### Florida Department of Education Resources

November is Florida Family Engagement in Education Month, a time to celebrate the crucial role parents and families play in their children's education. When schools work together with families to support learning, children are more motivated to succeed, not just in school, but throughout life.

The Florida Department of Education recognizes the vital role that schools and families play throughout a child's educational journey. To help schools celebrate Florida Family Engagement in Education Month, they have created resources for families which can be accessed through the Parent Involvement link below:
