time frame established. The Superintendent may then authorize a lateral transfer or may choose to decline the transfer applicants and advertise the vacancy on the District's website. Lateral transfer requests will be brought before the School Board in conjunction with the monthly personnel recommendations.

In the event that the Superintendent exercises his or her option to decline all transfer applicants and advertise the vacancy on the district website and other appropriate venues, the Superintendent or his/her designee shall screen all applicants as to their eligibility for meeting the position requirements.

Eligibility – All applicants shall be required to complete an application pursuant to the Procedures for Selecting School-Based Administrators, which is updated annually and maintained by the Executive Director of Human Resources and available online or at the office of Human Resources.

Applicants are responsible for providing electronic applications, resumes and supervisors' rating forms (all available online and through the office of Human Resources) to the Executive Director of Human Resources or designee before the deadline established on the announcement of administrative position vacancy. No responsibility will be assumed by this office for application packets delivered after the deadline.

The Executive Director or designee shall make a preliminary determination if each applicant meets the qualifications established for the position and published in the announcement of administrative position vacancy. The Applicant may be required to furnish additional supporting documentation he/she may feel appropriate to ascertain qualifications for a position.

In the event an applicant fails to demonstrate that he/she meets the established qualifications, notification will be provided. On request of the applicants, the application shall remain on file for future vacancies. This shall not eliminate the requirement for the applicant to apply for these future vacancies, but will eliminate the necessity of a newly-completed application.

Unsuccessful applicants shall be timely notified in writing of the action.

CHAPTER FOUR ADMINISTRATIVE AND INSTRUCTIONAL PERSONNEL

Interviews - Applicants who meet the minimum qualifications will then be ranked according to pre-qualifying scores and the top five will be scheduled for interviews. If less than five qualifying applicants apply, or remain after pre-qualifying is complete, the Superintendent may elect to interview the applicants individually or may decide to re-advertise the position. Additionally, the Superintendent, at his or her sole discretion, may consider and interview a candidate who meets or exceeds the minimum credentials required, but who may not have had prior access to district-based qualifying procedures.

The Superintendent or designee shall establish a diverse committee composed of not less than five members, one of whom shall be a minority, who will interview all qualified applicants. The Executive Director of Human Resources shall serve as a non-voting consultant and secretary to the committee.

The interview committee shall evaluate each applicant on the basis of his/her application packet and personal interview utilizing the forms and criteria for selection approved by the Superintendent.

The interview committee will forward, to the Superintendent, three names for consideration and the Superintendent will make the final recommendation to the School Board.

Nominations and Appointments - The Superintendent will make his/her final selection from the submitted recommendation and nominate the name of the successful applicant to the Bay District School Board for approval; or the Superintendent may reject the applicants and select another five to be interviewed or may re-advertise the position.

The Board shall act upon each name submitted by the Superintendent and approve a nominee for each position, unless rejected for cause, in accordance with Florida State Statutes.

1. School principals
2. School assistant principals

DRUG FREE WORK PLACE

5.116

The Bay County School Board's policy is to employ a work force free from use of illegal drugs and abuse of alcohol, at any school function, either on or off the job. Any employee determined to be in violation of the policy by participating in unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is subject to disciplinary action which may include termination. It is a standard of conduct of employees of the Bay County School Board that employees shall not use illegal drugs or abuse alcohol. In order to maintain this Standard, the School Board shall establish and maintain the programs and rules set forth below.

General Procedures. An employee reporting for work visibly impaired and unable to properly perform required duties will not be allowed to work. If possible, the employee's supervisor should first seek another supervisor's opinion to confirm the employee's status. The supervisor should then consult privately with the employee to determine the cause of the observation, including whether substance abuse has occurred. If, in the opinion of the supervisor, the employee is considered impaired, the employee should be sent home or to a medical facility by taxi or other safe transportation alternative. The employee may be accompanied by the supervisor or another employee. Under the terms of these procedures any employee deemed to be visibly impaired and unable to properly perform required duties may be referred for prosecution to the proper law authorities.

Pre-employment Drug Abuse Screening. The Bay County School Board may conduct pre-employment screening examinations designed to prevent hiring individuals who use illegal drugs or individuals whose use of legal drugs indicates a potential for impaired or unsafe job performance.

Current Employee Drug and Alcohol Abuse Screening. The Bay County School Board will maintain screening practices to identify employees who use who use illegal drugs or abuse alcohol on the job. It shall be a condition of continued employment for all employees to submit to drug screening when there is a reasonable suspicion to believe that an employee is using an illegal drug, or is already abusing or has used any drug or alcohol.

In compliance with the Drug Free Workplace Act of 1988, 34 CFR 85 Subpart F., any employee convicted for a violation occurring in the workplace must notify the District school Superintendent of any criminal drug statute conviction in the workplace no later than five (5) days after the conviction. The appropriate federal agency will be notified within ten (10) days after receiving notice from the employee or otherwise of receiving actual notice of such conviction. The District will take one of the following actions within thirty (30) days of such conviction:

1. Take appropriate personnel action against an employee, up to and including termination; or
2. Require such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by federal, state, or local health, law enforcement, or other appropriate agency.

Grounds for Termination or Discipline.

1. Drug Abuse. An employee will be considered guilty of misconduct and subject to discipline, including discharge or suspension without pay from employment, if he/she brings onto the District's premises or property, has possession of, is under the influence of, possesses in the employee's body blood, or urine in any detectable amount, uses, consumes, transfers, sells or attempts to sell or transfer any form of illegal drug as defined above while on District business or at any time during the hours between the beginning and ending of the employee's work day, whether on duty or not, and whether on District

business property or not. Failure to submit to required medical or physical examinations or tests is misconduct and considered grounds for discharge or suspension without pay from employment.

2. Alcohol Abuse. An employee who is under the influence of alcoholic beverages at any time during the hours between the beginning and ending of the employee's work day, shall be guilty of misconduct and is subject to discipline including discharge or suspension without pay from employment. PURCHASING POLICIES AND BIDDING

6.101

The purchase of products and services by Bay District Schools shall be authorized by state law and must be in accordance with procedures prescribed by the school board.

I. Definitions

- A. The term “competitive solicitation” shall be defined for the purposes of this policy to include purchases made through the issuance of an invitation to bid, request for proposals, and invitation to negotiate.
- B. “Invitation to bid” shall be defined for the purposes of this policy as a written solicitation for competitive sealed bids. The invitation to bid is used when the district is capable of specifically defining the scope of work for which a contractual service is required or when the district school board is capable of establishing precise specifications defining the actual commodity or group of commodities required. A written solicitation includes a solicitation that is publicly posted. Each bid shall be awarded on the basis of the lowest and best bid which meets specifications with consideration being given to the specific quality of the product, conformity to the specifications, suitability to school needs, delivery terms, and service and past performance of the vendor.
- C. The term “request for proposals” shall be defined for the purposes of this policy as a written solicitation for competitive sealed proposals. The request for proposals is used when it is not practicable for the district to specifically define the scope of work for which the commodity, group of commodities, or contractual service is required and when the district is requesting that a responsible vendor propose a commodity, group of commodities, or contractual service to meet the specifications of the solicitation document. The request for proposals includes a list of specific evaluation criteria which shall serve as the basis for the award. A written solicitation includes a solicitation that is publicly posted.
- D. “Invitation to negotiate” shall be defined for the purposes of this policy as a written solicitation for competitive sealed replies to select one or more vendors with which to commence negotiations for the procurement of commodities or contractual services. The invitation to negotiate is used when the district determines that negotiations may be necessary for it to receive the best value. A written solicitation includes a solicitation that is publicly posted.
- E. The term “Request for Quotation (RFQ)” shall be defined for the purposes of this policy as a written request for competitive quotes. This procurement method is used when the purchase total is between \$25,000 and the amount established by law for competitive solicitations when the district is capable of specifically defining the scope of work for which a contractual service is required or when the district is capable of establishing precise specifications defining the actual commodity or group of commodities required. A written solicitation includes a solicitation that is publicly posted. Each RFQ shall be awarded on the basis of the lowest and best bid which meets specifications with consideration being given to the specific quality of the product, conformity to the specifications, suitability to school needs, delivery terms, and service and past performance of the vendor.
- F. The term “grants” shall be defined for the purposes of this policy as a grant award contribution, gift, or subsidy (in cash or in-kind services) bestowed by a government, foundation or other funding organization (called the grantor) for specified purposes to an eligible recipient (called the grantee). Grants are usually conditional upon certain qualifications as to the use; maintenance of specified standards, use of specified or approved vendors and/or products and may or may not require proportional (matching) contribution by the grantee or other grantor(s).

CHAPTER SIX BUSINESS AFFAIRS

- G. The term “proposer” shall be defined for the purposes of this policy to include those vendors submitting bids or responses to a competitive selection.
- H. “Reverse auctions” shall be defined as an innovative technology tool used to drive down the prices of commodities and contractual services. Real time, on-line bidding ends at a specified time or when cost becomes too low for profit.
- I. The term “superintendent” shall be defined for the purposes of this policy to mean “superintendent or designee”.
- J. Local Business definition. For purposes of this section, “Local Business” shall mean a business which:
 - 1. has had a fixed office located in and having a street address within Bay County for at least twelve (12) months immediately prior to the issuance of the request for competitive bids or request for proposals by the District, said office shall operate and perform business on a daily basis consisting of a minimum staff requirement of one (1) office personnel and a company owner or business manager for a minimum of a standard full time work week defined as thirty (30) hours or more a week; and

 - 3. if applicable, holds any business license required by Bay County, and, if applicable, a municipality within Bay County for at least twelve months immediately prior to the issuance of the request for competitive bids or for request for proposal by the District.

II. Authority

- A. The superintendent is authorized to expend monies for purchases of commodities and contractual services where the total amount does not exceed the maximum amount allowed by law that may be purchased without the bid process and which otherwise would be exempt from bidding by state law. The purchases are not to exceed the applicable appropriation in the district’s budget and shall be made in accordance with Board policy.
- B. Assistants functioning under the superintendent’s direction may be authorized to perform these purchasing tasks. Assistants under this policy include the CFO, General Manager of Purchasing, Contracting & Materials Management (GM of Purchasing), and the Purchasing Agent. No person, unless authorized to do so under the policy of the district school board, may make any purchase or enter into any contract involving the use of district and/or school funds, including internal accounts. No expenditures for any such unauthorized purchase or contract shall be approved by the school board. The payment for any unauthorized purchase or contract shall be the sole responsibility of the person placing the order or entering into such contract.
- C. Before making any purchase of commodities or contractual services, which the superintendent is authorized by the school board to make, or before recommending any purchase to the board, the superintendent shall, insofar as possible, propose standards and specifications. The superintendent shall see that all purchases and contracts conform to those standards and specifications, and shall take other such steps as are necessary to see that maximum value is being received for any money expended.

CHAPTER SIX BUSINESS AFFAIRS

- D. The following standards for acquiring commodities and contractual services will be established by the district at the following dollar limits:

1. Small Purchases (up to \$12,499.99)

Goods and services under \$12,499.99 are purchased on the open market. The superintendent has the authority to make these purchases in the District's best interest. Small purchases may be made using published pricing taking into consideration any known discounts, special promotions, etc., or may be made using the informal bid process unless the purchase is exempted from bidding by law, rule, or School Board Policy. Informal bids may be obtained in writing, verbally, by facsimile, by email, or by telephone followed by written confirmation. Small purchases require the approval of the CFO, or, the GM of Purchasing, or the Purchasing Agent. The District's purchasing card is encouraged for all expenditures as outlined in the Purchasing Card Users Manual.

2. Informal Quotes (\$12,500.00 to \$24,999.99)

Goods and services from \$12,500.00 to \$24,999.99 are purchased after attempting to secure a minimum of three (3) written quotes from selected vendors. Informal quotes may be obtained in writing, verbally, by facsimile, by email, or by telephone followed by written confirmation. Purchases resulting from informal quotes require the approval of the Superintendent, or, the CFO, or, the GM of Purchasing.

3. Requests for Quotation (RFQ) (\$25,000.00 to \$49,999.99)

Goods and services from \$25,000.00 to \$49,999.99 are purchased after requesting a formal Request for Quotation. The Purchasing Department shall seek to obtain written competitive quotes from a minimum of three (3) qualified vendors. The Purchasing Department will review the responses and select the lowest and best responsive and responsible quotation received. Purchases resulting from requests for quotations require the approval of the Superintendent.

4. Requests for Formal Sealed Competitive Solicitations (amounts over the dollar limit allowed by law)

Purchases for amounts exceeding the maximum amount allowed by law are acquired through formal sealed competitive solicitations, with the exception of sole (single) source vendors, emergency purchases, or other purchases which are expressly exempted from the competitive solicitation process by law (see Section V – Exceptions to Competitive Solicitations).

Formal sealed competitive solicitations will be reviewed and approved by a committee consisting of the CFO, GM of Purchasing, Asst Purchasing Agent, a representative of the originating school/department, and others appointed by the Superintendent prior to publication.

For request for proposals, the GM of Purchasing or Purchasing Agent shall chair the evaluation committee and determine the responsiveness of proposers. They will not be voting members. The voting members of the evaluation committee shall consist of a representative of the originating school or department, and at least two others appointed by the Superintendent.

- E. Emergency Purchases: In an emergency situation, the superintendent shall have the authority to waive established procedures for purchases. Staff must present written documentation for the superintendent indicating the reason the purchase was deemed an emergency. Each emergency purchase in an amount exceeding the bid threshold amount shall be followed with a report to the Board at its next meeting of the nature of the emergency, the action taken and explanation of why regular bid procedures described herein would have caused a delay which would have been contrary to the public interest.

CHAPTER SIX BUSINESS AFFAIRS

Any member of Beacon's administrative staff may execute these agreements. All of the agreements shall contain a clause specifying the procedure and time table for terminating, without penalty, the agreement

- A. Insofar as practicable, all purchases shall be based on contracts, purchasing card systems, electronic procurements, or purchase orders. Within the limits prescribed by the Board, the Superintendent shall be authorized to approve purchases under rules set by the Board, provided that in so doing, he or she shall certify that funds to cover the expenditures are authorized by the budget and have not been encumbered.
- B. Each requisition or contract for commodities or contractual services shall be properly financed, budgeted and encumbered prior to the issuance of a purchase order. The purchase order shall be approved by the superintendent. The acquisition of the commodities or contractual services shall not precede the requisition date.
- C. Splitting of Requisitions and/or Purchase Orders: Requisitions/purchase orders for the procurement of commodities or contractual services may not be divided so as to avoid the monetary threshold requirements set by law or policy.
- D. The Superintendent may utilize any appropriate electronic methods, such as purchasing cards, to purchase commodities and contractual services as deemed to be in the best interest of the district and consistent with other parts of this policy. The Superintendent is authorized to obtain and issue purchasing cards to personnel of the District for this purpose. All card transactions will be in accordance with the Bay District Schools Purchasing Card Program Policies and Procedures Manual ("Credit Card Manual"). Any transaction made by a credit cardholder in violation of School Board policy or the Credit Card Manual shall become the personal obligation of the credit cardholder, requiring immediate reimbursement to the District of any such transaction.
- E. In addition to the traditional competitive bid methods, reverse electronic auctions, (eAuctions) may be used to acquire commodities or services when it is advantageous for the district and significant cost savings may be realized.
- F. Multi-year purchase agreements. - G. The Superintendent shall develop a competitive procurement plan for the purchases of food and non-food supply items for use in the School Food Service program. The plan shall contain procedures to ensure that all foods purchased conform with the Federal Food, Drug and Cosmetic Act, the Federal Meat Inspection Act, and the Meat Inspection Law of Florida. Purchases of equipment items and professional services for the Food Service program shall be subject to the same requirements prescribed herein for all other purchases.

A. Maintenance of the Bidders List:

1. The Purchasing Department shall maintain a list of all potential bidders by category of commodity or service and shall include the names of all persons or firms that requested placement on the list.
2. Should a vendor fail to respond to a request for bid or proposal, the Purchasing Department may remove that vendor's name from the bid mailing list, for future bids concerning that commodity.
3. The GM of Purchasing may remove the name of any person or firm from the list based upon prior documented unsatisfactory experience with the person or firm. However, the person or firm may apply to the GM of Purchasing for reinstatement to the vendor list after being removed for one (1) year. The decision regarding reinstatement shall be at the discretion of the GM of Purchasing.

B. Competitive solicitations shall be requested by the superintendent from a minimum of three (3) sources for any authorized purchase or contract for services exceeding the maximum amount allowed by law, which are not otherwise exempt from bidding by Florida law.

C. Public Inspection and Copying of Bids shall be in accordance with section 119.07 et. seq., Florida Statutes. Bids and proposals shall be made available for public inspection by the GM of Purchasing on the posting date and/or 10 days after bid or proposal opening, whichever is earlier, unless such documents are exempt under section 119.07 et. seq., Florida Statutes. D. The School Board shall have the authority to reject any or all bids and proposals submitted in response to any competitive solicitation and to request new bids and proposals or to purchase the required commodities or contractual services in any other manner as authorized in this policy.

E. In acceptance of responses to competitive solicitations, the district may accept and award contracts to one or more responsive, responsible proposers in accordance with the selection criteria published in the solicitation. As an alternative, the School Board may also choose to award contracts to the lowest responsive, responsible bidder(s) as the primary awardee of a contract and to the next lowest responsive, responsible bidder(s) as alternate awardees from whom commodities or contractual services would be purchased should the primary awardee become unable to provide all the commodities or contractual services required by the district during the term of the contract. Nothing herein is meant to prevent multiple awards to the lowest responsive and responsible bidders when such multiple awards are clearly stated in the bid solicitation documents.

F. A bidder may not withdraw a bid for any reason after the time of award of bids. If a bidder wishes to withdraw their bid before the award of the bid, he/she shall submit a written request to the GM of Purchasing giving reasons for the desired bid withdrawal. If recommended by the GM of Purchasing, the request to withdraw will be submitted to the Superintendent for consideration. If approved by the Superintendent, the bid bond, if applicable, shall be returned to the bidder. The GM of Purchasing will report bid withdrawals to the Board.

G. Integrity of the Award Process - Once a competitive solicitation is released, no bidder or individuals acting on behalf of the bidder shall lobby District personnel or School Board members.

CHAPTER SIX BUSINESS AFFAIRS

- H. Lobbying School Board members or District personnel may result in rejection/disqualification of said solicitations. For purposes of this policy, "lobbying" is defined as any action taken by an individual, firm, association, joint venture, partnership, syndicate, corporation and all other groups who seek to influence the governmental decision of a Board member or District personnel after the release of the solicitation and prior to time that an award recommendation is posted. Communications with the Purchasing Department regarding clarifications of solicitation terms, conditions, or specifications will not be considered as "lobbying".
- I. If identical low and best bids are submitted the following criteria shall be utilized to determine which vendor shall be recommended for the awarding of the bid.
 - 1. In-county preference.
 - 2. Company receiving larger dollar award of the bid.
 - 3. Coin toss.
- J. Except for construction, renovation or capital improvement projects, the Superintendent is authorized to approve increases in the original amount of the bid awarded by the Board up to the formal bid threshold amount when required due to increases in the quantity needed as long as the increase does not exceed the applicable appropriation in the District budget.

V. Exceptions to Competitive Solicitations

The District may waive the requirements for competitive solicitations or quotes for the purchase or acquisition of commodities and contractual services stated below, and/or in the following circumstances:

- A. Educational Materials: Educational services and any type of copyrighted materials including, without limitation, educational tests, textbooks, printed instructional materials, computer software, films, film strips, videotapes, dvds, disc or tape recordings, digital recordings, or similar audio-visual materials, and for library and reference books and printed library cards where such materials are purchased directly from the producer or publisher, the owner of the copyright, an exclusive agent within the state, a governmental agency or a recognized educational institution.
- B. Emergency Purchases: The superintendent may dispense with requirements for competitive solicitations when he or she determines in writing that an immediate danger to the public health, safety, or welfare, or other substantial loss to the district requires emergency action. After the superintendent makes such a written determination, the district may proceed with the procurement of commodities or contractual services necessitated by the immediate danger, without competition. However, such emergency purchases shall be made by obtaining pricing information from at least two (2) prospective vendors, which must be retained in the contract file, unless the superintendent determines in writing that the time required to obtain pricing information will increase the immediate danger to the public health, safety, or welfare or other substantial loss to the district.
- C. Funds Handled in Trust for Individuals: Purchases made from funds handled in trust for individuals, such as purchases of class jewelry, school annuals, cards, and invitations, insignia, caps and gowns, etc., are exempt from requirements relative to purchasing.
- D. Grants or State or Federal Agency Contracts: A contract for commodities or contractual services may be awarded without competitive solicitations if state or federal law, a grant or a state or federal agency contract prescribes with whom the district school board must contract or if the rate of payment is established during the appropriations process.
- E. Information Technology Resources: The District when acquiring, whether by purchase, lease, lease with option to purchase, rental or otherwise, information technology as defined in section 282.0041(11), Florida Statutes, may make any acquisition through the competitive solicitation process

CHAPTER SIX BUSINESS AFFAIRS

as described herein or by direct negotiation and contract with a vendor or supplier, as best fits the needs of the district as determined by the school board.

- F. Insurance and Risk Management: Except as otherwise required by statute, the school board when purchasing insurance, entering risk management programs, or contracting with third party administrators, may make any such acquisitions through the competitive solicitation process as described herein or by direct negotiations and contract.
- G. No Response(s) Received From Solicitations: The requirements for requesting competitive solicitations for commodities and contractual services from three (3) or more sources is hereby waived, as authorized by section 1010.04(4)(a), Florida Statutes, and the superintendent may enter into negotiations with suppliers of such commodities and contractual services and shall have the authority to execute contracts with such vendors under whatever terms and conditions the District determines to be in its best interest, when the following conditions are met:
 - 1. Competitive solicitations have been requested in the manner prescribed by this policy, and
 - 2. The School Board has made a finding that no valid or acceptable firm proposal has been received within the prescribed time.
- H. Purchases Under Other Contracts:
 - 1. The District shall have the option to purchase under current contracts as may be established in which the purchasing agent for any public agency is authorized by law to make purchases for the benefit of other government agencies within the county at specified prices or below, if such purchase is to the economic advantage of the School Board, subject to the conformance of the items of purchase to the standards and specifications prescribed by the Superintendent.
 - 2. The District may, in lieu of requesting competitive solicitations from three (3) or more sources, make purchases at or below the specified prices from contracts awarded by other city or county governmental agencies, other district school boards, community colleges, federal agencies, public or governmental agencies of any state, state university systems, or other cooperative agreements, when the proposer awarded a contract by another entity defined herein will permit purchases by the School Board at the same or better terms and conditions, and prices at or below those awarded in such contract, and such purchases would be to the economic advantage of the Board.
 - 3. The District shall receive and give consideration to the prices available to it under rules of the Department of Management Services, Division of Purchasing. The district may use prices established by the Division of Purchasing through its state purchasing agreement price schedule with the same or better terms and conditions, for use by those imposed on state agencies.
 - 4. Purchases made in accordance with the provisions of other contracts that exceed the threshold amount established by Florida Board of Education Rule 6A-1.012 may be made and reported to the School Board at the next regular meeting.
- I. Pool Purchases: Competitive solicitations are not required for purchases made through the pool purchase provisions of section 1006.27, Florida Statutes.

CHAPTER SIX BUSINESS AFFAIRS

- J. Food & Food Products, Except Milk: may be purchased without competitive solicitations. Milk may be exempt under the following conditions: (a) The district has made a finding that no valid or acceptable firm bid has been received within the prescribed time; or (b) The district has made a finding that an emergency situation exists and may enter into negotiations with suppliers of milk and shall have the authority to execute contracts under whatever terms and conditions as the board determines to be in the best interest of the school system. Procedures shall be established to assure that all food purchased conforms to the federal food, drug and cosmetic act, the federal meat inspection act, and the meat inspection law of Florida, and any other federal or state safeguards relating to wholesomeness of specific items being purchased.
- K. Professional Services: which shall include, without limitation, artistic services; academic program reviews; lectures by individuals; auditing services not subject to section 218.391, Florida Statutes; legal services, including attorney, paralegal, expert witness, court reporting, appraisal or mediator services; and health services involving examination, diagnosis, treatment, prevention, medical consultation or administration; and other services for which selection procedures are provided by law or other School Board Policy. Architectural, engineering, architectural landscaping, land surveying and mapping services shall meet requirements of Section 6.102.
- L. Single Source Suppliers
 - 1. Commodities or contractual services available only from a single source may be exempted from the competitive solicitation requirements when the school district believes that the commodities and contractual services are available only from a single source. The district shall electronically or otherwise publicly post a description of the commodities or contractual services sought for a minimum of seven (7) business days. The description must include a request that prospective vendors provide information regarding their ability to supply the commodities or contractual services described, and
 - 2. If it is determined, in writing by the district, after reviewing any information received from prospective vendors, that the commodities or contractual services are available only from a single source, the district shall provide notice of its intended decision to enter a single source contract in the manner specified in section 120.57(3), Florida Statutes, and may negotiate on the best terms and conditions with the single source vendor.
- M. Sole Proposals: If less than two (2) responsive proposals for commodity or contractual services are received, the district may negotiate on the best terms and conditions, or may elect to reject all proposals. The district shall document the reasons that negotiating terms and conditions with the sole proposer is in the best interest of the district in lieu of resoliciting proposals.
- N. Utilities or Governmental Franchised Services: A contract for regulated utilities or government franchised services may be awarded without competitive solicitations.

VI. Conflict of Interest

The provisions of Board Policy Section 3.132 and Fla. Stat. 112.313 shall apply regarding conflict of interest. Any violation of these provisions by a school board employee may be grounds for disciplinary action.

CHAPTER SIX BUSINESS AFFAIRS

Local Preference in Purchasing.

(a) Preference in bidding. In purchasing of, or letting of contracts for procurement of, personal property, materials, or contractual services, including construction bids, through formal sealed competitive solicitations, the School District may give a preference to local businesses in making such purchase or awarding such contract, as follows:

1. Individuals or firms which have a home office located within Bay County, and which meet all of the criteria for Local Business as set forth in this policy, shall have the opportunity to submit to match the price(s) offered by the overall lowest, qualified and response non-local bidder if their bid is within five percent (5%) of the overall lowest, non-local price.
2. Individuals or firms which do not have a home office located within Bay County, and which meet all of the criteria for a Local Business as set forth in this policy, shall have the opportunity to submit to match the price(s) offered by the overall lowest, qualified and response non-local bidder if their bid is within three percent (3%) of the overall lowest, non-local price.

(b) Preference in request for proposals. In purchasing of, or letting of contracts for procurement of, personal property, materials, or contractual services for which a request for proposal is developed with evaluation criteria, a local preference of the total score may be assigned for a Local Business by adjusting the total score of the qualifying Local Business, as follows:

1. Individuals or firms which have a home office located within Bay County and which meet all of the criteria for a Local Business as set forth in this policy, shall be given a preference in the amount of five percent (5%).
2. A qualified and responsive Local Business that does not have a principal place of business located within Bay County, and which meets all of the criteria for a Local Business, shall be given preference in the amount of three percent (3%).

(c) Notice. Both bid documents and request for proposal documents shall include notice to vendors of the local preference policy. Notice by a Local Business of its offer to match a bid under this policy must be delivered in writing to the Board within seventy-two (72) hours of the posting of the bid tabulation on the District website.

(d) Certification. Any vendor claiming to be a Local Business as defined herein, shall so certify in writing to the purchasing department. The certification shall provide all necessary information to evidence that the vendor meets the requirements to qualify as a Local Business. The Board shall be immediately notified in writing of any changes in the vendor's status as a Local Business. The purchasing department shall not be required to verify the accuracy of any such certifications and shall have the sole discretion to determine if a vendor meets the definition of a Local Business.

(e) Exception. For a competitive solicitation for construction services in which 50 percent or more of the cost will be paid from state-appropriated funds which have been appropriated at the time of the competitive solicitation, no local preference will be applied.

CONTRACTS FOR ARCHITECTURAL, ENGINEERING, ARCHITECTURAL LANDSCAPING, AND LAND SURVEYING AND MAPPING SERVICES

6.102

In order to fully comply with the requirements of § 287.055, Fla. Stat., the following procedures shall be followed in selecting firms to provide professional architectural, engineering, architectural landscaping, and land surveying and mapping services, and in negotiating contracts for such professional services. Design professionals that are contracted for work with Bay District Schools must provide certificates of professional liability insurance for a minimum coverage of \$1,000,000 per occurrence and \$2,000,000 for annual aggregate.

A. Definitions.

1. "Professional services" means those services within the scope of practice of architecture, professional engineering, landscape architecture, or registered surveying and mapping, as defined by laws of the State of Florida or those performed by any architect, landscape architect, professional engineer, or registered land surveyor, or in connection with this professional employment or practice.
2. "Firm" means any individual, firm or partnership, corporation, association or other legal entity permitted by law to practice architecture, engineering, landscape architecture, or land surveying and mapping in the State of Florida.
3. "Compensation" means the total amount paid by the School Board for professional services.
4. "Professional Services Selection Committee" means the committee composed of Executive Director of Operations, the Director of Facilities, the Supervisor of Maintenance, the Purchasing Agent, and a member assigned by the chairperson of the Board. The person assigned to the PSSC by the chairperson of the Board, shall be a member of the Citizens Oversight Committee if the project for which the services are being selected is to be funded with proceeds from the half-cent sales tax. For projects not funded with proceeds from the half-cent sales tax, the chairperson of the Board shall select any interested party. The School Board Member assigned to the Facilities Department by the chairperson of the Board will also participate in all competitive selection procedures but will not have a vote.
5. A "continuing contract" is a contract for professional services entered into in accordance with all the procedures of this act between an agency and a firm whereby the firm provides professional services to the agency for projects in which the estimated construction cost of each individual project under the contract does not exceed \$4 million, for study activity if the fee for professional services for each individual study under the contract does not exceed \$500,000, or for work of a specified nature as outlined in the contract required by the agency, with the contract being for a fixed-term or with no time limitation except that the contract must provide a termination clause. Firms providing professional services under continuing contracts shall not be required to bid against one another.
6. A "design-build contract" means a single contract with a design-build firm for the design and construction of a public project.
7. "Negotiate" or any form of that word means to conduct legitimate, arms length discussions and conferences to reach an agreement on a term or price. For purposes of this section, the term does not include a flat fee schedule with no alternatives or discussion.

B. Public Announcement and Qualification Procedures.

1. At such times when the School Board finds it necessary to procure professional services, the Board shall publish a legal advertisement in a newspaper circulated in Bay County, describing the project or projects requiring professional services and defining procedures on how interested professional firms may apply for consideration by the Board. Such advertisement shall be published at least fourteen days prior to the closing date for

CHAPTER SIX BUSINESS AFFAIRS

beginning the selection process. In addition, the Board shall respond to all firms who have submitted previous written requests to be considered for such professional services.

2. The provisions of Competitive Selection Procedures and Competitive Negotiations herein shall apply only to projects and planning activities that are in excess of the thresholds set forth in §§ 287.055(3)(a)1., 287.017, Fla. Stat. Provided, however, that said provisions shall not apply in cases declared to be valid public emergencies as certified by the Chairperson of the Board, based on recommendations and data supplied by the Superintendent.
3. Any firm or individual desiring to provide professional services to the Board should first be certified by the Board as qualified pursuant to law and the regulations of the Board. The Board shall make a finding that the firm or individual to be employed is fully qualified to render the required service. Among the factors to be considered in making this finding are the capabilities, adequacy of personnel, past record, and experience of the firm or individual.
4. The evaluation process for professional services shall include, but not be limited to, capabilities; adequacy of personnel; past record; experience; location; recent, current, and projected workloads of the firms; and the volume of work previously awarded to each firm by the Board.

C. Competitive Selection Procedures.

1. Those firms who desire to provide professional services for a specific project shall submit proposals that comply with the advertisement to the Executive Director of Operations. Any firm or individual desiring to provide professional services to the Board should first be certified by the Board as qualified pursuant to law and the regulations of the Board. For each proposed project, the Professional Services Selection Committee (PSSC) composed of the Executive Director of Operations, the Director of Facilities, the Supervisor of Maintenance, the Purchasing Agent, and a member assigned by the chairperson of the Board shall evaluate each proposal to determine if the firm is qualified to perform the services and, if so, whether the proposal complies with the advertisement. The person assigned to the PSSC by the chairperson of the Board, shall be a member of the Citizens Oversight Committee if the project for which the services are being selected is to be funded with proceeds from the half-cent sales tax. For projects not funded with proceeds from the half-cent sales tax, the chairperson of the Board shall select any interested party. The School Board Member assigned to the Facilities Department by the chairperson of the Board will also participate in all competitive selection procedures but will not have a vote.
2. If more than three firms are deemed to meet the requirements of the advertisement and qualified to perform the services, the PSSC will short list to no less than three firms to make a public presentation regarding their qualifications, approach to the project, and ability to furnish the required services.
3. The PSSC shall select in order of preference no fewer than three firms deemed to be the most highly qualified to perform the required services. In determining whether a firm is qualified, the PSSC shall consider such factors as the ability of professional personnel; whether a firm is a certified minority business enterprise; past performance; willingness to meet time and budget requirements; location; recent, current, and projected workloads of the firms; and the volume of work previously awarded to each firm by the Board, with the object of effecting an equitable distribution of contracts among qualified firms, provided such distribution does not violate the principle of selection of the most highly qualified

CHAPTER SIX BUSINESS AFFAIRS

firms. The PSSC may request, accept, and consider proposals for the compensation to be paid under the contract only during competitive negotiations as described below.

D. Competitive Negotiations.

1. Upon selection of the three most qualified firms by the PSSC, the PSSC shall negotiate a contract for professional services for a project with the firm which has been determined to be the most qualified. The PSSC shall concurrently provide a detailed analysis of the entire scope of the work to be done for the Board and shall also outline all professional services desired.
2. Should the PSSC be unable to negotiate a satisfactory contract with the firm considered to be the most qualified at a compensation that the PSSC determines to be fair, competitive, and reasonable, negotiations with that firm shall be formally terminated. The PSSC shall then initiate negotiations with the second most qualified firm. Failure to negotiate a contract with the second most qualified firm shall also terminate negotiations with said firm, and the PSSC shall then initiate negotiations with the third most qualified firm.
3. Should the PSSC be unable to negotiate a satisfactory contract with any of the selected firms, additional firms shall be selected and negotiations shall be continued until an agreement is reached as per procedure outlined in the Competitive Selection Procedures above.
4. The Committee shall recommend to the Board the firm or person to be retained and the fee to be paid. The Committee shall have no authority to contractually obligate the Board. The Board may (by majority vote) either accept or reject the Committee's recommendation. If the recommendation is rejected, the Board shall then proceed on its own with the competitive selection and negotiations under § 287.055, Fla. Stat.

E. Nonexclusion of Public.

The public shall not be excluded from any proceedings under this rule.

F. Truth in Negotiations.

For all lump sum or fixed fee professional negotiation contracts exceeding the threshold set forth in §§ 287.055(5)(a), 287.017, Fla. Stat., the Board shall require the firm receiving the contract to execute a Truth in Negotiations Certificate stating that wage rates and other factual unit costs supporting the compensation are accurate, complete and current at the time of the award of the contract. Any professional service contract under which such a certificate is required shall contain a provision that the original contract price and any additions thereto shall be adjusted to exclude any significant sums where the Board determines the contract price was increased due to inaccurate, incomplete or noncurrent wage rates and other factual unit costs. All such contract adjustments shall be made within one year following the end of the contract.

G. Contingency Fees.

The firm to which the contract is awarded shall warrant and the contract shall provide that it has not employed or retained any company or person, other than a bona fide employee working solely for the firm, to solicit or secure this agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the firm, any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from the award of the contract for professional services.

CHAPTER SIX BUSINESS AFFAIRS

H. Written Agreement.

Each purchase of professional or technical services as provided herein shall be evidenced by a written agreement embodying all provisions and conditions of the purchase and executed prior to the rendering of any service under the agreement except in cases of valid emergencies certified by the Board.

The written agreement shall include, but not be limited to, a provision that bills for fees or other compensation for services or expenses for professional or technical services shall be submitted in detail sufficient for proper pre-audit and post-audit thereof and that bills for any travel expenses shall be submitted and paid in accordance with the rates specified in § 112.06, Fla. Stat. and these rules governing payments by the Board for travel expenses.

SCHOOL CONSTRUCTION BID PROCEDURES

6.103

All applicable laws and School Board rules shall be observed in all construction bid procedures. All construction or capital improvement bids shall be accompanied by evidence that the bidder holds an appropriate certificate or license or that the prime contractor has a current valid license.

Prequalification of Contractors. The Board shall prequalify contractors on an annual basis or for a specific project. This section is applicable to bids, construction management, design build, and any other construction services application.

Selection Process. Those contractors desiring to bid on Board projects must be prequalified annually or for specific projects and shall submit their application to the Board's Professional Services Selection Committee.

The Board's Professional Services Selection Committee shall review and evaluate applications and make recommendations for type of project, dollar volume, and limits allowed within the scope of the prequalification and make recommendations to the Superintendent. The Superintendent shall present to the Board a written evaluation along with supporting documentation and the Committee's recommendations.

The Board, within 60 days of receipt of the Committee's recommendations, shall approve or reject each application based on criteria established in State Requirements for Educational Facilities 4.1(8).

The Board may reject any application that contains inaccurate information.

The Board may allow contractors to request a revision of their prequalification status at any time they believe the dollar volume of work under contract or the size and complexity of projects should be increased if experience, staff size, staff qualifications and other pertinent data justify the action.

Application. Each contractor, firm or person requesting prequalification shall submit an application. The application shall include the following:

1. Detailed information setting forth the applicant's competence, past performance, experience, financial resources, and capability, including a Public Entity Crime statement, and references.
2. Audited financial information current within the past 12 months, such as a balance sheet and statement of operations, and bonding capacity. The requirement for financial information may be satisfied by the contractor providing written verification of the contractor's bonding capacity.
3. General information about the contractor company, its principals, and its history, including state and date of incorporation, regardless of whether the contractor is resident or non-resident of the geographic area served by the Board.
4. Contractor trade categories and information regarding the state and local licenses and license numbers held by the applicant.
A list of projects completed within the last five (5) years, including dates, client, approximate dollar value, size, and reference name for each project.
5. Certificates of insurance confirming current workers' compensation, public liability and property damage insurance as required by law.
6. A list of all pending litigation and all litigation within the past five (5) years, including an explanation of each. Litigation initiated by the contractor to protect the contractor's legal rights shall not be used as a basis for rejecting prequalification.
7. The completed application and financial information shall be attested to and signed by an authorized officer of the company, the owner, or sole proprietor, as appropriate, and the signature shall be notarized.

CHAPTER SIX BUSINESS AFFAIRS

When two (2) or more prequalified contractors wish to combine their assets for a specific project, they may do so by filing an affidavit of joint venture. Such affidavit shall be valid only for that specific project.

Certificates. Upon approval of the application, the Board shall issue a certificate valid for one (1) year or the specific project. The certificate shall include information specified by Florida law.

Renewal. Certificates not for a specific project shall be reviewed annually. Financial statements or written verification of bonding capacity on file with the Board shall be updated annually. Failure to submit a new state or verification of bonding capacity, after at least 30 days written notice by the Board, shall automatically revoke a prequalification certificate.

Suspension or Revocation. The Board may, for good cause, suspend a contractor for a specified period of time or revoke the prequalification certificate. Causes for suspension or revocation shall include, but not be limited to one or more of the following:

1. Inaccurate or misleading statements included in the application.
2. Declared to be in default by the Board.
3. Adjudged to be bankrupt.
4. Performance, in connection with contract work, becomes unsatisfactory to the Board based on the Board asserting and recovering liquidated damages in an action against the contractor.
5. Payment record, in connection with the contract work, becomes unsatisfactory to the Board based on the contractor's failure to comply with the Construction Prompt Payment Act.
6. Becomes delinquent on a construction project pursuant to these rules.
7. Contractor's license becomes suspended or is revoked.
8. No longer meets the uniform prequalification requirements criteria established herein.

Appeal. A contractor whose application has been rejected or whose certificate has been suspended or revoked by the Board shall be given the benefit of reconsideration and appeal as follows:

1. The aggrieved contractor may, within ten (10) calendar days after receiving notification of such action, request reconsideration in writing. The contractor may submit additional information at the time of the appeal.
2. The Board shall act upon a contractor's request within 30 calendar days after the filing and shall notify the contractor of its action to adhere to, modify, or reverse its original action. The Board may request additional information to justify the reconsideration.

Delinquency. The decision to declare a contractor delinquent may only be made by the Superintendent and must be ratified by the Board at its next regular meeting following such decision by the Superintendent. A delinquent condition is determined when one (1) or more of the conditions specified in State Requirements for Educational Facilities, 4.1(8)(f) exist. Should a contractor be determined to be delinquent, after notice and an opportunity for a fair hearing, the Board shall notify the contractor and his surety, in writing, that the contractor is disqualified from bidding work with the Board as long as the delinquent status exists.

Alternative Construction Methods. The Facilities Department will consider the following factors when determining which construction method (traditional bid; design-build; construction management or negotiated contract) will be used for each project: scope of work of the project, complexity of the task, the schedule for construction, availability of skilled personnel in the local marketplace and past experience on other projects.

CHAPTER SIX BUSINESS AFFAIRS

The Facilities Department will identify and quantify the efficiency and cost effectiveness of the method selected at the completion of each project. Consideration will be given to work load, timely performance and completion, feedback from school personnel involved in the project, follow up after completion, and comparisons to state wide standards for similar positions and tasks.

Selecting A Construction Management Entity The construction management entity shall be selected pursuant to the process provided by Fla. Stat. 287.055. The construction management entity must consist of or contract with licensed or registered professionals for the specific fields or areas of construction to be performed as required by law.

The construction management entity, after being selected, will be required to offer a guaranteed maximum price (GMP) and a guaranteed completion date and will provide appropriate surety bond pursuant to Fla. Stat. 255.05 and must hold construction subcontracts.

The criteria for selecting a construction management entity shall not unfairly penalize an entity that has relevant experience in the delivery of construction projects of similar size and complexity by methods of delivery other than construction management.

The school district shall publish a legal advertisement describing the project and how construction management firms may apply for consideration. The advertisement will run three consecutive weeks and proposals will be received 7 days from the last advertisement.

The Professional Services Selection Committee shall select a construction management entity using the same process established for design professionals.

The selected construction management entity shall develop a guaranteed maximum price for Board approval using the following procedure:

- The cost of the work will be established by developing bid packages for each trade and publicly advertising for bids. A representative of the school district will be given the opportunity to attend and observe the process. The subcontracts will be awarded to the low bidder unless the construction management entity can provide justification for the use of another bidder. If the construction management entity proposes to self-perform any portion of the work, it must be documented that the District is getting a competitive price and must be approved by the Board.
- The fee and general conditions and the project contingency will be negotiated. The contingency is the construction management entity's, however if it is not all used 100% of the remainder returns to the District.
- The construction management entity will submit to the Board for their approval, a guaranteed maximum price (GMP) and a guaranteed completion date. The GMP will be based upon the cost of work supported by bid results and subcontracts and/or the latest estimates for trades not yet bid, plus the negotiated amounts for fees/general conditions and contingency. Once the trades supported by estimates have been bid, the bid results and subcontracts will be provided to the District. If the amount of the subcontract changes, a copy of the change order will be provided to the District.
- If the District is unable to negotiate an acceptable GMP, it reserves the right to bid the project or start the negotiation process again with the next highest ranked firm.

Advertising, Bidding and Awarding Contracts. Construction projects estimated to cost \$300,000 or more and electrical projects estimated to cost \$75,000 or more, shall be advertised in a local newspaper with general circulation throughout the District for a minimum of once a week for three (3) consecutive weeks. The last notice shall appear at least seven (7) day prior to the date set for bid opening. Projects estimated to cost less than \$300,000 shall be advertised for a minimum of one week. Corrections or changes to advertisement shall be in accordance with State Requirements for Educational Facilities

CHAPTER SIX BUSINESS AFFAIRS

4.2(2)(b). In addition to publication of the notice, invitation to bid shall be mailed or delivered to not less than three (3) prospective bidders. The legal notice and invitations to bid shall contain the information required by the State Requirements for Educational Facilities and needed by the prospective bidders, including:

- Project name and location.
- Brief statement describing the work.
- From whom and when contract documents are available, including deposit or charge.
- Other information such as notice of pre-bid conference, bid security, insurance, plan deposit, and the Board's intention to waive technicalities.
- Date, time and place of bid opening.
- Procedures for presenting bids.
- Conditions and terms for receiving bids.
- Procedures to be followed in opening bids and presenting to School Board.
- Conditions for awarding contracts based on bids.

Bay District School's General Conditions for Construction, as may be amended from time to time by the School Board, shall be incorporated into the bid documents for contracts over \$300,000 and for electrical projects over \$75,000. For contracts under \$300,000 the General Conditions for Construction may or may not be incorporated at the discretion of the Executive Director for Operations.

Construction Bids. Each bid shall include assurance of conformity with the Public Entity Crime Law (§287.133(2)(a) Fla. Stat.) and reference to the trench safety standard, where relevant, and written assurance that the will comply (§553.60-64, Fla. Stat.)

Bids shall be opened at the time designated in the invitation to bid. At the designated time, the Superintendent or his/her designee shall ask if all bids are in. No other bids shall be accepted and no bid may be withdrawn after the deadline. Negligence on the part of the bidder in preparing the bid shall confer no right for withdrawal after the time for opening of bids. Bids by telegram shall not be accepted nor shall any other type of bid be accepted which cannot be classified as a sealed bid. Bids received by mail shall be stamped with the time and date received by the Superintendent or his/her designee.

Bids shall be opened, read aloud, and tabulated in the presence of all persons present.

Each bid shall be accompanied by a bid bond, a certified check, or a cashier's check in an amount equal to 5% of the total amount of the bid. Failure to include such bond shall automatically disqualify the bid from further consideration.

Unless all bids are rejected by the Board for valid reasons, the contract shall be awarded to the lowest responsible bidder meeting all requirements and specifications.

Subcontractors listed in the bid shall not be replaced without cause, once the list has been opened and made public. Alternates listed in the bidding documents may be accepted at any time after the contract award by change order provided the contractor remains the low bidder on the combination of the base bid and the alternates selected.

When a construction contract has been awarded to a contractor on the basis of proper bids, payments on that contract shall be made on a monthly basis in an amount approved by the architect. This amount shall always incorporate a 10% hold back. Upon completion of the construction the final payment will be made only on the issuance of a Certificate of Occupancy, and approval of the School Board and the architect after proper inspection of the facilities.

The specifications for construction bids may not be written so as to limit any purchase of systems or materials to a specific brand or a single source of supply, unless:

- The sole source specifications have been recommended by the architect or engineer of record; and
- The Board's justifications are documented in writing, in the project file.

RESOLUTION OF PROTESTS FROM CONTRACT BIDDING PROCESS

6.104

The following procedures shall govern the resolution of protests from contract bidding procedures prior to initiation of formal or informal proceedings pursuant to Chapter 120 Florida Statutes.

The School Board shall provide notice of a decision or intended decision of a solicitation by posting the bid tabulation on the District website. This notice shall contain the following statement: Failure to file a protest within the time prescribed in section 120.57 (3) Florida Statutes, or failure to post bond shall constitute a waiver of proceeding under Chapter 120, Florida Statutes.

Upon receipt of a formal written protest, the School Board will require the protestor to post a bond amounting to:

- Twenty-five thousand dollars or 2 percent of the lowest accepted bid, whichever is greater, for projects valued over \$500,000; and
- Five percent of the lowest accepted bid for all other projects, conditioned upon payment of all costs and fees which may be adjudged against the protestor in the administrative hearing. If at the hearing the Board prevails, it shall recover all costs and attorney's fees from the protestor; if the protestor prevails, the protestor shall recover from the Board all costs and attorney's fees.

Any person who is affected adversely by the Board decision or intended decision shall file with the Board a notice of protest in writing within 72 hours after the posting of the bid tabulation on the District website, and a formal written protest within ten (10) days after the date he/she filed the notice of protest. Saturdays, Sundays, and legal holidays shall be excluded in the computation of the 72-hour time period. Failure to file a formal written protest shall constitute a waiver of proceedings under Chapter 120, Fla. Stat. The formal written protest shall contain the following:

1. Name and address of the agency affected and the agency's file number or identification number, if known;
2. The name and address of the affected party;
3. A statement of disputed issues of material fact. If there are no disputed material facts, the petition must so indicate;
4. A concise statement of the ultimate facts alleged and of the rules, regulations, statutes and constitutional provisions entitling the affected party to relief;
5. A demand for the relief to which the affected party deems him/herself entitled; and
6. Such other information as the affected party deems to be material to the issue.

Upon receipt of a formal written protest which has been timely filed and the posting of the required bond, the Board shall stop the bid solicitation process or the contract award process until the subject of the protest is resolved by final School Board action, unless the Board sets forth in writing particular facts and circumstances which require the continuance of the bid solicitation process or the contract award process without delay to avoid an immediate and serious danger to the public health, safety or welfare.

The Board, on its own initiative or upon the request of a protestor, shall provide an opportunity to resolve the protest by mutual agreement between the protestor and the Board's representative within ten (10) days of receipt of a formal written protest.

CHAPTER SIX BUSINESS AFFAIRS

If the subject of a protest is not resolved by mutual agreement within ten (10) days of receipt of the formal written protest, and if there is no disputed issue of material fact, an informal proceeding shall be conducted pursuant to § 120.57(2), Fla. Stat, and Section 1.105(3) of these rules.

If the subject of a protest is not resolved by mutual agreement within seven (7) days, excluding Saturdays, Sundays, and legal holidays of receipt of the formal written protest, and if there is a disputed issue of material fact, the Board shall refer the matter to the Division of Administrative Hearings of the Department of Administration for a formal hearing pursuant to § 120.57(1), Fla. Stat, and Section 1.105(2) of these Rules.

PROCEDURES FOR DEVELOPMENT AND AMENDMENT OF THE BUDGET

6.106

The Superintendent shall ensure that all obligations and expenditures of District funds are within the appropriation made in the District school budget.

Budget Development. The proposed Annual District School Budget shall be developed by the Superintendent as provided by law. The budget shall be designed to reflect goals and objectives as adopted by the School Board.

Unrestricted Reserve Fund. The School Board recognizes there are many adverse unforeseen conditions and events that may occur during any fiscal year. The only source of funds to meet these non-recurring obligations is the unrestricted operating fund reserve. Sound fiscal responsibility requires annually the setting aside of sufficient reserves to meet these obligations. It shall be the goal of the District to attain an unrestricted operating fund reserve for non-recurring expenses in an amount equal to 5% of the annual unrestricted revenue, plus federal impact aid funds, plus all local funds, less transfers. This is a goal, not a requirement and may not be attainable by the District. The Superintendent shall attempt to include in the budget each year a minimum of five percent (5%) of the five percent (5%) goal until such time as the goal is attained. If the said minimum is not included in the submitted budget, the Superintendent shall include in the submittal an explanation of why such an annual contribution to the reserve fund is not practicable under existing revenues and expenditures.

Budget Calendar. The Superintendent shall, prior to January 1 of each year, develop and submit to the School Board a budget calendar for approval. The calendar shall provide adequate time for input from schools and departments within the school system, and shall be consistent with the time lines required by Chapters 200 and 237, Fla. Stat.

Budget Administration. The Superintendent shall ensure that all obligations and expenditures of District funds are within the appropriation made in the District school budget.

If, at any time, it appears that a budgetary appropriation will be insufficient to meet the needs of the school system, the Superintendent shall propose a budget amendment for consideration by the Board. No obligation in excess of the original appropriation may be made until the Board has officially adopted an amendment to the budget.

In order to expedite necessary budgetary adjustments, the Superintendent is authorized to give tentative approval for budget amendments to budgets of schools or District cost centers; however, all such amendments shall be consolidated each month and presented to the School Board for approval. For year end close out, any final amendments for a function and/or object may be approved by the School Board up to or at the time of approval of the annual financial report.

The Superintendent is authorized to automatically amend the budget upon receipt of a grant award if the grant request, as previously approved by the School Board, contained a detailed budget summary and no changes were made in the budget summary as a condition of the grant award.

In addition, the financial statement shall include information indicating any potential problems of a financial nature.

Petty cash funds for necessary operating expenditures may be established by the School Board within the limits, and in accordance with the procedures, established herein.

The individual custodian for the petty cash fund shall at all times have in his/her custody cash, receipts, paid invoices, or a combination thereof, totaling the amount of the petty cash fund. The fund shall be maintained separate and apart from any other funds. Under no conditions may the petty cash fund be used for a loan or advancement to any organization or person, including the cashing of a personal check.

No expenditure exceeding \$25.00 shall be made from a petty cash fund.

The amount of the petty cash fund and the specific person responsible for it, shall be set by the Board and shall be based on the size of the Department or school and the identified need. The amount shall not exceed \$1,000.

The Superintendent is authorized to establish change funds in each school for the Food Services Program. Such funds shall be established from the Food Services fund and shall be used solely for the making of change. No such fund may be used to cash checks for any persons.

CASH & INVESTMENT MANAGEMENT POLICY

6.109

Purpose

The purpose of this policy is to set forth the investment objectives and parameters for the management of public monies of Bay District Schools, Florida (hereinafter "District"). These policies are designed to ensure the prudent management of public monies, the availability of operating and capital funds when needed, and an investment return competitive with comparable Funds and financial market indices.

Scope

In accordance with Fla. Stat. 218.415, this investment policy applies to all cash and investments held or controlled by the District with the exception other monies (such as pension monies and tax-exempt bond proceeds) governed by separate investment guidelines or policies. Monies held by State agencies (e.g., Department of Education) are not subject to the provisions of this policy.

Definitions

1. "Board" means the School Board of Bay County, Florida
2. "CFO" means the Chief Financial Officer of the District or such other individual approved by the Superintendent having overall responsibility for the District's financial operations.
3. "Core Funds" means reserves, cash designated for projects and other non-operating purposes.
4. "District" has the meaning assigned to that term in the first paragraph of this Policy.
5. "Fund" means a pooled investment operated by a professional investment management company.
6. "Money Fund Index" means weighted average return on nation's largest money Funds as reported by iMoneyNet or another similar service.
7. "Monies" means cash and deposits available to the Board.
8. "Portfolio" means investments held by the Board.
9. "Rating Agency" means S&P, Moody's or Fitch; "Rating Agencies" means S&P, Moody's and Fitch.
10. "Self Insurance Funds" means monies set aside to pay for specific needs in the future based on actuarial assumptions.
11. "Short-term Funds" means operating Funds or other monies designated to be spent within twelve months.
12. "Superintendent" means School District of Bay County, Florida, Superintendent of Schools.

Investment Objectives

The investment objectives of the Bay District Schools, Florida, in order of priority, are as follows

1. Safeguarding of Principal The foremost objective of this investment program is the safety of the principal of those monies within the portfolios. The investments should be structured to safeguard principal and allow the Board to meet its obligations in timely manner.
2. Maintenance of Liquidity: The portfolios shall be managed in such a manner that monies are available to meet reasonably anticipated cash flow requirements in an orderly manner. Periodical cash flow analyses will be completed in order to ensure that the portfolios are positioned to provide sufficient liquidity.

CHAPTER SIX BUSINESS AFFAIRS

3. Diversification of Risk: The District shall diversify investments whenever possible without negatively affecting the safety of principal and liquidity characteristics. Investment transactions shall seek to keep capital losses at a minimum, whether they are from securities defaults or erosion of market value. To attain this objective, diversification is required in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio.
4. Investment Income: Investment portfolios shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account investment risk constraints and liquidity needs. Return on investment is of least importance compared to the safety and liquidity objectives described above. The core of investments is limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed.

Authority

The Superintendent (or designee) is authorized to make transfers from financial institution to financial institution or within a financial institution for the purpose of investing or divesting School District funds. For the purposes of this policy, the term "financial institution" has the same definition of Section 280.02(13) Fla. Stat.

The Superintendent (and designees) is authorized and empowered for and on behalf of the Bay District Schools, Florida, to a) conduct investment transactions in accounts at financial institutions as provided under "Authorized Investment Institutions and Dealers," and b) conduct other banking/financial transactions in financial institutions designated as Qualified Public Depositories ("QPD") under Section 280.02(26) Fla. Stat. Accounts at said institutions shall be established by two signatures of the Superintendent and the CFO with appropriate disclosure to the Board.

The Superintendent (or designee) shall develop administrative procedures which govern and safeguard the establishment of services, and the execution and conduct of Investment/Banking/ Financial transactions to, from and between School District accounts consistent with this Policy.

Appropriate fidelity bonding will be maintained by the School District to cover the Superintendent, the CFO and other designated staff members who are in any way involved in the movement of School District funds from one financial institution account to another.

The Superintendent may employ an investment manager/advisor to assist in the management of the District's investments. Such investment manager/advisor must be registered under the Investment Advisors Act of 1940.

Standards of Prudence

The standard of prudence to be used by investment officials shall be the "Prudent Person" standard and shall be applied in the context of managing the overall investment program. Investment officers acting in accordance with written procedures and this investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectation are reported to the Superintendent in a timely fashion and the liquidity and the sale of securities are carried out in accordance with the terms of this policy. The "Prudent Person" rule states the following:

"Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived from the investment."

CHAPTER SIX BUSINESS AFFAIRS

While the standard of prudence to be used by investment officials who are officers or employees is the "Prudent Person" standard, any person or firm hired or retained to invest, monitor, or advise concerning these assets shall be held to the higher standard of "Prudent Expert". The standard shall be that in investing and reinvesting monies and in acquiring, retaining, managing, and disposing of investments of these monies, the contractor shall exercise: the judgment, care, skill, prudence, and diligence under the circumstances then prevailing, which persons of prudence, discretion, and intelligence, acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and with like aims by diversifying the investments of the monies, so as to minimize the risk, considering the probable income as well as the probable safety of their capital.

Electronic Fund Transfers

The Board authorizes electronic fund transfers (EFTs) for any purpose including direct deposit, wire transfer, withdrawal, investment, or payment, provided such EFTs are consistent with the provisions of Fla. Stat. Chapter 668.

Upon the recommendation of the Superintendent, the Board shall approve a written agreement with financial institutions with whom EFTs will be made. Such agreements shall set forth internal controls required by State law and State Board Rule that will provide adequate integrity, security, confidentiality, and auditability of business transactions conducted by electronic commerce, including, but not limited to, the following:

- A. the title of the bank account(s) subject to the agreements shall be specified,
- B. the manual signatures of the Board Chair, Superintendent, and the employees authorized to initiate EFTs shall be contained therein, and
- C. a requirement that the District maintain documentation signed by the initiator and authorizer of the EFTs to confirm the authenticity of the EFTs.

Employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Also, employees involved in the investment process shall disclose to the District any material financial interests in financial institutions that conduct business with the District, and they shall further disclose any material personal financial/investment positions that could be related to the performance of the District's investment program.

Internal Controls and Investment Procedures

The Superintendent shall establish a detailed system of internal controls and operational procedures that are in writing and made a part of the District's operational procedures. The internal controls should be designed to prevent losses of monies, which might arise from fraud, employee error, and misrepresentation, by third parties, or imprudent actions by employees.

Continuing Education

The key designees of the Superintendent actively involved in the investment and investment oversight of the District's funds shall each complete at least eight (8) hours of annual continuing education classes in subjects or courses of study related to cash management and/or investment practices and products, as required by Fla. Stat. 218.415.

CHAPTER SIX BUSINESS AFFAIRS

Authorized Investment Institutions and Dealers

Authorized District staff and investment advisors shall only purchase securities (does not apply to investments authorized under "AUTHORIZED INVESTMENTS AND PORTFOLIO COMPOSITION" subparagraphs "15.2.6" and "15.2.7" below) from financial institutions, which are qualified as public depositories by the Treasurer of the State of Florida, or institutions designated as "Primary Securities Dealers" by the Federal Reserve Bank of New York, and such other financial institutions as recommended by the CFO and approved by the Superintendent, with appropriate subsequent disclosure to the Board.

Authorized District staff and investment advisors shall only enter into repurchase agreements with financial institutions that are State qualified public depositories and/or primary securities dealers as designated by the Federal Reserve Bank of New York, or such other qualified institutions as recommended by the Superintendent and approved by the Board.

Maturity and Liquidity Requirements

To the extent possible, an attempt will be made to match investment maturities with known cash needs and anticipated cash flow requirements. Notwithstanding anything herein to the contrary:

Investments of Short-term Funds shall have maturities of no longer than twelve (12) months.

Investments of bond reserves, construction monies, and other Core Funds shall have a term appropriate to the need for monies and in accordance with debt covenants, but in no event shall exceed five (5) years.

In the case of monies which are construction proceeds of tax-exempt debt issues, such investments shall not exceed three (3) years.

Limitation on Concentration

Notwithstanding anything herein to the contrary, at no time shall the District's investment in any individual Fund or Pool permitted under "Authorized Investments and Portfolio Composition" exceed ten (10) percent of the total Net Asset Value of such Fund or Pool at the time the investment was entered into.

Competitive Bid Requirement

When appropriate, feasible and practicable, the purchase and sale of investment securities shall be competitively bid. Documentation will be retained for all bids, with the winning bid clearly identified. This provision does not apply to investments authorized under "AUTHORIZED INVESTMENTS AND PORTFOLIO COMPOSITION" subparagraphs "15.2.6" and "15.2.7" below, or to the purchase of specific investment securities held by a limited number of dealers, or in situations where a competitive bid will not result in a lower price to the District.

Authorized Investments and Portfolio Composition

Investments should be made subject to the cash flow needs, such cash flows are subject to revisions as market conditions, and the District's needs change. However, when the invested monies are needed in whole or in part for the purpose originally intended or for more optimal investments, the Superintendent (or designee) may sell the investment at the then-prevailing market price and place the proceeds into the proper account at the District's custodian.

The following are the investment requirements and allocation limits on security types, issuers, and maturities as established by the District. The Superintendent shall have the option to further restrict

CHAPTER SIX BUSINESS AFFAIRS

investment percentages from time to time based on market conditions, risk, and diversification investment strategies. The percentage allocation requirements for investment types and issuers are calculated based on the original cost of each investment and the percentage of the portfolio said investments constituted at the time the investment was made. Investments not listed in this policy are prohibited. The following limitations shall not restrict the Board's ability to place Short-term Funds on deposit with QPDs in demand deposit accounts.

ISSUANCE AND USE OF CELLULAR TELEPHONES & PAGERS

6.118

Purpose:

In order to insure a cost effective and efficient means of mobile communication for and with school district employees in the course and scope of their duties, the School Board has determined that the implementation of a district Cellular Telephone Allowance Program would serve a valid district purpose and would authorize the payment of certain school district funds within the authority of the Board. This policy will result in each cell phone user having both the freedom of choice and personal responsibility for his or her cell phone. It will also enable the school district to comply with IRS rules regarding the taxability of employee cellular telephones.

Allowance Program:

- (1) The district shall pay extra compensation in the form of a cell phone allowance to cover business-related costs to those of its employees as are approved by the Superintendent or his/her designee based upon one or more the following criteria:
 - (a) Safety requirements indicate having a cellular phone is an integral part of performing duties of job description.
 - (b) More than 50% of employee's work is conducted in the field.
 - (c) Employee is required to be contacted on a regular basis.
 - (d) Employee is required to be on-call (24/7).
 - (e) Employee is a critical decision maker.
- (2) The dollar amount of the cell phone allowance should cover the employee's projected business-related expenses. The employee will provide a personal cell phone that would be available for business use both during and after normal business hours. The cell phone plan chosen by an employee should be the least expensive that provides adequate business-related services. Upgrades to basic equipment (special cosmetic or technical features, etc.) or expected cell phone use unrelated to business is at the employee's expense. The dollar amount of the cell phone allowance shall be that as established in a district employee cell phone allowance schedule to be approved by the Board from time to time.
- (3) If a principal or supervisor determines that a district employee's job duties include the frequent need for a cell phone, then the employee may be eligible for an allowance to cover cell phone expenses. It may be requested using the "Application For Employee Cell Phone Allowance" form. The request may be made any time during the fiscal year. All requests will be reviewed by the Superintendent or his/her designee who shall have the authority to approve or deny a requested allowance. This policy does not establish a right in any employee to receive a cell phone allowance. No instructional employee may be required, as a condition of employment, to accept a cell phone allowance. All allowances will be paid monthly via payroll. The monthly allowance is taxable income; therefore the individual will be taxed according to the IRS code.
- (4) This allowance does not constitute an increase to base pay, and will not be included in the calculation of percentage increases to base pay due to annual raises, job upgrades, bonuses, benefits based on a percentage of salary, etc.
- (5) Although the allowance is taxable, it is believed that the benefit to the employee outweigh the cost. The benefit includes: 1) a log is not required; 2) no monthly reporting is required; 3) cell phones may be used for personal calls and be combined or enhanced with other personal plans.
- (6) Principals and supervisors are responsible for an annual review of employee business-related cell phone use, to determine if existing cell phone allowances should be continued as-is, changed, or

CHAPTER SIX BUSINESS AFFAIRS

discontinued. The Superintendent or his/her designee shall be contacted if there are any changes to the allowance.

- (7) The district will pay only the agreed upon cell phone allowance even if monthly costs exceed the allowance. If the amount of the allowance subsidy needs to be changed because of documented business purposes, the employee will need to ask their supervisor to request an adjustment to the cell phone allowance and submit the required form.
- (8) The cell phone contract will be in the name of the district employee who will be solely responsible for all payments to the service provider. Only one cell phone allowance will be provided per employee. The Board reserves the right to remove a participant from this plan if there is insufficient budget in the designated fund to meet the cost of monthly allowances.
- (9) The Board does not accept any liability for claims, charges or disputes between the service provider and the faculty or staff member. Recipients of a cell phone allowance must notify the district of the cell phone number and must continue to maintain the cell phone while in receipt of the allowance.
- (10) Because the cell phone is owned personally by the employee, and the allowance provided is taxable income, the employee may use the phone for both business and personal purposes, as needed. The employee may, at his or her own expense, add extra services or equipment features, as desired. If there are problems with service, the employee will need to work directly with the carrier for resolution.
- (11) Use of the cell phone in any manner contrary to local, state, or federal laws will constitute misuse, and will result in immediate termination of the cell phone allowance.
- (12) If, prior to the end of the cell phone contract, a personal decision by the employee, or employee misconduct, or misuse of the phone, results in the need to end or change the cell phone contract, the employee will bear the cost of any fees associated with that change or cancellation.
- (13) If, prior to the end of the cell phone contract period, a school or departmental decision (unrelated to employee misconduct) results in the need to end or change the cell phone contract, the school or department will bear the cost of any fees associated with that change or cancellation. For example, the employee's supervisor has changed the employee's duties and the cell phone is no longer needed for business purposes. If the employee does not want to retain the current contract, change or cancellation fees will be reimbursed by the school or department.
- (14) The Superintendent shall develop and enforce a set of administrative procedures and guidelines to implement the provisions of this policy. Such procedures and guidelines may be revised by the Superintendent as he/she determines necessary for the continued effective administration of the Cellular Telephone Allowance Program established by this policy.

Enforcement:

Failure to adhere to the terms and conditions of this policy or the Cellular Telephone Allowance Program Administrative Guidelines as authorized by this policy, may result in disciplinary action including but not limited to (i) reimbursement to the district by an employee of cell phone allowance funds received, and (ii) revocation of an employee's approved cell phone allowance.

Cellular Phone Use by School Bus Drivers

According to the National Safety Council and the National Transportation Safety Board, the risk of collision is considerably greater when using a cellular phone while driving. The use of a cellular phone

CHAPTER SIX BUSINESS AFFAIRS

while driving is a distraction from the driving environment and has been found to contribute to school bus crashes.

Cellular phones, including cellular phones equipped with ear pieces, ear buds, headsets and/or Bluetooth shall not be used while operating a District school bus. School bus drivers shall not text message or use any wireless communications device while operating a District school bus.

The mobile radio installed on all District school buses will be the primary communication system for Bay District school bus drivers. If the mobile bus radio fails and the bus driver has a critical reason for using a cellular phone while performing bus-operating duties, the driver will depart the roadway, stop the bus in a safe area, and then use the cellular phone. **Drivers shall not use a cellular phone or any wireless communications device anytime the school bus is moving or the engine is running, with or without students on board.** School bus drivers shall adhere to all District policies pertaining to staff use of cellular phones.

BUDGET WORKSHOPS

6.120

In an effort to assist and work cooperatively with the Superintendent in preparing and finalize the annual budget, the School Board shall in January of each year schedule a Budget Priorities Workshop. The purpose of the workshop is to discuss with the Superintendent budgetary priorities for the District. Additional Budget Workshops may be scheduled, as needed, by the School Board or the Superintendent.

PART TWO SCHOOL INTERNAL FUNDS

BASIC PRINCIPLES GOVERNING SCHOOL INTERNAL ACCOUNT FUNDS

6.201

Purpose. School internal account funds are to be used to finance a program of activities approved by the School Board which supplement those activities provided from District school funds.

Scope. All funds collected or handled by School Board employees during normal working hours, or collected in connection with school sponsored activities, shall be included in and become part of the internal funds of the school. Financial transactions of all school organizations shall be accounted for in school internal funds. All organizations connected with or operating in the name of the school which obtain monies from the public shall be accountable to the School Board for receipt and expenditure of those funds in the manner prescribed herein.

Benefit to Students. Funds collected each year should be expended to benefit those students currently in school unless those funds are being collected for a specific documented purpose. All internal funds designated for general purposes should be used to benefit the student body.

Conflicts with School Board Policy. No fund raising activities may be undertaken by the school, by any group within the school, or by any group connected with the school and using the school name, which conflict with any program or policy approved or administered by the School Board.

Consistency With Legal Requirements. The collecting and expending of internal funds must be in accordance with the Florida Constitution, Florida Statutes, Florida Administrative Code, and School Board Rules. Sound business practices are to be observed in all transactions.

Competition with Commercial Firms. Student projects and activities financed with internal funds, and designed to provide educational experiences, shall be conducted in such a manner as to offer a minimum of competition to commercial firms.

Purchases. Purchases from internal funds shall not exceed the resources of the purchasing account, except for items for resale.

Internal Controls. An adequate system of internal controls shall be maintained in order to safeguard the assets of the school internal funds.

GENERAL PRACTICES TO BE OBSERVED IN SCHOOL INTERNAL FUNDS

6.202

Employee Bonds. All employees having responsibility for handling funds or for recording financial transactions shall be bonded in the manner prescribed by Section 6.110.

Principals shall require classes, clubs, departments, and organizations to submit proposed annual budgets and to secure approval of the budget prior to undertaking any activity or event to raise or spend money. Once established, the budget of an activities organization becomes a guideline for the subject school year. When activities approach budgeted limits, a review and possibly an amended budget should be prepared, adopted, and submitted to the principal or his/her designee for review and action. If approved, the organization will operate under the revised budget. If not approved, the principal will specify conditions and terms of operations for the remainder of the year.

Approval of Purchases. All purchases from internal funds must be authorized in writing by the principal or his/her designee. Neither the school nor the School Board shall be liable for any purchase in the name of the school made without express written approval. Any person who makes, or approves the making, of any such unauthorized purchase shall be personally liable for the amount of the obligation.

Pre-numbered Receipts or Cash Register. Approved pre-numbered receipts shall be used as the means of recording cash received, and as the basis for entries to ledgers.

Pre-numbered Checks. Approved pre-numbered checks shall be used as the means for disbursing funds, and as the basis for entries to ledgers.

Instruments of Obligation. Promissory notes, installment contracts, or lease-purchase agreements shall not be executed in the name of a school or any school organization except as authorized by the School Board. All such obligations must be executed by the School Board.

Accommodations to Employees or Others. Internal funds shall not be used to cash checks, make any kind of loans, pay any form of compensation directly to School Board employees, or extend credit. Employees of the District who are compensated for additional services, such as game personnel to work at athletic events, shall be paid through the District payroll department with reimbursement from internal funds. Haney Vocational Technical Center may cash checks and make loans as necessary to administer student grant and loan programs funded by federal, state or private sources. Purchase of articles for the personal use of any person shall not be made from internal funds.

Fiscal Year. Internal funds shall be accumulated and utilized on the same fiscal year basis as all other District school funds. No school organization shall make expenditures that exceed the cash resources available to that organization. All accounts payable shall be disclosed to the Board at year end.

Reconciliation of Bank Statements. Bank statements shall be reconciled as soon as received.

Monthly Financial Reports. Monthly financial reports shall be made in written form to provide the school administration with financial information necessary for appropriate decision making, and filed with the internal accounts auditor.

Annual Financial Reports. Annual financial reports shall be submitted to the internal accounts auditor, on or before the date specified each year, for inclusion in the District's annual financial statements.

CHAPTER SIX BUSINESS AFFAIRS

Annual Audit. An annual audit of the internal funds of each school shall be made by the District internal accounts auditor pursuant to the Florida Administrative Code. The audit shall verify accuracy of all financial transactions, and shall also identify any instances of failure to comply with law, Florida Administrative Code, rules of the Bay County School Board and procedures set forth in the "Manual of Policies and Procedures for the Management and Accounting of Bay County Schools Internal Funds." The principal shall take appropriate action to correct any errors, deficiencies, or adverse findings noted in the annual audit. Copies of audit reports shall be included in and made a part of the principal's personnel file.

Retention of Records of Internal Funds. All records maintained as part of the internal funds of the school and public records under the laws of the State of Florida, and may not be destroyed or otherwise disposed of without specific authorization. All requests for disposition of internal fund records, after completion of audit, shall be directed to the Director of Management Information Services. No such records shall be destroyed unless and until written is authorization is provided.

Chart of Accounts. Each transaction recorded in the internal fund records for each school shall be coded with uniform revenue and expenditure codes, including fund, function and object.

Procedure Manual. The Superintendent shall develop and provide to each school a manual entitled "Manual of Policies and Procedures for the Management and Accounting of Bay County Schools Internal Funds." This Manual shall outline specific procedures for accounting and handling of funds which incorporate and implement the rules governing internal funds set forth herein, generally accepted accounting principles, rules relating to internal funds adopted by the State Board of Education, and laws relating to receipt and expenditure of public funds.

STANDARDS, PRACTICES, AND PROCEDURES FOR SCHOOL INTERNAL FUNDS

6.203

Depositories for Internal Funds. Depositories in which internal funds are kept must be qualified public depositories, approved by the School Board, and required to furnish the same type of security for deposits as is required for other School Board funds.

Bank Accounts. Each school shall have only one checking account which shall be entitled "(School Name) Internal Fund, The School Board of Bay County, Florida." This account title must be imprinted on all internal fund checks and deposit slips. All monies received by the school shall be deposited intact as collected into this account and all disbursements will be made by checks drawn on this account. Savings or investment accounts shall be titled in the same manner.

Check Signatures. Each account shall have at least two (2) authorized check signers, one of whom must be the principal. The principal may also authorize a designee to sign in his/her absence. These names should be kept on file for audit. All checks must be signed with two (2) signatures, one of whom must be the principal or his/her designee. Under no circumstances may checks be presigned.

Cash Collections and Deposits. All money collected by the school or by school personnel must be substantiated by pre-numbered receipts, consecutively numbered class receipt records, Reports of Monies Collected, pre-numbered tickets, Reports of Tickets Issued and Sold, or other auditable records.

Insofar as is practicable, all money should be collected in the school office. Collections made outside of the school office must be turned into the school office by the next business day.

If an individual holds funds collected and the funds are lost or stolen he/she must replace the loss.

All money collected must be deposited intact to a depository as frequently as feasible and as dictated by sound business practices. In any event, funds collected must be deposited within five (5) working days. No funds may be held in the school overnight, unless properly secured.

All deposits must equal the total amount of money taken in and recorded on receipts for the period covered by the deposit. Deposit slips shall be made in the number of copies necessary to meet the approved accounting procedures. All checks deposited in the designated account shall be endorsed showing a restrictive endorsement as noted below:

The principal shall be notified immediately of any errors in deposits or disbursements and shall take appropriate action to effect correction.

All source documents shall be pre-numbered and a perpetual inventory maintained. It should show the beginning and ending numbers of all tickets purchased and issued to ticket sellers. In all cases where tickets are used, ticket reports and unsold tickets must be available for audit. All pre-numbered documents shall be accompanied by a certified statement of the numbers received.

Cooperative Activities. A cooperative activity is one in which the school participates with outside groups such as the PTA or various booster clubs through planning, staging, conducting, or attending school-

CHAPTER SIX BUSINESS AFFAIRS

related activities. Such activities may be held on or off the school grounds and will usually take the form of fund-raising events such as carnivals, paid entertainment, or food sales.

If the proceeds from the cooperative activity are to be divided between the school and the sponsoring organization, a written agreement should be executed prior to initiation of the activity. The agreement should include, as a minimum:

1. Responsibilities of the school and the sponsoring organization for planning and conducting the activity;
2. A formula for division of the profits derived from the proceeds of the activity.

All purchases for items to support the cooperative activity shall be in accordance with the general requirements for purchases specified herein. All expenditures shall be initiated and recorded in the manner provided herein.

As soon as practicable following the activity a reconciliation of all revenue and expenditures attributable to the activity, and a calculation of the division of profits shall be prepared by the principal. A copy of such reconciliation shall be provided the sponsor of the activity.

Faculty and Staff Accounts. When approved by the principal, trust funds for faculty and staff may be deposited in and accounted for through the internal funds of the school.

Investments. The school shall at all times maintain its internal funds in an interest bearing account. When there are funds in excess of the current requirement, those excess funds shall be deposited in certificates of deposit to earn the highest possible return to the school.

Collection of Worthless Checks. The principal is responsible for seeking reimbursement for any unpaid check returned by the bank. If, after having exhausted all reasonable efforts to collect the check, the principal may adjust the internal fund accounts to write off the check amount. Any such adjustment shall be temporary until specifically approved by the internal accounts auditor. Requests to the internal accounts auditor to write off checks may be made on an annual basis. No unpaid check may be permanently canceled or written off without specific approval of the School Board.

STUDENT ACTIVITIES AND PROJECTS

6.204

Athletics. All revenue and expenditures involving athletic business transacted at the school level shall be recorded in accounts in this classification.

Music. Proceeds of activities of musical organizations, donations to these groups, and their expenses for supplies and trips shall be recorded in this classification. Collections from students for rental or maintenance of uniforms or instruments, shall be recorded in separate accounts in this classification, or in trust if restricted as to use.

Classes, Clubs, and Departments. Class and club accounts are those which support a group of students within a community of interest with a roster of members, officers, and sponsors. Each class or club to be included in the internal funds of the school shall be approved by the principal.

The sponsor of each school club or organization shall be responsible for providing adequate financial documents and records to the principal and is responsible for retaining duplicates of the documents and records. These records may include an organization budget; duplicate receipts for all income from dues, fund raising activities, entertainments, assessments, or donations; and approved requests for payments.

All collections received by any club or school organization must be deposited in the school internal fund.

All disbursements by any club or school organization must be made by an internal fund check. Disbursements shall be approved by the appropriate organization officer, the sponsor and the principal.

A financial report completed by the sponsor shall be filed with the principal's office at the close of each fund-raising activity. To accommodate collection of data for this report a separate account for the activity may be established. The organization sponsor shall designate transactions to be recorded in each of the club's accounts.

Class and club monies shall be expended for the benefit of the students who participated in the generation of the revenue.

Any remaining balance in the account of a class that has graduated, and has had an opportunity to determine the disposition of the funds, shall be considered as belonging to the General Miscellaneous account and shall be closed to that account at the end of the following school year.

Any remaining balance in the account of an inactive student organization shall be considered as belonging to the General Miscellaneous account and shall be closed after a reasonable period of time.

The business functions of school organizations are to be conducted in such a manner as to offer minimum competition to commercial firms.

Promotion and Public Relations Funding. Funds may be used for promotion and public relations on a school level for:

1. School wide curricular and co-curricular purposes and activities including recognition of students, community and/or staff on special educational-related occasions;
2. Hospitality for school-related activities and/or events;
3. For costs incurred by students, staff and/or community members when representing the school or the system at special occasions; and
4. For hospitality of business guests, patron support group officers in meetings with the principal, and meetings with District board members and District administrators.

CHAPTER SIX BUSINESS AFFAIRS

It is not intended that individual schools will conduct all of the activities identified as approved for the District administration. This is not for self-promotion.

A school principal may establish the Promotion and Public Relations Fund account and

1. Transfer profits from designated school level auxiliary enterprises, excluding food service activities;
2. Use of up to 25 percent (25%) of school pictures commissions or profits as received from photographer, profits from a school store, profits from vending machines (excluding those profits designated for food service); and
3. Use gifts received and designated specifically for the purpose of funding public relations and use of undesignated gifts received for purposes authorized in Section 4 above, to the extent or limit specified in paragraph (5).

Disbursements of these funds in any fiscal year for individual school purposes shall not exceed \$300 or the school's prior year unweighted FTE multiplied by \$.70, whichever amount is greater. Any of these District or school funds not expended in any fiscal year shall not be carried forward.

Trust Funds. All funds collected for a specific, restricted purpose shall be accounted for in a trust account. Such funds may be expended only for the purpose for which they were collected.

At no time may a trust account have a deficit balance. These accounts should normally have a zero balance at the end of each year. When the purpose of the trust fund has been accomplished or becomes inoperative, unused trust funds shall be returned to the person(s) from whom collected, if practicable. Donors may designate an alternative purpose. Funds which cannot be returned shall be placed in the Miscellaneous General account.

If a school organization undertakes a project extending beyond the current fiscal year, or receives a restricted donation to be used over a period of time beyond the year in which received, approval must be granted by the principal, and the funds must be held in a trust account.

Collections for and remittances to the School Board, such as out-of-state tuition, course fees, reimbursement for damages, or telephone charges shall be accounted for through trust funds.

Collections of State sales tax shall be accounted for through a trust account.

Funds collected from students as deposits for use of locks, etc., shall be accounted for through a trust account and returned to the students at the time the property is returned to the school in good condition.

General Fund. This fund shall include all funds not classified in paragraphs (1) through (5), and which are to be utilized for the general welfare of the student body of the school. Separate accounts shall be maintained for activities such as the school store and other activities when it is good business practice to separately monitor the financial status of the activity. Activities not accounted for separately shall be recorded in a Miscellaneous Account.

The principal shall be fully responsible for all purchases and purchase commitments requiring the present or future disbursements of internal funds monies. No purchase shall be made unless sufficient resources are available, except items for resale.

These quotations shall be attached to the invoice and purchase authorization for auditing purposes.

Expenditures Which Require Prior Authorization. All expenditures in excess of \$2,500 (excluding freight charges) except: items on an approved County bid list, items purchased for resale and printing.

Use of District Bids. If the school district has an open bid in effect for specific commodities, all purchases from internal funds for that class of commodities shall be made through the approved vendor.

Commemorative Items. Specifications for all commemorative items will be developed by a school committee consisting of staff and student representatives appointed by the principal. These specifications will be used to purchase commemorative items on an annual basis. This purchasing will be conducted as a service to those students wishing to purchase commemorative items.

Restricted Expenditures. The following expenditures from internal funds are deemed inappropriate and shall not be made except from trust funds collected for a specifically identified purpose.

1. Equipment, supplies, forms, and postage for curricular or classroom use for which School Board funds are available;
2. Curricular-related travel; professional, technical, or consultant services; or other items which are the responsibility of the District;

4. Personal memberships or subscriptions;
5. Salaries or other compensation for duties or assignments which are the responsibility of the school district;

PURCHASES SUBJECT TO SALES TAX

6.207

All items purchased from internal funds for resale are subject to Florida sales tax unless specifically exempted.

Alternative Method of Payment of Sales Tax. As an alternative to collecting sales tax from students and remitting to the State monthly, each school may pay State sales tax on the basis of the purchase price to the vendor from whom the goods are purchased. However, if the items being purchased for resale are purchased from an out-of-state vendor or from a vendor who will not accept payment of the tax, the appropriate amount must be collected on each sale and remitted to the State Department of Revenue monthly.

Taxable Status of Admissions. Admission charges for school activities which utilize student or faculty talent exclusively are not taxable. Free passes are not taxable unless a service charge or donation in excess of \$.09 is required. All other admissions to activities held or sponsored by the school are taxable, and the tax must be collected and remitted monthly.

CLUBS AND OTHER FUND RAISING ACTIVITIES

6.208

Although booster and parent-teacher clubs are independent organizations, school principals reserve the right to recognize and sanction the clubs involvement in school extracurricular activities including fundraising. The school principal is not obligated or required to accept funds from the clubs or recognize the clubs as a school allied organization. Further, only the school principal shall allow a club to incorporate the school's name into the club name. The school principal has final authority on the existence of and all activities of a club. Failure to abide by the policies and procedures of the School Board may, at the discretion of the principal, result in the revocation of these privileges.

Booster and parent-teacher clubs are separate legal entities from the School Board of Bay County. Each club shall operate according to a written constitution and a set of by-laws which shall be submitted to the principal for review and approval. The clubs shall be open to all parents and community members.

Booster clubs exist as independent organizations comprised of parents and interested community members. Booster clubs serve two general purposes:

- To promote the education, general welfare and morale of students, and
- To assist in financing legitimate extracurricular activities of the athletic student body in order to augment, but not conflict with, the educational programs provided by the School Board.

The school's athletic director, assistant athletic director, or applicable athletic coach may not serve as an officer and voting member of the booster clubs. A school employee who is a member of a club is prohibited from handling club funds, including the writing or signing of club checks. A representative from the school's athletic department shall be given at least 48 hours notice of all booster club meetings and an employee designated by the principal for the parent-teacher clubs. The representative should attend as the school's liaison. The purpose of the school liaison is to foster a positive working relationship between the school and the clubs. The school liaison is to communicate to the clubs the needs of the team or activity.

Booster and parent-teacher clubs must provide current banking information, a list of current officers, and financial reports by June 1st each year. The principal may request more current financial information upon three (3) days notice to the organization.

The Superintendent shall develop administrative procedures so that each group's fund-raising activities are in compliance with Board policies and funds raised are used solely for school-related projects that are approved by the principal. Each club shall follow these administrative procedures as well as all School Board Policies.

Booster and parent-teacher clubs may elect to make gifts or donations to the school. The gift/donation to the school should be accompanied with a letter of purpose from the booster club. The letter should reflect the specific purpose of the gift/donation. **NO PAYMENTS SHALL BE MADE TO SCHOOL BOARD EMPLOYEES WITHOUT SPECIFIC APPROVAL OF THE PRINCIPAL.**

Fund Raising Activities

Liability Exposure. If a school or a school organization proposes to engage in any fund-raising activities which may expose the School Board to extraordinary liability, prior written approval must be obtained from the Superintendent or his/her designee.

Deposits of Receipts. All receipts from fund-raising activities must be deposited in the internal funds of the school and all transactions in connection with the activity must be recorded through such internal funds.

CHAPTER SIX BUSINESS AFFAIRS

School-related or parent-teacher and booster organizations are permitted to hold their own fund-raising activities and to account for their collections and disbursements through their own bank accounts.

PART THREE STUDENT TRANSPORTATION

PURPOSE AND FUNCTION OF TRANSPORTATION PROGRAM

6.301

The transportation program shall be administered in such a manner as to provide safe and efficient services at the lowest possible cost. Transportation funds shall be used primarily to provide transportation of students to and from their assigned school. The functions and purposes of the transportation program shall be to:

1. Provide transportation for each public school student in prekindergarten, handicapped and in kindergarten through grade 12 when, and only when, transportation is necessary to provide adequate educational facilities and opportunities which otherwise would not be available and to transport students who do not live within a reasonable walking distance of the school to which assigned; and
2. Provide for the safety and welfare of students who are transported to and from school and school sponsored activities.

Students Eligible for Transportation. Any student who resides more than a reasonable walking distance from his/her designated school is eligible to ride the school bus to and from that school, except students authorized to attend school outside their normal attendance zone. A reasonable walking distance for any student who is not otherwise eligible for transportation pursuant to Section 1011.68, F.S., is any distance not more than two miles between the home and school or one and one-half miles between the home and the assigned bus stop. Such distance shall be measured from the closest pedestrian entry point of the property where the student resides to the closest pedestrian entry point of the assigned school building or to the assigned bus stop. The pedestrian entry point of the residence shall be where private property meets the public right-of-way. The district shall determine the shortest pedestrian route whether or not it is accessible to motor vehicle traffic.

A student classified as physically handicapped, as defined by the Florida Administrative Code, shall be entitled to transportation to school regardless of distance from home to school.

Exceptional students shall be transported to other school districts or other facilities in the District when necessary to provide an adequate program of special instruction or services. Such transportation shall be consistent with the "Special Program Procedures for Providing Education for Exceptional Students" adopted pursuant to Section 8.501.

Provide transportation to students who are exposed to hazardous walking conditions that endanger their life or threaten their health or safety. Such hazardous walking condition shall include, but not be limited to the definition contained in § 1006.23, Fla. Stat. The Superintendent or his/her designee shall make a determination as to whether a particular hazardous condition exists.

The Transportation Department shall, as required under § 1013.36, report any hazardous conditions within a two (2) mile radius of a school site to the governmental entity within the jurisdiction of which the hazard is located.

Students engaged in field trips, extra-curricular activities and other approved trips, as provided herein.

Students in the Teenage Parenting Program (TAP) pursuant to § 1003.54, Fla. Stat.

Transportation shall be provided for student parents and their children to and from home, school and the child care facility, as required for the parent's educational activities in credit earning hours.

CHAPTER SIX BUSINESS AFFAIRS

The School District and parents of students with special transportation needs as defined in § 1011.68, Fla. Stat. shall adhere to the responsibilities and policies as outlined in Fla. Admin. Code R. 6A-3.0121 and other policies herein.

Transportation may be provided for out-of-zone students where no additional costs, mileage or stops are required and provided there is seating space available on the bus. Out of zone students are assured transportation on a continuing basis only so long as space is available.

No transported student shall be reported for state reimbursement purposes unless the student lives two (2) or more miles from school, is entitled to transportation as a physically handicapped student, or is exposed to hazardous walking conditions, pursuant to §1006.23, Fla. Stat.

Only a student who is regularly enrolled as a transported student and whose name appears on the assigned bus driver's record may ride the bus. However, an exception may be granted by the principal when requested by the parent, provided space is available. If the request exceeds five (5) days, the approval of the Superintendent shall be required.

The following additional persons may be permitted to ride school buses:

1. Substitute drivers and substitute aides who are in training;
2. Teachers, Resource Officers, and other School Board employees while supervising school sponsored or school connected activities;
3. Chaperones for school activities which have been authorized by the principal; or
4. Any other employees approved by the Superintendent. Such approval may only be given in emergency situations and when vacant seats are available during the scheduled route and shall not exceed a reasonable period of time for the employee to make other arrangements for transportation.

TRANSPORTATION BY MEANS OTHER THAN SCHOOL BUS

6.302

The School Board shall use school buses, as defined in the Florida Statutes, to transport pre-kindergarten through grade 12 students to and from school or school-related activities which are a part of a scheduled series or sequence of events at the same location. Students will only be transported between the hours of 6:00 a.m. and midnight.

The School Board may regularly use motor vehicles other than school buses only under the following conditions:

1. When the transportation is for physically handicapped or isolated students and the District has elected to provide for the transportation of the student through written or oral contracts or agreements providing for the reimbursement of the cost of transportation. Contracts with individuals to transport students must be specifically authorized by the Board and be in accordance with the following:
 - a. The contract sum shall not exceed the state-authorized mileage for each mile traveled to and from the bus stop or the school, whichever is nearer the student's home.
 - b. The owner of the vehicle shall be properly licensed and shall maintain insurance with limits of \$100,000 per person and \$300,000 per occurrence. The owner shall furnish the Board with a certificate of insurance.
 - c. The official Board minutes shall show the amount of transportation assistance approved, names of students served, school attended, and mileage of the route.
2. When the transportation is part of a comprehensive contract for a specialized educational program between a school board and a service provider who provides instruction, transportation, and other services.
3. When the transportation is provided through a public transit system.
4. When the transportation of students is necessary or practical in a motor vehicle owned or operated by the School Board other than a school bus and such transportation is provided in designated seating positions in a passenger car not to exceed eight (8) students or in any other motor vehicle designed to transport ten (10) or fewer persons which meets all federal motor vehicle safety standards for passenger cars.
5. Except as provided in sections (1) and (2) above, the School Board may authorize the transportation of students in privately owned motor vehicles on a case-by-case basis only in the following circumstances:
 - a. When a student is ill or injured and must be taken home or to a medical treatment facility under nonemergency circumstances;
 - b. The school has been unable to contact the student's parent or guardian or such parent, guardian, or responsible adult designated by the parent or guardian is not available to provide the transportation;

 - d. The transportation is approved by the school principal or a school administrator designated by the principal to grant or deny such approval, or in the absence of the principal and his/her designee, by the highest ranking school administrator or teacher available under the circumstances; and
 - e. If the school has been unable to contact the parent or guardian prior to the transportation, the school shall continue to contact the parent or guardian until the school is able to notify the parent or guardian of the transportation and the pertinent circumstances.
6. When the transportation is in connection with a school function or event regarding which the District or school has undertaken to participate or to sponsor or to provide the participation of students; and
 - a. The function or event is a single event which is not part of a scheduled series or sequence of events to the same location, such as, but not limited to, a field trip, a

- recreational outing, an interscholastic competition or cooperative event, an event connected with an extracurricular activity offered by the school, or an event connected to an educational program, such as, but not limited to, a job interview as part of a cooperative education program;
- b. Transportation is not available, as a practical matter, using a school bus or District passenger car;
 - c. Each student's parent or guardian is notified, in writing, regarding the transportation arrangement and gives written consent before a student is transported in a privately owned motor vehicle;
 - d. The transportation is approved by the principal;
 - e. The driver shall be of at least twenty-one (21) years of age and hold a valid Florida drivers license, except for military personnel which may hold a valid drivers license in any state of the U.S.; and
 - f. The driver has liability insurance limits of \$100,000 per person and \$300,000 per occurrence.
7. When the School Board requires employees such as school social workers and attendance officers to use their own motor vehicles to perform duties of employment, and such duties include the occasional transportation of students.

Any vehicle used to transport students must meet the Federal Motor Vehicle Safety Standards for passenger cars or multipurpose vehicles. Designated seating capacity for students shall not exceed eight (8) students in a passenger car or ten (10) or fewer in a multipurpose vehicle. The Supervisor of Transportation will maintain a list of approved vehicles which meet the Federal Motor Vehicle Safety Standards.

CHAPTER SIX BUSINESS AFFAIRS

SCHOOL BUS ROUTES

6.303

The Superintendent shall annually designate school bus routes, following consideration of data and recommendations of the Supervisor of Transportation. The guidelines provided herein and State law are to be used by the Superintendent and staff in establishing routes for school buses. Any proposed route which is not in compliance with the criteria herein must be approved by the School Board prior to implementation.

Each route shall be planned and adjusted, as far as practicable, to ensure that no more than 1-1/2 (one and one-half) hours will elapse between the time the student boards the bus and the time school begins, or the time school closes and the student leaves the bus in the afternoon and that travel each morning and afternoon should not exceed 50 minutes for an elementary student or 60 minutes for a secondary student.

Each route shall be planned and adjusted in such a manner as to eliminate the necessity for students to stand when a school bus is in motion.

Each route shall serve students living only in areas where transportation by school bus is the most economical method of providing adequate educational facilities.

A route shall not be extended for the purpose of accommodating pupils whose homes are over two (2) miles, as the route is scheduled, if a shorter distance than two (2) miles, or a more economical route, is available to serve the pupils.

The road must be in a safe and satisfactory condition for the operation of a bus of the type and size to be used in the area.

Where it is necessary for a bus to turn around, a suitable turning area must be available.

Student loading stops shall not be established less than 2/10 (two-tenths) of a mile apart, except when the safety and welfare of the pupils require more frequent stops.

All bus routes shall be reviewed each year to determine:

1. If routes can be combined;
2. If routes need to be extended;
3. If routes can be decreased in length; and
4. If any bus needs to travel a new road other than the one traveled.

It shall be the responsibility of parents of transported students to ascertain and ensure that their children arrive at the assigned school bus stop on time in the morning and to provide the necessary protection for their children going to and from and while waiting at bus stops.

Spur routes from main trunk routes shall not be made to pick up students living less than 3/4 (three-quarters) mile from such route, except when students are physically handicapped or in cases where walking presents a danger to students. A spur route will only be considered when the road is an all-weather road, a satisfactory place to turn around is available, and the change will not result in scheduling that would require students who board the bus first to leave home at an unreasonable time in the morning.

Drivers of school buses may not discontinue stops, begin new stops, or otherwise change a route without approval of the Superintendent or his/her designee.

CHAPTER SIX BUSINESS AFFAIRS

Under extenuating circumstances the Superintendent or his/her designee is authorized to make exceptions to the requirements prescribed in this rule.

CHAPTER SIX BUSINESS AFFAIRS

SPECIAL USES OF SCHOOL BUSES

6.304

In addition to transportation of students to and from school, school buses may be used for educational field trips and for school connected or sponsored activities; provided that such trip is approved by the principal and is under the direct supervision of a member of the professional staff of the school. Trips outside the District shall require approval of the Superintendent. Such trips may include educational field trips and extracurricular trips sponsored by the school. No student shall be eligible for transportation on a field trip or on an extra-curricular trip unless he/she is duly enrolled in a school of the District and is approved to make the trip as provided in these rules.

Educational Field Trips. Any trip which is directly related to a unit of instruction being studied by a particular group of students may be considered an educational field trip.

A field trip may be scheduled during the school day between the hours approved by the Transportation Department. Special field trips may be requested for a Saturday or holiday, or after school.

Extra-Curricular Trips. A trip which is not directly related to the instructional program, but which is related to a school sponsored or connected activity shall be considered an extra-curricular trip. Any request for use of a school bus for an extra-curricular trip shall be approved by the faculty sponsor of the activity prior to submission to the principal or Superintendent for approval.

School buses, when available, may be used for extra-curricular trips; provided that the school or organization may be required to pay the cost of the driver's hourly rate and other expenses at the rate established by the School Board. The school will not be obligated to pay the cost of the driver's admission to any activity. Drivers for extra-curricular trips must hold a valid commercial driver's license with passenger endorsement.

The expenses of any extra-curricular trips, other than situations where students are representing the school in competitive activities, shall be the sole responsibility of the school and shall be paid from the school's internal account funds, the school's transportation allocation account, or from the funds of the organization making the trip or sponsoring the activity. Exceptions to this requirement may be made by the School Board on an individual basis.

Immediately following any such trip, the Supervisor of Transportation shall send a statement of cost of the trip to the school. Upon receipt of such statement, the principal shall pay the School Board the amount due within 30 days. Payment to the bus driver shall be in accordance with the approved salary schedule and shall be by School Board warrant.

To assist in scheduling, all requests for the use of buses for athletic trips shall be submitted to the principal and, when appropriate, to the Superintendent prior to the season for each sport as prescribed below:

1. Football - September 1.
2. Basketball - November 1.
3. Spring Sports - February 1.

Any field trip or extra-curricular trip, in order to be eligible for approval, must be adequately planned and must make provision for supervision of students. It shall be the responsibility of the principal of the school or his/her designee to provide chaperones for each scheduled trip and to see that the chaperones are properly instructed in the rules governing transportation prior to departure with special emphasis on behavior and safety rules. At least one (1) chaperone on each trip shall be a member of the administrative or instructional staff.

CHAPTER SIX BUSINESS AFFAIRS

Where an extra-curricular trip or any other school approved trip warrants travel by a chartered bus operated by a commercial line, approval shall be obtained from the Superintendent.

The following procedures and requirements shall apply to the use of school buses for all extra-curricular and field trips:

1. Transportation Department with the principal's approval at least seven (7) working days prior to the time of the scheduled trip. If the trip requires the approval of the Superintendent, the request must be submitted at least ten (10) working days in advance. If School Board approval is required, the request must be submitted at least ten (10) working days prior to the School Board meeting at which approval will be considered.
2. Scheduling of a bus for a special trip shall be the responsibility of the Supervisor of Transportation and such trip shall in no way alter, interfere with, or disrupt the operation of a regular bus route carrying students to and from school.
3. Where principals of two (2) or more schools are sending participants to common activities outside the school district, travel shall be coordinated and only one (1) bus requested when adequate. The normal load for out-of-district trips shall be two (2) passengers per seat.
4. No unauthorized person shall be permitted to ride a bus on a field trip or on an extra-curricular trip. An approved chaperone shall be considered to be an authorized passenger.
5. All school bus operating requirements prescribed herein shall apply to extra-curricular and field trips.
6. Before the trip, written permission of the parent or guardian of each minor student participating in a special trip shall be on file in the office of the principal of the participating school.
7. The principal of the school shall be responsible for the handling of any collection of damages due to vandalism or for any other reason on a special trip in which the school participated.
8. All School Board rules relating to pupil responsibilities and discipline shall be enforced.
9. The bus driver of the special trip shall clean the bus after each trip and shall have the bus in proper condition for the regular trip the following morning. Failure to comply with this provision shall make the driver ineligible for employment for additional special school trips.

Summer Program Transportation.

Buses and drivers for the summer program shall be approved by the Superintendent. School buses, when available, may be used for approved trips on the basis of the cost to be paid by the school in the same manner as for extra-curricular trips during the regular school term.

Use of School Buses by Outside Organizations. The Superintendent is authorized to enter into agreements with nonprofit corporations and nonprofit civic associations to allow the use of school buses to transport school-age children for activities sponsored by such organizations, and with public agencies for transportation of the transportation disadvantaged. All such agreements shall provide for compensation to the School Board in an amount at least equal to the actual cost incurred by the Board. Each agreement shall require the organization to provide liability insurance in the amounts specified by § 1006.261, Fla. Stat. , and shall also contain a provision agreeing to indemnify and hold the District harmless from any liability whatsoever which might arise as a result of the use of buses pursuant to the agreement. A copy of each such agreement shall be provided to the School Board for information purposes.

When school buses are used for purposes set forth above, exclusive for transportation of the transportation disadvantaged, the inscriptions on the front and rear of the buses shall be covered and the flashing red lights and white strobe lights shall not be used.

REPORT OF BUS DRIVERS' DRIVING HISTORY

6.305

Prior to the first day of each semester of the regular school year and prior to the first day of summer school, the Superintendent shall request a driver's history record on each person licensed as a bus driver from the Department of Highway Safety and Motor Vehicles. The requests shall be made in the form prescribed by the Department of Highway Safety and Motor Vehicles using the Automated School Bus Driver's License Record Check System through the Department's database. For any driver licensed in another state, the Superintendent shall obtain and review the driver's history record from the appropriate state.

If such check shows, at any time, that a bus driver's commercial drivers license with passenger endorsement has been suspended or revoked, the employee shall be subject to dismissal.

If a bus driver is found to be at fault for an accident or traffic violation as determined by a Transportation Department investigation or a law enforcement agency, the driver may be subject to suspension or dismissal.

In addition to other responsibilities described herein, each school principal shall be responsible for performing the following duties, as prescribed by Fla. Admin. Code R. 6A-3.017:

1. Plan the program of the school so that transported students who arrive early or remain late will be under school supervision at all times.

SCHOOL BUS OPERATING PROCEDURES

6.307

The following procedures and practices shall be followed in operation of school buses.

School buses shall be operated at a safe speed, based on existing bus equipment, road and weather conditions, and never in excess of the legally posted speed limit in business or residential areas; or five (5) miles under the posted speed on a Turnpike, Interstate, Expressway, or Multi-lane Divided Highway, such as, driving 65 mph in a posted 70 mph speed limit.

The amber lights shall be actuated at a point approximately 200 feet from each student stop or at such greater distance as is necessary due to traffic speed and road conditions, as a warning to traffic that the bus has stopped and before the door has opened, the amber lights shall be deactivated and the top signal arm supplemented by flashing red lights, shall be displayed as due warning that students are being loaded or unloaded. The bus door shall not be opened to unload students until approaching traffic in the immediate vicinity of the bus has stopped.

The bus driver should turn on the hazard lights approximately 150 feet before stopping at least 15 feet, and no more than 50 feet, from the nearest rail of any railroad grade crossing. The driver shall not proceed across tracks until after looking carefully in each direction, opening the door and window and listening for the sound of an approaching train, and determining that it is safe to proceed. The bus door shall be closed before proceeding across the tracks of a railroad and then turning the hazard lights off.

Operation of Bay District School buses are prohibited from idling for more than five (5) minutes. Idling is the continuous operation of a vehicle's main drive engine while the vehicle is stopped. School bus drivers will shut off bus engines immediately upon reaching destination, and buses will not idle while waiting for passengers. This rule applies to all bus use, including daily route travel, field trips, and transportation to and from athletic events. School buses will not be restarted until they are ready to depart.

Drivers will limit idling time during early morning warm-up to manufacturer's recommendations – generally three to five (3 to 5) minutes in all but the coolest weather and for the pre-trip safety inspection.

Exceptions to this policy are granted only when running the engine is necessary to operate required safety equipment or to maintain a safe environment for students with special health needs.

Students shall not be permitted to leave the bus at locations other than their regular stop, except upon written request of the parent and approval of the principal.

Order and discipline of students shall be maintained at all times the bus is in operation. Any serious misconduct, or continued less serious misconduct, on the part of a student shall be reported to the principal.

The license number of any vehicle, and the name of the driver if known, which illegally passes the bus while a student is entering or leaving shall be immediately reported to the Supervisor of Transportation.

If the bus is involved in an accident, the driver shall immediately notify the local police department, the sheriff's office or the state highway patrol and the Supervisor of Transportation. The driver shall remain with the bus unless seriously injured, and shall keep the students under control until they can be safely removed. An older student or a passerby may be used to give the proper notice of the accident.

A written report of any accident involving either the school bus or a passenger on the bus shall be made immediately to the Supervisor of Transportation and the Superintendent. In addition, all accidents in

CHAPTER SIX BUSINESS AFFAIRS

which a school bus or transported student is involved or in which total damages to property exceeds \$500 shall be reported to the State Administrator of Transportation.

The posted schedule shall be observed unless to do so would constitute an unnecessary hazard. When ahead of schedule, the driver shall wait for any student until the time of the scheduled stop.

All passengers shall be removed from a bus prior to filling the fuel tank.

The bus driver shall require that students leaving the bus at bus stops to walk approximately 10 feet in front of the bus in order to cross the highway or to cross to the park strip of a divided highway. The driver shall not open the service door and permit students to unload or to cross the highway until all traffic in the immediate vicinity of the bus has stopped.

If the bus stop is equipped with a traffic control light, or is staffed with a school crossing guard or a traffic control officer, all students leaving the bus shall be required to wait a safe distance from the roadway until a signal to cross is given by the person or device directing the flow of traffic.

A daily pre-trip inspection of the bus shall be made by the bus driver and any defect affecting safety or economy shall be immediately reported to the Supervisor of Transportation.

The bus shall be kept clean at all times. No stickers or other unauthorized items shall be affixed to the interior or exterior. The driver is responsible for washing the bus at least once each month, and for sweeping the inside of the bus at least once daily and more frequently if needed.

The driver shall require all passengers to remain seated and to keep aisles and exits clear. Luggage, band instruments, ice boxes or any package or material may not be placed in the bus in a manner which blocks the aisles or the entrance of the bus.

Large boxes, packages, band instruments and similar objects shall be secured in such a manner that a sudden stop would not cause the material to move and possibly cause injury to a passenger.

Where possible, other transportation equipment and supplies shall be purchased in accordance with bid prices established by the State Board of Education or by the Division of Purchasing of the Department of General Services unless the same quality of merchandise can be purchased otherwise at a lower price.

Sale and Disposal of Transportation Equipment. District-owned transportation equipment purchased entirely or in part with funds provided by the State may not be sold within a calendar period of five (5) years of the date of the initial Florida title being issued unless the conditions specified in § 1002.42, Fla. Withdrawal of School Buses from Use. An examination of the mechanical condition of each school bus shall be made each month of operation. A detailed inspection of each bus shall be made annually. Any school bus which does not meet the requirements of law shall be withdrawn from use immediately and until it meets such requirements with the repairs being documented. Any school bus removed from service so as to disrupt the safety inspection schedule shall be reinspected prior to being returned to service.

School Board Automotive Equipment. All automotive equipment owned by the School Board shall be maintained in proper operating condition.

No such equipment may be used for any purpose other than a school purpose and any employee violating the provisions of this rule shall be subject to suspension or dismissal.

Failure of the operator of any piece of automotive equipment to notify the Transportation Department as to any mechanical defect or malfunction shall be cause for the employee's suspension or dismissal.

Any mechanical defect of equipment, where repairs are needed shall be the responsibility of the Transportation Department and repairs shall be made as soon as possible; provided that the vehicle may be withdrawn from use by the Supervisor of Transportation until the repairs are made. The School Board will not assume any financial responsibility for purchases or contracts for repairs on any automotive equipment or tractor equipment unless such had prior approval of the Supervisor of Transportation.

Except under emergency conditions, no equipment shall be repaired by a private shop or private individual unless approved by the Supervisor of Transportation.

FREE AND REDUCED PRICE MEALS

6.402

The School Board has established the following free and reduced price meal policy with respect to determining the eligibility of and providing service to children in attendance.

Free or reduced price meals shall be served to all children who are determined to qualify based on the established eligibility criteria.

The Income Eligibility Guidelines for free or reduced price meals shall be in accord with the scale provided by the Department of Education. The free and reduced scales include household size and income by week, month, or year. Any child who is a member of a family which has a weekly, monthly, or annual income not above the applicable family size income level set forth in the scale must be served a free or a reduced price meal, whichever is indicated. The scale shall be that adopted by the State Board of Education based upon income guidelines prescribed by the U. S. Secretary of Agriculture.

Eligibility standards shall be applicable to all schools under the jurisdiction of the School Board and they shall provide that all children from a family meeting the eligibility standards and attending any school under the jurisdiction of the School Board shall be provided the same benefits.

Definitions.

"Family" means a group of related or nonrelated individuals, who are not residents of an institution or boarding house, but who are living as one economic unit.

An "economic unit" is a group of related or unrelated people who share housing and/or all significant income and expenses of its members. Students who are temporarily away at school, e.g., students attending boarding schools or colleges, should be counted as members of the household.

"Meal" means any meal pattern as defined by Federal Regulations and Guidelines.

"Free or Reduced Price Meal" means a meal that is priced below the full price of the meal and one which neither the child nor his/her family shall be required to supply an equivalent value in work for the school or the school's food service program.

"Service Institution" means a private, non-profit institution or a public institution, such as a child day care center, which provides day care, or other child care where children are not maintained in residence.

"Income" means income before deductions for income taxes, employee's social security taxes, insurance premiums, bonds, etc. It is gross income and includes the following:

- (1) Monetary compensation for services, including wages, salary, commissions, or fees;
- (2) Net income from non-farm self-employment;
- (3) Net income from farm self-employment;
- (4) Social Security;
- (5) Supplemental Security Income (SSI);
- (6) Dividends or interest on savings or bonds, income from estates or trusts or net rental income;
- (7) Public assistance or welfare payments;
- (8) Unemployment compensation;
- (9) Government, civilian employee or military retirement, or pensions, or veterans' payments;
- (10) Private pensions or annuities;
- (11) Alimony or child support payments;
- (12) Regular contributions from persons not living in the household;
- (13) Net royalties; and
- (14) Other cash income.

CHAPTER SIX BUSINESS AFFAIRS

The determination of eligibility of a family for free or reduced meals is managed in the Food Service Office using a comprehensive computer program that scans the annual family application.

Applications. Listed below are the procedural steps used in accepting applications for free and reduced price lunches.

At the beginning of each school year, all parents of children attending school will be notified by letter about the free and reduced price meals outlined in these rules. They will be provided an application form. Families of children enrolling in the school at any time during the school year will receive this same information at the time of enrollment.

Applications will be completed and signed by an adult member of the family. A family may file an application any time during the school year.

The information requested shall be limited to that needed to demonstrate that the family does not meet the criteria in the school's approved eligibility standards and will be in accordance with the guidelines issued by the U. S. Department of Agriculture.

The information requested concerning the annual income of the family shall be limited to:

- (1) The type or types of such income, such as salary, wages, or commissions from employment; earnings from self-employment, including farming; or annuities; and other cash income.
- (2) The amount of gross income for the family in total or by type.

The application shall contain clear instructions with respect to the submission of the completed application to the official designated to make eligibility determinations.

The application shall include immediately above the space for signature, that the person signing it certifies that all information on the application is true and correct and that all income is reported, that the person signing it understands that the information is being given for the receipt of federal funds, that school officials may verify the information on the application and that deliberate misrepresentation of the information may subject the applicant to prosecution under applicable state and federal laws.

Within ten (10) school days of the receipt of the application, parents will be notified in writing if their application is approved or denied. The reason will be given and the parent will be notified that an appeal may be made. The procedure for making this appeal will be stated at the time the parent is notified. Prior to initiating the hearing procedure, the parent or the principal may request a conference to provide an opportunity for the parent and the Food Service Official to discuss the situation, present information, and obtain an explanation of data submitted in the application and decisions rendered. Such a conference shall not in any way prejudice or diminish the right to a fair hearing.

When a child transfers from one school to another within the same school system, any records pertaining to his/her eligibility for free or reduced price meals can be transferred with him/her.

At the beginning of the school year, those students who were eligible the previous school year shall continue to receive their free or reduced price meals until the new application is received, but no longer than for the first thirty (30) days of school.

All applications, approved and disapproved, will be preserved for a period of three (3) years for audit purposes.

CHAPTER SIX BUSINESS AFFAIRS

Local officials may complete an application for a student known to be needy if the household fails to apply. When exercising this option, the school official must complete an application on behalf of the student based on the best household size and income information available and make an eligibility determination. The source of the information **MUST** be noted. Social security numbers of household members need not be secured and these applications may be excluded from verification. The household must be notified that the student has been certified and is receiving free or reduced price benefits. This option is intended for use in individual situations and does not allow eligibility determinations for categories or groups of children.

In all cases, an application must be on file for each child receiving a free or reduced price meal and the application must be signed either by an adult member of the family or by an adult who is aware of the child's need and approved by the Food Service Official.

The District Food Service Office will coordinate a direct certification program annually which identifies students eligible for "free meals" using a computer match with the Department of Health and Rehabilitative Services database. This program will be conducted during the summer period and eligible parents/guardians notified of their students' qualifications. However, all students will receive an application at the beginning of the school year to preclude overt identification of free meal status.

Verification. The verification process will be a focused sample conducted by the Food Service Office beginning October 1 and completed by November 15 of each year.

Hearing Procedure for Appeals.

A hearing may be requested whenever an appeal is made by the parents on the decision of the Food Service Official or the verification process, relating to the providing of free or reduced price meals. The family may ask the Food Service Director for such a hearing. The request may be oral or written.

The hearing will be held within a month after the appeal is made and the family will be given two (2) weeks notice as to the time and place of the hearing. The family will be consulted as to a mutually convenient time and place for such a hearing to be held.

The family will be offered the opportunity:

1. To be assisted or represented by an attorney or another person in presenting their appeal;
2. To examine, prior to and during the hearing, the documents and records presented to support the decision under appeal;
3. To present oral and documentary evidence and arguments supporting its position without undue interference; and
4. To question or refute any testimony or other evidence and to confront and cross-examine any adverse witness.

The hearing shall be conducted and the decision made by a member of the District staff who did not participate in making the decision under appeal. The decision of the hearing official shall be based on the oral and documentary evidence presented at the hearing and made a part of the hearing record. The family and any designated representative will be notified in writing of the decision made by the hearing official.

A written record of such hearing will be made. This record will include:

1. The decision under appeal;
2. Any documentary evidence;
3. A summary of any oral testimony presented at the hearing;

CHAPTER SIX BUSINESS AFFAIRS

4. The decision of the hearing official, including the reasons for such decision; and
5. A copy of the notification to the family of the decision of the hearing official.

This written record will be preserved for a period of three (3) years and will be available for examination by the family or their designated representatives, at any reasonable time and place during such period.

This same hearing procedure shall be followed when the school challenges the continued eligibility of any child for a free or reduced price meal. During the process of such challenge the child shall continue to receive the free or reduced price meal to which he/she was originally determined to be eligible based on the information supplied in the application.

Procedure for Collecting Payments and Other Non-discrimination Practices. The School Board shall establish procedures for collecting payments from paying children in a manner which protects the anonymity of children receiving free and reduced price meals.

The Superintendent shall take action necessary to insure that the names of children eligible to receive free or reduced price meals shall not be published, posted or announced in any manner and that there shall be no overt identifications of any such children by the use of special tokens or tickets, or by any other means. Children eligible for a free or reduced price meal shall not be required to:

1. Work for their lunch;
2. Use a separate food service facility;
3. Go through a separate serving line;
4. Enter the cafeteria through a separate entrance;
5. Eat meals at a different time from other students; or
6. Eat a meal different from the meal sold to children paying the full cost.

If a school employs student helpers who are eligible for free or reduced price meals, they are not to work in any capacity except at the written request of the parents. Parents and/or guardians are to clearly understand that the children would receive a free or reduced price meal even if the students did not work.

Public Announcements. The Superintendent shall publicly announce the standards for determining the eligibility of children for free and reduced price meals. The public announcement shall be made in the following two ways:

1. A letter shall be sent to all parents on or before the beginning of each school year. When a child enrolls in school after the beginning of the school year, the letter shall then be distributed to his/her parents. The letter will contain or be accompanied by:
 - a. A copy of the Free and Reduced Price Meal Application;
 - b. A copy of the Income Eligibility Scale which has been uniformly adopted by the State Board of Education;
 - c. Information regarding how to make an application for a free or reduced price meal;
 - d. Information regarding how a family may appeal the decision of the principal with respect to such application under the hearing procedures described in herein.
2. A public press release, containing the same information supplied to the parents, shall be made available to the informational media, unemployment offices, any major employers who are contemplating layoffs in the area from which the school draws attendance before the beginning of each school year, and whenever there is a change in the policy. A copy of this press release may be obtained by any interested party at the Office of the Superintendent.

PART FIVE SCHOOL FACILITIES

USE OF SCHOOL PROPERTY

6.501

School property, facilities and equipment are intended primarily for educational purposes and for the benefit of students. No other use shall interfere with these purposes. The Principal may approve the use of school property, facilities and equipment for any group or organization ("Lessee") as herein provided. The Principal shall be responsible for safeguarding of such property, facilities and equipment. In addition, the Principal shall see that the rules of the School Board are observed, and that proper lease forms are executed, risks are assessed and mitigated, user liability insurance is in place, the school calendar is accurate and up to date, lease documentation files are maintained, and that required lease payments are made.

School leasing files shall be subject to periodic audit for compliance with this Board Policy and with procedures as approved by the Superintendent in respect to consistent and orderly administration of this Board Policy. Lease forms shall be executed at least ten (10) days in advance of the use or event.

Use of School Property Without Charge. The Principal may authorize the use of school facilities without charging school fees and the Superintendent's designee may waive district fees, except labor costs as may be required for supervision or clean-up, under the following conditions. The Superintendent shall be notified, in writing, of each authorization for the use of school facilities without charge. If there is any doubt as to the eligibility of an organization to use facilities without charge, the matter shall be referred to the Superintendent or designee for resolution.

School facilities and equipment may be made available for any District educational purpose, or for use by employees in accordance with provisions of a collective bargaining agreement.

School facilities may be made available to national youth groups operating under the sponsorship of a county organization provided that the group is properly supervised. District use agreements may be executed with the community organization for all schools or for an individual school.

School facilities and equipment shall be made available for civil defense use as directed by the Superintendent who shall notify the Principal of the school affected.

School facilities may be made available to the Board of County Commissioners for voting places in any election, provided that the Principal can make such arrangements to prevent the election from interfering with the operation of the school.

School facilities may be made available to any governmental, community agency or other organization when specifically approved by the School Board as being in the public interest or for the benefit of the school system or its employees.

Use of Facilities With a Charge Being Made. The Principal, or other designated administrator, may permit the use of school facilities for non-school activities under the following conditions:

School facilities may be made available for specific, temporary, or short-term purposes to organizations which are civic, religious or community connected, upon the payment of the fee established herein.

If the use is to be repetitious for a period of more than six (6) months, approval must be given by the School Board, upon recommendation of the Principal.

CHAPTER SIX BUSINESS AFFAIRS

The Principal shall be responsible for seeing that the facilities are under sufficient supervision and that adequate custodial service is provided. School kitchens and food service facilities shall not be accessed or used by any outside organizations. Organizations using stadiums and sports fields (or indoor facilities for large crowd events) shall be required to have at the organization's expense, at least one (1) uniformed security officer for the entire time of use. The Principal may require use of and payment for other specialized school or district employees or other personnel to properly operate facility lighting systems, sound systems, curtains and set rigging systems, scoreboard, and other specialized equipment. The Principal shall approve of the labor plan for supporting the use or event.

Payment for labor for custodial, supervisory, security, or special technician employees shall be made by the organization using the facility directly to the personnel providing services for the event, not to the school or district. Labor rates shall be as agreed between the user organization and the personnel performing the event support services. Lessee shall provide written documentation to the Principal for labor payments actually made in support of Lessee's use or event. Such labor payments for required services shall be in addition to the space fees charged for usage. Charges shall also be assessed for any damage to the facility, furnishings, or equipment, and reimbursement for such charges shall be made by the organization using the facility.

Booking Deposit. At the time of booking the event in the school calendar, a non-refundable deposit must be paid to the school to reserve the space. The booking deposit shall be the greater of \$250 or 20% of the total lease fee, unless the total lease fee is less than \$250 in which case the total lease fee is due at the time of booking. The booking deposit will be credited toward the total fees to be paid to the school. Booking deposits are specific to one calendar time frame and cannot be applied to multiple bookings.

Fees. The fees in Exhibit A shall be set out in a signed lease agreement and charged for each use of school facilities for any event in which an admission fee is charged or financial profit is expected, or for any other use deemed appropriate for charges by the Principal. The purpose of the district fees and charges is to recover district costs for energy, field paint, supplies, pool chemicals, etc.

If the use of the facility is for a profit-making activity, the organization shall be assessed a fee equal to ten percent (10%) of the gross proceeds or the fees set forth in Exhibit A, whichever is greater.

Payment of Required Fees and Reimbursements. Lease fees shall be paid, by check made payable to the Bay District Schools, ten (10) days in advance of the use of the facilities. Reimbursement for additional expenses, gate share, or any damage costs shall be made within ten (10) days of date of billing and shall be paid by check made payable to the Bay District Schools.

Liability and Insurance Coverage. Each organization proposing to utilize school facilities, whether without or with charge, shall agree in writing to hold the School Board harmless from any liability which might accrue to the Board as a result of such use. In addition, the organization, except school booster clubs and parent-teacher groups, shall provide public liability insurance coverage in the amount of at least \$100,000 per person and \$300,000 per occurrence ten (10) days prior to the use of the facility. Without a certificate in hand proving this insurance coverage is in effect, the facility use shall not be permitted.

CHAPTER SIX BUSINESS AFFAIRS

Prohibited Uses of School Facilities. No school facilities, equipment, or grounds shall be permitted for any of the following purposes:

In accordance with The Equal Access Act, the School Board authorizes school facilities to be made available to secondary students who wish to conduct meetings during non-instructional time. Non-instructional time shall be defined as the time set aside by the school in the morning before actual classroom instruction begins, or in the afternoon after actual classroom instruction ends, exclusive of the optional periods offered by the School Board. The use of school premises for these meetings may be approved by the principal in accordance with the following provisions:

Employees or agents of the school or School Board may be present at meetings only in a non-participatory capacity.
- (6) Use of school premises shall not be denied on the basis of the number of participants or on the basis of the content of the speech at such meetings, e.g., religious, political, philosophical; however, nothing in this Rule shall be construed to limit the authority of the school, its agents or employees, to maintain order and discipline on school premises, to protect the well-being of students and faculty, and to assure that attendance of students at meetings is voluntary.
- (7) Denial by the principal of the use of school premises to any student-initiated group for the purposes of conducting a meeting during non-instructional time may be appealed to the Superintendent.

Religious exemptions must be presented on HRS Form 681, which is to be issued only by HRS public health units. The principal or his/her designee is authorized to issue a temporary exemption from the provisions of this paragraph for a period not to exceed thirty (30) school days, in order to permit a student who transfers from another county to attend classes until his/her records can be obtained. Homeless students who are unable to provide immunization documentation must be exempt from this requirement as per the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11431 et seq.).

A transferring first grade student is eligible to be enrolled in a District school if the student has met the entrance-age requirements outside Florida and the requirements of Fla. Admin. Code R. 6A-1.0985. Students entering first grade from a kindergarten program will need written verification of successful completion of the program. The School Board defines completion of a public or non-public kindergarten as regular school attendance in a kindergarten program, which is in regular session for a minimum of 180 days of instruction comprised not less than three (3) net hours per day or the equivalent as calculated on a weekly basis.

Transfer Students from Nonpublic School or Program. A student entering the District school system by transfer from a nonpublic school or program shall meet the General Admission and Enrollment Requirements. Verification of Prior Attendance and Grade Level. Each principal shall obtain a record of the prior attendance and grade level of each student entering the District school system by transfer or enrollment from another school or school district within or outside the State of Florida. No student may be promoted to a higher grade level in the absence of such verification and, in the alternative, shall be placed at the grade level determined by the principal or a child study team. Placement will be discussed with parents or legal guardians. The final decision for placement will rest with the principal.

STUDENT ENROLLMENT AND EDUCATIONAL DECISIONS

7.102

The School Board recognizes the need for procedures to determine how educational decisions will be made when parents cannot agree between themselves. The School Board will resolve such disputes by looking to the parent who has most recently enrolled the child in school for a final decision concerning the child's educational issues.

PROCEDURES

(1) Definitions:

- (a) For purposes of this policy the term "Parent" is defined as either or both biological parents of a student, any guardian of a student, any person in a parental relationship to a student, or any person exercising supervisory authority over a student in place of the parent.
- (b) The term "guardian" includes any guardian established by court order.
- (c) The term "Enrolling Parent" refers to the Parent who has most recently enrolled the student in school.
- (d) "Physical custody" or "custody" for enrollment purposes is demonstrated when a child lives with the Parent greater than 50% of the time. In the event that a child does not currently live with the Enrolling Parent on record greater than 50% of the time, the Parent having physical custody greater than 50% of the time may become the Enrolling Parent through the proper execution and filing of the District's Affidavit of Custody for Enrollment, which is a sworn statement. As used herein, the terms "physical custody" and "custody" are not to be construed in the same manner as legal custody pursuant to any court order or agreement between the parties.
- (e) The term "Parent Portal" refers to the web-based database that provides access to online student records, including but not limited to, student grades.

(2) Student Enrollment

(a) District's Responsibility for Student Enrollment

- 1. Principals and district personnel shall ensure that registrars and front office staff are aware of the student enrollment procedures.
- 2. The Registrar, front office staff, or district personnel assisting with enrollments (hereinafter collectively referenced as the "Registrar") shall ensure that all documentation required for electronic registration is completed by the Parent and entered into the District's database in a timely manner.
- 3. The District approved electronic registration process must be used for student enrollment.
- 4. In the event a student who is currently enrolled in a school in the District attempts to enroll in another school in the District when there has been a change in physical custody, the Registrar shall first verify that the student has been withdrawn from the previous school. In the event the Enrolling Parent at the previous school is not available to withdraw the student, in an effort to promote school attendance, the registrar in the new school shall assist the Parent attempting to enroll the child in a new school in completing an affidavit attesting to the Parent's physical custody of the

CHAPTER SEVEN STUDENT PERSONNEL

child in accordance with this Policy and complete the electronic registration procedure.

5. The Registrar shall ensure that any Guardian wishing to enroll a student provides all information required for electronic registration and that the Guardianship Affidavit is completed by the Guardian. Staff will also obtain a Guardianship Statement and Assignment of Guardianship to be completed and signed by the Parent giving guardianship of the student to the Guardian whenever possible. A Guardianship Affidavit is not required when a certified copy of a court ordered guardianship is provided.
6. Principals shall ensure that the electronic registration process will be used to update student biographical and contact information as needed.
7. Principals shall ensure that the parent submitted information associated with the electronic registration process is confirmed at the school site in a timely manner.
8. Changes will not be made to the electronic record by someone other than the current Enrolling Parent, except as is otherwise authorized by this Policy.
9. A change of the designated Enrolling Parent may be made on the electronic registration portal utilizing the Affidavit process.

(b) Parent Responsibility

1. To enroll a student in school, the Enrolling Parent must have physical custody of the student greater than 50% of the time and certify to that fact on the electronic registration portal.
2. The address of the Enrolling Parent will be used for purposes of pupil assignment to a school. A student will not be allowed to change schools when the student has visitation with the non-Enrolling Parent.
3. Entitlement to transportation and the designated bus stop will be based upon the address of the Enrolling Parent. For middle school and high school students, during the period of time when the student is living with the non-Enrolling Parent, entitlement to transportation and the designated bus stop may be based upon the address of the non-Enrolling Parent if the address is within the same school attendance zone; if the address of the non-Enrolling Parent is not in the same region or school attendance zone, it will be the responsibility of the Parents to provide transportation to and from the school or the designated bus stop. For elementary school students, the designated bus stop based upon the address of the Enrolling Parent will not change when the student is not with the Enrolling Parent; for safety reasons, when the student is with the non-Enrolling Parent, it will be the responsibility of the Parents to provide transportation to the school or the designated bus stop and to pick up the student from the school or the designated bus stop.
4. Persons on the contact list within the electronic registration portal are determined by the Enrolling Parent.
5. Whether or not the parents are married, if it is the intent of the Enrolling Parent that either Parent be allowed to pick up the student, the Enrolling Parent should ensure that the non-Enrolling Parent is on the contact list.
6. Students may be released only to those individuals listed on the contact list within the electronic registration portal.
7. The Enrolling Parent is responsible for updating the contact list in the electronic registration portal as soon as information changes.
8. Persons on the contacts list may pick up the student any day of the week regardless of any limitations that may be in a court order or parenting agreement. The school is not responsible for enforcing court orders or other legal documents with such

CHAPTER SEVEN STUDENT PERSONNEL

limitations. The Parents alone are responsible for compliance with court orders and agreements to which they are parties.

9. Persons on the contact list are not entitled to access to confidential student records or information unless they are a Parent as defined by the Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) or a Parent provides written consent to disclosure in accordance with FERPA.

(c) Modifications to the electronic registration portal

1. Regardless of the marital status of the parents, (e.g. married, separated, divorced or unwed), modifications to the electronic registration portal can only be made by the Enrolling Parent.
2. Should the non-Enrolling Parent request changes to the electronic registration portal (e.g. adding a party to the contact list), the non-Enrolling Parent should make his or her request of the Enrolling Parent. Only the Enrolling Parent can make the change directly within the portal.
3. The District does not enforce court orders and will not make any change to the electronic registration information as may be ordered by the court. The Parents alone are responsible for compliance with court orders and agreements to which they are parties.
4. District staff shall not modify the contact list on the electronic registration portal or release a child to someone not on the list. An exception may be made in the event of an emergency where the Enrolling Parent makes a telephonic request based on circumstances that impede the Enrolling Parent from physically coming to the school to make the change in person. District staff must, however, confirm the Parent's identity by asking the caller verifying questions, such as the student's date of birth, physical address, and grade, to ensure the Enrolling Parent is the one making the oral request. Subsequent deviations from the electronic records contact list will not be granted. The Enrolling Parent must update the electronic registration portal.
5. Telephone numbers can be updated within the electronic portal by the Enrolling Parent. If the District staff become aware of a change in telephone number that has not been updated within the electronic portal, or if a parent requests that a telephone number be changed, staff may also update the portal to reflect such a change.

CHAPTER SEVEN STUDENT PERSONNEL

(3) Decision-Making Authority

- (a) Except as provided in this policy, the District will not decide disputes between Parents. Parents are encouraged not to have confrontations on school grounds and school personnel may help de-escalate the situation should a confrontation develop.
- (b) Parents are encouraged to confer and cooperate with each other in making educational decisions.
- (c) It is the intent of the Board to promote mutual respect, civility and orderly conduct amongst all Parents. Failure on the part of the Parent to abide by the Bay District School Boards' Civil Conduct Policy (School Board Policy 2.115) may result in loss of privilege and access.
- (d) In the event both Parents cannot agree on an educational decision regardless of their marital status, the Enrolling Parent, as reflected on the most recent update of the electronic registration, has final decision-making authority.

(4) Records

- (a) The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that provides access to and protects the privacy of student education records.
- (b) Either Parent is entitled to copies of the student records relating to their child(ren), regardless of whether they are on the contact list.
- (c) If a person claiming to be a Parent requests access to student records, the school will comply with the following procedures:
 - 1. If the person is physically present, the school will request photo identification and compare the name on the identification with the name on the birth certificate or other legal document.
 - 2. If the person is not physically present, the school will establish the Parent's identity by requiring an affidavit with documentation attached.
 - 3. No records will be released unless the principal or designee is satisfied that the person is a Parent. The school has a reasonable time up to 30 days to produce the records.
- (d) In the event of divorce, both Parents retain access to student records regardless of a custody order, unless the Parent's parental rights or FERPA rights have been specifically terminated by court order. If a Parent is aware of any order terminating a Parent's parental or FERPA rights, the Parent with such knowledge is expected to provide that information to the district.
- (e) Initial copies of records and reports will be provided at no cost to the Enrolling Parent. The Enrolling Parent is responsible for providing the non-Enrolling Parent with copies of records and reports provided to the Enrolling Parent. Additional copies of records and reports will be provided upon request of either Parent electronically and/or at a charge of \$.15 per page plus postage costs and labor when paper copies are necessary.
- (f) The School District will not mail out records to both Parents simultaneously. If the Enrolling Parent does not provide the non-Enrolling Parent with copies of mail outs, the non-Enrolling Parent must request copies of those records.
- (g) A Parent wishing to access student records via the Parent Portal must complete the application process at the student's school.
- (h) A Parent wishing to access student records via the Parent Portal, but who resides out-of-county, must contact the student's school and follow the district's procedure to establish the Parent's identity by requiring an affidavit with documentation attached.

(5) Unforeseen Circumstances

In the event situations arise that are not covered under this policy, the superintendent or designee is authorized to resolve those situations on a case-by-case basis in the best interests of the student and the District.

STUDENT ASSIGNMENTS

7.103

The School Board shall establish residential attendance zones for each school, based upon the Superintendent's recommendation. Each residential attendance zone shall be established to achieve maximum utilization of all School Board facilities and to consider the time and distance of travel for students. The instructional capacity for each school will be set yearly by the School Board after the recommendation by the Superintendent or his/her designee ("Instructional Capacity"). For the purposes of this policy, Enrollment Capacity is defined as ten percent less than the Instructional Capacity. Any student residing in the Bay County School District shall be assigned to a school for attendance by the Superintendent or his/her designee, based upon the Controlled School Choice Program.

A. Controlled School Choice Program.

The Bay County School Board has established the following policies and procedures to ensure compliance with §1002.31, Fla. Stat. The Superintendent or his/her designee shall make student school assignments for grades K-12 using the parent's or legal guardian's (hereinafter collectively "Parents") indicated preferential school choice by use of the Parental Choice Selection ("Choice Request") as a significant factor in the assignment. The District shall ensure that parents are annually informed regarding the Controlled School Choice Program and given the opportunity to visit schools prior to making a choice. Choice Requests shall be filed annually by any student who resides in a county other than Bay County.

Choice Requests. A Choice Request will need to be filed only if the Parents desire the student to change schools. The submission of a new Choice Request at any time acts as a withdrawal of all previous Choice Request and the loss of any placement under the previously filed Choice Request.

Open Enrollment Period Selection for the Next School Year. By April 1 of each school year, the Superintendent and/or designee will select a 30-day Open Enrollment Period. The School Choice application shall be available on the Bay District Schools website during the 30-day Open Enrollment Period. No Choice Requests will be accepted for the next school year prior to the 30-day Open Enrollment Period. All Choice Requests received during the Open Enrollment Period shall, for school assignment purposes, be considered to have been filed on the same date. Parents s will be notified electronically of their children's placement for the following school year.

Change of Placement for the Current School Year. Change of Placement Requests for the current year will only be approved if the receiving school is under its Enrollment Capacity and the requested grade level of the receiving school does not exceed 95% of the maximum enrollment allowed for the District to be in compliance with the class size amendment.

A Change of Placement Request may only be filed once during a school year and such change must meet the requirements of this policy

Priority Placement. Parents s shall make a first, second, and third choice of schools on their Choice Requests. If no choices are made, or there are less than three choices on the Choice Request and the student is not assigned to one of those choices, then the Superintendent or his/her designee shall use their discretion in assigning the student to the student's zoned school. Every effort will be made to honor the preferences in making school assignments.

School Assignment Procedure. After the Superintendent or his/her designee reviews the Choice Requests, the students will be placed in one of the appropriate Priority Groups.

CHAPTER SEVEN STUDENT PERSONNEL

Special Programs. For the purposes of this Student Assignment Policy, a “Special Program” is considered a program that is unique to a particular school and similar programs are not available at another District school. These Special Programs are:

- Rutherford: International Baccalaureate
- Bay: Advanced International Certificate of Education (AICE)
- Middle School Advanced Academic Program

College Preparatory Programs. For the purpose of this Student Assignment Policy, a “College Preparatory Program” (CPP) is considered a program in which application and acceptance standards are required to be enrolled in the program. Each High School may have one College Preparatory Program; these are:

- Arnold Collegiate Studies (CS)
- Bay: Advanced College Track (ACT)
- Mosley: Mosley Advanced Placement Program for Success (MAPPS)

Priority Groups. If the student's choice is:

1. Placement Group 1 (Automatic): a school in which the student qualifies and is currently accepted in a Special Program (SP) and/or a school in which the student qualifies and is currently accepted in a College Preparatory Program (CPP). The percentage cap on out of residential zone students only applies when the student enrollment at the school offering the CPP reaches the Enrollment Capacity.

It shall be the responsibility of the Principal or his/her designee to notify the School Choice Program Office of the change in status of any Special Program or College Preparatory Program student. In addition, the Principal or his/her designee shall submit the number of applicants received and number of applicants accepted out of residential zone.

Students of full-time contract District employees may attend the school where the Parent is employed. If the Parent leaves the employment of the District or transfers employment to another District school, the student may stay at the original school until the end of the current school year, unless the next school year will be the student's final year.

2. Placement Group 2 (Automatic): within the student's residential attendance zone.
3. Placement Group 3 (Automatic): the student's current school placement is automatic for Choice Requests filed during the Open Enrollment Period unless the family has moved out of the residential zone. The parent must file a Choice Request for the student to remain at the current school unless the student is in their final year of school at that school site.
4. Placement Group 4 (Discretionary): a school in which the student is a sibling of a student properly enrolled at the chosen school, placement is discretionary for Choice Requests filed during the Open Enrollment Period.
5. Placement Group 5 (Discretionary): within the same school family as the student's residential zone school and the choice is based upon day care needs.
6. Placement Group 6 (Discretionary): within the same school family as the student's residential zone school and the choice is based upon other reasons.
7. Placement Group 7 (Discretionary): any other District high school which is part of the choice program regardless of school family.

CHAPTER SEVEN STUDENT PERSONNEL

8. Placement Group 8 (Discretionary): out of the student's residential zone school family and the choice is based upon day care needs
9. Placement Group 9 (Discretionary): out of the student's residential zone school family and the choice is based upon other reasons.

Assignment by Priority. After the close of Open Enrollment, students residing in Bay County will be assigned, based on Priority Groups, to particular schools until the number of students assigned to the school reaches its Enrollment Capacity. Those students in Priority Group 1 will be assigned to the school first, then those in Priority Group 2, and so on until the Enrollment Capacity of the school is reached. If the placement of the students falling within a particular discretionary Placement Group would cause the school to exceed its Enrollment Capacity, then all of those students in that discretionary Priority Group will be placed in a lottery. Their names will be selected at random through the lottery and ranked accordingly to reach the school's Enrollment Capacity. Students in the discretionary Priority Group not selected and those in the remaining discretionary Priority Groups will then be considered for their next choice school. Students who reside in a county other than Bay County and submit a Choice Request will be assigned a school **after** all students residing in Bay County have been given a school assignment.

Special Considerations. Due to special programs, the following schools are excluded from the choice program: Tom P. Haney Technical Center; New Horizons Learning Center; Margaret K. Lewis in Millville; Rosenwald High School; and St. Andrews Elementary School.

A proportionate number of kindergarten slots (1/6 of capacity for K-5 schools) will be held open at each elementary school until the sixth day of school, at which time any slots left open will be made available.

Students whose Individual Education Plan (IEP) designates a specific program will be assigned to the program, regardless of other factors. If appropriate special education classes are available in more than one school, parents may rank their school preferences.

In accordance with §1002.31, Fla. Stat., this Controlled School Choice Program shall not conflict with the desegregation orders in Youngblood v. Bay County School Board, Case No. MCA-572, Consent Order dated August 15, 1988. Requests to enter or leave Oscar Patterson Academy will be considered as any other request, as long as the school remains in compliance with the desegregation orders.

Pre-K is a separately funded and operated program and therefore is not part of the Controlled School Choice Program.

Homeless children and youth have the right to remain in their school of origin and the right to dispute school selection, if other than the school of origin as per the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11431 et seq.) (School Board Policy 7.107).

Administrative Assignment – The Superintendent or designee, may assign a student to any district school when it is determined by the Superintendent or designee that it is in the best interest of the student, school (preserving health, safety, welfare, or learning environment of the school), or school district that the student be involuntarily placed at a school other than his/her zoned school of attendance. A student so assigned, however, may be reassigned to the student's zoned school or another out-of-zone school as deemed appropriate by the superintendent or designee. This authority is independent of any other provision of this policy. Procedures for placement of Students With Disabilities will follow state and federal guidelines.

CHAPTER SEVEN STUDENT PERSONNEL

Hardship Waivers. If a student's school assignment causes undue hardship on the family or prevents a student from pursuing studies in a particular academic area, an appeal may be made in writing to the Superintendent. Study areas that may be a basis for a hardship waiver include, but are not limited to: ROTC, Fine Arts programs, and Career and Technical Education programs. Only one hardship waiver is permitted during a school year. The Superintendent or his/her designee shall review all appeals and make the final determination.

Siblings. Sibling is defined as one of two or more children: brother, sister, half-brother, half-sister, stepbrother, stepsister or foster child, living in the same household and having in common one or both natural or foster Parents.

Change in Residence. A Parent who moves during the school year to a residential attendance area of a school in another school family may retain their children's current school assignment for that school year but must provide their own transportation. For the subsequent school year, the student must submit a Choice Request under the controlled School Choice Program and be placed in a school in accordance with this Policy. If the legal residence as defined in School Board Policy 7.103 of a student changes

CHAPTER SEVEN STUDENT PERSONNEL

during the school year to a location outside of Bay County and the Bay District school the student attends exceeds its Enrollment Capacity and occurs before the last nine-week grading period, the student must be withdrawn immediately. If it occurs during the last nine-week grading period, the student may continue enrollment.

Proof of Legal Residence. A student's legal residence is defined as the residence of his/her parents, legal guardian, custodian, or other such person as defined by any order issued by a court of competent jurisdiction of the State of Florida. Proof of the primary legal residence shall include two of the following documents listed in the Parent 's name:

- car payment/billing statement
- deed
- driver's license
- lease or rental agreement
- recent utility bill that reports where service is provided (i.e., electric, water, telephone, cable, internet)
- rent receipt
- voter's registration
- insurance payment/billing statement
- W-2 Income Tax statement
- verification from the Clerk of the Circuit Court as to the address to which child support payments are sent
- property tax record
- an official Contract to Occupy a Residence within 30 days; however, if that address does not become the student's official home address within 30 days, the student shall be transferred to his/her zoned school
- recent legal document

Proof of military primary legal residence shall include two of the following documents listed in the parent 's name:

- military orders
- active duty military identification card
- military temporary living receipt

If the Parent receives a homestead exemption at one residence, it will be presumed that the exempt property is the primary residence of the student unless shown otherwise by competent and substantial evidence. This requirement prevails for both in- and out-of-county students.

If the Parent is unable to supply the documents listed above to demonstrate proof of legal residence, the Superintendent may accept any other pertinent information that may be requested and/or approved by the Superintendent or designee.

The school principal shall be responsible for verifying and accurately recording the place of residence for each student who is assigned to the school. Any student found to be attending a school to which he/she is not assigned shall be transferred to his/her assigned school. If the situation resulted from school system error, the transfer shall be effected at the beginning of the next school year. If the situation was not the result of school system error, the transfer will take effect immediately.

CHAPTER SEVEN STUDENT PERSONNEL

Transportation. The School Board is obligated to provide transportation only in accordance with School Board Policy 6.301.

Enrollment in Other Academic Programs. If a student has been placed at a school due to participation in a Special Program and ceases to be enrolled in that program, the student shall be required to fill out a new Choice Request and be placed in a school in accordance with this policy as of the beginning of the next semester.

Returning a Student to His/Her Home-Zoned School or County. Prior to returning a student to his/her home zoned school or county because of nonattendance, discipline violations, or civil conduct violations, the principal shall notify the parents in writing of his/her decision.

- Nonattendance. If the attendance child study team and the principal have determined the student has established a pattern of nonattendance (defined as 5 absences or 5 tardies in 30 days or 10 absences or 10 tardies in 90 days) and improvements are not made after strategies are implemented, the student may be returned to his/her home zoned school or his/her home county.
- Discipline Violations. If the child study team and the principal have determined that a student attending school out of zone under the school choice program has documented, repeated acts in violation of the Code of Student Conduct and significant improvements are not being made, the student may be returned to his/her home zoned school or his/her home county.
- Civil Conduct Violations. If the principal has determined that a parent has documented repeated acts in violation of the Bay District School Board's Civil Conduct Policy, the student may be returned to his/her home zoned school or his/her home county (School Board Policy 2.115).

Students returned to their home school or county for non-attendance, discipline violations, or civil conduct violations may not return to the out of zone school for the remainder of the current school year and all of the following school year.

Unforeseen Circumstances. In the event situations arise that are not covered under this policy, the superintendent or designee is authorized to refer those situations, on a case-by-case basis, to the School Board to make a final decision in the best interest of the student and the district.

B. Out-of-County Students

Where the provisions of this subsection B deviate from those above in subsection A, subsection B controls in circumstances involving out-of-county students. However, where no conflict exists, the provisions of subsection A above apply to out-of-county students' enrollment and school assignments.

Procedure. Out-of-county students are required to submit an out-of-county application annually for the next school year, regardless of whether or not the student is requesting a change in school. The application will be processed in accordance with this policy.

Out-of-county students desiring enrollment in grades K-12 in Bay District Schools shall, prior to enrollment into Bay District Schools, provide evidence of academic performance for grade placement. Acceptable evidence may include standardized assessments, report cards, or a recommendation of grade placement from the home district or an accredited school.

CHAPTER SEVEN STUDENT PERSONNEL

Placement. Students who reside in a county other than Bay County and submit an out-of-county application will be assigned a school **after** all students residing in Bay County have been given a school assignment. No out-of-county student shall be placed in a school that is over the school's Enrollment Capacity unless the student will be in the highest grade level at that school and the student attended that school during the previous year. No out-of-county student shall be placed in a program or class that is at capacity. No out-of-county student may displace a student residing in the District.

Siblings of out-of-county students are not given any priority in placement.

Out-of-county students are not eligible for consideration of a hardship waiver.

Expelled or Suspended Out-of-County Students. Students shall not be permitted to transfer, enroll, or be admitted to a District school during a suspension or expulsion from another school district. This prohibition shall be effective for the period of time in which the student was expelled or suspended from the other school district. However, the Superintendent may, under § 1006.07, Fla. Stat., recommend to the School Board that the final order of expulsion of the other school district be waived and the student be admitted. The final decision shall be made by the School Board.

COMPULSORY ATTENDANCE

7.104

All children who have attained the age of six (6) years by February 1 of any school year or who are older than six (6) years of age but have not attained the age of (16) years, except herein provided, are required to attend school regularly during the entire school term. Students who have attained the age of 16 years and who have not graduated are subject to compulsory school attendance until they formally terminate enrollment with the district school board.

School personnel will conduct an interview with the student to determine the reasons for the decision to terminate school enrollment, and to inform the student of all available opportunities to continue his or her education. If the student still wishes to terminate enrollment, the student and parent must sign a formal declaration of intent which includes an acknowledgment that terminating school enrollment is likely to reduce the earning potential of the child.

With the exception of Haney Vocational Technical Center and Rosenwald High School, each student enrolled in grades 9-12 shall be scheduled for a full academic day, regardless of the credits needed by the student for graduation. Exceptions to this requirement may be granted in writing by the Superintendent.

In accordance with law, married students and unwed parents of compulsory attendance age shall be required to regularly attend school with full rights and responsibilities of a student. Students who become or have become married and students who are pregnant shall not be prohibited from attending school. Pregnant students may, upon request, attend the alternative program for teen-age parents or adult education programs, provided that the curriculum allows the student to continue to work toward a high school diploma.

Exemptions From Attendance. Children within the compulsory attendance age limits who hold valid certificates of exemption issued by the Superintendent shall be exempt from attending school. A certificate of exemption shall cease to be valid at the end of the school year in which it is issued.

DAILY ATTENDANCE.

7.105

Attendance Records. Daily attendance shall be taken for students who are enrolled in Pre-Kindergarten (age 3) through 12th grade.

It is the responsibility of each teacher to see that an accurate record of attendance is maintained in the manner prescribed by the State Board of Education and the Superintendent. The principal shall be responsible for the timely administration of attendance policies and procedures and for the accurate reporting of attendance in the school under his/her direction. The principal shall assure that all teachers and clerks are instructed in the proper recording of attendance, and it shall be his/her duty to see that such instructions are followed. The principal or his/her designee shall inspect and determine the completeness and accuracy of the records contained in the record keeping system for each of the required full-time equivalent student membership periods. At the end of each school year the principal or his/her designee shall certify the completeness and accuracy of the automated attendance records indicating that all attendance records have been kept as prescribed by law and rules of the State Board. An attendance record containing any material inaccuracies, resulting from willful or intentional falsification of data by or for the principal, shall be considered a false report for which the principal shall be subject to penalties as provided by law. Attendance verification is adequately documented through the 20 day and 45 day attendance verification reports provided through the online district grade book. In order for the attendance verification reports to be accurate, teachers must input attendance by class period at the secondary level and daily at the elementary level.

Leaving School During the Day. Before releasing a student from school, the principal or his/her designee shall establish the identity and authority of any individual who seeks the release of a student from school. A student shall be released only to the parents or legal guardians or other person authorized by the parents or legal guardians on the student's electronic registration portal. Should a person other than one authorized by the parents or legal guardians request the release of a student, the principal or his/her designee shall first obtain verbal consent of the parents or legal guardians before releasing the student. In the event that a dispute arises between parents regarding who is authorized to pick up a student from school, the student shall be released only to the parents or legal guardians registering the student for school. It is the responsibility of the Enrolling Parent or legal guardian to maintain current contact information in the electronic registration portal.

Students in grades 9-12 age 18 or older may sign themselves out of school during the regular school day if the school has on file a written, notarized request from the student's parent allowing their student to check themselves out of school. The written request shall include an acknowledgment that the parent understands that the school will not notify the parent of excessive absences or tardiness if they allow their student this privilege. The written parental request may be waived by the principal in the event the principal determines through verification that the student is living on his/her own.

No teacher or other employee of the School Board shall permit or cause any student to leave school prior to the regular hour of dismissal except with the knowledge and approval of the principal or his/her designee.

At the discretion of the principal, the parents/guardians may be asked to physically sign the student out. Parents/Guardians must have a picture ID to prove they have authority to remove the student from campus.

No student may be excused from school during regular school hours in order to take private lessons, except as provided herein.

CHAPTER SEVEN STUDENT PERSONNEL

All school campuses shall be closed during lunch periods. Each school year, the principal may request an exemption for eligible eleventh and twelfth grade students. If the exemption is approved by the school board, students must have a written notarized parent/guardian authorization form on file.

No student shall be sent from the campus during the school day to perform errands or to act as a messenger, except with the prior approval of the principal. Approval shall be given only for urgent and necessary school business.

Tardiness. Each student is responsible for regular and punctual class attendance. Students must be inside the classroom by the end of the ringing of the tardy bell in order not to be considered tardy. Students who leave more than 15 minutes before a class is over will be given an Early Departure. Chronic tardiness will be investigated by a designated school representative.

Absences. By the next school day after the absence, it shall be the responsibility of the parents or legal guardians to notify the school regarding the reason for each absence. The school principal or his/her designee shall contact the student's parent or guardian to determine the reason for any absence for which the reason is unknown. Justification will be evaluated based on the policy below regarding excused or unexcused absences. The final decision for approval will rest with the school principal.

Attendance Codes. Absences, Tardies and Early Departures shall be recorded with the following codes, as defined in this policy:

- A - Absent (Adult use only-Tom P. Haney Technical Center)
- B - Administrative Leave (excused)
- E - Excused Absence
- F - Family Leave – Preapproved (excused)

- S - School Function Leave (excused)
- T - Tardy (unexcused)
- U - Unexcused Absence

Excused Absences, Tardies or Early Departures. For an absence to be considered as excused, documentation must be filed with the principal's office within three (3) days of the absence. Excused absences, Tardies or Early Departures may be given for the following reasons:

1. Death in the family or other bona fide family emergency.
2. Illness of student. A written statement from a physician that the student is under the supervision of the physician and that the student's condition justifies the number of days absent may be required after a total of five (5) days of absences (absences do not have to be consecutive).
3. Appointments for medical or dental care (physician's statement required.)
4. Visits to licensed therapist.
5. Legal reasons.

 - C. The requested leave cannot be for more than five (5) days per school year and may not be during semester/term exam days and/or during state assessments.

2. Trips for military recruitment should be scheduled when school is not in session. The administration may make an exception if the recruiter makes arrangements with an administrator prior to the student being out of school.
3. Temporary Administrative Leave of a student, initiated by the principal, prior to the conclusion of a misconduct violation investigation. The principal may temporarily assign a student to Administrative Leave while completing the misconduct violation investigation. When temporary Administrative Leave is necessary, the principal or designee shall inform the parents or legal guardians by the most rapid means (including telephone). As soon as feasible under the circumstances, the principal or designee shall hold a conference with the student or parents or legal guardians.

Religious Leave. Students shall be excused from any examination, study, or work assignment for observance of a religious holiday, religious instruction or because the tenets of his/her religion forbid secular activity at such time. 2. Student in grades K-12, upon written request of his/her parents or legal guardian, may be released from school in order to participate in a religious observance.

CHAPTER SEVEN STUDENT PERSONNEL

Unexcused Absences. Unexcused absences are those absences that are not justified according to the rules of this policy by the parent or legal guardian. In addition, truancy, and/or skipping are considered unexcused absences. Skipping class is defined by one or more of the following criteria:

1. Failure to check out when leaving school before the end of the official school day.
2. Absent from class without parents or legal guardians knowledge and/or permission.
3. Absent from class without teacher knowledge and/or permission.

Unexcused Absences and Athletic Eligibility. If a student has had at least five (5) unexcused absences within a calendar month, or ten (10) unexcused absences within a ninety (90) calendar day period, the principal shall, unless there is clear evidence that the absences are not a pattern of non- attendance, refer the case to the school's child study team to determine if early patterns of truancy are developing. If the attendance child study team, after examining the student's attendance records and seeking input from the parent and the student's teachers, finds that a pattern of non-attendance has developed, they will notify the principal and/or designee who will then notify the student, parent, and athletic director that the student will be suspended from all extra-curricular activities until the end of the current grading period or until the student fulfills the terms of an attendance agreement (FHSA Policy 9.2.1.1. requires regular school attendance).

Unexcused Absences and Extracurricular Activities. Students with four (4) or more unexcused absences in a 9 week grading period (block schedule) or eight (8) or more unexcused absences in an 18 week grading period (7 period day) shall be placed on Administrative Probation, which shall include denial of participation in extracurricular activities through the end of the current grading period.

Appeals. A parent or student may appeal within five (5) days of notification a decision to classify an absence as unexcused by notifying the principal in writing.

Make Up Work - Excused Absences. Students are expected to make up all work missed during excused absences. The student must contact the teacher on the first day back in school in order to make arrangements to make up the work within five (5) school days. The teacher and/or the principal may grant additional time for making up work if warranted by the individual situation. All assignments including tests and exams announced in advance of the student's absence must be made up on the day the student returns to school. Teachers have the prerogative to require a student on school or administrative leave to complete work assigned in advance of the leave.

Makeup Work - Unexcused Absences. Students are responsible for making up all work missed, including tests and exams, during an unexcused absence. If the unexcused absence is due to a suspension of one to three (1-3) days, the student must contact the teacher upon the student's return to class to make arrangements to make up within five (5) school days work missed. Parent(s)/guardian(s) of students suspended for more than three (3) days are responsible for contacting the school by the end of the third day of suspension and obtaining the missed work assignments. All work must be completed and returned to the classroom teacher upon the student's return to school.

Attendance Incentive. Students on a block schedule in grades 9-12 with perfect attendance including the day of the exam in a 9 week grading period and an average of 85% and above or students in grades 9-12 with no Unexcused Absences and no more than three Excused Absences including the day of the exam in a 9 week grading period and an average of 90% or above may elect to drop the semester exam or a test or project grade from the current grading period which does not count for more than 1/7 of the student's grade in that class within the current grading period. Students on a seven period day in grades 9-12 with perfect attendance including the day of the exam in an 18 week grading period (7 period day)

CHAPTER SEVEN STUDENT PERSONNEL

and an average of 85% and above or students in grades 9-12 with no Unexcused Absences and no more than six Excused Absences including the day of the exam in an 18 week grading period and an average of 90% or above may elect to drop the semester exam or a test or project grade from the current grading period which does not count for more than 1/7 of the student's grade in that class within the current grading period. However, the student may not, under this provision, choose to drop the final exam grade unless the student's numerical score on the final exam is within 20 points on a scale of 1-100 of the student's numerical grade for the course prior to the exam unless the student has maintained an A or B average for both grading periods. These students must sit for the semester exam, but may choose to drop their exam grade regardless of the 20 point rule described above. A student may only drop a test which the student has taken or a project which the student has turned in for grading. This provision does not permit students to exempt the taking of tests or participating in projects. School Leave and Religious Leave shall not count as an absence for the purpose of this section.

1. Any student who is placed in in-school or out-of-school suspension during the 9 week grading period shall not be eligible under this policy to drop any test or project grade.
2. Any student who has three (3) unexcused tardies in a class during the 9 week grading period (block schedule) or six (6) unexcused tardies in a class during the 18 week grading period shall not be eligible under this policy to drop any test or project grade.
3. Any student who transfers into a District school or a student who transfers from one school to another in Bay County shall not be eligible to drop any test or project for the 9 week grading period of their transfer.

Minimum Attendance. A student may be in jeopardy of being retained if he/she fails to attend school for at least 160 days in a school year.

NONATTENDANCE OR NONENROLLMENT

7.106

Excessive Absences. When a student has at least five (5) unexcused absences or absences for which the reasons are unknown within a calendar month, or 10 such absences within a 90 calendar day period, the primary teacher shall report to the principal or his/her designee that the student may be exhibiting a pattern of nonattendance. Unless there is clear evidence that the student is not exhibiting a pattern of nonattendance, the principal or his/her designee shall refer the case to the school's child study team. If the child study team determines that a pattern of nonattendance is developing, whether the absences are excused or not, a meeting with the parents, legal guardians, or other person having control of the student must be scheduled to identify potential remedies.

If an initial meeting with the parents, legal guardians, or other person having control of the student does not resolve the nonattendance problem, the child study team shall implement interventions that best address the problem. The child study team shall report the case to the Superintendent or his/her designee only when all reasonable efforts to resolve the behavior are exhausted.

If the parents, legal guardians or other person in charge of the student refuses or fails to participate in the remedial strategies because he/she believes that those strategies are inappropriate, he/she may appeal to the School Board. The School Board may provide a hearing officer and the hearing officer shall make a recommendation for final action to the Board. If the Board's final determination is that the strategies of the child study team are appropriate and the parent, legal guardian or person otherwise in control of the student still refuses to participate or cooperate, the Superintendent or his/her designee may seek criminal prosecution for noncompliance with compulsory school attendance.

Truancy. If a student subject to compulsory school attendance will not comply with attempts to enforce school attendance, the parents, legal guardians, or the Superintendent or his/her designee, shall refer the case to the Case Staffing Committee pursuant to § 984.12, Fla. Stat. and the Superintendent is authorized to file a truancy petition following the procedures outlined in § 984.151, Fla. Stat.

Habitual Truancy. A habitual truant is a student of compulsory school age who accumulates fifteen (15) unexcused absences within ninety (90) days. § 1003.01, Fla. Stat. The Superintendent or his/her designee is authorized to file a truancy petition following the procedures outlined in § 984.151, Fla. Stat. If the Superintendent or his/her designee chooses not to file a truancy petition, procedures for filing a child-in-need-of-services petition shall be commenced. Prior to the filing of such petition, the District must have complied with the procedures set forth in §1003.26, Fla. Stat. and those efforts must have been unsuccessful. In accordance with procedures established above, the Superintendent or his/her designee shall refer a student who is habitually truant and the student's family to the children-in-need-of-services and families-in-need-of-services provider or the case staffing committee, established pursuant to § 984.12, Fla. Stat., as determined by the cooperative agreement required.

When all reasonable efforts to resolve the truant behavior have been exhausted, and the student is no longer subject to compulsory school attendance, the student may be withdrawn from school due to non-attendance.

If, during the activities designed to remediate truant behavior of a student, the parents or legal guardians transfer the student to another school district in Florida in an attempt to circumvent the remediation procedures already begun, the transfer school must provide to the new school administration, at no charge, copies of all available records and documents relevant to such remediation activities if the new school must begin remediation activities in the program that most appropriately meets the transfer student's needs.

CHAPTER SEVEN STUDENT PERSONNEL

In the event that legal proceedings have begun against a student that has been determined to be a habitual truant, the movement of the student who is the subject of such proceedings to another circuit court district of Florida will not affect the jurisdiction of the court to proceed with the case under law.

Nonenrollment. When the Superintendent or his/her designee determines there is no valid reason for the nonenrollment of a child in school the following actions shall occur:

The Superintendent or his/her designee shall give written notice, in person or by return-receipt mail, to the parents or legal guardians or other person having control, that requires the enrollment or attendance of the child within three (3) days after the date of notice.

If the child fails to enroll within the required time, the Superintendent or his/her designee may refer the case to the Case Staffing Committee, established pursuant to §984.12, Fla. Stat.

The Superintendent or his/her designee shall take the necessary steps to bring criminal prosecution against the parents, legal guardians or other person having control.

The Superintendent or his/her designee may file a truancy petition, as defined in § 984.03, Fla. Stat. following the procedures outlined in § 984.151, Fla. Stat.

Notification to Department of Highway Safety and Motor Vehicles. Each principal or his/her designee shall notify the Superintendent or his/her designee of each minor in its jurisdiction who accumulates fifteen (15) unexcused absences in a period of 90 calendar days. For the purpose of this policy, absence is defined as the failure of a student to attend one or more classes in a school day. The Superintendent must provide the Department of Highway Safety and Motor Vehicles the legal name, sex, date of birth, and social security number of each minor who has been reported under this paragraph and fails to otherwise satisfy the requirements of § 322.091, Fla. Stat.. Appeals based on hardship waivers shall be the responsibility of the Superintendent or his/her designee and shall meet the requirements of § 322.091(3). The Department of Highway Safety and Motor Vehicles may not issue a driver's license to, and shall suspend any previously issued driver's license or learner's driver's license of, any such minor, pursuant to the provisions of § 322.091, Fla. Stat.

Stat. may request that the offending student be required to attend another school than that of the victim or the victim's siblings. The District will facilitate such requests if possible. If not possible, the District will ensure that the victim and siblings are separated from the offender by steps such as in-school suspension of the offender and the scheduling of school attendance, activities and transportation so as not to coincide.

A teacher may send a student to the principal's office in order to maintain effective discipline in the classroom and the teacher may recommend an appropriate consequence consistent with School Board Policy 7.203. The principal shall employ the teacher's recommended consequence or a more serious disciplinary action if the student's history of disruptive behavior warrants it. If the principal determines a lesser disciplinary action is appropriate, the principal should consult with the teacher prior to taking disciplinary action.

Removal of Students from Class. A teacher may remove a student from class whose behavior the teacher determines interferes with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn. The procedure for removing a student from class shall be:

If the teacher refuses consent, the Placement Review Committee must render a decision within five (5) school days of the removal of the student from the classroom. If the Placement Review Committee's decision is contrary to the decision of the teacher to withhold consent to the return of the removed student to the teacher's class, the teacher may appeal the Committee's decision to the Superintendent.

CHAPTER SEVEN STUDENT PERSONNEL

A student with disabilities may not have services removed for more than ten (10) cumulative days in a school year, which would also include previous suspension days.

ESOL students recommended for removal by a teacher and not returned must continue to receive designated ESOL accommodations.

Each principal shall quarterly report to the Superintendent and the School Board each incidence of a teacher's withholding consent for a removed student to return to the teacher's class and the disposition of the incident. 2. Major Disciplinary Measures. Behavior qualifying for major disciplinary measures may result in any of the disciplines under Minor Disciplinary Measures, as well as the following as deemed appropriate by an administrator:

- Out-of-School Suspension
- Bus Suspension
- Placement in an alternative setting
- Expulsion
- Bus Expulsion

a) Out-of-School Suspension. A student may be suspended from school by the principal or his/her designee for violation of any behavior qualifying for Major Disciplinary Measures. A good faith effort shall be made by the principal or his/her designee to employ parental assistance or other alternative measures prior to suspension or expulsion except in the case of emergency or disruptive conditions which require immediate suspension or expulsion.

b) Bus Suspension or Expulsion. A student may be suspended for up to ten school days from district approved transportation by the principal or his/her designee for violation of any behavior qualifying for Major Disciplinary Measures. A bus suspension may be imposed by the Superintendent for up to 45 school days. A bus expulsion for a period to be determined by the School Board in excess of a 45-day suspension. A good faith effort shall be made by the principal or his/her designee to employ parental assistance or other alternative measures prior to suspension or expulsion except in the case of emergency or disruptive conditions which require immediate suspension or expulsion. During the period of suspension or expulsion, it is the responsibility of the parent or legal guardian to provide transportation to and from school for the student.

c) Determination of Out-of-School Suspension or Bus Suspension. To determine whether out-of-school suspension or bus suspension is appropriate and to decide the length of suspension, the principal or his/her designee shall review the student's individual record and consider:

- a) The facts and the seriousness of the conduct leading to consideration for suspension;
- b) The student's age, grade and past disciplinary record; and
- c) Possible effectiveness of other forms of discipline in correcting behavior.

d) Out-of-School Suspension on the Basis of Felony Charges Off School Property. Any student formally charged with a felony, or with a delinquent act which would be a felony if committed by an adult, by a proper prosecuting attorney for an incident which allegedly occurred on other than public school property, and that incident is shown, in an administrative hearing with proper notice to the parents or legal guardians, to have an adverse impact on the educational program, discipline or welfare of the school in which the student is enrolled, shall be subject to suspension in accordance with §1006.09, Fla. Stat. until determination of the case by a court of competent jurisdiction. Any student who is suspended as a result of such proceedings may be suspended from all classes of instruction on public school grounds during regular classroom hours for a period of time, which may exceed ten days, as determined by the Superintendent. Such suspension shall not affect the delivery of educational services in a daytime alternative education program, or an evening alternative education program, where appropriate. If the court determines that the student did commit the felony or delinquent act which would have been a felony if committed by an adult, the School Board shall have the authority to expel the student, provided that expulsion under this subsection shall not affect the delivery of educational services to the student in any residential, nonresidential, alternative, daytime, or evening program outside of the regular school setting. Any student who is subject to discipline or expulsion for unlawful possession or use of any substance

CHAPTER SEVEN STUDENT PERSONNEL

controlled under Chapter 893 of the Florida Statutes may be entitled to a waiver of the discipline or expulsion in accordance with § 1006.09(2)(a)-(b), Fla. Stat.

C. ZERO TOLERANCE

Any disciplinary action taken against a student who violates this zero-tolerance policy must be based on the particular circumstances of the student's misconduct.

1. Zero Tolerance Level One — Weapons and Threats

a) Level One Behaviors. Zero Tolerance Level One behaviors include the following:

- (i) Possession, use or sale of a firearm or weapon. This includes a firearm or weapon found in a student's vehicle, either at school or at a school sponsored event. The student shall be considered to be in possession of the firearm or weapon if it is determined by the principal, based upon evidence, that the student knew of the presence of the firearm or weapon in the vehicle. The School Board specifically waives the exception in §790.115(2)(a)(3) for purposes of student and campus parking privileges.
- (ii) A threat or false report, as defined by §§ 790.162 and 790.163, respectively, involving school or school personnel's property, school transportation, or a school-sponsored activity.

b) Level One Discipline.

- Mandatory:
 - suspension for ten days,
 - expulsion for no less than one full year, and
 - referral for criminal prosecution
 - referral for mental health services identified by the school district pursuant to § [1012.584](#)(4) and the criminal justice or juvenile justice system
- Additional considerations: The School Board may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. The Superintendent may consider the 1-year expulsion requirement on a case-by-case basis and request the School Board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system.

c) Simulating a Firearm or Weapon. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under Section 1006.07 or Section 1006.13, Florida Statutes. Simulating a firearm or weapon while playing includes, but is not limited to:

- 1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.
- 2. Possessing a toy firearm or weapon that is 2 inches or less in overall length.
- 3. Possessing a toy firearm or weapon made of plastic snap-together building blocks.
- 4. Using a finger or hand to simulate a firearm or weapon.
- 5. Vocalizing an imaginary firearm or weapon.
- 6. Drawing a picture, or possessing an image, of a firearm or weapon.

CHAPTER SEVEN STUDENT PERSONNEL

7. Using a pencil, pen, or other writing or drawing utensil to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student's parent. Disciplinary action resulting from a student's clothing or accessories shall be determined pursuant to Policy 7.209 unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner that is consistent with district school board policies for similar infractions.

2. Zero Tolerance Level Two — Controlled Substances and Intoxicants

a) **Level Two Behaviors.** Zero Tolerance Level Two behaviors include possession, sale, distribution, use, or being under the influence of any controlled substance under Chapter 893, Fla. Stat., any counterfeit controlled substance as defined by §831.31, Fla. Stat., model glue, other inhalant, or alcohol.

b) **Level Two Discipline.**

- Mandatory: suspension of one to ten days
- Permissive: may also result in expulsion
- Additional considerations:
 - A principal may, at his/her absolute discretion, reduce the length of the out of school suspension if the student is a first time alcohol or drug offender who possesses or is under the influence of any substance controlled under §893, Fla. Stat., or is under the influence of model glue or other inhalant or alcohol. **The principal's option to reduce the length of a suspension is only available for incidents involving small amounts of a controlled substance which the principal determines is for the student's individual use and not for distribution, delivery, or sale to other students.**
 - The Superintendent has the authority in drug or alcohol cases to offer the student an Alternative Placement in lieu of Expulsion under this policy.

3. Zero Tolerance Level Three — Fighting and Physical Aggression

a) **Level Three Behaviors.** Fighting and/or Physical Aggression will not be tolerated on Bay District School Board property at any time. If a student participates in a fight, he/she will be subject to disciplinary action as defined in the Bay District Schools Discipline Matrix. Schools will make a good faith effort to provide behavioral interventions for events of this nature. However, the following are deemed Zero Tolerance Level Three behaviors, subject to discipline in accordance with this policy:

- student exhibits a pattern of fighting and/or physical aggression;
- student participates in a fight which results in injury; or
- student participates in a fight which results in the significant disruption of the school environment.

b) **Level Three Discipline.**

- Mandatory: suspension for up to ten days
- Permissive: placement in an alternative setting or expulsion

CHAPTER SEVEN STUDENT PERSONNEL

D. BEHAVIOR THAT POSES THREATS TO SCHOOL SAFETY

1. **Expulsion.** If the Superintendent, after reviewing the particular circumstances, determines that the behavior poses a serious threat to school safety, the Superintendent shall recommend expulsion of the student to the School Board.

2. **Criminal Referrals.** All actions which are determined by this policy to be serious threats to school safety shall be reported to law enforcement. This policy does not require the reporting of petty acts of misconduct and misdemeanors to a law enforcement agency, including, but not limited to, disorderly conduct, disrupting a school function, simple assault or battery, affray, theft of less than \$300, trespassing, and vandalism of less than \$1,000.00.

- a) The principal or his/her designee may suspend a student only in accordance with the rules of the School Board.
- b) The principal or his/her designee shall make a good faith effort to immediately inform a student's parents or legal guardians by telephone of a student's suspension and the reasons for the suspension.
- c) Each suspension and the reasons for the suspension shall be reported in writing within 24 hours to the student's parents or legal guardians by United States mail or by hand delivery. The notice shall contain:
 - (i) The nature of the offense;

- e) At a conference, the student shall be given both oral and written notice of the charges and given an opportunity to present his/her side of the story prior to suspension.
- f) The principal may temporarily suspend a student prior to a conference when, in his/her judgment, the safety or health of students, staff or other persons in the school may be threatened by the continued presence of the student. When temporary suspension is necessary, the principal shall inform the parents or legal guardians by the most rapid means (including telephone). As soon as feasible under the circumstances, the principal shall hold a conference with the student or parents or legal guardians.
- g) Upon request, the parents or legal guardians will be given an opportunity for an informal hearing with the principal or his/her designee within 48 hours of the request (excluding Saturday, Sunday and school holidays).

Stat.
- b) Such notice shall stipulate a date for the hearing which shall be not less than two school days nor more than five school days from postmarked date, or delivery, of the notice and shall also advise the parents or legal guardians of the conditions under which a waiver of suspension may be granted, as prescribed in subsections (2) (a)-(b) of §1006.09, Fla. Stat. Pending such hearing the student may be temporarily suspended by the principal.
- c) The hearing shall be conducted by the principal or his/her designee, and may be attended by the student, the parents or legal guardians, the student's representative or counsel, and any witnesses requested by the student or the principal.
- d) The student may speak in his/her own defense, may present any evidence indicating his/her eligibility for waiver of disciplinary action, and may be questioned on his/her testimony. However, the student shall not be threatened with punishment or later punished for refusal to testify.
- e) In conducting the hearing, the principal or his/her designee shall not be bound by the rules of evidence or any other courtroom procedure, and no transcript of testimony shall be required.
- f) Following the hearing, the principal shall provide the student, parents or legal guardians, and Superintendent or his/her designee with a decision, in writing, as to whether or not a ten-day suspension will be made. In arriving at this decision, the principal shall consider the conditions prescribed by subsection (2) (a)-(b) of §1006.09, Fla. Stat., under which a waiver of suspension may be granted, and may grant such a waiver when s/he determines such action to be in the best interests of the school and the student. The principal shall have authority to modify the decision to either grant or deny a waiver, at any time prior to adjudication of the student's guilt by a court, provided that any such modification adverse to a student shall be made only following a hearing conducted in accordance with this rule.
- g) Any student who is suspended as a result of such proceedings may be suspended from all classes of instruction on public school grounds during regular classroom hours for a period of time, which may exceed ten days, as determined by the Superintendent or his/her designee. If the suspension is extended beyond ten days by the Superintendent or his/her designee, the student will be enrolled in an alternative education program pending adjudication of guilt.

3. Procedures for Placement in an Alternative Educational Setting. Placements in alternative educational settings are initiated by the principal and approved by the Superintendent or his/her designee in accordance with the following procedures:

- a) A student may be placed in an alternative educational setting for a documented pattern of inappropriate behavior or for committing an offense qualifying for major disciplinary measures.
- b) If a change in placement is contemplated for ESE students, a manifestation determination and an IEP meeting with the student's parents must be initiated. This meeting must include a review of the present IEP and a discussion to determine if additional supports are needed for the student to be successful in the present placement or whether a change in placement is needed. In addition to the locations listed below, IEP teams may also consider St. Andrew and New Horizons Learning Center as options for ESE students.
- c) A placement letter will be mailed from the Superintendent or his/her designee to the student's parent/guardian informing them of the student's change in placement.
- d) Students will have ten school days from the date of the placement letter to the parent/guardian to comply with the Placement option. If the student is not enrolled within ten school days, the student may be recommended for expulsion.

CHAPTER SEVEN STUDENT PERSONNEL

- e) Placement locations may include, but are not limited to: Rosenwald High School, St. Andrew School, Bay Virtual School, and other dropout prevention programs as may be available.

- g) In addition to the core curriculum, students placed in an alternative setting will receive:
 - A Structured, Small-Group Environment
 - Positive Behavior Supports
 - Intensive Social Skills Instruction/Groups
 - Focused and Individualized Academic Support
- h) Students who are placed in an alternative setting shall not be eligible to participate in extra-curricular activities.
- i) The length of placement shall be determined by the Superintendent and by the student achieving Program Completion.  - b. Upon Program Completion, the student will be eligible to return to his/her zoned school at the beginning of the next grading period following a reentry meeting to be held at the receiving school.
- k) If the student does not meet the program criteria or refuses to adhere to the program requirements, he/she may be referred for expulsion or alternative placement in lieu of expulsion
- l) After a minimum of ninety school days or at the Superintendent's discretion, and with the recommendation of a placement review team designated by the principal, the student and parent/guardian may request in writing to the Superintendent to be allowed to return to a traditional zoned school in accordance with the District's school choice policy contingent upon behavior, attendance and academic progress during the placement period. If granted, the student will be allowed to return at the beginning of the next academic semester following a reentry meeting to be held at the receiving school where a behavior contract may be required.

4. Procedures for Expulsion

- a) Upon finding that a student has committed a major disciplinary infraction warranting expulsion, a principal may recommend expulsion to the Superintendent. The principal's recommendation to the Superintendent shall be accompanied by the student's disciplinary history and all alternative and supportive measures previously implemented by the school.
- b) The length of the expulsion period will be recommended by the Superintendent and must be approved by the School Board.

If the expulsion recommendation is withdrawn, the principal may then announce an alternative course of action.
- f) If the recommendation for expulsion is affirmed at the conclusion of the informal hearing with the principal, the student and/or parent will be given notice of their right to request a hearing before the School Board, which will be conducted in the manner provided in § 120.57, Fla. Stat. and School Board policy 1.105. The date of the informal hearing shall be deemed the date of the Notice of Disciplinary Action.
- g) Students and parents/guardians of students recommended for expulsion may file a request for hearing before the School Board within 15 calendar days of the date of the Notice of Disciplinary Action. If granted, the student will be allowed to return at the beginning of the next academic semester following a reentry meeting to be held at the district office where a written reentry plan must be developed prior to the return of an expelled student to the school program. Each plan is to be developed in cooperation with all parties involved, including the student and parent/guardian.

F. DISCIPLINE OF STUDENTS WITH DISABILITIES.

For the purpose of this rule a student with disabilities is defined as any student appropriately classified as 504 or Exceptional Student Education and presently placed in an exceptional student education program, excluding gifted. Parental notification of policies, procedures, and student rights regarding discipline of students with disabilities shall be provided, in writing, at the eligibility staffing meeting or when parental consent for 504/ESE placement is documented. Parental safeguards and rights of due process shall, in addition, be observed and followed at all steps in the process. Additional information is available in the "Florida Department of Education District Implementation Guide for Section 504 (504 Guide)" or the "Special Programs and Procedures for Exceptional Students (SP&P)," adopted by the Board pursuant to Section 1.103 and hereby incorporated by reference as a part of the Rules of the Bay County School Board.

1. Suspension of Students with Disabilities. The principal may suspend a student with disabilities for a period of time not to exceed ten school days (or an accumulation of ten school days within a school year) without the provision of a free and appropriate public education. Appropriate due process shall be observed, except in emergency situations in which a student's presence poses a continuing danger to persons or property or represents an ongoing threat of disruption to the academic process.

When a bus incident occurs, a student with disabilities may be suspended from the bus. It is the principal's responsibility to ensure that a bus suspension will not interfere with the student's access to a free and appropriate public education.

Following procedures outlined in the 504 Guide or the SP&P Manual, the school must conduct a functional behavioral assessment and develop a behavioral intervention plan for any student exhibiting a pattern of inappropriate behavior. If the student has a behavioral intervention plan, the 504/IEP Team shall meet to review the plan and consider modifying the plan to address the behavior.

2. Suspension After Accumulation of Ten Suspension Days. At such time that accumulated suspensions exceed ten days within a school year and a pattern of removal has been determined, the principal shall convene the 504/IEP Team and include the principal or his/her designee. This Team shall review the student's program and conduct a manifestation determination meeting to determine whether or not the student's disability is a precipitating factor in the disciplinary infraction.

If the 504/IEP Team determines that the student's behavior is related to the student's disability, then using procedures outlined in the 504 Guide/SP&P, the Team will amend the student's Plan to address the behaviors.

CHAPTER SEVEN STUDENT PERSONNEL

If the 504/IEP Team determines that the student's behavior is not related to the student's disability, the Team shall document the rationale for this decision in a manifestation determination meeting. In this case, procedures for disciplinary action will follow its regular course of action, as designated in School Board Policy 7.203. Parents must be informed of this decision. In no case will services cease for a student with a disability.

3. Expulsion of Students with Disabilities. If the student to be expelled is a student with disabilities, the following procedures from the 504 Guide/SP&P must be followed. Instances in which students with disabilities engage in behavior that could warrant expulsion action are described in School Board Policy 7.203.

- a) Expulsion of an identified student with disabilities constitutes a change in educational placement and may not be an exclusion from educational services.
- b) When a principal plans to recommend expulsion for a student with disabilities, the Superintendent or his/her designee shall be notified that a 504/ IEP Team meeting will be held. The Team shall meet to determine whether the student's misconduct is a manifestation of his/her disability.
- c) The 504/IEP Team shall determine the relationship of the student's behavior to the student's disability and amend the Plan to provide the alternative placement and/or programming. In no case may the District cease provision of educational services to a student with an IEP.
- d) Policies and procedures for conducting 504/IEP meetings and providing procedural safeguards to parents or legal guardians of students with disabilities consistent with Fla. Admin. Code R. 6A-0331(3) apply to this meeting.
- e) A copy of these policies and procedures shall be given to parents or legal guardians of students with disabilities at eligibility and 504/IEP manifestation determination meetings.

G. PROCEDURES FOR DISCIPLINARY DECISION APPEAL

A disciplinary decision of a school-based administrator or teacher may be appealed to the principal. The principal's decision may be appealed to the Superintendent or his/her designee. An electronic copy of the decision and notification of the right to appeal shall be furnished to the student, parents, or legal guardians via Parent Portal. The student, parents, or legal guardians shall have five working days from receipt of notification of the disciplinary decision to appeal.

STUDENT DETENTION, SEARCH, AND SEIZURE

7.204

Any member of the instructional or administrative staff may temporarily detain and question a student when there is reasonable suspicion that the student has committed, is committing, or is about to commit a violation of law or School Board policy. No student shall be temporarily detained longer than is reasonably necessary. Such temporary detention shall not extend beyond the place where it was first effected, or the immediate vicinity thereof. Searches should be conducted discreetly and with an eye toward causing the least amount of embarrassment to the student as possible.

If reasonable suspicion exists, including proper identification by a drug detection dog and its trainer, that a student is concealing or has concealed stolen, prohibited, or illegally possessed substances or objects (contraband) on his/her person, within his/her locker or other storage place, or vehicle owned or operated by the student, then the principal or a school employee designated by the principal may search the student, his/her locker or other storage space, or his/her vehicle owned or operated by the student. Student searches and questioning should be conducted and witnessed by school officials of the same gender as the student.

If the search reveals prohibited, or illegally possessed substances or objects (contraband), such property shall be seized and, when appropriate, turned over to law enforcement authorities.

Any prohibited, illegally possessed substances or other contraband found to be in the possession of students shall be confiscated by the principal and turned over to appropriate law enforcement personnel.

Each principal shall place a sign within the school, in a place readily seen by students, which shall contain the following text:

QUESTIONING AND REMOVAL OF STUDENTS BY LAW ENFORCEMENT OFFICERS

7.206

Except as provided herein, interviews of students by law enforcement officers will be permitted during the school day only when interviews during non-school hours would unduly interfere with the law. Any law enforcement officer wishing to question a student shall present adequate identification, and shall indicate the necessity or reason for the interview prior to being provided access to the student.

If the student to be questioned is under the age of eighteen (18), the principal shall notify the parents or legal guardians if possible, before asking any questions. If the parents or legal guardians refuse to give permission, the principal shall not permit the law enforcement officer to question or interview the student.

If the parents or legal guardians cannot be reached, the principal shall evaluate the necessity for the law enforcement officer having immediate access to the student and either permit or refuse access. If access is permitted the principal or his/her designee shall participate in the interview in order to ensure that all rights of the student are observed and protected. When questioning or searching students, the principal or his/her designee must be present with no more than two (2) law enforcement officers, unless officer safety is an issue. Student searches and questioning should be conducted and witnessed by school officials of the same gender as the student.

If the student is over the age of eighteen (18), the principal shall evaluate the necessity or reason for the law enforcement officer to have access to the student and may either permit or deny such access during school hours. If access is permitted, and when questioning or searching students, the principal or his/her designee must be present with no more than two (2) law enforcement officers, unless officer safety is an issue. Student searches and questioning should be conducted and witnessed by school officials of the same gender as the student.

Removal of Student from School Campus. No law enforcement officer shall be permitted to remove a student from the school campus for questioning or any other purpose, except under the following conditions:

1. A court order is presented authorizing the officer to take the student into custody;

BULLYING, HARASSMENT, CYBERSTALKING OR TEEN DATING VIOLENCE AND ABUSE

7.207

It is the policy of the School Board of Bay County, Florida (the "District" or "School Board") that all of its students and school employees have an educational setting that is safe, secure, and free from harassment, bullying, and dating violence and abuse of any kind. The District will not tolerate bullying, harassment, or teen dating violence and abuse of any type. Conduct that constitutes bullying, harassment, or teen dating violence and abuse as defined herein, is prohibited, including discrimination on the basis of race, color, national origin, sex and disability.

Definitions

Bullying includes cyberbullying and means systematically and chronically inflicting physical hurt or psychological distress on one or more students or employees. It is further defined as unwanted and repeated written, verbal, or physical behavior, including any threatening, insulting, or dehumanizing gesture, by a student or adult, that is severe or pervasive enough to create an intimidating, hostile, or offensive educational environment; cause discomfort or humiliation; or unreasonably interfere with the individual's school performance or participation; and may involve but is not limited to:

1. Teasing
2. Social Exclusion
3. Threat
4. Intimidation
5. Stalking
6. Physical violence
7. Theft
8. Sexual, religious, or racial harassment
9. Public or private humiliation
10. Destruction of property

This definition is inclusive of, but not limited to, behaviors which are motivated by the victim's sex, race, color, religion, national origin, age, disability (physical, mental, or educational), marital status, socio-economic background, ancestry, ethnicity, gender, gender identity or expression, linguistic preference, political beliefs, sexual orientation, or social/family background, or any such traits the harasser attributes to the victim based upon the harasser's perception of the victim.

Cyberbullying means bullying through the use of technology or any electronic communication, which includes, but is not limited to, any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photoelectronic system, or photooptical system, including, but not limited to, electronic mail, Internet communications, instant messages, or facsimile communications. Cyberbullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person, or the knowing impersonation of another person as the author of posted content or messages, if the creation or impersonation creates any of the conditions enumerated in the definition of bullying. Cyberbullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons, if the distribution or posting creates any of the conditions enumerated in the definition of bullying.

Harassment means any threatening, insulting, or dehumanizing gesture, use of data or computer software, or written, verbal or physical conduct directed against a student or school employee that:

1. Places a student or school employee in reasonable fear of harm to his or her person or damage to his or her property

CHAPTER SEVEN STUDENT PERSONNEL

2. Has the effect of substantially interfering with a student's educational performance, opportunities, or benefits
3. Has the effect of substantially disrupting the orderly operation of a school

Bullying and harassment also encompass:

1. Retaliation against a student or school employee by another student or school employee for asserting or alleging an act of bullying or harassment. Reporting an act of bullying or harassment that is not made in good faith is considered retaliation.
2. Perpetuation of conduct listed in the definition of bullying or harassment by an individual or group with intent to demean, dehumanize, embarrass, or cause emotional or physical harm to a student or school employee by:
 - a. Incitement or coercion
 - b. Accessing or knowingly and willingly causing or providing access to data or computer software through a computer, computer system, or computer network within the scope of the District
 - c. Acting in a manner that has an effect substantially similar to the effect of bullying or harassment

Cyberstalking as defined in s. 784.048(1)(d), Fla. Stat., means to engage in a course of conduct to communicate, or to cause to be communicated, words, images, or language by or through the use of electronic mail or electronic communication, directed at a specific person, causing substantial emotional distress to that person and serving no legitimate purpose.

Teen Dating Violence and Abuse is a pattern of emotional, verbal, sexual, or physical abuse used by one person in a current or past dating relationship to exert power and control over another when one or both of the partners is a teenager. Abuse may include insults, coercion, social sabotage, sexual harassment, stalking, threats and/or acts of physical or sexual abuse. The abusive partner uses this pattern of violent and coercive behavior to gain power and maintain control over the dating partner. This may also include abuse, harassment, and stalking via electronic devices such as cell phones and computers, and harassment through a third party, and may be physical, mental, or both.

Stay-Away Agreement. The school-based alternative to a legal protective order is called a Stay-Away-Agreement. The Stay-Away-Agreement provides a list of conditions that must be followed by the alleged perpetrator while on school grounds or at school-sponsored activities. It is designed to ensure the safety of the victim.

Support person. All parties involved in a teen dating violence or abuse case have the right to have a support person present during all stages of the investigation. A support person includes domestic violence victim advocates, parents/guardians, or other advisors.

Expectations

The School Board expects students and employees to conduct themselves in keeping with their levels of development, maturity, and demonstrated capabilities with a proper regard for the rights and welfare of other students and school staff, the educational purpose underlying all school activities, and the care of school facilities and equipment.

The school district believes that standards for student behavior must be set cooperatively through interaction among the students, parents/legal guardians, staff, and community members producing an atmosphere that encourages students to grow in self-discipline. The development of this atmosphere requires respect for self and others, as well as for district and community property on the part of students, staff, and community members. Since students learn by example, school administrators, faculty, staff, and

CHAPTER SEVEN STUDENT PERSONNEL

volunteers will demonstrate appropriate behavior, treat others with civility and respect, and refuse to tolerate bullying or harassment.

1. The School Board prohibits the bullying, harassment, cyberstalking, and teen dating violence and abuse of any student or school employee:
 - a. during any educational program or activity conducted by the District;
 - b. during any school-related or school-sponsored program or activity;
 - c. on a District school bus;
 - d. through the use of any electronic device or data while on school grounds or on a computer system, or computer network of the District, meaning regardless of ownership, any computer, computer system, or computer network that is physically located on school property or at a school-related or school-sponsored program or activity. The physical location or time of access of a computer-related incident cannot be raised as a defense in any disciplinary action initiated under this section;
 - e. through the use of data or computer software that is accessed at a non-school-related location, activity, function, or program or through the use of technology or an electronic device that is not owned, leased, or used by a school district or school, if the bullying substantially interferes with or limits the victim's ability to participate in or benefit from the services, activities, or opportunities offered by a school or substantially disrupts the education process or orderly operation of a school;
 - f. through threats using the above to be carried out on school grounds. This includes threats made outside of school hours, which are intended to be carried out during any school-related or school-sponsored program or activity, or on a District school bus;
 - g. while the District does not assume any liability for incidences that occur at a bus stop or en route to and from school, a student or witness may file a complaint following the same procedures for bullying/harassment/teen dating and abuse against a student and the school will investigate and/or provide assistance and intervention as the principal/designee deems appropriate, which may include the use of the School Resource Officer; or
 - h. The above section (e) does not require a school to staff or monitor any non-school-related activity, function, or program.
2. All administrators, faculty, and staff, in collaboration with parents, students, and community members, will incorporate systemic methods for student and staff recognition through positive reinforcement for good conduct, self discipline, good citizenship, and academic success, as seen in the required school plan to address positive school culture and behavior.
3. Student rights shall be explained as outlined in this policy and in the Student Code of Conduct.
4. Proper prevention and intervention steps shall be taken based on the level of severity of infraction as outlined in this policy and in the Student Code of Conduct.

1. Concluding whether a particular action or incident constitutes a violation of this policy requires a determination based on all of the facts and surrounding circumstances. The physical location or time of access of a technology-related incident cannot be raised as a defense in any disciplinary action.
2. Consequences and appropriate remedial action for students who commit acts of bullying, harassment, cyberstalking or teen dating violence and abuse or who are found to have

Additionally, egregious acts of bullying, harassment, cyberstalking or teen dating violence and abuse by certified educators may result in a sanction against an educator's state issued certificate. (See State Board of Education Rule 6B-1.006, FAC., *The Principles of Professional Conduct of the Education Profession in Florida*.)
4. Consequences and appropriate remedial action for a visitor or volunteer, found to have committed an act of bullying, harassment, cyberstalking or teen dating violence and abuse or who is found to have **wrongfully and intentionally accused** another of an act of bullying, harassment, cyberstalking or teen dating violence and abuse shall be determined by the school administrator after consideration of the nature and circumstances of the act, including reports to appropriate law enforcement officials.

For a student or employee of a public K-12 educational institution who is found to have **wrongfully and intentionally accused** another of an act of bullying, harassment, cyberstalking or teen dating violence and abuse:

Consequences and appropriate remedial action for a visitor or volunteer, found to have wrongfully and intentionally accused another as a means of bullying or harassment shall be determined by the school administrator after consideration of the nature and circumstances of the act, including reports to appropriate law enforcement officials.

Procedures for Reporting

At each school, the principal or the principal's designee is responsible for receiving complaints alleging violations of this policy. All school employees and school volunteers are required to report alleged violations of this policy to the principal or the principal's designee on the same day it is witnessed. In addition to reporting the incident to the principal or designee, if a school employee has reason to suspect that an alleged violation of this policy might constitute a crime, the employee shall also immediately report the complaint to law enforcement. Any uncertainty regarding whether an alleged violation might constitute a crime must be resolved in favor of reporting the incident to law enforcement. All other members of the school community, including students, parents/legal guardians, volunteers, and visitors are encouraged to report any act that may be a violation of this policy anonymously or in-person to the principal or principal's designee. In cases involving an alleged perpetrator who is of adult age and an

CHAPTER SEVEN STUDENT PERSONNEL

alleged teen victim, certain suspicions of abuse must be reported to the Florida Abuse Hotline or local law enforcement pursuant to Section 39.201, Florida Statutes.

The principal of each school in the District shall establish and prominently publicize to students, staff, volunteers, and parents/legal guardians, how a report of bullying, harassment, cyberstalking or teen dating violence and abuse may be filed either in-person or anonymously and how this report will be acted upon. The victim of bullying, harassment, cyberstalking or teen dating violence and abuse, or anyone who witnessed the bullying, harassment, cyberstalking or teen dating violence and abuse, and anyone who has credible information that an act of bullying, harassment, cyberstalking or teen dating violence and abuse has taken place may file a report. A school employee, school volunteer, student, parent/legal guardian or other person(s) who promptly reports in good faith to the appropriate school official and who makes this report in compliance with the procedures set forth in the District policy is immune from a cause of action for damages arising out of the reporting itself or any failure to remedy the reported incident. Submission of a good faith complaint or report will not affect the complainant or reporter's future employment, grades, learning or working environment, or work assignments.

Any written or oral reporting of an act of bullying, harassment, cyberstalking or teen dating violence and abuse shall be considered an official means of reporting such act(s). Reports may be made anonymously, but formal disciplinary action may not be based solely on the basis of an anonymous report.

Procedures for Prompt Investigation

The investigation of a reported act of bullying, harassment, cyberstalking or teen dating violence and abuse is deemed to be a school-related activity and begins with a report of such an act. Incidents that require a reasonable investigation when reported to appropriate school authorities shall include alleged incidents of bullying or harassment allegedly committed against a child while the child is en route to school aboard a school bus or at a school bus stop.

At each school in the District, the Procedures for Investigating Bullying, Harassment, Cyberstalking or Teen Dating Violence and Abuse include:

1. The principal or designee selects a designee(s), employed by the school, trained in investigative procedures to initiate the investigation. The designee(s) may not be the accused perpetrator (harasser or bully), the victim, or a relative of the accused perpetrator or victim.
2. Documented interviews of the victim, alleged perpetrator, and witnesses are conducted privately, separately, and are confidential. Each individual (victim, alleged perpetrator, and witnesses) will be interviewed separately and at no time will the alleged perpetrator and victim be interviewed together.
3. The investigator shall collect and evaluate the facts including, but not limited to:
 - a. Description of incident(s) including nature of the behavior; context in which the alleged incident(s) occurred, etc.;
 - b. How often the conduct occurred;
 - c. Whether there were past incidents or past continuing patterns of behavior;
 - d. The relationship between the parties involved;
 - e. The characteristics of parties involved (i.e., grade, age, etc.);
 - f. The identity and number of individuals who participated in bullying, harassing, cyberstalking or teen dating violence and abuse behavior;
 - g. Where the alleged incident(s) occurred;
 - h. Whether the conduct adversely affected the student's education or educational environment;
 - i. Whether the alleged victim felt or perceived an imbalance of power as a result of the reported incident; and

CHAPTER SEVEN STUDENT PERSONNEL

- j. The date, time, and method in which the parents/legal guardians of all parties involved were contacted.
- k. The parent(s)/guardian(s) of youth involved in a dating violence or abuse complaint may be notified of the complaint, except if such notification is not in the best interest or impairs the safety of the students involved.
4. Whether a particular action or incident constitutes a violation of this policy requires a determination based on all the facts and surrounding circumstances and includes:
 - a. Recommended remedial steps necessary to stop the bullying, harassing, cyberstalking or teen dating violence and abuse behavior; and
 - b. A written final report to the principal and the Superintendent or Superintendent's designee with recommendations for disciplinary action if it is determined that bullying, harassing, cyberstalking or teen dating violence and abuse has occurred.
 - c. If a crime has been committed, the police will be immediately notified.
5. The maximum of 10 school days, except in exceptional circumstances, shall be the limit for the initial filing of incidents and completion of the investigative procedural steps. The highest level of confidentiality possible will be upheld regarding the submission of a complaint or a report of bullying, harassment, cyberstalking or teen dating violence and abuse, and the investigative procedures that follow.

Scope of District

A principal or designee will assign a designee(s) that is trained in investigative procedures to initiate an investigation of whether an act of bullying, harassment, cyberstalking or teen dating violence and abuse is within the scope of the District.

The trained designee(s) will provide a report on results of investigation with recommendations for the principal to make a determination if an act of bullying, harassment, cyberstalking or teen dating violence and abuse falls within the scope of the District.

1. If it is within scope of the District, move to Procedures for Investigating Bullying, Harassment, Cyberstalking or Teen Dating Violence and Abuse.
2. If it is outside scope of district, and determined a criminal act, refer to appropriate law enforcement.
3. If it is outside scope of the District, and determined not a criminal act, inform parents/legal guardians of all students involved, except if such notification is not in the best interest or impairs the safety of the students involved.

Notification

The principal, or designee, shall promptly **report via telephone, personal conference, and/or in writing, the occurrence of any incident of bullying, harassment, or cyberstalking as defined by this policy to the parent or legal guardian of all students involved** on the same day an investigation of the incident(s) has been initiated. Notification must be consistent with the student privacy rights under the applicable provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA).

If the bullying, harassment or cyberstalking incident results in the perpetrator being charged with a crime, the principal, or designee, shall by telephone or in writing by first class mail, inform parents/legal guardian of the victim(s) involved in the bullying, harassment or cyberstalking incident about the Unsafe School Choice Option (No Child Left Behind, Title IX, Part E, Subpart 2, Section 9532) that states "...a student who becomes a victim of a violent criminal offense, as determined by State law, while in or on the grounds of a public elementary school or secondary school that the student attends, be allowed to attend a safe public elementary school or secondary school within the local educational agency, including a public charter school."

CHAPTER SEVEN STUDENT PERSONNEL

Once the investigation has been completed and it has been determined that criminal charges may be pursued against the perpetrator, all appropriate local law enforcement agencies will be notified by telephone and/or in writing.

The parent(s)/guardian(s) of youth involved in a **dating violence or abuse** complaint may be notified of the complaint, except if such notification is not in the best interest or impairs the safety of the students involved.

Procedures for Restraining Orders for Teen Dating Violence and Abuse

Should a student or their guardian inform the School or the District that an order of protection has been issued, the principal or designee will contact the abuser and his/her parents to initiate a Stay-Away-Agreement, consistent with the terms of the order, with penalties for known violations of the agreement. The principal or designee will notify law enforcement immediately if they have reasonable belief that a criminal or civil restraining order has been violated. School Resource Deputies will respond immediately to a report of a violation of a criminal or civil restraining order.

The Stay-Away-Agreement will be administered in a conference with the alleged perpetrator and his or her parent/guardian. If the parent/guardian is unavailable or unwilling to attend the conference, the school should note this on the agreement. The Stay-Away-Agreement should include the following elements:

- a. a description of the relationship between the victim and the alleged perpetrator.
- b. a description of the violent incident(s): what, when, where, witnesses
- c. a list of behaviors that the alleged perpetrator may not do (i.e. talking to the victim, sitting near the victim, sending notes to the victim, etc.)
- d. any schedule changes for the alleged perpetrator (to separate the victim and the alleged perpetrator), including classes, lunch period, arrival and dismissal times, locker location, and extracurricular activities.
- e. notes on other disciplinary action taken.
- f. disciplinary consequences if the alleged perpetrator violates the Stay-Away-Agreement.
- g. dates during which the Stay-Away-Agreement is valid.
- h. date when the Stay-Away-Agreement will be reviewed.

Procedures to Provide Reasonable Accommodations to the Teen Dating Violence and Abuse Victim

Requests for accommodations may be made orally or in writing to any school employee and these requests should be taken to the principal or principal's designee. If the request is made orally, the principal or designee shall document the request in writing. The school shall provide a written decision to the student as soon as possible, but in all cases a decision must be made within five school days of the request. A denial to a request for accommodation must include the reason(s) for the denial. All requests for accommodations should be kept strictly confidential.

At no time shall the school personnel notify the alleged perpetrator of the student's request for accommodation, nor shall the school require the student to pursue a complaint against the alleged perpetrator through the school grievance process or the criminal justice system.

All accommodations under this policy are voluntary; the student may choose to decline or rescind any accommodations at any time by notifying the principal or designee. The student shall not be subject to any

retribution or disciplinary action for such decision and shall not lose the right to request and receive future accommodations.

Accommodations for safety shall be made even if the alleged perpetrator is not a student at the school or if the abuse occurred outside of school grounds.

The School or the District will provide a victim of dating violence or abuse with the following, based on the circumstances:

a) Stay-Away-Agreement: an agreement with the offender to stay away from the victim while on school grounds, on school transportation, and during school sponsored programs and events.

b) Reasonable accommodations, such as class schedule changes, change of locker assignment, private space for meeting with school guidance counselor or other appropriate school personnel.

If needed, the school will assist the student in creating an alternative education plan for the student such as transferring to a different school or the ability to make up school work missed due to dating violence.

c) Security protection, such as safe egress/regress from school and within the school.

d) Timely and comprehensive investigation of dating violence and abuse complaints.

e) Referrals for outside support and/or counseling.

f) Information and assistance in securing interventions to address the behavior of abusers (e.g. empathy training, anger management).

g) Information and assistance in securing intervention which includes assistance and support provided to parents/guardians, if deemed necessary and appropriate.

h) Other actions determined appropriate under the circumstances.

Referral for Counseling

A District referral procedure will establish a protocol for intervening when bullying, harassment, cyberstalking or teen dating violence and abuse is suspected or reported. The procedure shall include:

1. A process by which the teacher or parent/legal guardian may request informal consultation with school staff (specialty staff, e.g., school counselor, school psychologist, etc.) to determine the severity of concern and appropriate steps to address the concern (the involved students' parents or legal guardian may be included).
2. A referral process to provide professional assistance or services that includes:
 - a. A process by which school personnel or parent/legal guardian may refer a student to the school intervention team (or equivalent school-based team with a problem-solving focus) for consideration of appropriate services. (Parent, legal guardian or support person involvement is required at this point.)
 - b. If a formal discipline report or formal complaint is made, the principal or designee must refer the student(s) to the school intervention team for determination of counseling support and interventions. (Parent, legal guardian or support person involvement is required at this point.)
3. A school-based component to address intervention and counseling assistance as determined appropriate by the intervention team that includes:

 - b. Research-based counseling/interventions to address the behavior of the perpetrator (e.g., empathy training, anger management)

CHAPTER SEVEN STUDENT PERSONNEL

School Safety Reports

The District will utilize Florida's School Environmental Safety Incident Reporting (SESIR) Statewide Report on School Safety and Discipline Data, which includes **bullying and harassment** incident codes as well as **bullying-related** and/or harassment element codes. The SESIR definition of bullying is systematically and chronically inflicting physical hurt or psychological distress on one or more students or employees that is severe or pervasive enough to create an intimidating, hostile environment; or unreasonably interfere with the individual's school performance or participation. Harassment is any threatening, insulting or dehumanizing gesture, use of data or computer software, or written, verbal or physical conduct that 1) places a student or school employee in reasonable fear of harm to his or her person or damage to his or her property, 2) has the effect of substantially interfering with a student's educational performance, opportunities, or benefits, or 3) has the effect of substantially disrupting the orderly operation of a school including any course of conduct directed at a specific person that causes substantial emotional distress in such a person and serves no legitimate purpose.

If a bullying and/or harassment incident occurs then it will be reported in SESIR with the **bullying/harassment** code. If the bullying/harassment results in any of the following SESIR incidents the incident will be coded appropriately using the relevant incident code AND the related element code entitled **bullying-related**. Those incidents are:

- Alcohol
- Arson
- Battery
- Breaking and Entering
- Disruption on Campus
- Drug Sale/Distribution Excluding Alcohol
- Drug Use/Possession Excluding Alcohol

Discipline and referral data will be recorded in Student Discipline/Referral Action Report and Automated Student Information System.

The District will provide bullying incident, discipline, and referral data to the Florida Department of Education in the format requested, through Surveys 2, 3 and 5 from Education Information and Accountability Services, and at designated dates provided by the Department. Data reporting on bullying, harassment, unsubstantiated bullying, unsubstantiated harassment, sexual harassment and threat/intimidation incidents as well as any bullying-related incidents that have as a basis sex, race or

POSSESSION AND USE OF WIRELESS COMMUNICATIONS DEVICES

7.211

For the purposes of this policy, “personal electronic mobile device” (“PEMD”) shall include, but not be limited to, the following: cellular or satellite telephones of any type, pocket PCs, laptops, and personal data assistants (“PDA”) owned, used or possessed by a student but shall not include such devices if owned and provided for use by the District.

Beginning 2012–2013, Bay District schools will allow the use of personal electronic mobile devices during specified times. Students will be allowed to bring their own device (BYOD). High schools will be allowed to participate in this initiative beginning with the 2012-2013 school year. Middle and elementary schools will be allowed to use personal electronic mobile devices when wireless infrastructure is available at the school location. BYOD access will be granted only after teachers have participated in BYOD professional development and with the approval of the Superintendent and principal.

It is not mandatory for students to bring their own personal electronic mobile devices. When personal electronic mobile devices are used to enhance student learning in the classroom, students without a PEMD will be provided access to an appropriate digital device. Students who choose to bring their personal electronic mobile devices MUST log in and use BDS filtered wireless network during the school day.

NOTE: Students will bring personal electronic mobile devices to school at their own risk. The district WILL NOT be responsible if a phone or other device is lost, stolen, misplaced, damaged, or confiscated. The district WILL NOT be responsible for virus, malware, or other computer related issues associated with connecting to the BDS network.

Beginning 2012–2013, students may utilize electronic mobile devices in the classroom for educational purposes when the teacher deems appropriate and with a signed AUP on file. While the district encourages students to use electronic mobile devices for educational purposes in the classroom, high school students may use these devices during lunch and before and after school. Middle and elementary students may use these devices before and after school, not during lunch. All students may use devices in the classroom setting with teacher permission and supervision. Use is STRICTLY prohibited for all students during passing periods due to safety issues.

Use of electronic mobile devices during the school day is a privilege. Adherence to the guidelines below is essential to maintaining an academic environment and the integrity of the classroom.

Teachers that wish to allow students to use mobile devices in the classroom must first participate in professional development opportunities provided by the Bay District Schools Instructional Technology Department.

ELECTRONIC MOBILE DEVICE GUIDELINES

- Using functions on electronic devices that disrupt the educational environment, from within or from outside the classroom, or violates the rights of others, including, but not limited to using the device to cheat, violate school conduct rules, harass or bully staff or students or use their device for unlawful purposes will be subject to disciplinary action; up to and including suspension, expulsion, and being reported to local authorities.
- Cell phone conversations during instruction or class time should take place only under the supervision of staff personnel unless otherwise directed.

CHAPTER SEVEN STUDENT PERSONNEL

- Using any device that permits recording voice or image of another in any way that disrupts the educational environment, invades privacy of others, or is made without prior consent of individuals being recorded is **prohibited**. Also, using any device that permits recording voice or image of another to take, disseminate, transfer, or share audio, images, video, or photos that reveal private parts of the body that are ordinarily covered by clothing is **prohibited**. The possession of pornographic images or video on any electronic device is **prohibited**.
- Students must comply with staff directives, including but not limited to, using appropriate device volume. When in use, devices must be on vibrate or silent mode so that no audible tone is heard.

PEMDs misused in accordance with this policy shall be confiscated from the student and only returned to the student's parent upon notification from the school office. Continued misuse of PEMDs may subject the student to disciplinary action, as determined by the principal. Use of a PEMD will subject the student to the possibility of the imposition of disciplinary action by the school or criminal penalties if the PEMD is used for the purposes of a criminal act.

Parents may request special permission for their student to use cellular or satellite telephones if the parent has requested such use in writing to the school principal and has provided a physician's statement that provisions for immediate medical needs are necessary. If such permission is granted by the principal at the principal's discretion, the cellular telephone will be placed on "vibrate" so not to disturb other students. Misuse of the cellular telephone under these circumstances will subject the student to disciplinary actions, as determined by the principal.

CLUBS AND ORGANIZATIONS

7.402

This policy is intended to implement the federal Equal Access Act, 20 U.S.C. SS4071, et seq., and the First Amendment right of freedom of speech. The school district believes that it is important for students to learn the meaning and practice of freedom of speech while in school, in order that as future citizens they will appreciate the proper exercise of this vital liberty. In adopting this policy, the school district does not forego its authority to maintain an orderly and disciplined school environment. The secondary schools in this district shall have a limited public forum for student groups wishing to meet to engage in speech. All clubs and organizations must be approved by the principal before they can operate within a school and must comply with the following rules:

- (A) Students shall be permitted to meet during the non-instructional time of the individual students involved in the meeting, including before school, after school, during lunch or other non-instructional times. However, no student shall be present at a meeting when he or she has a class or is required by school rules to be elsewhere, unless permission from the classroom teacher is obtained. This includes any time during which the school requires the particular student or all students to be off school property or outside the school building.
- (B) All meetings shall be student-initiated and open to all students in the school. All student attendance at a meeting shall be voluntary.
- (C) All meetings shall be held on school property in school facilities. This may be waived for special meetings and events upon the request of the faculty sponsor and approval of the principal.

- (F) Students may invite outside speakers to their meetings subject to paragraphs (B), (C), (D), and (E).
- (G) In order to maintain an orderly and disciplined environment and to ensure that meetings are conducted in accordance with the provisions of this policy and the Equal Access Act, a faculty sponsor shall be present at meetings. No club or organization will be allowed to form without a faculty sponsor or faculty representative. The students will be responsible for finding a faculty sponsor to be present. A faculty sponsor shall be present at all meetings and activities, and all social events shall be adequately chaperoned. Stipends paid for a sponsorship are at the discretion of the principal and are not required.
- (H) If students wish to meet under this policy, they must file a request to meet with the principal which lists: (a) the room in which they wish to meet and the time during which they will meet; (b) the name of one student who will serve as the contact between the group and the school authorities; and (c) the faculty member who will be present. The principal shall approve a meeting if it meets the requirements of this policy and shall notify the student contact of his/her approval or, if it does not meet the requirements of this policy, his/her reason for disapproval within two (2) days of the submission of the request to meet.

The Plan shall be based on an evaluation of student performance and mastery of the performance standards approved by the State of Florida and Bay District Schools.

The Student Progression Plan is intended to be a comprehensive program for student progression, which delineates the requirements to be met by students and the district's plan for ensuring that progression. The district's comprehensive program for student progression uses assessment data (universal screening and ongoing progress monitoring) to evaluate the effectiveness of instruction, identify students needing more intensive instruction support, and monitor the student's response to implemented instruction/interventions. Student progression decisions consider the effectiveness of core instruction and the student's response to evidence-based instruction/interventions implemented with fidelity.

The district will provide high quality instruction/intervention matched to students needs and use learning rate and level of performance to inform instructional decisions including decisions regarding promotion, acceleration, retention, and remediation. A Multi-tiered System of Supports: Response to Instruction/Intervention is a data-based decision making" process applied to education. A four-step problem-solving method and the systematic use of assessment data at the district, school, grade, class and individual level will guide decisions about the allocation of resources and intensity of instruction/interventions needed to improve learning and/or behavior.

3. The School Board, through its administrators, will assist teachers with resources and staff development to accomplish the goals of this plan and will establish procedures for record keeping to certify the accomplishment of state and district standards.
4. The Superintendent shall designate an administrative staff member who is responsible for the development and coordination of the total curriculum of the district.
5. The Superintendent shall ensure that each student's progression through district schools is based on School Board policy.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

7. The Superintendent, after reviewing the recommendation of the Director, shall submit a proposed Program of Studies to the School Board for approval. This program shall constitute the prescribed curriculum for district schools. Copies of the program shall be available in all schools and on the district web page.
8. The principal shall assume administrative responsibility for all required records and reports, the transfer of students within and outside the school system, and for promotion and retention of students.

INSTRUCTIONAL GOALS AND CURRICULUM DEVELOPMENT

8.102

Required Instruction. Instruction in required programs as specified by Florida law shall be incorporated into the appropriate curriculum. Exemptions from instruction related to reproductive health or disease shall meet the requirement of § 1003.42, Fla. Stat. Documentation will be reflected by teacher lesson plans.

Lesson Plans. Lesson plans shall be developed, kept current, and readily accessible according to procedures established in each school and used as a daily guide by each teacher. The lesson plan shall include learning objectives, student activities, assessments and must document alignment to the state standards.

Goals for Instructional Program Development. The following goals shall be utilized in planning, developing, modifying, and delivering the instructional programs for district schools. These objectives are to be considered as guides rather than limits, flexible enough to meet changing needs of both individuals and society, and pervasive throughout the entire system for all levels and subject areas:

1. To help meet the intellectual, emotional, and physical needs of students; particularly the needs to inquire, learn, think, and create; to establish aesthetic, moral, and ethical values; and to relate satisfactorily to others in social situations involving family, work, government, and recreation.
2. To foster in students a mastery of the basic skills of learning, thinking, and problem solving; for teaching them the use of various media of self-expression; for instilling in them a knowledge of the social and natural sciences; for acquainting them with the richness of our heritage; and for stimulating them to productive work in the various areas of human behavior.
3. To supplement the role of the home and other social agencies in developing habits and attitudes which contribute to enriched personal living, the maintenance of optimum physical and mental health, and the establishment of sound moral, ethical, and aesthetic values.
4. To develop and offer a wide range of positive alternative opportunities, services and programs for students with varied interests and divergent needs.
5. To develop programs and services which stress the lifelong aspect of learning, to encourage and counsel students to seek further study and training, and to provide a wide range of opportunities in order to fully meet the educational and citizenship needs of the adult population.

Components of Curriculum Design. The School Board shall approve the courses of study for all district schools in accordance with State law. The design and development of curriculum for district schools shall be based on the premise that the core of the curriculum should consist of an essential base of knowledge, skills, processes, and abilities to be mastered within the context of each course or grade level and shall be sequential from grade to grade and level to level as outlined in the state standards.

Modifications and/or Additions to the District Curriculum. A new course may, upon the recommendation of a curriculum administrator and following Board policy and State law, be introduced into the district curriculum by the Superintendent upon approval by the School Board.

The School Board may approve a waiver request submitted by a school principal to allow substitution of locally approved intended outcomes for a State-approved course. Any waiver requests approved by the School Board shall be submitted by the Superintendent or his/her designee to the Commissioner of Education for his/her approval.

Panels comprised of district staff and representatives of all impacted schools shall be responsible for reviewing major curricular and enrollment changes in district-wide magnet programs. This panel shall

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

make recommendations about proposed changes to the Superintendent, who may, in turn, make recommendations regarding the proposed changes to the School Board for approval.

The district shall participate in the State Student Assessment Program as required by Florida law. Further, the district shall administer additional norm-referenced assessments or criterion-referenced assessments as needed for decision making in curriculum, personnel, placement of students, and program evaluation.

Academic Standards. Standards for all subject areas are integrated into the curriculum. Student mastery of these will be determined by locally identified criteria if no state assessment exists. The State standards benchmark student achievement and serve as guides to the best practices for local curriculum designers to help schools implement school improvement strategies to raise student achievement. The benchmarked standards describe what students should know and be able to do at four progression levels (grades K-2; 3-5; 6-8; and 9-12) in subjects of the arts, health, physical education, foreign languages, language arts, mathematics, science, social studies and other standards as set forth by the State Board of Education. The state standards shall be a part of the district achievement standards and shall serve as the basis for statewide assessment.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

ADULT EDUCATION

8.106

The adult education program shall be under the overall supervision of the district administrator in charge of the program. An adult student shall be defined as a person who has attained the age of 16 years and who has legally withdrawn from the middle or high school last attended or a high school student who is taking an adult course. Any student who withdraws from the regular high school program and subsequently enrolls in the adult education program may not be permitted to return to the regular school program, in accordance with School Board Policy 8.204.

Fees. Fees shall be charged for all students enrolled in workforce development education except for those students specifically exempted by §§1009.25, 1011.80, Fla. Stat., and this policy. Fees shall be calculated and reported in accordance with §§1009.22, 1011.80, Fla. Stat. A fee schedule for nonexempt students shall be established annually by the School Board.

Adult Fee Waivers. Adult student fees will be waived only up to the amount allowed in the General Appropriations Act, or as otherwise required by law. §1009.26(1), Fla. Stat.

Adult Fee Deferments. The Director of Haney Technical Center may defer adult student fees from the date of registration or the first day of class, whichever is the later, for those students receiving financial aid, other than veteran's benefits, state or federal assistance programs, when the receipt of such aid by the student is delayed through circumstances beyond the control of the student. Failure by the student to make timely application for such aid shall not be a reason for granting such deferral.

Veteran students and others eligible for benefits under Chapters 30, 31, 32, 33, 34, 35, Title 38, U.S. Code or Chapter 106 of Title 10, U.S.C., upon written request shall receive a deferment each time there is a delay in the receipt of their benefits for the payment of tuition fees from the date of registration or the first day of class whichever is later.

The Director of Haney Technical Center may defer tuition and fees for students receiving financial aid from a federal or state assistance program when the aid is delayed in being transmitted to the student through circumstances beyond the control of the student. The failure to make timely application for the aid is an insufficient reason to receive a deferral of fees. (F.S. § 1009.27)

Workforce Education Tuition Refund. All information pertaining to charges, refunds and appeals will be furnished to the student at the time of registration. One hundred percent of the unused tuition and refundable fees charged will be refunded if the student does not begin class or withdraws during the drop/add period (within 10 business days of enrollment). If the class is cancelled, 100% of the tuition and other fees will be refunded. Students who withdraw during the ten-day drop/add period are eligible for a full refund less any tuition and fees used for that period. Nonrefundable fees include Registration and Student Activity (not to exceed \$100).

Any tuition fees paid by a federal agency will be refunded to that agency first. If tuition fees were paid by more than one agency and if the refund is not sufficient to refund each agency, the refund will be allocated to each agency in the same ratio in which each agency initially funded the fees, except where federal regulations specify otherwise. **Students who are administratively withdrawn are not eligible for a refund.**

When refunds are due, they will be made within 30 days of the last day of attendance if written notification of withdrawal has been submitted to the Student Services Offices by the student or instructor. Refunds made without a student request will be made within 30 days from the date that school terminates the student or determines withdrawal by the student.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

A student wishing to withdraw from Haney Technical Center prior to the end of a semester and/or enrollment period must provide notice to the school in writing. Written notice should be submitted to a Haney Technical Center counselor in Student Services. The notice should contain the date the student will cease attendance and the reason for the withdrawal. The official withdrawal date is the date the student has the withdrawal form signed by administration or the last date of attendance. This is an official withdrawal. Students are given a letter grade at the time of withdrawal. Students meeting "Satisfactory Academic Progress" at the time of their withdrawal and return to the same program/major within 180 days are considered to be in the same payment period.

The Financial Aid office will calculate any refunds due to the Title IV (Pell) program and notify the student in writing within ten days. The student will be billed for any refunds due to Haney and the Federal Financial Aid programs.

If the student is in default to a federal Title IV student aid program and has not repaid the funds within 45 days, the repayment due will be posted to the National Student Loan Data Base showing the student is ineligible for further funding. If the student has not repaid the funds within 45 days, the Collection Department of the U.S. Department of Education will be notified.

If an adult education program at Haney Technical Center has a summer break, students enrolled in that program remain enrolled in Haney over the summer break. However, students must complete an Intent to Return form indicating the students' intent to return for the completion of the program when it resumes in the fall. If a student who is receiving Federal Student Aid under Title IV of the Higher Education Act of 1965, as amended, fails to complete an Intent to Return form, Haney Technical Center is required to calculate the amount of Title IV grant or loan assistance that the student earned as of the student's withdrawal date and may result in funds having to be returned to Title IV programs in accordance with 34 C.F.R. § 668.22.

PART TWO GRADING, REPORTING AND ASSESSMENT

GRADING SYSTEM

8.201

All instructional and administrative personnel shall adhere to the uniform system of determining grades approved by the School Board as defined in the district's Assessment Practices and Principles. Academic achievement/performance criteria on which academic grades are based includes individual achievement of state standards/benchmarks, as well as examinations, observations, district/state assessments, written papers, class participation, and other academic/performance criteria. Teachers' records (grade books or portfolios) shall substantiate grades earned by students.

Assessment in physical education shall be based on the active participation of each student even though different evaluative processes are used. Students shall be assessed on the achievement and maintenance of an appropriate physical fitness level using the following criteria: motor, cognitive, emotional, and social development.

Progress Reports. Progress reports are available 24 hours a day/7 days a week through the district's on line Parent Portal (hard copy progress reports will no longer be provided by the district). Parents without internet access can request a copy of grades from the student's school.

Definition of a grading period:

9 weeks - All elementary schools, middle schools, Breakfast Point Academy (K-8), Bozeman School (K-12), Arnold High School, Bay High School, Mosley High School, Rutherford High School (6-12), Haney Technical Center, New Horizons Learning Center, Palm Bay Preparatory Academy

4½ weeks - Rosenwald High School, and North Bay Haven Career Academy

Report Cards/Report to Parents. An annual written report must be provided to the parents of each student on the student's progress toward achieving proficiency in reading, writing, science, mathematics and other courses taken by the student. The district shall also report to the parent the student's results on each statewide assessment test. Report cards will be in a district approved format and issued on the dates prescribed by the school calendar. Report cards will clearly depict and grade the student's academic achievement/performance in each class or course, the student's conduct/behavior; and the student's attendance, including absences and tardiness and shall clearly indicate promotion or non-promotion. Satisfactory grades in remedial programs must indicate that the student is working satisfactorily in a remedial program (below the range required for the grade assignment). Academic achievement/performance grades will be separated from the student conduct/behavior and attendance grades. Student academic grades shall be a clear and accurate depiction of student achievement of Florida state standards. Students with disabilities will receive a report of progress towards IEP goals in addition to the above requirements.

Review of Grades. Parents/legal guardians or adult students, after consulting with the teacher, may request that the principal review any report card grade earned by a student at the end of a grading period. However, such grade may not be changed or altered by the principal unless there was an apparent error in the grade determination; there was insufficient evidence to support the grade; or the determination of the grade was not consistent with requirements or procedures set forth in the district's Assessment Practices and Principles. Following a requested review, the principal shall either affirm the grade or make an appropriate modification and shall notify both the parent or legal guardian and the

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

teacher in writing. The principal shall ensure that documentation of any grade change is included in the student's permanent cumulative record.

In cases where Incomplete ("I") grades are given on report cards, teachers shall use the district's Assessment Practices and Principles to provide students with opportunities to complete required work. An Incomplete ("I") grade may also be given when an End of Course (EOC) makes up a percentage of the course grade and the EOC score has not yet been uploaded. Students will be allowed a minimum of two weeks following the date the report card is issued to complete required assignments. Hospital/homebound students shall make up an Incomplete in accordance with their IEP.

District grading scales shall be as follows:

Grade K. The grading scale for nonacademic matters, including but not limited to, health, art, music and physical education shall be as follows:

S	Satisfactory – student performance is acceptable
N	Needs Improvement – student performance needs to improve
U	Unsatisfactory student performance is well below grade level expectations
I	Incomplete - insufficient information available at this time
NG	No grade

Student academic achievement is reported as follows:

S	Satisfactory - achievement is at grade level expectation (S=70-100)
N	Needs Improvement - achievement is approaching the grade level expectation (N=60-69)
U	Unsatisfactory - achievement is well below the grade level expectation (U=59 and below)

NG	No grade

The grading scale for all subjects shall be as follows:

A	90-100	Outstanding Progress

F	59-0	Failure
I	Incomplete - insufficient evidence available at this time or for EOC courses	
NG	No grade	

End-of-Year Final Grades K-8: Final grades for students in grades K-8 will be determined by considering the evidence of student achievement over the course of the school year. Where appropriate, emphasis must be given to the more recent evidence. Teachers should use processes that produce final grades that are accurate depictions of student achievement of the state standards at the end of the school year. The final report card for a school year shall contain a statement indicating end-of-year status or performance or nonperformance at grade level, acceptable or unacceptable behavior and attendance, and promotion or non-promotion. Promotion, retention or accelerated grade placement will be recorded in permanent cumulative records and on the report card/report to parents or legal guardians of students in grades K-8. Letter and/or numerical grades will be recorded in permanent cumulative records and on report cards of all students.

Reassessment. Procedures for retesting or reassessment opportunities (grades K-12) shall be followed using the district's Assessment Practices and Principles.

Reassessing any retained 3rd grade student may include subsequent assessments, alternative assessments, and portfolio reviews in accordance with rules of the State Board of Education and district guidelines. Retained 3rd grade students promoted during the school year after November 1 must demonstrate proficiency above that required to score at Level 2 on the grade 3 FL state assessment as determined by the State Board.

Grade Books. Each teacher (grades K-12) shall use the district's online electronic grade book that is current and accurate. Teachers in grades K-2 who are keeping comprehensive student records in the form of student portfolios may continue to use the portfolio documentation; however, this does not exempt the teacher from maintaining current and accurate records in the district's electronic gradebook. Portfolios shall be turned in to the principal's office or stored in a designated place at the end of the school term and can be actively used each year throughout the student's elementary career.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

State Mandated Reporting. The district shall annually publish the following in the local newspaper by September 1 of each school year: district policies and procedures on student retention and promotion; the number and percentage of all students by grade level (grades 3-10) performing at levels 1 and 2 on the FL state assessment reading; the number and percentage by grade level (grades 3-10) of all students retained; the total number of students promoted for good cause by each category; and any revisions from the prior year to the School Board's policy on retention and promotion.

GRADE POINT AVERAGE GRADES 9-12

8.202

Required for Graduation. Every student must earn an overall cumulative grade point average of 2.0 or above.

Parent Notification. Parents of students who have a cumulative GPA of less than .5 above the cumulative GPA required for graduation at the end of each semester in grades 9, 10, 11, and 12 shall be notified that the student is at risk of not meeting the graduation requirements. The notice shall contain an explanation of the programs the district has in place to assist the student in meeting GPA requirements.

Computation. The grade point average for a semester/term is obtained by taking all the letter grades assigned quality points of A=4, B=3, C=2, D=1, and F=0 then dividing the total of these grades by the number of courses taken. Numerical grades from the semester/grading periods will not be used. The cumulative grade point average is obtained by taking all the letter grades for all high school level courses taken to date and dividing by the total number of courses taken. Grades from home education programs or private tutoring will not be used in the computation of grade point average.

All unduplicated courses shall be used to compute the grade point average. However, if a student's grade point average is less than 2.0, then the student may drop elective courses above the State required credits with the lowest grade until such time the GPA meets the required 2.0.

All pre-International Baccalaureate, pre-AICE, honors, advanced Level III Math and Science and Level III, IV, and V Foreign Languages will carry an extra .5 quality point. All AICE, International Baccalaureate, dual enrollment, and Advanced Placement courses will carry an extra 1.0 quality point. Honors weighting will be applied only to courses that are offered at the honors level in Bay District Schools.

Forgiveness. A student must obtain written permission from the principal before the student takes a course for forgiveness. Any course in which a student makes a D or F may be taken over during the school year to improve his/her grade point average. A grade of D may not be taken over to improve a student's grade point average during summer school, if offered, unless it is needed to meet graduation/grade point average requirements or fulfill the requirements of an academic performance contract. In a required course, a grade of C or better in the same or comparable subsequent course will be used in lieu of the original grade to compute the grade point average. In an elective course, a grade of C or better in any other subsequent course will be used in lieu of the original grade to compute the grade point average. The original grade must remain on the record. Sources for forgiveness credit are:

1. Haney Technical Center for 16 years old or older and meets the requirements of Fla. Admin. Code R. 6A-6.020.
2. Correspondence schools accredited by a regional accreditation agency.
3. Extended school day programs approved by the Superintendent.
4. Florida Virtual School and Bay Virtual School.
5. Credit recovery courses and intensive reading and mathematics intervention courses based on student performance on the FL state assessment. These courses should be competency based and offered through innovative delivery systems, including computer-assisted instruction.

Note: The only exception to the above forgiveness policy shall be made for a student in the middle grades who takes any high school course for high school credit and earns a grade of "C", "D", or "F" or equivalent. In such cases, a grade of "C" or higher or equivalent earned in the same or comparable course may replace the previous grade.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

Semester/Term Final Exams/Assessments. All students enrolled in courses for high school credit must take a semester/term final exam or any state-mandated end of course exams, when applicable. For courses without state-mandated end of course assessments, the final exam grade shall count as 1/7 of the final grade and will be combined with other appropriate grades to determine the semester/term final grade. In all dual enrollment classes and advanced academic programs, the college's program criteria shall determine the weight given to semester/term final exams. Final exams/assessments do not necessarily have to be pencil and paper tests, but may include alternative assessments such as portfolios, projects, performances, presentations, etc. Teachers shall have the option of assessing students prior to the final exam day, however, instruction and assessment shall continue until the end of the scheduled term.

A student enrolled in a valid cooperative education program is exempt from a semester/term exam for the on-the-job training portion of the program provided he/she has received satisfactory grades from the on-the-job training supervisor for that portion of the program.

STATEWIDE ASSESSMENT PROGRAM

8.203

Every student enrolled in a district school shall participate in the statewide assessment tests, unless exempted by state or federal law. Each student who does not meet specific levels of performance in English Language Arts (ELA), science, and mathematics, as determined by the Florida Commissioner on Education, must be provided with additional diagnostic assessments to determine the nature of the student's difficulty and academic needs. The district uses assessment data (universal screening and ongoing progress monitoring) to evaluate the effectiveness of instruction, identify student level of performance and rate of progress, and monitor response to implemented instruction/interventions.

Under NO circumstances may school personnel suspend regular curriculum for the purpose of administering practice tests or test preparation activities other than those allowed in statute.

Elementary school personnel within the district are required to administer the school readiness screener, selected by the Department of Education, to first time kindergarten students.

Pursuant to 20 U.S.C. § 6311(b)(2)(G)(i), states are required to administer an annual assessment that measures the English language proficiency of English language learners (ELLs) in grades K-12. The ACCESS 2.0 for ELLs will be administered to all ELLs in the state to meet this requirement and to assist districts and schools in determining English proficiency attainment in listening, speaking, reading, and writing.

- A. Administration of the General Education Development Test shall be in compliance with § 1003.435, Fla. Stat., Fla. Admin. Code R. 6A-6.0201, and conditions outlined in the contract with the Florida Department of Education. To take the GED exam, a candidate must be at least 18 years of age at the time of examination. Candidates between the ages of 16 and 18 may be eligible to take the GED examination if they meet the special requirements listed below or are enrolled in the GED Exit Option Program.
- B. Special Requirements for Students Between the Ages of 16 and 18. Students between the ages of 16 and 18 must: meet the requirements of extraordinary circumstances, meet enrollment requirements, and be granted an age waiver by the Superintendent or his or her designee before the student will be permitted to take the GED examination. Such requirements for students between the ages of 16 and 18 are detailed as follows:
1. Definition of Extraordinary Circumstances. A student between the ages of 16 and 18 shall qualify for extraordinary circumstances only if the student is:

The Director of Haney will accept GED request packages with information from New Horizons, Contract Programs or home education students. DJJ students shall have scored a 155 or above on the GED Ready test

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

- The Director of Haney or the district liaison for DJJ shall present to the Superintendent or his/her designee a written recommendation for the candidate to take the GED examination at Haney.
 - Waivers granted by the Superintendent or his or her designee are ONLY for students enrolled in and taking the examination in a Bay District School.

 2. Program Completion Requirements. For students to successfully complete the Performance-Based Exit Option Program, the student must:
 - Continue enrollment and attendance in high school courses that meet high school graduation requirements as specified in Section 1003.4282, Fla. Stat., whichever is applicable;
 - Pass the required sections of the FL state assessment, or receive a concordant score in accordance with Section 1008.22, Fla. Stat.;
 - Pass all of the required subtests for the State of Florida High School Diploma as specified in Rule 6A-6.0201, F.A.C.; and
 - Complete any additional requirements established by the school district.

PART THREE REMEDiation

REMEDiation

8.301

The areas of academic need and multisensory intensive systematic reading interventions are identified through a problem-solving/ response to instruction/intervention process. Multiple tiers of increasingly intense instruction/intervention services are implemented to support student academic proficiency. Students needing remediation or intensive instructional support will be matched to strategic and intensive instruction/interventions based on screening, progress monitoring, and diagnostic assessments.

Student progress from grade to grade will be based on achievement/credits. Each school in the district shall provide remedial programs for those students who fail to master the district-identified curriculum. Students with disabilities must meet district proficiency levels unless the student's IEP has identified their need for an alternate curriculum (special diploma).

Each school shall be responsible for maintaining adequate documentation to verify that students who have not mastered the district-identified curriculum have been given appropriate remediation and reevaluation in accordance with § 1008.25, Fla. Stat. Parents of such students shall be notified in writing of the student's difficulty in learning and lack of achievement in reading. The school in which the student is enrolled will develop, in consultation with the student's parent/guardian, and implement a progress monitoring intervention plan designed to assist the student in meeting state and district expectations for proficiency. Parents/guardians shall be informed of strategies that will assist their child in succeeding in each identified area.

Remedial and supplemental instruction resources must be allocated as follows: first to students who are deficient in reading by the end of Grade 3, and second to students who fail to meet performance levels required for promotion/graduation. The district shall assist schools and teachers in the implementation of research-based reading activities that have shown to be successful in teaching reading to low-performing students. Schools shall also provide for the frequent monitoring of the student's progress.

If a student's documented deficiency has not been remediated, the student may be retained. If the minimum performance expectations defined by the Commissioner of Education for the statewide assessment tests in reading, writing, science, and mathematics are not met, remedial or supplemental instruction must be provided until expectations are met, the student graduates from high school, or the student is not subject to compulsory school attendance.

Any student in grades K-12 who is identified as not meeting specific levels of performance as determined by the School Board, or who scores below Level 3 in reading or math will receive further diagnostic assessments to determine the nature of the student's difficulty and areas of academic need leading to remediation using one or more of the intervention strategies addressed in the progress monitoring intervention plan. The progress monitoring intervention plan is intended to provide additional instruction to assist in meeting the academic needs of the student. Along with sound professional judgment, school personnel will use performance indicators to measure proficiency in reading, writing, science, and mathematics.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

Students not meeting grade level proficiency requirements receive increasingly intense instruction/intervention services to support student academic proficiency. Multiple tiers of increasingly intense instruction/intervention services are implemented to support student academic proficiency. Students not responding positively to core instruction, which includes differentiated instruction based on student assessment data will receive an individual response to intervention plan that identifies instruction/intervention support through a problem-solving/response to instruction/intervention process.

Reading Proficiency. For a student with a deficiency in reading, a school-wide system of progress monitoring can be used as the progress monitoring intervention plan. The plan must include instructional and support services to be provided in assisting the student to meet the desired levels of performance. Schools shall also provide for the frequent monitoring of the student's progress. Parents of any student who exhibits a substantial deficiency in reading must be notified in writing of the deficiency and lack of achievement in reading; a description of current services and supports provided to the student; a description of the proposed supplemental instructional services and supports that will be provided to the student that are designed to remediate the identified area of reading deficiency; that the student will be retained unless he/she meets one of the good cause exemptions and other provisions of School Board Policy 8.402; and the strategies a parent may use in helping their student succeed in reading proficiency.

Grades K-3. The reading ability of K-3 students shall be regularly assessed following the requirements of the Comprehensive Reading Plan. K-3 students who exhibit substantial deficiency in reading skills must be given intensive reading instruction immediately. The student's reading proficiency must be reassessed at the beginning of the next year, and such instruction will continue until the deficiency is remedied. Parents of such students shall be notified in writing of the student's difficulty in learning and lack of achievement in reading. The school in which the student is enrolled will develop and implement a progress monitoring intervention plan (RtI/MTSS) designed to assist the student in meeting state and district expectations for proficiency. Parents will be included in the development of this plan and shall be informed of strategies that will assist their child in succeeding in each identified area. If the student's reading deficiency is not remedied by the end of Grade 3, as demonstrated by scoring at least a Level 2 or higher on the FL state assessment in reading, the student must be retained, unless the student is exempt from mandatory retention for good cause, as determined by School Board Policy 8.402.

Retained third grade students must be provided with intensive instructional services and supports to remediate the identified area of reading deficiency as identified by a valid and reliable diagnostic assessment including a minimum of 90 minutes of daily, uninterrupted, scientifically research-based reading instruction and other strategies, which may include, but are not limited to: small group instruction; reduced teacher-student ratios; more frequent progress monitoring; tutoring or mentoring; transition classes containing 3rd and 4th grade students; extended school day, week, or year; effective instructional practices; appropriate teaching methodologies; and/or summer reading camps. A student portfolio shall be required for each retained 3rd grade student.

Grades 4-8. The reading ability of students in grades 4-8 will be regularly assessed following the requirements of the Comprehensive Reading Plan.

Level 1 readers in middle school must be enrolled in an intensive reading course.

Level 2 readers must be placed in either an intensive reading course or content course in which reading strategies are delivered.

Students may receive additional academic intervention through the ASPIRE program if they meet that program's eligibility requirements.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

Grades 9-12. The reading ability of students in grades 9-12 will be regularly assessed following the requirements of the Comprehensive Reading Plan. High School students who fail to master standards which are tested by the FL state assessment will be remediated and given additional opportunities to show mastery of these standards.

Level 1 readers in high school must be enrolled in an intensive reading course.

Level 2 readers must be placed in either an intensive reading course or content course in which reading strategies are delivered.

Seniors are required to show mastery of the Reading FL state assessment before they receive a standard diploma.

SUMMER SCHOOL/ SCHOOL TUTORIAL PROGRAM

8.302

Regular attendance in summer school or tutorial programs does not guarantee credit or promotion to the next grade.

Grades 1-5. Students in grades 1-5 who were retained, or students who are at risk of possible retention are eligible to attend a summer school or tutorial program, if offered. Students in grade 3 whose reading skills fall under the state's and district's retention guidelines shall be offered the opportunity to attend a summer reading camp. At the end of the summer school or tutorial program, the principal of the school the student attended during the regular school term shall review the student's evidence of achievement and determine the student's academic placement for the coming year. That principal's decision shall be final.

Grades 6-8. Students in grades 6-8 will be permitted to make up one (1) course during a summer school/tutorial program, if offered. This course may be used to satisfy deficiencies in a required subject or to provide additional instruction for the student. At the end of summer school or tutorial program, the principal of the school the student attended during the regular school term shall review the student's evidence of achievement and determine academic placement for the coming year. That principal's decision shall be final.

Grades 9-12. Summer school, if offered, is provided for students to make up required credits that they have failed during the regular school year ("forgiveness") or for students to fulfill their academic performance contract necessary for their participation in interscholastic extracurricular activities. High school students shall be required to attend summer school for the entire length of instruction and meet academic standards in order to receive credit.

Students with Disabilities. Students who are eligible for programs for students with disabilities are eligible for extended school year as recommended through their Individual Education Plan (IEP).

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

PART FOUR PROMOTION AND RETENTION

PROMOTION OF STUDENTS

8.401

- A. General Considerations. No student may be assigned to a grade level based solely on age or other factors that constitute social promotion. District-wide criteria for promotion shall include achievement of state standards and overall achievement/performance in all academic areas. The primary authority and responsibility for assessment and reporting of student achievement of standards is the classroom teacher. The teacher shall report all assessments of student achievement of standards in a timely manner at the direction of the principal or Superintendent. Work habits, attitudes and attendance will be reported separately. Conduct/behavior shall not be a determining factor in determining promotion of students.

B. Academically Challenging Curriculum to Enhance Learning (ACCEL)

All schools must offer options to eligible students that provide an academically challenging curriculum or accelerated instruction. At a minimum, these options must provide for:

1. Whole-grade or mid-year promotions to students meeting district eligibility guidelines
 2. Subject matter acceleration
 3. Virtual instruction in higher grade level subjects
 4. A Credit Acceleration Program (CAP) open to all students
- * Promotion decisions are final.**

Additionally, schools are encouraged to offer, but not limit themselves to, the following ACCEL options:

1. Enriched STEM course work
2. General curriculum enrichment programs
3. Flexible (multi-grade level) student grouping
4. Advanced academic courses
5. Combined classes (e.g. math/science joint credit for a single course)
6. Self-paced instruction
7. Curriculum compacting (e.g. alternate or enrichment activities)
8. Advanced content instruction
9. Telescoping curriculum (e.g. combining Spanish 3 and 4 into a single course)

Decisions on student eligibility for each of the above ACCEL options will be made according to district-wide guidelines that apply to both school-level options and options that would enable a student to move between two schools. Eligibility decisions must, at a minimum, be based upon:

- Student performance on a locally determined assessment, a statewide assessment or a statewide standardized assessment
- The student's grade point average
- The student's attendance record
- The student's conduct record
- Recommendations from one or more core-curricula teachers
- A recommendation from a guidance counselor

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

*** The principal has the final authority for determining eligibility for the ACCEL program.**

The ACCEL options must, at a minimum, include the following implementation components:

- Principals must inform parents and students of the ACCEL options available and of the requirements for eligibility
- Parents must be allowed to request student participation in the various ACCEL options
- If a parent requests student participation in an ACCEL option and the student meets the eligibility requirements, the student must be provided the opportunity to participate
- If a student participates in an ACCEL option subsequent to a parent request, a performance contract must be executed. This contract must be signed by the student, the parent and the principal and must include, but not be limited to, minimum attendance requirements, minimum student conduct requirements and minimum participation in program components (field trips, competitions, extracurricular activities, etc.)

C. Mid-year Promotion.

1. Elementary students, in grades other than third grade, may be promoted mid-year provided that the student has met district proficiency levels based on accumulated documentation and has the approval of the classroom teacher and principal.

The principal, subject to the retention policy, has the final authority for mid-year promotion of elementary students.

Third grade students previously retained may be promoted mid-year prior to November 1 if the student can demonstrate that he or she is a successful and independent reader. To be eligible for mid-year promotion after November 1, a student must demonstrate mastery of reading skills consistent with the month of promotion to fourth grade as presented in the scope and sequence of the school district's core reading program. Evidence of demonstrated mastery is as follows:

- successful completion of portfolio elements that meet state criteria or
- satisfactory performance on a locally-selected standardized assessment.

To promote a student mid-year using a student portfolio, there must be evidence of the student's mastery of third grade state standard benchmarks for Language Arts, and beginning mastery of the benchmarks for fourth grade. The student portfolio must meet the following requirements:

- selection by the student's teacher
- accurately depict the student's ability and include only student work that has been independently produced in the classroom
- include evidence of mastery of the benchmarks assessed by the grade 3 Reading FL state assessment
- include evidence of beginning mastery of fourth grade benchmarks that are assessed by the grade 4 Reading FL state assessment. For each benchmark, there must be two examples of mastery as demonstrated by a grade of "C" or better; and
- approved and signed by the teacher and the principal as an accurate assessment of the required reading skills.

To promote a student mid-year using a locally-selected standardized assessment, there must be evidence that the student scored at or above grade level, in reading comprehension, as

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

demonstrated by standard scores or percentiles, consistent with the month of promotion to fourth grade.

2. Middle school students may be promoted mid-year provided that the student has met district proficiency levels based on accumulated documentation, has met or will meet middle school promotion requirements, and has the approval of the classroom teacher and principal. The principal, subject to the retention policy and middle school promotion requirements, has the final authority for promotion of middle school students.
3. High school students' potential for mid-year promotion is subject to the credit requirements. In the freshman year, students begin earning credits toward graduation. Credits awarded in middle school according to district and state guidelines will be applied towards graduation as stated in 8.404.

Unless otherwise specified herein, the following credits (as defined in 8.404) will be required for promotion and graduation from district schools under Option 1 (24-credit option as outlined in 8.403):

For the 2015-16 school year and thereafter, the following credits will be required for promotion and graduation from **Arnold, Bay, Bozeman, Mosley, Rutherford, Rosenwald, New Horizons, Bay Virtual School, and Palm Bay Preparatory Academy**:

5	credits to become a sophomore
11	credits to become a junior
17	credits to become a senior
24	credits*, meet the graduation requirements outlined in School Board Policy 8.403

*Extenuating circumstances for transfer students new to the district can be approved on an individual basis by the Superintendent.

The following progression will be in effect for **Arnold, Bay, Bozeman, Mosley and Rutherford** as new credit requirements are implemented:

Students entering the 12th grade in 12-13 needed 27 credits to graduate.
Students entering the 11th grade in 12-13 will need 26 credits to graduate.
Students entering the 10th grade in 12-13 will need 25 credits to graduate.
Students entering the 9th grade in 12-13 and thereafter will need 24 credits to graduate.

The following credits will be required for promotion and graduation from **North Bay Haven Charter Career Academy**:

6	credits to become a sophomore
12	credits to become a junior
20	credits to become a senior
28	credits, meet the graduation requirements outlined in School Board Policy 8.403

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

Unless otherwise specified herein, the following credits will be required for promotion and graduation from district schools under **Option 4** (18-credit option as outlined in 8.403). Credit is defined in School Board Policy 8.404:

- 4.5 credits to become a sophomore
- 9 credits to become a junior
- 13.5 credits to become a senior
- 18 credits, meet the graduation requirements outlined in School Board Policy 8.403 Specific courses may be required by individual schools with the approval of the School Board.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

RETENTION OF STUDENTS K-8

8.402

- A. Student progression from grade to grade will be based on achievement/credits/units. A student may not be promoted based on age or other factors that constitute social promotion. When a student is retained, he/she must receive an intensive program that is different from the previous year's program and that takes into account the student's learning style. Students in grades K-8 who have not mastered the district identified curriculum for the grade level shall be retained. Students recommended for retention are subject to the provisions of §1008.25, Fla. Stat.
- B. If at the end of the first semester a student is in danger of retention, a warning message will be printed on the student's second quarter report card. Parents or legal guardians must be notified by mail no later than 30 school days prior to the last day of school if the student appears to be in danger of retention. After this date, each student must continue to complete satisfactorily all assignments to assure promotion. Parents of students in grades 3, 5, and 8 will be notified of mandatory retention upon the district's receipt of all FL state assessment scores and the reasons the student is not eligible for good cause exemption. Grade three notification must also include a description of proposed interventions and supports that will be provided to the student.
- C. Retention. The principal has the final responsibility to ensure that all district and state policies regarding the retention and promotion of students are followed in accordance with § 1008.25, Fla. Stat. At a minimum, the following factors must be considered when determining whether to retain a student:
1. Failure to achieve state standards;
 2. Overall achievement/performance in all academic areas;
 3. Failure to achieve district level proficiencies per School Board Policy 8.301; and
 4. Attendance in accordance with School Board Policy 7.104.

Students who are retained, and students needing remediation or intensive instructional support, will be matched to strategic and intensive instruction/interventions based on screening, progress monitoring, and diagnostic assessments.

- D. 3rd Grade – Mandatory Retention. Students with a reading deficiency, as identified by §1008.25(5)(a), not remedied by the end of Grade 3, as demonstrated by scoring a Level 1 on the statewide assessment test in reading for Grade 3, shall be subject to mandatory retention. Such students shall:
- be provided intensive reading interventions as specified in School Board Policy 8.301 to ameliorate the specific reading deficiency, as identified by a valid and reliable diagnostic assessment;
 - have the opportunity to complete a student portfolio or other alternative assessment;
 - be provided with intensive instructional services as identified by law;
 - be provided with a high-performing teacher as determined by student performance data and above-satisfactory performance appraisals.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

Requests for Good Cause Exemption from Mandatory Third Grade Retention. After receipt of FL state assessment scores, the student's teacher shall submit a recommendation for good cause exemption with the student's existing progress monitoring intervention plan, IEP (if applicable), report card, alternative standardized reading assessment scores or student portfolio to the principal, who shall review and discuss the recommendation with the teacher. The principal shall make the determination as to whether the student should be promoted or retained. Recommendations for promotion should be made in writing to the Superintendent, who shall accept or reject the principal's recommendation in writing.

The Superintendent may only exempt 3rd grade students from mandatory retention for good cause under the following conditions:

1. Limited English proficient students who have had less than 2 years of instruction in an ESOL program.
2. Students with disabilities whose IEP indicates that participation in the statewide assessment program is not appropriate, consistent with the requirements of State Board rules and § 1008.212, Fla. Stat.
3. Students who demonstrate an acceptable level of performance on an alternative standardized reading assessment approved by the State Board of Education.
4. Students who demonstrate, through a student portfolio in compliance with Fla. Admin. Code R. 6A-1.094221, that the student is reading on a grade level as evidenced by demonstration of mastery of the state standards in reading equal to at least a Level 2 performance on the FL state assessment.
5. Students with disabilities who participate in the FL state assessment and who have an IEP or 504 plan that reflects that the student has received the intensive remediation in reading required above for more than 2 years but still demonstrates a deficiency in reading and was previously retained in kindergarten, Grade 1, Grade 2, or Grade 3.
6. Students who have received intensive reading intervention for 2 or more years but still demonstrate a deficiency in reading and who were previously retained in kindergarten, Grade 1, Grade 2, or Grade 3 for a total of 2 years. A student may not be retained more than once in Grade 3.

FL state assessment shall not be the sole determiner of retention or promotion. Schools shall use additional evaluations, portfolio reviews, and other assessments in the body of evidence to determine student retention or promotion. A parent of a student in Grade 3 who is identified anytime during the year as being at-risk of retention may request that the school immediately begin collecting evidence for a portfolio.

Each elementary school will establish, where applicable, an intensive acceleration class for retained third grade students who subsequently score a Level 1 on the reading portion of FL state assessment. The focus of the class will be to increase the student's reading level at least two grade levels in one school year. The intensive acceleration class must provide the following:

- a. Uninterrupted reading instruction for the majority of student contact time each day and opportunities to master the grade 4 Next Generation Sunshine State Standards in other core subject areas through content-rich texts.
- b. Small group instruction.
- c. Reduced teacher-student ratios.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

- d. The use of explicit, systematic, and multisensory reading interventions, including intensive language, phonics, and vocabulary instruction, and use of a speech-language therapist if necessary, that have proven results in accelerating student reading achievement within the same school year.
- e. A read-at-home plan.

Retained 3rd grade students shall be provided with a high-performing teacher as determined by student performance data and above-satisfactory performance appraisals. Student progression decisions consider the student's response to evidence-based instruction/interventions implemented with fidelity.

A student who is promoted to Grade 4 with a Good Cause Exemption shall be provided intensive reading instruction and intervention that include specialized diagnostic information and specific reading strategies to meet the needs of each student. The school district shall assist schools and teachers with the implementation of explicit, systematic, multisensory reading strategies which are in compliance with § 1008.25, Fla. Stat., research-based and have shown success in improving reading among students who have reading difficulties.

E. 5th Grade. In Bay District Schools, there will be no social promotion. A student who does not qualify for a good cause exemption will be retained in 5th grade if he or she meets the following criteria:

- FL state assessment ELA Score is Level 1 (using most recent available score), **AND**
- FL state assessment Math Score is Level 1 (using most recent available score), **AND**
- Receives a final grade of "F" in reading and/or math.

F. 8th Grade. In Bay District Schools, there will be no social promotion. Florida Statute 1003.4156 states all students must have successfully completed three middle school or higher courses in English, mathematics, social studies, science and one course in career and education planning. If a student has met all course requirements outlined in F.S. 1003.4156, he/she may still be retained if he/she meets the following criteria:

- FL state assessment ELA Score is Level 1, **AND**
- FL state assessment Math Score is Level 1

G. Good Cause Exemptions for Fifth and Eighth Grade Students:

1. Before a student may be considered for a good cause exemption, the student must complete all tutorial/remediation programs offered to the student.
2. Fifth and eighth grade students meeting one or more of the following criteria are eligible for a good cause exemption:
 - a. Limited English proficient students who have had less than 2 years of instruction in an ESOL program.
 - b. Students with disabilities whose IEP indicates that participation in the statewide assessment program is not appropriate, consistent with the requirements of State Board rules.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

- c. Students with disabilities who participate in the FL state assessment and who have an IEP that reflects that the student has received intensive remediation but still demonstrates a deficiency on FL state assessment. Before a student may be considered for a good cause exemption, the student must complete all tutorial/remediation programs offered to the student.
 - d. Students who have received intensive remediation but still demonstrate a deficiency on FL state assessment. Students exempted from retention in this category may be assigned an alternative placement. Before a student may be considered for a good cause exemption, the student must complete all tutorial/remediation programs offered to the student.
 - e. The Superintendent, upon the recommendation of the principal, may promote a student upon extraordinary circumstances that impacted the student's performance.
3. If a student transfers into Bay District Schools from another state after the administration of the FL state assessment, but prior to the end of the school year, the student may be promoted if the student meets all other promotion criteria.
- H. Parental Request for Retention in Grades K-8. A student's parent(s) or legal guardian may request, in writing, that the principal allow the student to be retained in their current grade for an additional year based on academic need. The principal shall have the final authority for student retention based on parental requests. The request, and all related documentation, shall be placed in the student's cumulative folder, whether the request is granted or not.
- I. Screening and Testing. Any student who demonstrates a learning difficulty severe enough to impede mastery of district curriculum shall be referred to the child study team for consultation and/or evaluation in areas such as, but not limited to, speech, language, hearing, vision, academic achievement, and social and emotional interaction. Further assessment and evaluation shall be made as needed to ensure appropriate placement for the student.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

COURSE REQUIREMENTS

8.403

Middle School.

It is the intent of the legislature and the School Board that students promoted from the 8th grade have the necessary academic skills for success in high school. Promotion from a district middle school requires students to successfully complete the following in order for the student to be promoted to the high school level:

- 3 - English courses that emphasize literature, composition, and technical text
- 3 - math courses (Each middle school must offer at least one high school-level math course for which the student will earn high school credit.)
- 3 - social studies courses, one semester of which must include the study of civics education
- 3 - science courses
- 1 - career and educational planning course resulting in the completion of an Electronic Personal Education Plan (ePEP)

Successful completion of the required course means a passing grade. A student may be promoted to the next grade with one failed course; however, the course must be retaken in place of an elective the following year. A student shall not be promoted to 9th grade until all middle school course requirements have been successfully completed.

No middle school student may earn more than a maximum of seven (7) total course units per year (August 1 - July 31). Request for waiver of this provision shall be made to the Superintendent or his/her designee.

Additional Requirements

- In addition to the above unit requirements for promotion, students must complete one class period per day of physical education for one semester of each year.
- For each year in which a student scores a level 1 on FL state ELA assessment, the student must complete an intensive reading course the following year.
- For each year in which a student scores a level 2 on FL state ELA assessment, the student must complete an intensive reading course or other approved reading intervention the following year.
- For each year in which a student scores a level 1 or 2 on FL state math assessment, the student must receive remediation the following year.
- Each district student in grades 6-8 and his/her parents will be provided information concerning three-year and four-year high school graduation options.

High School. Students may select one of four high school graduation options: (1) completion of the four year, 24 credit program requirements for high school graduation (refer to 8.401 for staggered credit requirements); (2) completion of an International Baccalaureate (IB) curriculum; (3) completion of an Advanced International Certificate of Education (AICE) curriculum; (4) completion of an 18-credit standard diploma option through the ACCEL program. Students selecting Options 2-4 should be aware that specific courses may be required by the State of Florida for graduation. Students not selecting any graduation option shall be considered to have selected the four-year general requirements for high school graduation.

Students who enter a Florida public school at the 11th or 12th grade from out-of-state or from a foreign country shall not be required to spend additional time in school in order to meet the high school course requirements. Students who are not proficient in English should receive immediate and intensive

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

Option 2: International Baccalaureate (IB) Diploma Program: The IB Diploma Program is a rigorous pre-university course of study leading to internationally standardized tests. The program's comprehensive two-year curriculum allows its graduates to fulfill requirements of many different nations' education systems. Students completing IB courses and exams from six subject groups are eligible for college credit. The award of credit is based on scores achieved on IB exams. Students can earn up to

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

HIGH SCHOOL CREDIT

8.404

Credit for high school graduation is defined as a minimum of 135 hours of instruction in a designated course which contains student performance standards. For a high school that has been authorized by the School Board to implement block scheduling, credit for high school graduation is defined as a minimum of 120 hours of instruction in a designated course which contains student performance standards. Credit cannot be earned twice for the same course, with the exception of Intensive Reading which is an elective credit.

To receive credit, students must demonstrate mastery of the student performance standards as evidenced by a final course grade of 60% or better and compliance with the attendance requirements included in 7.104.

Under no conditions may work done under a private tutor be accepted for credit, a grade, or for purposes of promotion except when a course is not offered or no certified teacher employed by the School Board is available to provide the instruction. The tutor and course must be approved by the Superintendent or his/her designee prior to instruction. In order for credit to be awarded, the student's private tutor must meet the requirements of School Board policy regarding home education students.

Students enrolled in a full-year course shall receive $\frac{1}{2}$ credit if the student successfully completes either the first half or the second half of a full-year course but fails to successfully complete the other half of the course. If the averaging of the first half and second half grades would result in a passing grade, and the student has successfully completed assignments and other indications of student performance, the student shall receive full credit for the course. The only exception to this averaging practice would be as it relates to state mandated End of Course exams that must count 30% of the student's overall average.

The principal may recommend that a student earn new credit or additional credit. However, taking additional courses for credit toward graduation may adversely affect a student's grade point average. Students must obtain written permission from the principal before beginning any such program. Sources for new or additional credit are:

1. College summer institutes which earn at least 3 hours of college credit (3 hours of college credit = $\frac{1}{2}$ high school credit).
2. Dual enrollment programs.
3. Correspondence school accredited by a regional accreditation agency (one credit per year).
4. Haney Technical Center for 16 years old or older.
5. Bay Virtual School

Students who withdraw from a district high school and enter other educational institutions may transfer no more than ten credits per year (August 1 - July 31) with a maximum of five credits per semester/term when reentering a district school. Credits from accredited institutions will be accepted at the face value, subject to validation, if deemed necessary. Credit from non-accredited institutions will be validated on the basis of student performance standards or examination.

No student may earn more than five credits per semester/term or more than a maximum of ten total credits per year (August 1 - July 31). This applies to students enrolling in virtual school courses beyond the regular school day. Request for waiver of this provision shall be made to the Superintendent or his/her designee.

Work successfully completed in a district school program conducted at any location (including Starting Over Straight, and Department of Juvenile Justice) will be used to determine credit at any district school.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

These programs must use school board approved student performance standards. Every effort will be made to put a student in the same course at the special facility that he/she was taking before he/she entered the special facility.

In order to provide reasonable consistency of maturity levels among students in the traditional high school program, high school students pursuing a regular high school diploma must be able to graduate from school prior to their twentieth birthday. If a student attains the age of eighteen prior to completing his/her tenth grade year, the student may be reassigned to a district alternative program or be afforded the opportunity to pursue General Education Development (GED) programs of the district. The provisions of this paragraph shall not apply to students who are classified as exceptional students.

Middle school students enrolled in a course designated by a high school course code will earn credit to be used in satisfying high school graduation requirements using the criteria set forth in district guidelines.

Students shall not be enrolled in Level 1 courses unless the student's assessment indicates that a more rigorous course of study would be inappropriate, in which case a written assessment of the need must be included in the student's individual educational plan or in a student performance plan signed by the principal, the guidance counselor, and the parent or guardian or the student if he/she is 18 years old or older prior to enrollment. No student may be granted credit toward high school graduation for enrollment in the following courses or programs:

1. More than a total of nine elective credits in remedial programs.
2. More than one credit in exploratory career technical courses.
3. More than three credits in practical arts home economics.
4. Any Level 1 course that does not meet the requirements above.

GRADUATION REQUIREMENTS

8.405

Students at grade levels 6-8 who successfully meet the requirements of courses designated in the Course Code Directory as appropriate for grade levels 9-12 must use these courses to satisfy high school graduation requirements or Florida Bright Futures Program requirements. The grade earned in such courses will be used in computing the State grade point average.

At the end of each semester, the parents/legal guardians of students in grades 9-12 who have a cumulative grade point average of less than 0.5 above the cumulative grade point average required for graduation shall be notified by mail no later than 30 days prior to the last day of school that the student is at risk of not meeting the requirements for graduation. The notice will meet the criteria explained in §1003.43, Fla. Stat. Parents will be informed at this time that students must successfully complete state assessment requirements in order to receive a diploma upon completion of all district requirements for graduation. A record of each notification shall be placed in the student's folder.

A student's 9th grade year of entry will determine state assessment criteria for graduation. Assessment requirements by year of entry can be found at <http://fcats.fldoe.org/eoc> (Graduation Requirements). Students must also meet the required grade point average as specified in School Board Policy 8.202, earn the number of required credits, and meet the diploma/program requirements in order to graduate.

A student who does not complete his/her work as previously described will have two (2) calendar weeks to present a written appeal to the principal. This appeal must be accompanied by appropriate documentation explaining any extenuating circumstances which might allow the student to work past the deadline. If the principal agrees, the principal shall submit a written appeal to the Superintendent requesting a specific extension.

A student must be enrolled full-time in a district school for the final grading period of the last semester of his/her senior year and complete the required credits by the last day of the district's regular school year or forthcoming summer school program, if offered, in order to receive a diploma from a district high school. For extenuating circumstances, the Superintendent, or his/her designee, shall make the final determination.

Each student has the option of graduating as soon as the student has earned 18 credits that meet high school graduation requirements. Students who graduate early will still be able to participate in high school graduation activities. A student who graduates at the end of the first semester is eligible for a Bright Futures Scholarship to enter college in the Spring term.

Transfer students shall meet the number of credits required for graduation from the school district, state or country from which he/she is transferring, earn a 2.0 grade point average, and pass the state assessment criteria in order to receive a district diploma. An 11th or 12th grade student entering the district may substitute an SAT/ACT score that is concordant with the 10th grade FL state assessment in order to receive a district diploma.

In lieu of passing FL state assessment a student may use Reading concordant scores, if allowed by DOE, under the following conditions:

1. pursuant to S. 1008.22(10)(a), Fla. Stat. (Concordant Scores for the FL state assessment), a student must take the Grade 10 Reading FL state assessment without earning a passing score in order to use a concordant subject area score to satisfy the assessment requirement for a standard high school diploma. This requirement shall not apply to a new student who enters the Florida public school system in Grade 11 or 12,

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

- who may either achieve a passing score on the FL state assessment Retake or use an approved subject area concordant score to fulfill the graduation requirement.
2. when content alignment and concordant scores can be determined, the Commissioner of Education shall adopt those scores as meeting the graduation requirement in lieu of achieving the FL state assessment passing score and may adopt those scores as being sufficient to achieve additional purposes as determined by rule. Each time that test content or scoring procedures change for the FL state assessment or for a high school achievement test for which a concordant score is determined, new concordant scores must be determined.
 3. once a student has met the assessment graduation requirement for a standard high school diploma with a concordant score Florida's school code does not require the student to continue retaking the Grade 10 FL state assessment for the purpose of high school graduation. However, S.1003.43, Fla. Stat., requires district school boards to establish standards for graduation, and these standards must include the completion of all other applicable requirements prescribed in the district's Student Progression Plan pursuant to S.1008.25.

If a student transfers into a Florida high school from out of country, out of state, a private school, or a home school, and that student's transcript shows credit received in Algebra I or an equivalent course, Geometry or an equivalent course, or Biology I or an equivalent course, the student must also have a documented passing score on a statewide, standardized EOC assessment; otherwise, the student must sit for all state-required EOCs in order to graduate.

Types of Diplomas.

- A. Standard Diploma. Students who pass the state assessment criteria, master the performance standards and the required district courses, will be granted a Standard Diploma.
- B. Career and Technical Education – Graduation Pathway Option. Beginning with the 2019-2020 school year, a student may earn a standard high school diploma through the Career and Technical Education (CTE) pathway option.

To earn a standard high school diploma through this pathway option, a student must:

1. Successfully complete a minimum of 18 credits;

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

C. Standard Diploma - Students with Disabilities.

In addition to the four options available for students to earn a standard diploma listed above, Rule 6A-1.09963, Florida Administrative Code (F.A.C.), High School Graduation Requirements for Students with Disabilities, outlines three additional options that students with disabilities may complete toward a standard diploma.

- Standard Diploma – 24 credit Access Course Requirements. Specific requirements for students with disabilities for whom the individual education plan (IEP) has determined that participation in the Florida Standards Alternate Assessment is the most appropriate measure of the student's skills and instruction in the Florida Standards Access Points is the most appropriate means of providing the student access to the general curriculum.

The potential to defer receipt of a standard high school diploma applies to any student with a disability, as long as the requirements of s. 1003.4282(10)(c) are met.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

If a student's IEP Committee determines that the required state assessment criteria cannot accurately measure the student's abilities, the team may recommend that the student be considered for a waiver. To be considered for a statewide, standardized assessment results waiver, the following criteria must be met:

Such student shall be awarded a special diploma in a form prescribed by the Commissioner of Education, if the student meets the requirements specified in s.1003.438, F.S., and in effect as of June 20, 2014.

Students identified as having the following disabilities are eligible to receive a Special Diploma, either through Option 1 or 2:

A student returning to school as a fifth-year senior may earn a Standard Diploma or may earn a Certificate of Completion. However, any student who is otherwise entitled to a Certificate of Completion may elect to remain in the secondary school either as a full-time student or as a part-time student for up to one additional year and receive special instruction designed to remedy his/her identified deficiencies.

Graduation Ceremonies

Each high school will have its graduation at the end of the second semester. A student must meet all the requirements for a standard high school diploma before participating in graduation exercises. Students will not be permitted to participate in graduation exercises and walk the stage with a Certificate of Completion.

Students meeting all the district-identified graduation requirements by the end of the first semester of their senior year may receive a letter certifying that all graduation requirements have been met. These students will be eligible to participate in the regular graduation ceremony at the end of the second semester.

Students who meet all of the graduation requirements at the end of summer school will be given a high school diploma at this time. Diplomas not issued after the conclusion of summer school must be destroyed by the respective high school. Students meeting graduation requirements after the conclusion of summer school must be issued a diploma for the current school year in which the requirements were met.

Beginning with the graduating class of 2015, senior class GPA academic achievements will be calculated at the end of the first semester and recognized as follows:

*Valedictorian
*Salutatorian

4.0 and higher (weighted GPA) – (with Distinction)
3.75 – 3.99 (weighted GPA) – (with Excellence)

Students who graduate with Distinction will select at least one speaker from within the with Distinction graduates for participation in the graduation ceremony.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

*In order to be eligible for valedictory and salutatory awards, at the time of calculation, a student must have been enrolled for at least two (2) consecutive semesters during the junior and senior years in the school from which he/she is seeking the award. In computing a student's class rank for Valedictorian and Salutatorian determination, only grades in courses taken in grades 9-12 will be used.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

C. School Board Responsibility and Selection Criteria.

The School Board is responsible for assuring that instructional materials used in the district are consistent with the district goals and objectives and the curriculum frameworks approved by the State Board of Education, as well as the state and district performance standards.

The selection of instructional materials is a part of the total process of curriculum development. As such, it is the responsibility of professionals employed by the Bay County School Board, with input and assistance from parents, students, and other lay members of the community as appropriate to make recommendations. Motion picture and television rating systems shall be used as a guide in determining the appropriateness of content and format of such media. The schools shall consider but not be limited to the following categories: G, PG and TV-Y in elementary grades; G, PG, TV-Y, TV-Y7, and TV-G in middle grades; G, PG, PG13, TV-Y, TV-Y7, TV-G, and TV- PG in high school grades. Instructional materials with other ratings or without an assigned rating shall be selected using the criteria outlined in this policy. Personnel involved in the process should consult reputable professionally prepared selection aids and other appropriate reviews of instructional materials, when available, to ensure that the selection process yields the following:

1. Instructional materials which are appropriate for the subject area and for the age, emotional development, ability level, and social development of the students for whom the materials were selected.
2. Instructional materials with significant literary, scientific, artistic, or musical merit.
3. Instructional materials which foster an awareness, understanding and respect for the many important contributions to our multi-cultural society.
4. Instructional materials which illustrate the historical and contemporary forces or attitudes which have influenced the economic, political, religious, and ethical development of our society.
5. Instructional materials which are designed to motivate students and staff to examine their own attitudes and behaviors and to comprehend duties, responsibilities, rights, and privileges as citizens in our multi-cultural society.
6. Instructional materials concerning current issues, events, or artistic developments which have not yet been incorporated into textbooks, but may affect our society today
7. Instructional materials which do not contain vulgar, obscene or sexually explicit material unless those attributes are outweighed by the work's literary merit.
8. Instructional materials shall be selected for their strengths, rather than rejected for their weaknesses.

Nothing in this policy limits or removes the responsibility of the district to include in its curriculum the required instruction specified in s. 1003.42, Florida Statutes, including, but not limited to, the following: the history of the United States; the history of the Holocaust; the history of African Americans; the study of Hispanic contributions to the United States; the study of women's contributions to the United States; the nature and importance of free enterprise to the United States economy; patriotism; the events surrounding the terrorist attacks occurring on September 11, 2001, and the impact of those events on the nation; the elementary principles of agriculture; and kindness to animals.

Selection is an ongoing process which includes the removal of instructional materials no longer appropriate and the replacement of lost and worn instructional materials still of educational value.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

All materials used for instructional purposes shall comply with state and federal law and the current fair use guidelines as clarified in "Copyright: A Guide to Information and Resources", by Gary H. Becker, a copy of which shall be kept at each school. No exception will be allowed without appropriate written permission from the copyright holder.

Instructional Aids should not, at any time, replace or be used in lieu of district adopted instructional materials.

Materials that are not the property of the district or one of its entities may be used if they meet the School Board's criteria for appropriateness.

Copies of the policy and procedures for selection of instructional materials shall be furnished to all instructional staff and shall be redistributed when updates occur. All new instructional staff employees shall receive a copy upon employment at a school site. This distribution is intended to clarify and facilitate requests for approval of new instructional materials.

Each principal or his/her designee shall review with their staff the policies and procedures for selection of instructional materials at the start of each school year. It is the responsibility of the principal to inform, monitor and enforce the School Board's policies regarding appropriate use of instructional materials.

Each principal shall be responsible for including the current district policy on the appropriate use of instructional materials in their school's handbook for teachers.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

EVALUATION OF INSTRUCTIONAL MATERIALS

8.502

All classroom materials, including State-adopted instructional materials, being used as single source textbooks in the Bay District Schools for the first time shall undergo an evaluation. This evaluation shall determine the suitability of the materials for information being taught in the classroom in relationship to State standards, curriculum frameworks, and district programs, as well as with state and district performance standards. The following procedures shall be observed in conducting evaluations.

Materials to be Reviewed. The district's review cycle for subject area instructional materials will stay within two years of the state adoption cycle to ensure access to current instructional materials. Instructional materials for a particular course or subject shall be carefully examined to determine the most appropriate for a course or subject. These materials include but shall not be limited to student textbooks, activity books, laboratory books, workbooks, test books, teacher's editions, teacher's guides, teacher's manuals, pamphlets, keys, study guides, record books, charts, musical arrangements, cards, transparencies, tests, copies of materials on duplicating masters, prints, computer software, compact discs, digital and online resources. Samples of materials will be made available for evaluation in digital format to all teachers. The district may request hard copy samples if needed.

Duties, responsibilities, and requirements of instructional materials publishers and manufacturers. Publishers and manufacturers of instructional materials, and their representatives, shall at all times remain in compliance with Florida law, including Florida Statutes § 1006.38, which is incorporated herein by reference.

Publishers Presentations. The Superintendent or his/her designee will notify in writing all publishers who have been evaluated and selected by the district instructional materials reviewers for hard copy samples and/or on digital format samples. The Superintendent or his/her designee will give each publisher an opportunity to make a presentation of materials. Each publisher will be given equal time. No other presentations may be given and publishers will not be permitted to visit schools without written permission from the Superintendent or his/her designee.

Examination of All State-Adopted and Non-State Adopted Instructional Materials. In accordance with the provisions of Florida Statutes, the Superintendent shall ensure that there is an evaluation of any instructional materials to be requisitioned that has not been used previously in the schools. All instructional materials, both state adopted and non-state adopted, may be purchased only after having been reviewed and approved through procedures established by the Superintendent.

Content instructional specialist and/or the district review committee may use online instructional materials evaluation tools to ensure the accuracy and alignment to Florida standards. Fla. Stat. § 1003.41, 1006.31.

District Review Committee. District reviewers will be selected by the content instructional specialist and or appointed by the superintendent and or his/her designee. This committee will consist of two or more classroom content area teachers, one or more parents of a child at content grade level as recommended by school principals, and/or district personnel.

Content area teachers will be selected by the district content area specialist or appointed by the superintendent and or his/her designee to serve on the district review committee. The district content specialist will provide to the committee a list of recommended parents who have a student at the grade level of the instructional material under consideration. The district review committee will select from that list one or more parents to serve on the committee. ABCE may provide one representative to serve on the district review committee. The committee will evaluate and provide rubrics concerning the

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

instructional materials samples. They will review and research the instructional materials to make sure they meet the district goals and objectives and the curriculum frameworks adopted by rule of the State Board of Education, as well as with the state and district performance standards provided for in Fla. Stat. § 1001.03(1).

Student editions of recommended instructional materials will be made accessible online at least 20 calendar days before the school board meeting, or any public hearings regarding the instructional materials.

Prior to final adoption, the School Board will hold an open, noticed school board hearing to receive public comment on the recommended instructional materials. An open, noticed public meeting to approve an annual instructional materials plan to identify any instructional materials that will be purchased will take place on a different date following the hearing. § 1006.283(2)(b)8, Fla. Stat.

The district review committee will present a recommendation to all schools involved in the adoption process in the given year and or content area(s). Each school site will be given a minimum of thirty days to review the proposed titles to be adopted district wide. Each school site will submit a completed rubric and any concerns and/or feedback related to the materials presented to the Teaching and Learning Department. The Teaching and Learning Department will take under consideration all feedback given by the school sites. The Teaching and learning Department will be responsible for the final recommendation of the instructional material(s) for adoption to the superintendent.

AP instructional materials will be adopted and implemented district wide for the entirety of the adoption cycle. AP instructional materials will be selected by consensus of the district content area specialist and content area teachers.

Within the parameters of financial resources and sound educational practice, the instructional materials adoption for the core courses of mathematics, language arts, social studies, science, reading and literature in grades K-12 shall be standardized.

The Teaching and Learning Department will be responsible for the final recommendation of the instructional material(s) for adoption to the Superintendent for recommendation to the School Board for official adoption of materials for purchase and use in Bay District Schools. Such purchases shall be made within the first two years of the adoption cycle. In accordance with Fla. Stat. §1006.28, the Superintendent or his/her designee shall notify the Department of Education by April 1 of each year the titles of the district-adopted or State-adopted instructional materials that will be requisitioned for use in the district.

The following procedures shall apply to all objections to instructional materials adopted by the district school board:

1. The parent or a resident of Bay County, as defined by Florida Statutes, may contest the district school board's adoption of a specific instructional material by filing a petition, on form (Motion to Contest an Instructional Material Adoption Form), within thirty calendar days after the adoption of the material by the school board.
2. The form (Objection to Instructional Material) must be signed by the parent or resident of the county, include the required contact information, and state the objection to the instructional material based on the criteria stated in Florida Statutes § 1006.31(2) or 1006.40(3)(d).
3. Within thirty days after the initial 30-day period has expired, the school board must, for any petitions timely received, conduct at least one open public hearing before an unbiased and qualified hearing officer. The hearing officer may not be an employee or

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

agent of the school district. The hearing is not subject to the provisions of Chapter 120; however, the hearing must provide sufficient procedural protections to allow each petitioner an adequate and fair opportunity to be heard and present evidence to the hearing officer. The School board's decision after convening a hearing is final and not subject to further petition or review. Fla Stat. § 1006.28(3).

Evaluation Forms. The online instructional materials evaluation tools and rubrics used in the State-wide and district evaluation processes will be made available to the schools to rank the instructional materials submitted for evaluation. In this way, evaluations will be based on legally required criteria in the areas of content, presentation, instructional design, and classroom use.

Conflict of Interest. Bay District employees will not solicit or accept any emolument, money or other valuable thing, or any inducement to directly or indirectly introduce, recommend, vote for, or otherwise influence the adoption or purchase of any instructional material during the months actually engaged in performing duties under his/her contract, shall not receive any private fee, gratuity, donation or compensation in any matter whatsoever for promoting the sale or exchange of any school book, map or chart in any public school or be an agent for the sale or the publisher of any school textbook or reference work, or be directly or indirectly pecuniarily interested in the introduction of any such textbook.

Piloting Instructional Materials. Use of instructional materials, to include, but not limited to textbooks, software or digital subscriptions, for the purpose of piloting prior to the evaluation and selection process is permitted in the Bay County Schools under the following conditions.

1. All instructional material pilot programs must be arranged and coordinated through the appropriate curriculum supervisor with approval of the Superintendent or his/her designee.
2. All piloted materials shall be collected from schools at the conclusion of the school year.
3. Funds may not be spent to obtain more than the instructional materials being piloted.
4. Teachers piloting instructional materials should be prepared to expend the extra time necessary in using a different text instructional material without additional pay.
5. Teachers piloting instructional materials will make class time available for the purpose of administering evaluation instruments as necessary.
6. Only one district school may pilot a specific program for school/district consideration.
7. The district may not pilot a program of materials being considered for adoption during the 18 months prior to the adoption of the materials by the Commissioner of Education. Fla. Stat. § 1006.32(3).
8. Any pilot program during the first two years of the adoption period must have the prior approval of the Commission of Education. Fla. Stat. § 1006.32(3).

Evaluation and Adoption of Other Classroom Instructional Aids. The following procedures shall be followed in the evaluation, selection, and use of additional instructional aids for classroom use which have not been adopted by the State Board of Education, and approved for use:

1. When teachers, groups of teachers, or academic departments determine that the need exists for new or additional classroom instructional aids, they shall review available items and seek input and assistance, when appropriate, from parents, students, and other lay members of the community, and determine which instructional aid or aids best meet instructional needs.
2. After making this determination, they shall prepare a written rationale for each instructional aid, which includes, but is not limited to, the following:

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

- A. The class(es) or age group(s) for which the instructional aid is appropriate.
 - B. The curriculum objective(s) to be addressed through the use of the instructional aid.
 - C. The way(s) in which the instructional aid will be used to meet the curriculum objective(s).
 - D. Problems, if any, of style, tone, content or theme inherent in the instructional aid, and the way(s) in which these problems will be addressed during the instructional process.
 - E. Other appropriate instructional aids which individual students might use in place of the one selected.
 - F. Where applicable, supporting professional materials which were used in selecting the instructional aid.
3. The rationale shall be submitted to the principal. The principal shall review the rationale to determine whether it demonstrates that the instructional aid is consistent with the district goals and with the school and course objectives. Within ten working days, the principal shall recommend, in writing, the approval or the rejection of the instructional aid, or shall return the rationale to the teacher for revision. If the instructional aid is recommended for rejection or returned for revision, the principal shall state his/her reasons in writing. Upon resubmission of a revised rationale by the teacher, the principal shall make a decision for recommendation or rejection within ten working days.
 4. The principal shall submit his/her recommendation to the Supervisor of Instructional Technology and Media Services. At the time of any submission by the principal to the Supervisor of Instructional Technology and Media Services concerning any particular instructional aid, the teacher requesting the instructional aid shall be furnished with copies of such submission. If the principal fails to make a decision within ten working days from the date of submission, the teacher will have twenty working days from the date of submission to file a written request for review by the Supervisor of Instructional Technology and Media Services. If the instructional aid is rejected by the principal, the teacher shall have ten working days from the date of rejection to file a written request for review by the Supervisor of Instructional Technology and Media Services.
 5. Within ten working days, the Supervisor of Instructional Technology and Media Services will make his/her recommendation for approval or rejection to the Director of K-12 and Adult Instructional Services and the Superintendent.  6. Quarterly the Superintendent shall submit to the Board a written list of any instructional aids which have been submitted by teachers and rejected by a principal, the Supervisor of Instructional Technology and Media Services, the Director of K-12 and Adult Instructional Services, or the Superintendent, and not appealed by the teacher. This list shall state the reasons for the rejection of each instructional aid. At the time of any submission by the Director of K-12 and Adult Instructional Services or by the Superintendent to the School Board concerning any particular instructional aid, the teacher requesting the instructional aid shall be furnished with a copy of such submission.
 7. The School Board shall notify the teacher initially requesting approval of the instructional aid of the date and time of the School Board's consideration of the request. The teacher shall have the opportunity to be heard prior to the Board's making a decision on the

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

- material. The teacher shall be granted a temporary duty assignment for the purpose of attending the meeting.
8. The School Board shall make a decision on the material within 45 working days of the receipt of a recommendation or an appeal.
 9. The rejection at any level, of the use of an instructional aid shall be for that academic year only. Any instructional aid previously rejected, at any level, may be resubmitted in any subsequent year.
 10. Materials approved shall be deemed appropriate for use at the grade level requested and may be used at higher levels throughout the district providing that the curriculum sequence is maintained.

Use of Supplementary Materials. All supplementary materials as defined in 8.501 must be consistent with the district goals and objectives, School Board policies, and the State standards approved by the State Board of Education. When new materials are added to the classroom library, a list of said new materials shall be submitted to the school's media center. In selecting new materials, teachers shall apply the selection criteria in 8.501. Materials available in the classroom libraries are subject to the material review process set forth in 8.503.

Course Outline. Upon request by a parent, a teacher shall provide a brief course outline listing the instructional aids he/she anticipates using during that grading period. To meet student needs the teacher thereafter may amend the outline and list.

Listing of Approved Instructional Aids. Prior to the beginning of the school year, the Supervisor of Instructional Technology and Media Services or his/her designee shall prepare a list of instructional aids approved for use throughout the district at each grade level and subject area. This list shall be available on the Instructional Technology and Media Service webpage. The list shall be updated to reflect additions or deletions.

The Superintendent shall prescribe a standard approval form to be used throughout the district which shall contain all data required above. REVIEW OF CLASSROOM INSTRUCTION MATERIALS

8.503

The following process and procedures shall be followed by any parent or resident who object to the use of specific material in a classroom. All instructional materials, instructional aids, supplementary materials, and classroom library materials used in the classroom shall be subject to review under this procedure.

As needed, there shall be created in each school in the district an Instructional Material Review Committee. It shall be made up of five citizens selected by the School Board who reside in the particular school zone, two teachers selected by the Superintendent from the particular school, and two teachers selected by the principal from the particular school. Each committee member shall be selected for a one year term.

Parents or Bay County residents who object to the use of specific material should make their objections explicitly known to the teacher and principal and attempt to resolve the problem at that level. If their objections cannot be resolved at that level, a request for Reconsideration of Instructional Material form shall be filed with the School Instructional Material Review Committee. Within ten working days of such filing, parents of other students in the class(es) involved or potentially affected in that school shall be notified in writing by the principal that a challenge has been initiated.

Based upon a parent or resident's written complaint, each School Instructional Material Review Committee is authorized to conduct a review of the text-book(s), instructional aid(s), or supplemental material(s) under challenge. If the complainant is a member of the review committee, he or she shall not participate in a review of the challenged material.

The School Instructional Material Review Committee shall meet and shall make written recommendations to the individual principal within thirty working days of the filing of a complaint. The Committee recommendations shall address whether the challenged material is consistent with the selection criteria outlined herein. The Committee shall have no authority to determine curriculum. The principal shall take into account these recommendations when making his/her decision as to whether the material should be retained or removed.

Within ten working days of receiving the recommendations of the School Instructional Material Review Committee, the principal shall make a decision whether to retain the material or remove the material.

If the principal determines that the challenged material be retained, the complainant shall be notified in writing within five working days. The complainant shall be given a copy of the decision of the School Instructional Material Review Committee and a copy of the procedures for filing an appeal. If the principal determines that the challenged material be removed, then the complainant, the teacher(s), the students in the class, and the parents of the students in the class where the complaint was initiated, shall be notified in writing within five working days of the decision at the same time the decision will be referred to the District Instructional Material Review Committee.

An appeal of a principal's determination to retain challenged material must be filed with the principal within five working days of notification of that determination and shall include a specific statement of the complainant's grounds for disagreement with the principal's determination. Copies of the appeal shall be furnished to the teacher(s) and the parents of the students in the class where the complaint was initiated within five working days of the filing of the appeal.

The Superintendent shall appoint a District Instructional Material Review Committee to hear appeals from decisions made at the school level. The Committee shall be composed of the following 13 members. All but 4, 5 and 6 below shall be appointed for one year terms. In the event the challenge originates at the

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

same school at which a member of the committee works then the Superintendent shall substitute another individual from the same category.

1. Two Lay Persons. One of whom shall be a citizen at large, and one of whom shall be a member of and approved by the Public Library Board.
2. District Level Staff Member. One staff member from the level or special area where the material has been challenged.
3. Three Principals. One principal shall be appointed from each level (elementary, middle, and high school). However, only the principal from the same level as the school at which the challenge originates shall serve on the review panel for the particular material.
4. Grade Level Instructional Staff Member. One instructional staff member who is a department head, grade level chair or team leader from the same level (elementary, middle, or high school) at which the challenge originates.
5. Three Teachers. Three teachers from the same level at which the challenge originates shall be appointed by name.
6. Four Parents. One shall be a parent of an elementary school student, one shall be a parent of a middle school student and two shall be the parents of high school students.
7. One instructional staff member designated by the ABCE.

The District Instructional Material Review Committee shall make recommendations to the Superintendent as to whether challenged material is appropriate under the criteria set forth herein. The Superintendent shall take into account the recommendations of the committee when making the decision as to whether or not the challenged material should be removed.

The District Instructional Material Review Committee shall have 30 working days from the date of the complaint to file its written decision with the Superintendent, who shall then have ten working days from that date to make a written decision, and distribute it to the complainant, the teacher, the principal of the school involved, and the School Board.

If the Superintendent recommends removal of the material, the School Board shall act on the recommendation within 45 working days. Should the Superintendent decide not to recommend removal, that decision shall be final unless the complainant appeals in writing directly to the School Board within ten (10) working days of the decision. The School Board shall act upon the appeal within 45 working days.

The School Board shall notify the complainant and teacher(s) seeking to use the challenged material of the date and time of the School Board's consideration of the recommendation to remove or the appeal of the recommendation not to remove. The School Board shall furnish the complainant and the teacher(s) seeking to use the challenged material an opportunity to be heard prior to the Board's making a decision on the approval or rejection of the challenged material. The teacher(s) shall be granted a temporary duty assignment for the purposes of attending the meeting.

A decision by the principal or the Superintendent to remove the instructional material shall result in an automatic appeal to the next level. If the School Instructional Material Review Committee or the District Instructional Review Committee fails to act within the time specified, the principal or Superintendent shall then make the decision without Committee input.

During the review process, the material shall not be removed from use.

The school board's decision after convening a hearing is final and not subject to further petition or review.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

The decision to remove challenged material from use shall, unless otherwise determined by the School Board, be effective at the grade level at which the material is in use and all lower grades.

Administrative Procedures. The Superintendent shall develop whatever administrative procedures are necessary to implement this Rule. Copies of the procedures, and any subsequent amendments, shall be submitted to the Board for information purposes.

CONTROVERSIAL ISSUES

8.505

The responsibility and right of any member of the instructional staff to present information of a controversial nature is hereby recognized. The teacher shall not present controversial material or issues which are not directly or closely related to the subject area being taught. In presenting controversial materials or an issue, the teacher shall present all sides of the question without bias or prejudice and shall permit each student to arrive at his/her own conclusions. District supervisory personnel shall monitor such instruction to verify that both sides of such issues are presented objectively.

Before any course or unit in the objective study of the Bible or a comparative study of religion, as provided in § 1003.45, Fla. Stat., is installed in any school, a course description shall be presented to the School Board for approval. This rule does not preclude the teaching of personal cleanliness in health and physical education classes or in the elementary grades, or the teaching of matters relating to sex as provided in state-adopted textbooks, or information relating to sex as required in health education courses or any other course using duly adopted textbooks and materials where sex is an incidental part of the course.

It shall be the responsibility of the school to make students aware of the dangers and consequences of venereal diseases. The manner, scope and levels at which this information will be presented shall be determined by the Director of Secondary and Adult Instructional Services, in consultation with other instructional supervisors and school principals. Prior to the installation of any such unit of instruction, the proposed program, the materials to be used and other essential information shall be presented to the School Board for approval. Where any information to be used is questionable for showing to mixed groups, there shall be a separation by sexes for presentation of the materials.

Parents have the right to “opt out” of curriculum due to religious beliefs. However, students are required to demonstrate proficiency on all state standards content and are responsible for all areas tested by FL state assessment.

The primary objective of the school library media center is to implement, enrich and support the educational program of the school. It is the duty of the library to provide a wide range of materials on the different levels of difficulty, with diversity of appeal, and representing different points of view. The inclusion of any item in a collection does not necessarily mean that the School Board or the school advocates or endorses the contents of that item. In fulfilling this responsibility each school library media center shall:

- Provide a collection of instructional and supplemental materials that will enrich and support the curriculum, taking into account the varied interests, abilities, and maturity levels of the students being served.
- Provide materials that will stimulate growth in factual knowledge, literary appreciation, aesthetic values, and ethical standards.
- Provide a background of information which will enable students to make intelligent judgments in their daily lives.
- Provide materials on opposing sides of controversial issues in order that young citizens may develop, under guidance, the practice of critical analysis of all media.
- Provide materials representative of the many religious, ethnic and cultural groups, and of their contribution to the heritage and culture of America and the world.
- Place principle above personal opinion and reason above prejudice in the selection of materials of high quality in order to assure a comprehensive collection appropriate for the users of the library media center.

Legal Responsibility for Selection. The School Board of Bay County is legally responsible for all matters relating to the operation of the Bay County Schools. The responsibility for the selection of educational materials is delegated to professional administrative and instructional personnel employed by the Board.

Parental Responsibility. Parents shall have the right to review materials in the media center and request that it be noted in the Student's library record that the student not be allowed to check out certain material.

Standards for Selection. The process of evaluating materials for inclusion in collections shall be continuous and systematic. It is preferable to examine materials before purchasing them; however, this is often impractical. In such cases, selection should be based upon bibliographic reference sources, selected lists, and reviews in reputable professional journals and publications.

First consideration shall be given to the needs of the individual school based on knowledge of the curriculum of the existing collections, and of the needs of children and youth. Requests from users of the collection (administrators, faculty, parents, students) shall be given high priority. Materials shall be selected so as to provide a wide range of levels of difficulty.

Materials for purchase shall be considered on the basis of overall purpose, timeliness, importance of the subject matter, quality of writing or production, readability and popular appeal, authoritativeness, reputation of the author, artist publisher or producer, format, and cost.

Consideration shall be given in determining the suitability and value of the material for the following elements: religion, ideologies, sex education, sex, profanity, and science.

Religion. Factual unbiased material which represents all major religions shall be included in the collection.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

Ideologies. Factual information on any ideology or philosophy which exerts a strong force in society shall be included in the collection.

Sex Education. Factual information appropriate for the age group or related to the school curriculum may be included in the collection.

Sex. Pornographic, sensational, or titillating materials shall not be included.

Profanity. The fact that limited profanity appears in material shall not automatically disqualify a selection. However, care shall be taken to exclude materials using profanity in a lewd or detrimental manner and not in context with the material.

Science. Factual information about medical and scientific knowledge shall be included in the collection without any biased selection of facts.

Procedures for Selection.

1. When teachers, groups of teachers, or academic departments determine that the need exists for new or additional library media they shall review available items and seek input and assistance.
2. Materials for media centers are selected by the professional media staff with due regard to suggestions from the administration, faculty, parents, and students. Final selection is made by the media specialists of the school in which the center is housed. Professionally recognized reviewing periodicals, standard catalogs, and other selection aids are used by the media specialists and the faculty to guide them in their selections.
3. In determining materials to be purchased, school personnel shall follow these procedures:
 - A. Multiple items of outstanding and frequently used materials may be purchased as needed.
 - B. Worn and missing basic items shall be replaced periodically.
 - C. Out-of-date or no longer useful materials shall be withdrawn from the collection and replaced by new and appropriate materials.
 - D. Materials may be purchased in many types of format: digital, ebooks, electronically, soft or hard bound.
 - E. Sets of materials and subscription materials shall be examined carefully and shall be purchased to fill a definite need.

Challenged Materials. Library materials deemed by some persons to be objectionable may be considered by others to have sound educational value. Any concerned Bay County resident or employee of the district may request reconsideration of school library media; however, the challenged material shall not be removed from circulation during the reconsideration process. When a complaint is made, the following procedure shall be followed:

1. The library media specialist shall discuss the matter informally with the complainant explaining the selection procedures for library media materials. If the complainant accepts the explanation given by the media specialist, the reconsideration process concludes.
2. If the explanation fails to resolve the objection, the principal will ask the complainant initiating the challenge to file, within two weeks, a formal written objection by completing a "Request for Reconsideration of Library Media" form which must reflect that the complainant has read the material in full. Failure to do so results in the conclusion of the reconsideration process.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

3. Upon receipt of the completed form "Request for Reconsideration of Library Media," the principal shall forward copies to the appropriate personnel as outlined in the Routing Information section of the form.
4. The challenged material shall remain available for circulation during the reconsideration process.
5. The Superintendent shall appoint a District Review Committee with the following composition:
 - (1) One representative of the Public Library Board;
 - (2) One representative of the general public at large; and
 - (3) One representative of a school parent organization.
 - (4) One principal from the level at which the complaint originated (K-5, 6-8, or 9-12).
 - (5) Three school-level instructional staff members including the following:
 - (a) One media specialist from the level at which the complaint originated;
 - (b) One media specialist from another level; and
 - (c) One classroom teacher from the level at which the complaint originated.
 - (6) Two district-level instructional staff members including the following:
 - (a) One district-level instructional staff member from the level where the material is in question; and
 - (b) The Supervisor of Technology and Instructional Media Services.
6. The Review Committee, in carrying out its assigned function, shall:
 - A. Read, view or listen to the material in its entirety;
 - B. Check general acceptance of the material by reading reviews and consulting recommended lists;
 - C. Determine the extent to which the material supports the curriculum;
 - D. Complete the "Checklist for Reconsideration of Library Media," judging the material for its strength and value as a whole and not in part; and
 - E. Forward, within 30 days, a written recommendation to the Superintendent.
7. The Superintendent's designee will inform the complainant and the school's media specialist of the committee's decision to retain or withdraw the challenged material as recommended by the District Review Committee.
8. If the complainant or the media specialist is dissatisfied with the District Review Committee's decision, a written appeal may be filed with the Superintendent. Failure of the complainant to file a written appeal within 30 days of the District Review Committee's decision will result in a conclusion of the reconsideration process and the decision of the District Review Committee shall be final.
9. The Superintendent shall, within 30 days of receipt of the appeal, send the complainant and the school media specialist a written decision. An appeal to the School Board of the Superintendent's decision must be filed within 30 days after the Superintendent's decision.
10. The School Board shall consider the decision of the District Review Committee and the Superintendent and any other appropriate documentation (i.e. meeting summaries, material reviews, etc.). The decision of the School Board regarding appropriateness of a particular Library Media material item will be considered final. Library Media materials in question, can only be removed from circulation and/or used in the school district through the procedures of this policy.

SCHOOL IMPROVEMENT PLANS

8.602

Each school improvement plan shall be based on an analysis of student achievement and other school performance data. Following this data analysis, each plan shall establish areas of focus that were revealed during the data analysis as problematic. A rationale shall describe why the areas of focus are worthy of attention and intended outcomes will establish targets necessary to impact the problematic areas. Action steps will be included and will address professional development, monitoring, and any other required information. Where necessary, subgroups will be identified and included. The plan shall also include data driven improvement activities to address State goals and performance standards, definitions of adequate progress, and any requests for waivers.

Approval Process. The evaluation of each school's improvement plan is an on-going process and is the primary responsibility of the Advisory Council. A finalized copy of the school's approved school improvement plan will be submitted to the district office and be available at the school.

Submission of Plan. Each plan shall be submitted via the FDOE CIMS system by the assigned deadline. Schools shall receive feedback on the School Improvement Plan from the Office of School Improvement. Plans shall be submitted in accordance with the state guidelines. The Superintendent will forward the recommended plans to the School Board for approval at the next regularly scheduled School Board meeting.

Appeals Process. In the event the School Board does not approve the plan, the Board must state the elements within the plan that were found to be problematic and submit recommendations for changes to the Advisory Council which would enable the plan to be approved. If the Advisory Council determines that the Board's suggested changes are not consistent with the goals of the Advisory Council and/or do not desire to modify the plan, the following steps shall be taken to resolve the dispute:

1. The School Board shall direct district staff to establish a mutually agreed upon meeting time for the Advisory Council, the Office of School Improvement, and members of the Board;
2. At that meeting, the Advisory Council shall detail specific reasons why the suggested changes are not consistent with the school's goals or why the Council does not agree with the recommended changes;
3. At that same meeting, the Office of School Improvement shall specify their concerns and reasons for making suggested changes;
4. If the revised plan meets with the approval of the Advisory Council and the Office of School Improvement, that school improvement plan shall be resubmitted to the Superintendent for Board approval.
5. If no approval can be reached at the conclusion of meeting(s), the State Board of Education shall be notified of the need for assistance.

Waiver Process. To facilitate innovative practices and to allow for district selection of educational methods, the State Board of Education may waive, at the request of the School Board, requirements of the State Board of Education rules and Florida Statutes that pertain to civil rights, and student health, safety and welfare. If a school's needs assessment process identifies an area requiring attention:

1. The Advisory Council shall recommend a strategy to address the need;
2. The school's principal shall check the Florida Statutes and Department of Education rules to determine if the proposed strategy is in conflict with any of the above;
3. If there is a conflict, the Advisory Council shall complete a Request for Waiver and submit the waiver to the office of the School Board secretary for placement on the agenda of the

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

next regularly scheduled Board meeting for consideration by the Board. If the Board approves the waiver, the waiver shall be submitted to the State Board of Education. If the waiver is not approved, the Board shall return the waiver to the Advisory Council for further consideration.

As part of the clarification, the District may solicit additional information during the interview and evaluation of the charter school application such as whether the applicant currently operates charter schools in Florida and if the proposed school will be a replication of an existing school design. This information may be used to evaluate the applicant's ability to operate a charter school. Any substantive changes in the application, prior to approval by the School Board, shall be treated as a new application and will be considered in the next year's application window.

Applicants are notified and requested to attend the review. The applicant shall have at least one (1) governing board member present. The term of the contract shall be adjusted to reflect cancellation of one year of the term.
- The application shall be automatically rescinded, without further action by the School Board, if the applicant does not open the school within: (1) the timeframe specified by law, or (2) the date of extension which has been mutually agreed upon in writing by both parties.
- Unless extended pursuant to this policy, an approved applicant shall open its charter school at the beginning of the School Board's next school year following the approval of the charter school application.

The receipt of certificates of insurance or other documentation of insurance or policies or copies of policies by the School Board, which indicate less coverage than required shall not constitute a waiver of the requirements herein stated.

The School Board reserves the right to amend or waive any requirements herein set forth on the basis that the scope of the charter school, not to include conversion charter schools, is not such as to require the full amount of the coverage, as is herein required, both as to type of insurance and limits of coverage. The failure of the charter school to maintain the required coverages at all times during the term of its charter may establish "good cause" for non-renewal or termination of the charter as provided herein.

Total funding shall be calculated during the school year to reflect actual WFTE, students reported by each charter school subsequent to each FTE survey period. Additionally, funding for each charter school shall be adjusted as follows. In the event of a state holdback or a proration which reduces district funding, each charter school's funding will be reduced proportionately. In the event the district exceeds the state cap established by the legislature, resulting in unfunded WFTE for the district, then each charter school's funding shall be reduced proportionally.

The revenue earned by a charter school shall be paid in arrears in twelve (12) monthly installments. Each payment will be based upon the revenue estimate for the projected enrollment adjusted retroactively for the actual FTE count, and adjusted for prior payments and the administrative fee. A worksheet will be provided by the School Board which will provide for the appropriate calculations. The final payment during any year shall be adjusted to reflect the final actual funded WFTE membership.

Any administrative fee charged by the School Board to a charter school shall be no more than 5% of the available revenue as defined above, not including capital outlay funds, federal and state grants, or any other funds unless explicitly provided by law. The 5% will be held back from the available revenue. If the administrative fee is less than the anticipated 5% cost, the balance due to the school will be reimbursed to the charter school within 30 days of determination of final revenue and WFTE membership. Administering the charter includes providing technical assistance, monitoring policy compliance, and processing financial, student and other records or required reports. The performance of other specific services for a charter school by the School Board will be negotiated, with fees determined on an actual cost basis.

Reimbursement for additional days of instruction will be subject to the limits of the Florida Education Finance Program, General Appropriations Act and other rules or programs that restrict funding by the district. Additional instructional days will not be funded by district required FTE funds, but will only be funded if the Legislature appropriates specific FTE funding for such purpose. Upon approval of a charter application, the initial startup must commence with the beginning of the school year calendar(s) adopted by the School Board.

The Superintendent or his/her designee, shall have ongoing responsibility for monitoring the health, safety and well being of students, as well as academic progress, and the fiscal responsibility of all approved charter schools. performance and fiscal management are eligible for a 15-year renewal. A charter may be modified upon the recommendation of the School Board or the governing board, provided both parties agree to the modification(s). Charter renewal documents will be distributed October 1. Charter renewal documents are due to the charter office January 1 for the year prior to charter expiration. Renewal will be presented to the Board in the month of March. Program review of these areas will be considered:

- A. the level of success of the current academic program as measured by the charter contract.
- B. achievement of the goals and objectives required by state accountability standards and successful accomplishment of the criteria under Fla. Stat. 1002.33(7)(a),
- C. the financial viability of the organization,

- 4. Other good cause shown.

A charter may be terminated immediately if the School Board determines that good cause has been shown or if the health, safety, or welfare of the students is threatened. The School Board shall assume operation of the school under these circumstances. The governing board may, within 14 days after receiving the School Board's decision to terminate the charter, appeal the decision pursuant to procedures established herein.

In the event a charter is not renewed or is terminated, the School District may assume the operation of the school, or the school shall be dissolved and students assigned to other public schools. All unencumbered public funds, as well as property and improvements, furnishings and equipment purchased with public funds, shall automatically revert to full ownership of the School Board.

If a charter is not renewed or is terminated, the charter school is responsible for all debts of the charter school. The district shall not assume the debt from any contract for services made between the governing body of the school and a third party.

At least 90 days prior to renewing or terminating a charter, unless a state of emergency exists, the School Board shall notify the governing body of the school of the proposed action in writing, detailing the grounds for the action and stipulating that a request for an informal hearing may be requested within 14 days of receipt of the notice. The charter school's governing body may, within 14 days after receiving the School Board's decision to terminate or refuse to renew the charter, appeal the decision to the State Board of Education, pursuant to the procedures established above.

PART EIGHT EXTRACURRICULAR ACTIVITIES

ELIGIBILITY FOR PARTICIPATION IN INTERSCHOLASTIC EXTRACURRICULAR ACTIVITIES

8.801

Interscholastic extracurricular student activities are those organized student activities between or among schools which are carried on outside the curriculum or regular course of study in school. Included are activities which involve competition between or among schools which include, but are not limited to, sports, music festivals, speech, debate, art and drama competitions in which the student may or may not be enrolled in courses in that area. Interscholastic extracurricular activities are important components of our total educational program, however student participation in these events is a privilege, not a right.

Academic Standards. Students in grades 9-12 may participate in interscholastic extracurricular activities sponsored by the school if

1. The student has a cumulative 2.0 grade point average on a 4.0 unweighted scale, or its equivalent, at the conclusion of each semester to be academically eligible during the next semester (§ 1006.15(3)(a)1, Florida Statutes). The grades from all courses required for graduation that a student takes, including those taken by the student before he/she begins high school, must be included in the calculation of the student's cumulative GPA at the conclusion of each semester. This includes the courses listed in §1003.43(1), Florida Statutes.
2. Exception: A first-year high school student, entering the ninth grade for the first time, is academically eligible during his/her first semester of high school attendance.
3. Exception: A student who is academically ineligible during the second semester of ninth grade or during the first semester of tenth grade and does not regain a cumulative 2.0 GPA at the conclusion of the semester of ineligibility may be granted academic eligibility for the next semester if (s.1006.15(3)(a)2, Florida Statutes):
 - (a) The student signs an academic performance contract with his/her school upon discovery of the semester of ineligibility; and
 - (b) The student sits out the semester of ineligibility; and
 - (c) The student attends summer school, or its graded equivalent, as necessary; and
 - (d) The student earns a 2.0 GPA on a 4.0 unweighted scale in all courses taken during the semester of ineligibility.
4. No exceptions during the 11th and 12th Grade. Once a student has completed 10th grade he/she must have the cumulative 2.0 GPA for the remainder of his/her high school career (s. 1006.15(3)(a)3, Florida Statutes).
5. Maintains satisfactory conduct and attendance and
6. Meets all applicable requirements of the Florida High School Athletic Association and the State Board of Education.

Recruiting Allegations. A student's eligibility to participate in any interscholastic or intrascholastic extracurricular activity may not be affected by any alleged recruiting violation until final disposition of the allegation pursuant to s.1006.20(2)(b).

Non-Traditional Students. Students attending a non-member FHSAA private school of no more than 125 students (grades 6-12) may participate at the public school the student would be assigned to attend by the school district based on the student's physical residence in whatever sport(s) their private school does not offer.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

Extracurricular activity students attending a District Alternative or Special School which does not offer athletics, i.e., Florida Virtual School, or a District approved Home School may participate at the District school for which they are zoned or the non-capped District school to which they could attend under controlled open enrollment provisions. Students attending a District approved charter school may participate in sports which their school does not offer at the District school for which they are zoned or the non-capped District school to which they could attend under controlled open enrollment provisions. These students must meet the same eligibility requirements as students in other District schools.

Residence and Transfers. Any student who is attending his/her zoned school; a student assigned to a school by the School Board; a student attending a school selected during "Open Enrollment"; a student approved to participate as a non-traditional student, i.e., private, charter, home school; is eligible to participate in athletic programs provided they have not participated in that sport at a previous school during the current school year.

Students who enter a school after the start of a sport season may seek to join a team under the following conditions:

1. They must not have participated in that sport at previous school.
2. They meet all eligibility requirements.

Citizenship Standards. In order to maintain eligibility, each student is expected to exhibit good citizenship and abide by all State, School Board, School team/club, and FHSAA rules and regulations.

2. To encourage the importance of a sense of responsibility as a positive role model.
3. To enhance the growth of good citizenship among participants in interscholastic extracurricular activities.
4. To recognize and assist those students who have demonstrated an inability to comply with guidelines set forth herein.

Application of Standards. These standards apply to all interscholastic extracurricular activities as defined above, whether they are school sanctioned or School Board approved. These standards apply to the participant in any activity for the duration of the activity season, whether it occurs prior to the start of the school year or after the close of the school year, including summer. Students shall also comply with the conduct required by the School Board and the regulations contained in the individual school's Student Handbook.

Students who participate in interscholastic extracurricular activities are expected to abide by the following list of citizenship standards. Sanctions for noncompliance are shown.

1. FHSAA Rules. A student who participates in interscholastic extracurricular activities will not violate any rules or regulations as set forth by the Florida High School Athletic Association (FHSAA).

Sanction: The student will be penalized according to the rules administered by the FHSAA.

Student athletes who are charged during a competition with unsportsmanlike conduct, which results in the school being fined by the Florida High School Athletic Association, will be held responsible for reimbursing the school for such fines. Any student who fails to reimburse the school will be ineligible to continue participation in the sport for which the school was fined.

2. Team/Club Rules: A student who participates in interscholastic extracurricular activities will not violate team/club rules as established for participation in an activity. It shall be the responsibility of the coach or sponsor to formulate written rules with appropriate sign-off procedures and distribute them to the parents and students.

3. School Absence. A student who participates in interscholastic extracurricular activities must be in attendance at least 200 minutes on the day of the event must not have a pattern of nonattendance.

Sanction: At the discretion of the principal, the student may be able to participate in the event on the day the student is absent from school. Students determined to have established a pattern of nonattendance will be suspended from extracurricular activities until the end of the current grading period or until student fulfills the terms of an attendance agreement (7.105 BDS Policy).

4. In-School Suspensions. A student who participates in interscholastic extracurricular activities and is assigned to in-school suspension will be eligible to participate.

7. Criminal Episodes. A criminal episode is defined as one or more felony criminal acts occurring within a 24 hour period by students in grades 6-12. Sanctions imposed will begin when the principal makes a formal determination that a criminal episode has been committed. Formal determination is defined as receiving a copy of the disposition papers that state the charge(s) and the court sanctions imposed on the student. It will be the responsibility of the student to present disposition papers (court documents) to the principal.

A student who participates in interscholastic extracurricular activities will not commit any felony criminal episodes on or off School Board property. Proof of a felony criminal episode shall include but not be limited to the student's plea of guilty or nolo contendere to a crime or delinquent act which would have been a crime if the student were an adult or the student's participation in a pre-trial intervention program.

It is the responsibility of the student to inform school officials of any criminal offenses that may be pending or have been processed by the justice system. Students who are juvenile offenders will have the responsibility of providing the necessary court documentation (disposition statements) detailing the legal actions taken by the justice system. Juvenile offenders who have been processed (have disposition statements) by the justice system will not be allowed to participate until the disposition statements have been presented to the principal so that the student's case may be processed by school officials.

Sanction: If the student participates in a felony criminal episode the student will be suspended from participating in all interscholastic extracurricular activities for one (1) calendar year.

Imposition of Sanctions. Prior to the imposition of any sanctions, the principal shall give the parent(s) or legal guardian(s) and student an opportunity to be heard regarding the alleged violation and the appropriate sanctions to be imposed. The balance of any unfulfilled sanction shall be completed, if necessary, in the following school year.

Appeal Process. The student and the parent(s) or legal guardian(s) shall be notified in writing regarding any sanctions imposed. PART NINE OTHER

HOME EDUCATION PROGRAMS

8.901

Definition. A “home education program” means the sequentially progressive instruction of a student directed by his/her parent in order to satisfy attendance requirements established by Florida law.

Establishing and Maintaining a Home Education Program. Bay District Schools will accept students from a home education program, provided such program meets the criteria identified in State law. If the parent or guardian fails to meet all requirements for establishing and maintaining a home education program, the student will be considered truant and appropriate procedures will be taken as provided by § 1003.26, Fla. Stat. Requirements to establish and maintain a home education program include:

- a. Notice of Intent. The parent or guardian shall in writing notify the Superintendent of his/her intent to establish and maintain a home education program within 30 days of the establishment of such program or within 30 days of withdrawing the student from a district school. The notice shall be signed by the parent or guardian and shall include the names, addresses, and birth dates of all children to be enrolled as students in the home education program.
- b. Records Portfolio. The parent or guardian shall maintain and preserve for a period of two years a portfolio of records and materials consisting of:
 - i. A log of educational activities which is made contemporaneously with the instruction and designated by title and author any reading materials used (including textbooks and supplementary materials); and
 - ii. Samples of any writings, worksheets, workbooks, or creative materials used or developed by the student; and
 - iii. The parent or guardian shall make available the student’s portfolio for a minimum of the previous two years of home education available to the Superintendent or his/her designee within 15 days of the Superintendent’s request for such materials.
 - iv. The parent or guardian may access Florida Virtual School: Home-school option, independent of Bay District Schools, for access to non-diploma seeking coursework.

Students Exhibiting a Pattern of Nonattendance. If a parent or guardian enrolls their student in a home education program due to a pattern of nonattendance as defined in School Board Policy 7.105, the parent or guardian shall meet the requirements of paragraphs 1 and 2, above. The Superintendent shall provide the parent or guardian with a copy of § 1002.41, Fla. Stat. and these rules and shall refer the parent or guardian to a home education review committee organized in accordance with § 1003.26, who shall review the student’s portfolio every 30 days during the regular school term, until such time the committee is satisfied that the home education program is in compliance with this policy. The first review shall occur with 30 calendar days of establishment of the home education program. Adequate progress in 4 core classes in the virtual school curriculum is defined by FLVS and may be used for compliance for attendance/driver’s license requirements (portfolio review). Failure to provide a portfolio to the committee shall result in termination of the home education program and shall require enrollment of the student in a district school within three (3) days. Continued non-enrollment shall result in truancy proceedings as outlined in School Board Policy 7.105. If the home education program is terminated under the provisions of this paragraph, parents or guardians shall not be eligible to enroll their student in home education program for a period of 180 school days.

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

Evaluation of Student Progress. The parent or guardian shall submit to the Superintendent or his/her designee an annual educational evaluation which documents the student's demonstration of educational progress at a level commensurate with his/her ability. The method of evaluation shall be selected by the parent or guardian from one of the following options:

1. Review of the student's portfolio and discussion with the student by a certified teacher selected by the parent or guardian;
2. Review of the student's virtual school transcript; Adequate progress in the virtual school curriculum is defined by FLVS and will be used for annual evaluation purposes to determine that a student is working "at a level commensurate with his/her ability".
3. Any nationally normed student achievement test administered by a certified teacher;
4. FL state assessment administered by a certified teacher at a location and under testing conditions approved by the district;
5. Evaluation by a validly licensed psychologist; or
6. Evaluation with any other valid measurement tool agreed upon by both the Superintendent and the parent or guardian.

Failure of the parent or guardian to provide the yearly evaluation will indicate non-compliance with this policy and, upon written notification from the district, the parent or guardian will be required to choose another education option. The Superintendent or his/her designee shall review and accept the results of the annual educational evaluation. If the evaluation does not demonstrate educational progress at a level commensurate with the student's ability, the Superintendent shall notify in writing the parent or guardian. The parent or guardian shall have one (1) year from the date of receipt to such letter to provide remedial education, after which time the student shall be re-evaluated as established above. At the conclusion of the one (1) year period, continuation of the home education program shall be contingent upon student demonstration of educational progress commensurate with his/her ability.

Entering a Public School from a Home Education Program. Students will be accepted from a properly established and maintained home education program upon the parent or guardian's written notice of termination of the program, which shall be filed in the Superintendent's office within 30 days of termination. The parent or guardian shall make available the student's portfolio for the previous two years of home education available to the Superintendent or his/her designee within 15 days of the Superintendent's request for such materials. In addition to the items listed above, the student's portfolio shall include work samples commensurate with enrolling grade level expectation or course description for which the student is seeking credit. Elementary writing samples should include appropriate grade level vocabulary, decoding skills and comprehension through samples of expository and narrative writings. Middle and high school writing samples should include well developed essays which include examples of expository, narrative, and persuasive writing. At least one-half of the writing samples in grades K-12 should be in the student's own handwriting, unless the student has a documented disability that would prevent the student from handwriting. Failure to comply with the above requirements will result in a temporary student placement or award of no credit until further assessment can be accomplished.

Grade Placement and Award of Credit. Grades from home education will not be used in the computation of grade point average. Please note that this portfolio of student work samples for grade placement and award of credit is more comprehensive than that required for annual review purposes. The grade placement guidelines for students entering public schools from home education are as follows:

1. Portfolios submitted for K-5 students and those desiring to enter the sixth grade shall be evaluated by the elementary school for which the student is zoned. Portfolios submitted for students in grades 7-9 shall be evaluated by the middle school for which the student is zoned. All other portfolios are evaluated by the student's zoned school. Portfolios are

CHAPTER EIGHT CURRICULUM AND INSTRUCTION

- evaluated by the home zoned school unless the student is re-entering public school into a charter school. If the student has already been granted a lottery slot, the receiving charter school will be responsible for evaluating the incoming student's portfolio.
2. Upon review of the materials provided by the parent, the principal will place the student in the grade deemed most appropriate. The decision for placement shall be based on student achievement as evidenced by the student's portfolio and student age. Principals/designees may administer end of the year assessments/achievement tests if insufficient portfolio evidence exists. A 60% score demonstrates mastery.
 3. In addition to the above, middle and high school principals may administer the semester exam for the courses to determine successful academic performance/ achievement. A score of 60 or better must be earned for award of credit. Failure to comply with all requirements will result in award of no credit.
 4. Enrolling 9th grade student's portfolios must reflect the successful completion of the class work required for promotion from middle school to high school.
 5. Sufficient evidence of course level work must be provided for the school to award middle school units or high school credit.

Alternatively, home education students may earn credit through Bay/Florida Virtual School. These credits can be accessed by guidance personnel and used to assist in determining grade placement.

Students attending home education programs during grades 11 and 12 must meet the guidelines for a Bright Futures Scholarship established in § 1009.53-1009.539, Fla. Stat. and Bay District School Board Policy 8.801.

Students attending home education programs may participate in extracurricular student activities in accordance with § 1006.15, Fla. Stat.

Students attending home education programs may participate in dual enrollment programs in accordance with § 1007.27(4) and § 1007.271(10), Fla. Stat.

VIRTUAL INSTRUCTION PROGRAM

8.904

A “virtual instruction program” (VIP) is a program that takes place in an interactive learning environment created through technology in which a student and teacher are separated from each other by time, space, or both (FS 1002.37). The purpose of the program is to make instruction available to District students using online and distance education technology in a nontraditional classroom, i.e., primarily outside of public school buildings. Access shall be available to students during or after the normal school day, and may extend through summer school enrollment.

The District provides eligible students within its boundaries three (3) options for participating in a virtual instruction program, including programs contracted by educational providers approved by the Department of Education, programs operated by District staff using licensed curriculum, programs operated by partner districts, and virtual course offerings developed locally. The District operates a franchise of Florida Virtual School that is also used for the Bay Virtual Instruction Program.

Student Eligibility

The student eligibility requirements for these programs are set forth in State law (FS 1002.455). Additional eligibility requirements for each program are provided in the Bay Virtual School (BVS) Handbook.

All courses are provided free of charge to eligible students, which may include home-schooled, charter school, alternative placement, and private school students. The District provides access to enrollment in the VIP programs and makes promotion decisions (for students in grades K-5) and/or awards credit for successful completion of coursework in grades 6-12. Access is available to eligible students during or after the school day.

Enrollment

Enrollment periods for the virtual schools the district contracts with will be advertised on the Bay Virtual school site and announced in print literature each spring. Elementary and middle school students must enroll for a full year schedule. Additional enrollment will be available to high school students only for the second semester. Students who withdraw from the virtual school prior to the end of the school year may not re-enroll within that school year. Any coursework completed prior to withdrawal will be evaluated at the student’s zoned school for final determination of award of credit. It is the parent’s responsibility to provide documentation of all work completed.

The district has final approval rights for enrollment. Students enrolled in a full-time virtual program remain Bay District School students. The district does not provide a physical setting for full-time virtual students. Parents are responsible for providing the site for and supervision of their full-time virtual student.

Student Participation

Each student enrolled in the school district virtual program must:

- Comply with the compulsory attendance requirements of Fla. Stat., § 1003.21. Attendance in virtual courses requires maintaining the required pacing within each course. Student attendance must be verified by the school district.
- Take state assessment tests at the school district in which the student resides, which must provide the student with access to the district’s testing facilities. State assessment testing will take place on regularly scheduled testing days. Parents will be responsible for transportation to and from the testing site. Students are expected to meet the district dress code guidelines and comply with the district code of conduct.
- Follow the course requirements listed in School Board Policy 8.403 to earn a promotion.
- Meet the Bay District School graduation requirements as listed in School Board Policy 8.403 to earn a Bay Virtual Diploma.

PARENT AND FAMILY INVOLVEMENT WITH SCHOOLS

9.105

The School Board believes: (1) educational success by all students enrolled in the public schools of Bay County, Florida, is a priority goal of the School Board, the District administrative and school based staff, and parents; (2) there must be a high degree of cooperation and communication between a student's school and a student's parents, and participation by parents in school activities for students to be successful; and (3) the educational success of a child requires a strong link between a student's school and a student's home. It is, therefore, the intent of this policy to identify the characteristics of parent and school cooperation which are necessary for the successful education of students.

Expectations of Parents: Education is a team effort and parents are a critical member of the team. It is important that parents strive to provide a climate in the home that: (1) values and supports education; (2) sets and maintains high expectations for student achievement; and (3) recognizes the important of parental involvement in their child's education.

The positive outcomes of parent involvement:

- Student achievement is enhanced when parents are meaningfully involved in the learning process.
- Students have a positive attitude about education, better attendance, better grades, better test scores, and are better prepared to meet the challenges of the work place or post-secondary education when parents are involved in providing a positive climate for education in a student's home environment.

Expectations of Schools: School personnel, at all levels, should strive, to the greatest extent possible, to engage in regular and meaningful communication with students' parents and to encourage the participation of parents in the educational life of their child and their child's school.

The positive outcome of school involvement:

- When parents are made to feel that they are valuable partners with school personnel in the education of their child, their contribution to the education of their child will be effective and sustained.
- Frequent and effective communication between school and parents will increase the quality and degree of parental involvement in their child's education.
- When parents receive frequent and effective communication from their child's teachers and administrators, they will develop a positive attitude about their child's school.
- School staff morale will be high and problem solving involving students will be easier when school personnel and parents work collaboratively for the benefit of the school and its students.

Mutual Expectations of Parents and School:

- That communication between a student's home and the school will be common, consistent, and meaningful;
- That parents will become active and important participants in decision making involving their child;
- That schools will promote and assist parents in developing strong parenting skills through school provided programs and community based referrals as appropriate;
- That parent volunteers will be welcomed, actively sought, and appreciated;
- That schools will work collaboratively with community resources to enhance student learning;
- That parental involvement will be actively sought in the development, implementation, and evaluation of family involvement programs; and
- That schools and parents will collaboratively work to enhance student learning through the school improvement and the School Advisory Council processes.

CHAPTER NINE SCHOOL-COMMUNITY RELATIONS

PARENT-TEACHER CONFERENCES AND OTHER MEETINGS CONCERNING STUDENTS

9.106

1. Parent-teacher conferences and other meetings concerning students are scheduled throughout the school year at the request of a parent/guardian, teacher, principal, or the superintendent. This policy shall apply to all conferences and other meetings, whether held in-person, telephonically, via video conference, or via any other means. When visiting your child's school for these conferences and meetings, the conditions set forth in Section 2.115 of these rules shall also be followed.
2. Participants in meetings concerning a student cannot videotape, audio record, or transcribe these meetings. However, audio recording may be permitted during a meeting if the parent/guardian can demonstrate the need for recording. Examples of such a need include a language barrier that cannot be resolved through the presence of an interpreter or by other means, or a disability as discussed below.
3. The Americans with Disabilities Act ("ADA") provides that no qualified person with a disability shall, by reason of such disability, be excluded from participation in, or denied the benefits of the services, programs or activities of the District. The ADA applies to meetings concerning students. Therefore, the District will provide reasonable accommodations to persons who are disabled within the meaning of the ADA. Recording may constitute such an accommodation, but the District may elect to provide an accommodation other than recording so long as it is reasonable under that law. Persons who require any accommodation to ensure their full participation in meetings concerning students will be required to disclose the need for such accommodation and the specific accommodation requested at least three days prior to the meeting by contacting the Exceptional Student Education Department at 850-767-4164. This disclosure shall be made prior to the meeting to allow proper consideration and discussion of the request.
4. When recording is necessary to comply with the District's obligations under IDEA, Section 504, or the Americans with Disabilities Act, only audio recording will be allowed. Videotaping and court reporting are not permitted. Any audio recording will be made and maintained in accordance with the District's Procedural Safeguards. When a tape recording is made of a meeting by any participant, the District will also tape record and the District's copy of the recording will be maintained and treated as an educational record under Florida and federal law.
5. When recording is necessary in an IEP meeting or Section 504 meeting, the recording will not be a part of, substitute for, amend, expand or limit an IEP, Section 504 Plan, or any other document or record prepared as a part of the IEP or Section 504 process.
6. Florida law requires consent from all participants before recording any conversation. The granting of permission by the District to tape record a meeting will be deemed to be consent by the participants employed by or representing the District, but only to the extent that the recording is used by the taping participant for his or her personal use to facilitate understanding of the meeting. Therefore, the recording and its contents shall not be disseminated to any other person without the consent of all persons whose conversations were recorded.
